Adult Education in Maine

Maine Adult Education is a public education and career pathways system that prepares Maine adults for post-secondary education and/or employment. The Maine adult education system includes the state office and the local service providers.

What do we do?

Over 70 local service providers throughout Maine provide a range of instructional services to help adults develop the skills necessary for further educational opportunities, job training and better employment, and to realize their full potential as productive workers, family members, and citizens. The state office supports the local service providers with technical assistance, compliance with federal and state requirements, professional development for staff, and development of impactful partnerships with other state agencies.

What services do we offer?

Adults seeking to further their education or advance their career can enroll in adult education courses in literacy and adult basic education, high school completion, English language acquisition, Maine College Transitions, career preparation, and Personal Enrichment. Instruction is aligned with the adult learners' goals and focused on supporting their efforts.

About the Hubs

Beginning in 2018, the state office established nine adult education and career development areas that are aligned with the boundaries of the three local workforce boards. This was done to encourage innovation and maximize efficiencies and resources amongst the local adult education providers within these geographic areas.

Our Partners

The Maine adult education system partners with many state, local, and private agencies. Some examples of these partnerships include, the Maine CareerCenters, employers, institutions of higher education, libraries, and community agencies to maximize the education and training opportunities for adult learners in Maine. The Maine Adult Education Association (MAEA) also works to support the field of adult education through efforts in the areas of awareness and advocacy.

Maine Adult Education Services

Maine Adult Education works together as a system to provide a wide range of academic and career services to adults in Maine. Local service providers offer a range of programming that varies by location and demand. For details on current course offerings, please contact the local service provider directly.

Literacy and Adult Basic Education

The Maine Adult Education system provides adults with educational opportunities to acquire and improve their skills in reading, writing, mathematics, English language proficiency, and problem solving to become self-sufficient and to participate effectively as productive workers, family members, and citizens. To learn more about adult basic education and literacy programs in Maine, contact the adult education program near you.

High School Completion

The Maine Adult Education system provides two options for those seeking to complete their high school education. Both options provide a pathway to improved career prospects, further education, and increased earning potential.

HiSET™

HiSET™ provides adults with the opportunity to obtain a high school equivalency certification with the same legal standing as a high school diploma. Through a pre-testing, preparation, and testing program. HiSET allows test-takers to demonstrate proficiency of the academic skills and knowledge expected by employers and post-secondary institutions. To learn more about the HiSET™ and how to prepare, contact your local adult education program.

Adult High School Diploma

Adult High School Diploma programs provide coursework for high school credit that leads to an adult high school diploma. This diploma is awarded by the local school district. Programs vary from location to location. For more information, contact your local adult education program.

English Language Acquisition

Maine Adult Education system provides English language acquisition programming designed to help English language learners achieve competence in reading, writing, speaking, and comprehension of the English language. Programming includes integrated English language and civics education which will enable adults who are English language learners to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Learners receive instruction in English, the rights and responsibilities of citizenship, and civic participation. Contact the adult education program nearest you for more information about their English language acquisition programming.

College Transitions

Maine College Transitions (MCT) is a comprehensive academic and advising program that assists participants in acquiring the skills and knowledge to pursue their postsecondary learning and employment goals. College Transitions provides high-quality, cost-effective, and accessible pathways to success. Adults who are studying to earn high school degrees receive help in transitioning to college, and adults who have high school degrees receive preparatory support for college. Counseling, mentoring and support services are provided to support the successful transition to college degrees, credential attainment, and employment. For more information about Maine College Transitions, contact your local adult education program.

Workforce Training/Career Preparation

WorkReady

WorkReady is a workforce training program developed by the Maine Department of Education Adult Education team and local workforce investment boards. Trainings are designed to prepare participants for the attitudinal and disciplinary rigors of employment and to provide a highly structured simulated work environment that encourages the behavior required for workplace success. In this 60-hour training program, participants take ownership of their decisions and develop concrete skills necessary to get a job, such as resume writing and interviewing. Before leaving, participants learn the basic qualities that constitute a good employee: reliability, punctuality, a strong work ethic and a positive demeanor. WorkReady programs, in partnership with local businesses, provide participants with real-time feedback through mock interviews and other workshops with human resource professionals. Successful participants receive a credential issued by the Maine Department of Education. For more information, contact your local adult education program.

IC3

Technology is a part of everyday life and understanding how to function in environments that require the use of computers and the Internet is more critical than ever before. The IC3 Digital Literacy suite of products includes solutions that range from assessment to certification. For more information, contact your local adult education program.

Personal Enrichment

Based on the interests of local community members, personal Enrichment classes may include arts & crafts, cooking, and community events, personal finance, exercise, and wellness. There are a wide variety of offerings throughout the state. To learn more about specific offerings near you, contact your local adult education program.

Education & Career Development Hub #1: Hancock & Washington Counties

- 9. Wells-Ogunquit

Services Key:

-  Literacy & Adult Basic Education
-  High School Completion
-  College Transitions

-  Workforce Training
-  English Language Acquisition
-  Personal Enrichment

Funding for Maine Adult Education

Federal & State Funded Grants

The U.S. Department of Education Office of Career, Adult and Technical Education makes grants available to support adult basic education and literacy activities. Funding requires various written reports identifying progress or end-of-year performance.

The Maine State Legislature allocates funding for the Maine College Transition program and provides state subsidy to support adult basic education, high school completion, and high school equivalency tests.

Local Warrants

To fund adult education and educational activities and tuition costs, a school administrative unit may submit a warrant at a duly called special or regular meeting or city election. Approval of the warrant must be by majority vote of those voting in the school administrative unit's legislative body budget meeting or election (Chapter 315, Section 8603-A).
