Product Change Note

DLS 5

Date: June 29, 2020
Product: DLS 5 v. 1.73
Region: NA
Brand: DSC

Remote programming utility designed for DSC intrusion product configuration and remote diagnostics.

Overview

We are pleased to announce the launch of DLS 5 v1.73. This release of the software includes support of the PowerSeries Pro v. 1.20, enhancements to cybersecurity, and addresses issues with the language web download.

Features, Benefits & Value		
Feature	Benefit	Value
Language Web Download	Install pre-translated panel phrases	A fix was made to ensure pre-translated phrases were available to provide a starting point for all language translations in order to speed up the creation of accounts

Alarm.com connection type	Allow DLS connectivity when using an Alarm.com communicator	A fix was made when using Alarm.com as a connection type on a Windows 7 machine that was present on DLS 5 v.1.72
Enhanced CyberSecurity for changing DLS password	DLS 5 will now require the user to change the DLS access code	This provides additional security for being able to access the panel via DLS 5

Compatibility & Ancillaries

DLS 5 v1.73 now includes the drivers for both the PowerSeries Pro v1.2.

Availability

DLS 5 v1.73 is available for download by clicking [here](#). Note that a professional installer login will be required to allow download of the software.

Earlier versions of DLS 5 can be upgraded as normal using the “Check for Updates” section of the Help Menu.
