

RSS Legislation feed for Pharmacies

October 2018

I have been informed that the [link](#) on our website contains all the relevant legislation, but the content will not display in the RSS feed unless there is an update from the appropriate Act, Regulations or Standard etc.

The only way to ensure the auditors that all appropriate legislation has a RSS is to manually subscribe to each part of the legislation.

If using Google Chrome a RSS feeder will need to be added to your browser.

Once this has been completed the following process applies to all RSS feeders.

Open the relevant Act, Regulations or Standards and clicking on the “Add to web feed” button, as show below:

The screenshot shows a web browser window with the URL www.legislation.govt.nz/regulation/public/1977/0037/30.0/DLM54840.html. The page title is "Misuse of Drugs Regulations 1977". A warning message states: "Warning: Some amendments have not yet been incorporated". Below this is a search bar for the legislative instrument. The document is displayed in a viewer with navigation options: "By clauses", "View whole (284KB)", "Versions and amendments", and "Print/Download PDF [589KB]". The document content includes the text: "Reprint as at 7 September 2017", the New Zealand Coat of Arms, "Misuse of Drugs Regulations 1977 (SR 1977/37)", "Denis Blundell, Governor-General", "Order in Council", and "At the Government House at Wellington this 8th day of March 1977". The word "Present:" is visible at the bottom of the document content. The browser's taskbar at the bottom shows various application icons and the system clock indicating 2:21 p.m. on 31/07/2018.

This will open a box like the following:

The screenshot shows a web browser window displaying the New Zealand Legislation website. The address bar shows the URL: www.legislation.govt.nz/regulation/public/1977/0037/30.0/DLM54840.html. The page title is "Misuse of Drugs Regulations 1977". The main content area displays the title "Misuse of Drugs Regulations 1977" and a warning: "Warning: Some amendments have not yet been incorporated". Below the title is a search bar and a "By clauses" section. A "Web feeds" panel is open on the right side of the page, showing a list of documents added to the web feed list:

Document	Action
Misuse of Drugs Regulations 1977	Remove
Misuse of Drugs Act 1975	Remove
Medicines Act 1981	Remove
Medicines Regulations 1984	Remove

At the bottom of the panel, there is a "GENERATE" button and a "Close" button. The main content area also shows the text: "Reprint as at 7 September 2017", the New Zealand Coat of Arms, "Misuse of Drugs Regulations 1977 (SR 1977/37)", "Denis Blundell, Governor-General", "Order in Council", and "At the Government House at Wellington this 8th day of March 1977".

You will see from the screenshot above that I have currently completed this process for four of the Acts/Regs. Once you have "added" **all** of the appropriate legislative feeds, take a screen shot and copy the picture to a Word document (or similar). It should look like the one above but will contain more "Documents added to web feed list". Next click on "Generate" and the following screen will appear:

The screenshot shows a web browser window displaying the New Zealand Legislation website. The page title is "Misuse of Drugs Regulations 1977". A warning message states: "Warning: Some amendments have not yet been incorporated". Below this is a search bar and navigation options like "By clauses" and "View whole (284KB)". A "Web feeds" dialog box is open, showing a list of documents to subscribe to: "Misuse of Drugs Regulations 1977", "Misuse of Drugs Act 1975", "Medicines Act 1981", and "Medicines Regulations 1984". The dialog also shows a "Feed name" field with "New Zealand Legislation custom feed", a "Days (1-90)" field set to "14", and a "SUBSCRIBE" button. The main content area shows the title "Misuse of Drugs Regulations 1977 (SR 1977/37)" and the text "Reprint as at 7 September 2017" and "Order in Council".

Click subscribe and you will get the following:
