Macroeconomics

The consumer price index (CPI) in June 2021 increased by 0.19% compared to May 2021, in which the main contribution was due to (1) the upward adjustment of gasoline prices at the middle of May and early June, caused the transportation price index increased sharply; (2) Increase in consumer demand for beverages, refrigerators, and air conditioners during the summer (3) Prices of housing maintenance materials increased along with the price of raw materials (iron, steel) increased from the previous month until June.

CPI of June 2021 and of the first 6 months of 2021 increased by 1.62% and 1.47%, respectively compared to the same period last year, mainly due to: (1) Gasoline price increased by 17% over the same period last year, (2) The domestic rice price increases with the export price. Inflation in the first 6 months of the year was at the lowest level in the recent 5 years.

Macroeconomics

According to data of the FIA, as of June 20, 2021, registered FDI and disbursed FDI reached USD 15.27 billion (-2.5% YoY) and USD 9.24 billion (+6.8% YoY), respectively.

The disbursed FDI increased, supplementing the foreign money supply in domestic market. Industrial and manufacturing sector was still leading in terms of registered investment capital (about USD 233 billion with more than 15 thousand projects in the first 6 months of 2021). The number of newly registered, capital contribution and share purchase FDI projects decreased sharply compared to the same period last year, due to (i) complicated condition of pandemic in some major investment-partner countries (Japan, Korea, Taiwan,...) (ii) The restriction on travel between Vietnam and other countries due to pandemic significantly affects the ability of foreign investors to make investment decisions.

Vietnam's PMI in June was at 44.1, a sharp decrease compared to May due to the impact of the 4th Covid pandemic outbreak in Vietnam, which strongly affected the number of orders as well as the ability of manufacturers and enterprises to fulfill orders. Increased input costs (petroleum, freight), temporary lockdown and closing of companies, prolonged delivery times due to the impact of the pandemic on the supply chain, difficulties in transportation, scarcity of containers were factors that reduced PMI in June 2021.

Real GDP growth quarterly

In the second quarter of 2021, the real GDP growth rate reached 6.61%, an increase compared to the first quarter of 2021, and a sharp increase compared to the same period last year. According to the adjusted data of the General Statistics Office, the sectors with the highest growth rate were the Manufacturing industry (due to the growth in exports of textiles, footwear, and rice export prices) and banking and insurance (due to low cost of capital). The industries with negative growth were Mining (due to a sharp decline in crude oil production), Food and Beverage and entertainment services (falling sharply due to the impact of the pandemic).

Trade balance by month

Unit: billion USD

Export value in Jun

Import value - Jun

In June 2021, the trade balance deficit was 1 billion USD, and in the 1st half of the year, the trade balance deficit was 1.47 billion USD. Thus, this is the 2nd consecutive month of trade deficit after a long period of trade surplus.

Cumulative export value in the first 6 months reached 157.6 billion USD, +28.4% YoY. Cumulative import value in the first 6 months reached 159.1 billion USD, +36.1% YoY. The strong growth rate was explained by the low import and export value in the same period in 2020 due to the impact of the pandemic, and the impact of the increased price level in the global goods market. Some merchandise groups with a sharp increase in export value compared to the same period in 2020 were Iron and Steel, Metal, Machinery, Equipment, Computer Electronics and Components. Some merchandise groups with increased import value included Iron and Steel, Metals, Computer Electronics and Components, and Automobiles.

FDI sector still played a leading role in the trade balance. Specifically, FDI enterprises had a trade surplus of USD13.54 billion while domestic enterprises had a trade deficit of USD15 billion. (Detailed import and export data by item is in the Appendix)

Statistics at the end of June 2021 is estimated by General Statistics Office (GSO).
