

Example Term 3 Sumdog Contest Timeline

Many MATs across the UK find that Term 3 is the best time for them to enter into a Sumdog contest because their schools get:

- Highly engaged students at a time of year when this can be challenging
- Extra support with fluency around SATs and MTC
- Community and collaboration across trust schools

However, we know that Term 3 is busy in schools, with planning for SATs, the MTC, sports days, school fairs, leavers assemblies and everything in between!

With this in mind, Sumdog has developed a systematic timeline which means that trusts have minimal added work, with maximum added value.

L.E.A.D. Academy Trust had never used Sumdog before launching its first trust-wide contest but, in just two months, Sumdog successfully onboarded 257 teachers and 4,768 pupils.

Sumdog's intuitive interface meant that pupils quickly got to grips with the platform. In preparation for the contest, they answered an impressive 3 million maths questions — that's a lot of practice!

'The support from Sumdog so far has been instrumental in introducing the program into schools. They are on hand to support any issues and will offer online sessions to schools needing extra help with the setting-up process. Where schools have faced problems with setup, they have consistently dealt with this quickly and efficiently. Sumdog makes the process as easy as possible for the teachers and me.'

Cat Stone,
Primary Lead Practitioner for Maths
