Boost maths fluency throughout your trust with Sumdog

- ▶ Set targeted, differentiated maths practice in minutes
- ▶ Identify misconceptions with ready-made informal assessments
- ▶ Motivate children with multiplayer maths games
- ▶ Build confidence and reduce maths anxiety as children compete at their own level
- ▶ Inspire friendly competition and excitement with our termly contests!

We know short bursts of just 10-15 minutes on Sumdog each day can have a big impact."

Neil Kelsall, National Lead Practitioner for Oasis Community Learning

What makes Sumdog different?

- ▶ Unlike other maths practice platforms, Sumdog's games work independently from the questions. This means children can choose their favourite game, keeping them engaged and wanting to practise maths!
- ▶ The high-quality games can be used to practise any maths topic at any level. Supporting those who need extra help and challenging the more able, Sumdog's adaptivity ensures pupils are always working at the right level.
- ▶ Sumdog covers all areas of the National Curriculum - not just times tables and number bonds! The updated curriculum alignment makes it even easier to set personalised practice that links directly to what you have been teaching in class.

Personalised learning

Set targeted, differentiated maths practice for individuals or small groups in minutes.

The questions are written for the National Curriculum and directly match what you've been teaching in class to support a maths mastery approach.

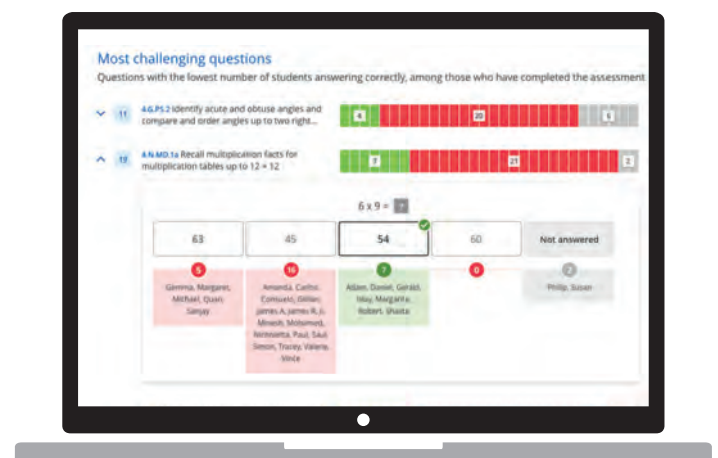

Simply select the area you've been working on and set focused, auto-marked questions. Or let Sumdog's powerful adaptive engine guide children through the topics, always ensuring they're working at the right level - you choose!

Low-stakes assessments

Informal, quiz-style assessments and easy-to-digest reports give you a clear picture of your class' performance.

- ▶ Pinpoint gaps in understanding with a bank of ready-made assessments or create your own
- ▶ Provide a stress-free setting for children to do their best with extra rewards for effort
- ▶ View data in real-time with easy-to-digest overview reports

Over 60
ready-to-progress
assessments

MAT contests

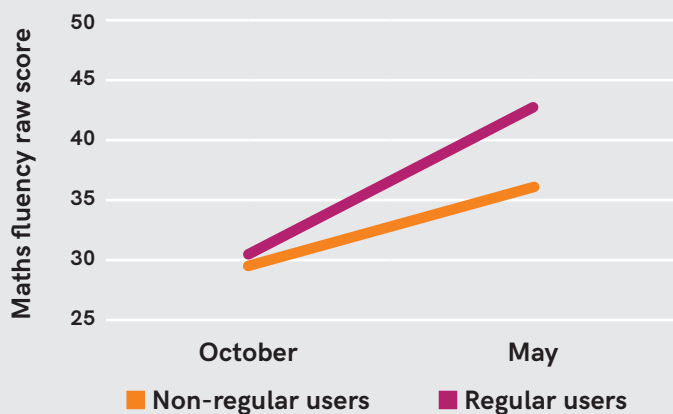

Bring children together and create a sense of enjoyment and competition in your schools with a free MAT contest.

Questions are personalised so everyone can play alongside each other and if 3 or more schools take part the winning class will even receive a special trophy!

Proven to improve fluency

A subscription helps to accelerate pupils' progress, develop fluency and build confidence.

Using Sumdog for 30 minutes a week almost doubled children's fluency progress

This 2019 study was published in the *Impact Journal of the Chartered College of Teaching*.

White Rose Maths

Sumdog and Oasis Community Learning

We've enjoyed working with Oasis academies since 2018 when they were the first trust to take part in one of our inter-MAT maths contests.

In September 2021 we were delighted to have all 32 primary academies join the Sumdog family as part of a drive to boost fluency and enjoyment in maths.

Sumdog has been incredibly helpful for many of our pupils already- it has really helped develop fluency and knowledge in an exciting and engaging format - and the recent provision of iPads with full Sumdog access to every child is fantastic.

The adaptive nature of Sumdog means provision can be exact for each pupil and teachers can use the computational analysis to fill any gaps and move learning forwards. A number of pupils in our academies have limited access to digital resources and addressing the inequalities this creates is a high priority for us.

We're eager to give our staff and families more support and flexibility too. With easy-to-use tools we trust, like Sumdog, we can work together across the whole-school community, ensuring every learner has the foundations they deserve to be confidently numerate."

Emily Hobson, Primary National Lead for Curriculum, Pedagogy and Behaviour for Oasis Community Learning

Sumdog offers an affordable solution for maths practice, assessment and homework. We also offer exclusive packages to multi-academy trusts:

- Personalised support resources and classroom freebies
- Termly maths contests to inspire friendly competition between your academies
- Collaboration on new ideas and developments to support your curriculum
- Seamless data integration through Wonde
