Technical Tubing and Hose

PA Tubing

(P. 10)

Fluids: compressed air, industrial fluids

Materials:

- 2 polyamide grades (semi-rigid and rigid)
- -7 colours

Pressure: 58 bar

Temperature: -40°C to +100°C O.D. metric: 3 mm to 16 mm O.D. inch: on request

Fireproof High Resistance PA Tubing

(P. 14)

Fluids: compressed air, coolants, lubricants

Materials:

- Polyamide with flame retardant additive
- -5 colours

Pressure: 50 bar

Temperature: -40°C to +100°C O.D. metric: 4 mm to 12 mm

Anti-Spark PA or PU Tubing, with or without PVC Sheath (P. 16 & 24)

Fluids: compressed air, coolants, industrial fluids

Materials:

- Semi-rigid polyamide with PVC sheath
- Polyurethane ether with PVC sheath
- Single layer polyurethane ether
- -4 colours

Pressure: 36 bar max.

Temperature: -20°C to +80°C

O.D. metric: 4 mm to 12 mm

PU Tubing

(P. 18)

Fluids: compressed air and food industry fluids ("crystal")

Materials:

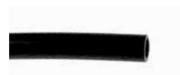

- Polyurethane ester or ether
- Polyurethane food-grade "crystal"
- -7 colours

Pressure: 12 bar

Temperature: -20°C to +70°C O.D. metric: 3 mm to 16 mm O.D. inch: on request

Antistatic PU Tubing

(P. 22)

Fluids: compressed air

Materials:

- Polyurethane with conductive particles
- Black (10² Ω.m)

Pressure: 10 bar

Temperature: -20°C to +70°C O.D. metric: 3 mm to 12 mm

PE Tubing

(P. 26)

Fluids: many fluids

Materials:

- Low density polyethylene
- 50% reticulated polyethylene, food-grade
- -7 colours

Pressure: 20 bar

Temperature: -40°C to +95°C O.D. metric: 4 mm to 14 mm O.D. inch: 1/8" to 1/2"

FEP Tubing

(P. 28)

Fluids: many fluids

Materials:

- Fluoropolymer: fluorinated ethylene propylene, food-grade
- Transparent

Pressure: 28 bar

Temperature: -40°C to +150°C O.D. metric: 4 mm to 12 mm

PFA Tubing

(P. 30)

Fluids: many fluids

Materials:

- -3 grades of perfluoroalkoxy
- High purity food-grade, clear
- Standard food-grade, 3 "crystal" colours
- Antistatic (0.2 Ω.m), black

Pressure: 36 bar

Temperature: -196°C to +260°C **O.D. metric:** 4 mm to 12 mm

PA Multi-Tubing

(P. 32)

Fluids: compressed air, industrial fluids

Materials:

- Semi-rigid polyamide with PVC sheath
- -6 colours

Pressure: 24 bar

Temperature: -40°C to +80°C **O.D. metric:** 4 mm to 8 mm

Technical Tubing and Hose

Twin PU Tubing

(P.32)

Fluids: compressed air

Materials:

- Polyurethane ester
- 1 to 2 colours

Pressure: 14 bar

Temperature: -20°C to +70°C O.D. metric: 4 mm to 8 mm

Recoil PA Tubing

(P. 34)

Fluids: compressed air, industrial fluids

Materials:

- Semi-rigid polyamide
- -2 colours
- Recoil tubing with fittings

Pressure: 20 bar

Temperature: -20°C to +80°C O.D. metric: 6 mm and 8 mm

Recoil PU Tubing

(P. 36)

Fluids: compressed air

Materials:

- Polyurethane ester or ether
- -3 colours
- With or without fittings

Pressure: 10 bar

Temperature: -20°C to +70°C **O.D. metric:** 4 mm to 12 mm **I.D. inch:** 3/8" and 19/32"

Braided PU Recoil Hose

(P.40)

Fluids: compressed air, industrial fluids

Materials:

- Translucent blue polyurethane, reinforced with a polyester braid
- Assembled with threaded fittlings

Pressure: 15 bar

Temperature: -40°C to +75°C **I.D. inch:** 1/4" and 5/16"

Braided PVC Hose

(P. 42)

Fluids: compressed air, non-corrosive or alimentary fluids (translucent PVC)

Materials:

- Polyvinyl chloride with braided polyester
- Translucent (food-grade) or blue (industrial)

Pressure: 15 bar

Temperature: -25°C to +70°C I.D. metric: 4 mm to 19 mm

Self-Fastening NBR Hose

(P. 44

Fluids: compressed air, coolants

Materials:

- Nitrile butadiene rubber reinforced with a polyamide braid
- 4 colours

Pressure: 16 bar

Temperature: -20°C to +100°C

I.D. inch: 1/4" to 3/4"

Packaging for Technical Tubing and Hose

Tubepack®

- 5 m, 10 m, 25 m and 100 m lengths
- For polyamide, polyurethane, fluoropolymer, polyethylene and anti-spark tubing
- Optimisation of storage
- Immediate identification of the type of tubing
- Integrated winder for easy handling

Drums

- Up to 1000 m long
- For polyamide, polyurethane, fluoropolymer tubing, etc.
- Immediate identification of the tubing for easy handling
- Adapted to workshop reels

Reels

- Up to 100 m
- Supplied with protective plastic film
- For braided tubing, special tubing (e.g. multi-tubing)

Plastic Bags

- Ideal for merchandising
- Promotional tools
- · Recoil tubing or tubing cut to the required length

Tube Marking

- Length indicated every metre:
 - time saved when cutting to exact length
 - remaining quantity is immediately identifiable (PA and PU)
- Custom marking upon request (marking, fluid identification, customer part number...)
- Traceability with marking of manufacturing batch

Tube Cutting to the Required Length

- Upon request, cutting of your tube to the required length, from 5 cm to 3 m
- Precision +/- 3 mm
- · Ideal for optimising your installation costs

How to Read the Graphs

- In the graphs in this chapter, each curve represents the acceptable maximum pressure at a given temperature, by diameter.
- Technical characteristics of Parker Legris tubing depend on the type of connection used.
- The vacuum capability of all tubing is 755 mm Hg (99% vacuum).

Tried-and-tested for industrial or vehicle applications, PA tubing guarantees **excellent durability** due to its stable long-term mechanical properties.

Parker Legris' special grade of semi-rigid polyamide is manufactured according to our **Eco-Design** approach for higher performance.

Product Advantages

Tried-&-Tested Material

Good chemical and humidity resistance

Excellent material stability (mechanical and chemical)

Continuous calibration during production for excellent reliability

Two material grades: rigid and semi-rigid

Bio-based semi-rigid material

Versatility & Performance

Wide range of working pressure and temperature

Good vibration absorption

Abrasion-resistant

Remaining length marking

Large choice of colours to facilitate circuit identification

Silicone-free

Packaging
Tooling
Compressed Air
Motion Technologies
Robotics
Industrial Machinery

Technical Characteristics

| Tubing | Semi-Rigid PA | Rigid PA |
|------------------------|--|---|
| Compatible Fluids | Compressed air, other fluids | Compressed air, lubricants, other fluids |
| Working Pressure | Vacuum to 50 bar | Vacuum to 58 bar |
| Working Temperature | -40°C to +100°C | -40°C to +80°C |
| Component Materials | Bio-based polyamide (68 Shore D) | Polyamide (65 Shore D) |

Reliable performance is dependent upon the type of fluid conveyed and fittings being used. Use is guaranteed with a vacuum of 755 mm Hg (99% vacuum).

Regulations

Industrial

Fireproof High Resistance PA Tubing

This **single layer fireproof** tubing not only combines excellent resistance to pressure, temperature and flame, but also guarantees non-toxic smoke resulting from burn-off. This tubing eliminates the need for a stripping tool, thus preventing the risk of tube damage prior to connection.

Product Advantages

Safety for On-Board Railway Equipment

Designed for on-board equipment

Excellent flame-resistance: self-extinguishing

Very little smoke generation

Non-toxic combustion gases

UV-resistant

Extremely resistant to high pressure and temperature

Single-Layer Solution

Innovative Developed for demanding industrial applications

Excellent spark resistance

Economical alternative to PA tubing with PVC sheath

Combines technical advantages of rigid and semi-rigid

PA tubing

5 colours available

Flow direction marking

Silicone-free

6000 71 00 Stripping Tool

Working Principle

Stripping Tool **6000 71 00**

1. Place tube in stripping tool to adjust the blade height to the tube thickness.

2. Blade height is adjusted using the wheel at the bottom of the handle.

3. Once adjustments have been made, perform a 360° rotation around the tube with the tool.

 $\textbf{4.} \ \text{Push down firmly on} \\$ the metal part of the tool in order to hold tube properly.

5. Move the tool to the end of the tube to create an axial opening of the sheath.

6. The tube is correctly

PU Tubing

Polyurethane's **3 specific materials** - ether, ester and food-grade "crystal" - offer excellent flexibility and outstanding use in a wide range of applications, allowing for up to **50% space reduction** when compared to semi-rigid PA tubing.

Product Advantages

Excellent Mechanical Properties

Excellent Consistent tensile strength for optimum longevity

Optimal bend radius

Good vibration absorption

Unsurpassed abrasion resistance for a single layer tubing

UV-resistant

Superior vacuum capability due to surface hardness

Remaining length marking

Silicone-free

3 Material Grades

3 Material PU ester: perfect for pneumatic applications

PU ether: no water absorption; superior chemical resistance

to PU ester

PU ether food-grade "crystal":

- identification of fluids and circuits
- chemical resistance superior to PU ether

Tube

Antistatic PU Tubing

With a constant $10^2 \Omega$.m resistivity across the entire thickness of the tubing wall, this tubing guarantees perfect dissipation of accumulated static electricity, thereby increasing safety.

Product Advantages

Security

Low resistivity throughout the material

Suitable for ATEX* areas

Superior longevity

Excellent vibration absorption

UV-resistant

Silicone-free

Optimisation

Machinery | Minimum bend radius allowing maximum space saving

Good chemical resistance

Wide temperature range

Stable chemical characteristics throughout tubing

Antistatic Packaging

Pneumatics Spray Painting Electrical Converters

Technical Characteristics

| Compatible Fluids | Compressed air, industrial fluids |
|------------------------|--|
| Working Pressure | Vacuum to 10 bar |
| Working Temperature | -20°C to +70°C |
| Component Materials | Polyurethane with conductive additive (50 Shore D) |

Reliable performance is dependent upon the type of fluid conveyed and fittings being used. Use is guaranteed with a vacuum of 755 mm Hg (99% vacuum).

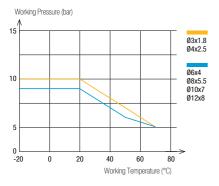

Regulations

DI: 94/9/EC (ATEX*) DI: 1907/2006 (REACH)

Anti-Spark PU Tubing

Combining **outstanding spark resistance** with superb **flexibility**, this range is perfectly suited for welding applications.

Two types of PU - ether with PVC sheath or single layer ether - are available and allow **rapid installation** with Parker Legris push-in fittings.

Product Advantages

PU with PVC Sheath

High resistance to kinking and abrasion

Non-adhesive jacket facilitating sheath removal

Fluid direction marking

Self-extinguishing sheath, protecting the inner tubing

Silicone-free

Single Layer PU Minimum bend radius for maximum space saving

Significant flexibility for rapid cycling

Good chemical resistance

Flow direction marking

Fireproof material

Silicone-free

PE Tubing

Parker Legris offers two types of polyethylene tubing: "Advanced PE" 50% reticulated and Low Density PE. Our range of "Advanced PE" is designed for demanding environments, especially that of water treatment, without compromising operator safety.

Product Advantages

Advanced

50% reticulated material

Best balance between flexibility and pressure/temperature

Resistant to a wide range of aggressive chemicals

UV-stabilised: ideal for outdoor applications

Approved for permanent contact with food and beverages

Silicone-free

Low Density

Excellent resistance to aggressive and corrosive agents

Good technical trade-off

Food-grade material

Silicone-free

Beverage Chemical Petrochemical Food Process Water Water Treatment

Fluoropolymer Tubing - FEP

FEP (fluorinated ethylene propylene) tubing is a robust engineering fluoropolymer which provides excellent fluid visibility and is perfect for flow control monitoring.

Product Advantages

Flow Control

Transparent

Flexible and non-flammable material

Resistant to nearly all chemicals and solvents

Properties

Tried-&-Tested Excellent transmission of UV light

Low friction coefficient

Food-grade material Low permeability

Easily weldable

Silicone-free

Instrumentation Food Process Temperature Cycling

Gas Sampling Chemical Laboratory

Technical Characteristics

Stainless Steel

Parker Legris PFA (perfluoroalkoxy) tubing offers 10 times greater durability than other fluoropolymer tubings (PTFE, FEP and PVDF) under severe chemical and mechanical conditions. This tubing range is available in three material grades, offering perfect compatibility with all applications, even in extreme environments.

Product Advantages

Versatility

Great Exceptional chemical inertia

A flexible alternative to stainless steel tubing

Broad range of working temperatures, from cryogenic to extreme heat

Non-stick properties allowing conveyance of many fluids & gases

Outstanding resistance to ageing

Fluoropolymer with the lowest permeability

Non-flammable

UV-transparent

Our range of multi-tubing combines high quality performance and **space optimisation** in complex pneumatic circuits covering a wide range of environments. Many possible configurations are available, depending on the pressure, temperature, flexibility and compatibility requirements.

Product Advantages

Tubing

Sheathed PA PVC sheath resistant to external damage:

- abrasion
- weld spatter
- aggressive fluids

Helically wound: minimum bend radius, compact installation

Simplified routing

Easy identification of circuits

Same technical performance as PA

Possible number of tubes: from 2 to 12, with numbering

Silicone-free

Twin PU Ester Tubing

Tubes fully joined for improved solidity

External diameter maintained after separation

Rapid identification of circuits

Quick and easy installation

Simplified routing

3 colour combinations available

Silicone-free

Robotics Transportation In-Plant Automotive Process Industry

Technical Characteristics

| Tube | PA | PU |
|------------------------|--|-----------------------------------|
| Compatible Fluids | Compressed air, chemicals, industrial fluids | Compressed air, industrial fluids |
| Working Pressure | Vacuum to 24 bar | 0 to 14 bar |
| Working Temperature | -40°C to +80°C | -20°C to +70°C |
| Component Materials | Polyamide | Polyurethane ester |

Reliable performance is dependent upon the type of fluid conveyed and fittings being used. Use is guaranteed with a vacuum of 755 mm Hg (99% vacuum).

Regulations

Industrial

DI: 2002/95/EC (RoHS), 2011/65/EC

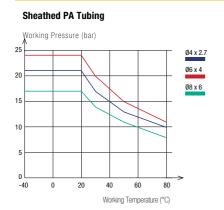

DI: 97/23/EC (PED) RG: 1907/2006 (REACH)

Performance and chemical resistance according to DIN 73378

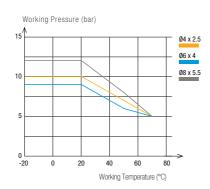

Packaging

Sheathed PA Tubing: Tubepack® 10 m, 50 m Twin PU Ester Tubing: Tubepack[®] 25 m

Tubing Performance

Twin PU Ester Tubing

| Material | Tube O.D. | Tube O.D. Tolerance |
|----------|--------------|------------------------|
| | 4 mm | +0.05 / -0.08 |
| PA | 6 to 8 mm | +0.05 / -0.10 |
| PU | 4 to 8 mm | +0.10 / -0.10 |

Connected to Parker Legris push-in fittings, the calibration of Parker Legris tubing ensures perfect sealing based on NF E49-100 (for semi-rigid PA) and NF E49-101 (for twin PU ester).

To calculate burst pressure, the values in these graphs should be multiplied by 3.

Related Products

To complement the Multi-Tubing range, Parker Legris proposes multi-connectors, shown in our general catalogue.

Push-In Fittings

Multi-Connector

PA Recoil Tubing

Parker Legris recoil tubing has a **lasting memory after multiple uses**, offering an **alternative** to **reels** for excellent ergonomics and space saving.

The pre-assembled tubes are equipped with a protection spring, preventing damage to the ends.

Product Advantages

Excellent Mechanical Properties

Low pressure drop

Good chemical compatibility

Self-retracting

Identical technical performance to PA tubing

Silicone-free

Comprehensive Range

Ready-to-use

Various colours for circuit identification

Available with pre-assembled connectors

Dimensions for Recoil Tubing

Service length: maximum recommended operating length in order to ensure that the coil will continue to contract after multiple uses.

Total Closed Length (mm)

PU Recoil Tubing

With its small coil diameter and good impact resistance, this polyurethane recoil tubing is perfect for installations requiring **flexibility** in confined spaces. Good resistance to shock and abrasion, together with a design integrating straight ends, allow for **easy and safe operation** of pneumatic equipment.

Product Advantages

Excellent Mechanical Properties

Excellent coil memory Abrasion-resistant

Perfect for rapid cycling applications

Consistent tensile strength

Braided PU Recoil Hose

This recoil hose offers all the advantages of polyurethane, combining the **durability** and **kink resistance** of bulkier braided hoses with great **elasticity** and maximum **flexibility**.

Product Advantages

Excellent Mechanical Properties

Unsurpassed resistance to abrasion: 10 times better than rubber, polyamide and non-braided polyurethane Excellent flexibility and coil memory: minimizes work fatigue Highly kink and crush-resistant Silicone-free

Machine Tools Industrial Assembly Pneumatics In-Plant Automotive Workshops

Ready-to-Use

Pre-assembled threaded fittings
Tube ends protected with a plastic spring
Lightweight for easy handling
3 lengths available
Translucent blue: visibility of the fluid

Technical Characteristics

| Compatible Fluids | Compressed air Other fluids: please consult us |
|------------------------|---|
| Working Pressure | 0 to 15 bar |
| Working Temperature | -40°C to +75°C |
| Component Materials | Polyurethane (85 Shore A) |

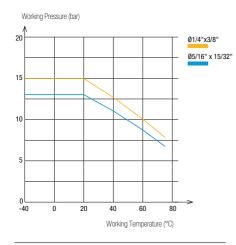

Reliable performance is dependent upon the type of fluid conveyed and fittings being used.

Regulations

DI: 97/23/EC(PED) **RG:** 1907/2006 (REACH)

DI: 2002/95/EC (RoHS), 2011/65/EC

PVC Braided Hose

Parker Legris offers two grades of PVC which cover a wide range of industrial applications for the transportation of various fluids.

Product Advantages

PVC

Food-Grade Monograde tubing reinforced with a braided polyester ply

Flexible: space saving during installation

Translucent for visual identification:

- of the fluid
- of inner cleanliness
- of fluid flow

Food-grade, without phtalates

Silicone-free

PVC

Industrial Tubing with a braided polyester ply between 2 grades of PVC

Resistant to abrasion, impact and crushing

Increased durability

Lightweight and easy-to-use

Silicone-free

Robotics In-Plant Automotive Pneumatics Semi-Conductors Textile Packaging Vacuum

Technical Characteristics

| Hose | Food-Grade PVC | Industrial PVC |
|------------------------|--|--|
| Compatible Fluids | Compressed air, other fluids | Compressed air |
| Working Pressure | 0 to 15 bar | 0 to 15 bar |
| Working Temperature | -20°C to +70°C | -25°C to +60°C |
| Component Materials | Translucent food-grade PVC, phtalate-free with polyester braid | Industrial blue PVC, multi-layer, with polyester braid |

Reliable performance is dependent upon the type of fluid conveyed and fittings being used.

Regulations

Installation Tool

Tool Part Number: 0650 00 00 05

This automatic installation tool reduces the effort required to connect self-fastening hose onto a barb connector.

Tube Cutting and Positioning

Cut the tube at a right angle and position the barb connector on the mounting tool.

Press-Fitting the Tube

Activate the press-fit tool; connection is complete when the tube is fully home on the barb connector.

This tool has been designed for use with 5 different diameters and is easy to operate.

Product Selection Table

| Tarket 1 | | | Maximum | Tempe | erature | Performance in Aggressi Environments | |
|---|--|---|--------------------|--------|----------------|---|--------------------------|
| Technical Tubing and Hose | Materials | Fluids | Pressure (bar) | Min. | Max. | Mechanical | Chemical |
| Semi-Rigid PA | Semi-rigid bio-sourced polyamide | Compressed air, industrial fluids | 50 | -40°C | +100°C | Good | Good |
| Rigid PA | Rigid polyamide | Compressed air, industrial fluids | 58 | -40°C | +80°C | Good | Good |
| Fireproof HIgh Resistance PA | Polyamide with flame-retardant additive | Coolants, industrial fluids (lubricants), compressed air | 50 | -40°C | +100°C | Excellent | Moderate |
| Anti-Spark PA and PU with or without PVC sheath | Semi-rigid polyamide with PVC sheath Polyurethane ether with PVC sheath Single-layer polyurethane ether with flame-retardant additive | Compressed air, coolants, industrial fluids | 36 (PA) 14 (PU) | -20°C | +80°C +70°C | Excellent | Good |
| PU single and multi-tube | Polyurethane ester Polyurethane ether "Crystal" food-quality polyurethane ether | Compressed air, industrial fluids (water) or food industry fluids | 12 | -20°C | +70°C | Excellent | Moderate Good Good |
| Antistatic PU | Polyurethane filled with conductive particles | Compressed air | 10 | -20°C | +70°C | Excellent | Moderate |
| Advanced PE | Polyethylene, 50% reticulated | All fluids | 16 | -40°C | +95°C | Good | Excellent |
| FEP | Fluoropolymer: fluorinated ethylene- propylene | All fluids | 28 | -40°C | +150°C | Good | Excellent |
| PFA | Fluoropolymer: high purity and coloured | All fluids | 36 | -196°C | +260°C | Excellent | Excellent |
| Antistatic PFA | perfluoroalkoxy FDA Fluoropolymer: perfluoroalkoxy filled with | All fluids | 36 | -196°C | +260°C | Excellent | Good |
| Self-Fastening NBR | conducting particles NBR with polyamide braid | Compressed air, coolants | 16 | -20°C | +100°C | Excellent | Good |
| Braided PU | Polyurethane with polyester braid | Compressed air, industrial fluids | 15 | -40°C | +75°C | Excellent | Good |
| Dialitical 1 o | 1 olyarea ano war polyester braid | Compressed all, industrial ridias | 10 | 70 0 | 170 0 | Excollent | 0000 |
| Push-in Fittings | | | | | | | |
| LF 3000° | Technical polymer/brass/NBR | Compressed air | 20 | -20°C | +80°C | Good | Moderate |
| LIQUIfit® | Bio-sourced polymer/EPDM | Liquids | 16 | -10°C | +95°C | Moderate | Good |
| LF 3200 | Nickel-plated brass/NBR | Compressed air | 20 | -15°C | +80°C | Excellent | Moderate |
| LF 3600 | Chemical nickel-plated brass FDA/FKM | All brass-compatible fluids | 30 | -20°C | +150°C | Excellent | Good |
| LF 6100 | Brass/NBR | Oil, analytical gases | 60 | -40°C | +120°C | Excellent | Moderate |
| LF 3800 / LF 3900 | 316L - 303 stainless steel/FKM | All fluids | 30 | -20°C | +150°C | Excellent | Excellent |
| Cartridges and C | Customised Products | | | | | | |
| LF 3000° | Technical polymer/brass or chemical | Compressed air | 20 | -20°C | +80°C | Good | Moderate |
| LIQUIfit® | nickel-plated brass/NBR Bio-sourced polymer/EPDM | Liquids | 16 | -10°C | +95°C | Moderate | Good |
| LF 3600 | Chemical nickel-plated brass FDA/FKM | All brass-compatible fluids | 30 | | +150°C | Excellent | Good |
| LF 3800 / LF 3900 | 316L - 303 stainless steel/FKM | All fluids | 30 | | +150°C | Excellent | Excellent |
| TL | Brass/NBR | Compressed air | 16 | -25°C | +80°C | Good | Moderate |
| Function Fittings | | Compressed an | | | | | |
| _ | | | 40 | 000 | 7000 | 0 1 | |
| Polymer Flow Regulators | | Compressed air | 10 | 0°C | +70°C | Good | Moderate |
| Metal Flow Regulators | Treated brass/nickel-plated brass | Compressed air | 10 | 0°C | +70°C | Excellent | Moderate |
| Stainless Steel Flow Regulators | 316L stainless steel | Compressed air | 40 | -15°C | +120°C | Excellent | Excellent |
| Blocking Fittings | Nickel-plated brass | Compressed air | 10 | -20°C | +70°C | Excellent | Good |
| Piloted Non-Return Valve | Technical polymer/nickel-plated brass | Compressed air | 10 | -5°C | +60°C | Good | Moderate |
| Non-Return Fitting | Technical polymer/nickel-plated brass | Compressed air | 10 | 0°C | +70°C | Good | Moderate |
| Silencers | Polymer, sintered bronze, nickel-plated brass, 316L stainless steel | Compressed air | 12 | -20°C | +180°C | Good | Moderate |

At Parker, we're guided by a relentless drive to help our customers become more productive and achieve higher levels of profitability by engineering the best systems for their requirements. It means looking at customer applications from many angles to find new ways to create value. Whatever the motion and control technology need, Parker has the experience, breadth of product and global reach to consistently deliver. No company knows more about motion and control technology than Parker. For further info call 00800 27 27 5374

Climate Control

Key Markets

Agriculture Air conditioning Construction Machinery Food & beverage Industrial machinery Life sciences Oil & gas Precision cooling Process Refrigeration Transportation

Key Products

Accumulators Advanced actuators CO. controls Electronic controllers Filter driers Hand shut-off valves Heat exchangers Hose & fittings Pressure regulating valves Refrigerant distributors Safety relief valves Smart pumps Solenoid valves Thermostatic expansion valves

Electromechanical

Key Markets Aerospace

Factory automation Life science & medical Machine tools Packaging machinery Paper machinery Plastics machinery & converting Primary metals Semiconductor & electronics Wire & cable

Key Products

AC/DC drives & systems Electric actuators, gantry robots & slides Electrohydrostatic actuation systems Electromechanical actuation systems Human machine interface Linear motors Stepper motors, servo motors, drives & controls Structural extrusions

Filtration

Key Markets

Aerospace Fond & heverage Industrial plant & equipment Life sciences Mobile equipment Oil & gas Power generation & renewable energy Process Transportation Water Purification

Key Products

Analytical gas generators Compressed air filters & dryers Engine air, coolant, fuel & oil filtration systems Fluid condition monitoring systems Hydraulic & Juhrication filters Hydrogen, nitrogen & zero air generators Instrumentation filters Membrane & fiber filters Microfiltration Sterile air filtration Water desalination & purification filters &

Fluid & Gas Handling

Key Markets Aerial lift Agriculture

Bulk chemical handling Construction machinery Food & beverage Fuel & gas delivery Industrial machinen Life sciences Marine Mining Mobile Oil & gas Renewable energy Transportation

Key Products

Check valves

Connectors for low pressure fluid conveyance Deep sea umbilicals Diagnostic equipment Hose couplings Industrial hose Mooring systems & power cables PTFE hose & tubing Quick couplings Rubber & thermoplastic hose Tube fittings & adapters Tubing & plastic fittings

Hydraulics

Key Markets Aerial lift

Alternative energy Construction machinery Forestry Industrial machinery Machine tools Marine Material handling Mining Oil & gas Power generation Refuse vehicles Renewable energy Truck hydraulics Turf equipment

Key Products

Accumulators Cartridge valves Electrohydraulic actuators Human machine interfaces Hybrid drives Hydraulic cylinders Hydraulic motors & pumps Hydraulic systems Hydraulic valves & controls Hydrostatic steering Integrated hydraulic circuits Power take-offs Power units Rotary actuators

Conveyor & material handling Factory automation ife science & medical Machine tools Packaging machinery Transportation & automotive

Key Products Air preparation

Brass fittings & valves Manifolds Pneumatic accessories Pneumatic actuators & grippers Pneumatic valves & controls Quick disconnects Rotary actuators Rubber & thermoplastic hose & couplings Structural extrusions Thermoplastic tubing & fittings Vacuum generators, cups & sensors

Process Control

Key Markets

Alternative fuels Biopharmaceuticals Chemical & refining Food & beverage Marine & shipbuilding Medical & dental Microelectronics Nuclear Power Offshore oil exploration Oil & gas Pharmaceuticals Power generation Pulp & paper Water/wastewater

Key Products

Analytical Instruments Analytical sample conditioning products & systems Chemical injection fittings & valves Fluoropolymer chemical delivery fittings, valves & pumps High purity gas delivery fittings, valves, regulators & digital flow controllers Industrial mass flow meters/ controllers

Permanent no-weld tube fittings Precision industrial regulators & flow controllers Process control double block & bleeds Process control fittings, valves, regulators & manifold valves

Sealing & Shielding

Kev Markets

Aerospace Chemical processing Consumer Fluid power General industrial Information technology Life sciences Microelectronics Military Oil & gas Power generation Renewable energy Telecommunications Transportation

Key Products

Dynamic seals Elastomeric o-rings Electro-medical instrument design & assembly EMI shielding Extruded & precision-cut, fabricated elastomeric seals High temperature metal seals Homogeneous & inserted elastomeric shapes Medical device fabrication & assembly Metal & plastic retained composite seals Shielded optical windows Silicone tubing & extrusions Thermal management Vibration dampening
