Lacing Cards

Children love lacing cards. You have the option of printing up color or b & w cards to color yourself.

You can print up the color lacing cards, cut out on the dotted line, laminate, and punch holes around the card using a hole punch.

Give the children lacing strings, yarn or shoe laces to lace the cards.

The b & w set can also be used as an additional craft for the children. Give each child one of the cards, have them color and cut out. Have an adult punch holes, and they can lace using the above options of string.

Lacing strings can be purchased though <http://www.discountschoolsupply.com/>

Print up on white card stock. Color - Cut out on the dotted line. Punch holes with a hole punch. Have children lace using lacing string.

Zip It!

Teach children how to zip up their zippers if they don't already know how to. Also, make a board with various objects that children can open and close (locks, etc.) and make sure there is a zipper on there.

Have the children cut zigzag lines.

Talk about the number Zero and practice drawing them.

Zinnias

Start zinnia seeds in the little peat pots. Talk about the different sizes and colors that zinnias come in.

Zigzag

Talk about walking in a zigzag, then practice walking that way. It will help if you place masking tape on the floor in a zigzag pattern for the children to walk on.

Fun With Z

- ~Zoom around like cars, jets, or rockets
- ~Form Z's on the floor with bodies
- ~Look for zeros in addresses and license plates

Zoo!

Plan a trip to the zoo. Prepare by studying different animals you will see, reading books, watching videos and filmstrips about the zoo. Make a list of questions about things the children want to find out. Let the children do projects after the field trip, such as making books or art projects for different animals. Match words and pictures of zoo animals.

Zoo Animals Guessing Game

What Am I? Ask the children to take turns acting out animals that are found at the zoo. As each animal is acted out, write its name on the board.

Ziploc Bags

Place 2 or more different colors of tempera paint in the bag. Let the children zip them shut. Invite them to make "new" colors by mixing them together. For your more adventurous children you may want to place a piece of duct tape over the zipper to keep it closed.

Z Creature

Put the letter "Z" on a piece of paper. Have the children make their own letter "Z" creature by adding arms, legs, eyes, and whatever else their imagination leads them to make as part of their creature.

Zipper Rubbings

You will need different colored crayons, a piece of white paper and a variety of zippers from jackets, duffel bags, jeans, purses, etc. Lay the zipper as flat as you can on a table. Place the paper on top of the zipper then using the side of a crayon, rub it over the zipper. Do this with different kinds of zippers in different colors all over the paper.

Marble Painted Zebras

Materials: white construction paper, zebra pattern box lid, marbles, black paint

Directions:

Cut out 1 zebra from white construction paper per child, labeled. Place zebra into box lid. Place marbles into black paint. Next place marble into box lid. Have child move box lid back and forth to paint on black stripes.

Hand zoo animals

Supplies:

Fabric Scraps, Paper, Crayons/Markers
Paint (and perhaps sponges for painting)

Have each child trace their hand on light colored paper. Allow the children to use the materials to create the markings and features of their favorite zoo animal. Encourage students to create the animal's natural environment with the leaves and grass.
