

# Thesaurus of Psychological Index Terms® Winter 2023 Update

## New with the 2023 Winter Thesaurus Update:

- 63 New Postable Terms
- 48 New Nonpostable or Cross-Referenced Terms
- 63 Revised Scope Notes

The 2023 Winter Thesaurus Update provides 63 new postable terms and 48 new nonpostable or cross-referenced terms for more targeted search in areas of emerging research, including current social issues, mental health, gender and sexuality, human rights, and legal issues. Additionally, terms were added to provide more up-to-date and comprehensive diagnostic nomenclature for physical and mental disorders, consistent with the DSM-5-TR and ICD-11, with revised scope notes and term hierarchies.
