

**Fundamentals of Hip and Knee Arthroplasty for Orthopaedic Residents presented by AAOS, AAHKS, Hip Society and Knee Society #3043
April 28-30, 2017; OLC Education and Conference Center; Rosemont, IL**

DIRECTORS

R. Michael Meneghini, MD
Indiana University School of
Medicine
Fishers, IN

Dr. Meneghini's orthopedic practice is specialized to adult hip and knee reconstruction, which includes total hip and knee replacement, partial knee replacement, outpatient joint replacement, computer-assisted and minimally invasive surgical techniques. Dr. Meneghini has a special interest in clinical and biomechanical orthopedic research. He is the author of over 75 scientific articles on hip and knee replacement, is invited faculty on numerous international educational courses and is a member of the prestigious Hip and Knee Societies. Dr. Meneghini has won several awards, which include the Career Development Award from the Orthopaedic Research and Education Foundation and the prestigious Mark Coventry award for the outstanding fellow in Hip and Knee Adult Reconstruction at Mayo Clinic. Dr. Meneghini was awarded the Early Career Achievement Award from Indiana University School of Medicine in recognition of distinguished early career achievement in the medical profession. Dr. Meneghini was most recently named in the "Top 22 Knee Surgeons in North America" by *Orthopedics This Week* and was awarded a Career Achievement Award in 2015 by his engineering undergraduate alma mater, Rose-Hulman Institute of Technology.

Brett R. Levine, MD
Rush University Medical Center
Chicago, IL

Dr. Levine joined Midwest Orthopaedics at Rush August 1, 2008. His practice focuses on complex primary and revision hip and knee reconstructions, as well as less invasive total joint replacement surgery.

A medical graduate of Georgetown University School of Medicine, Dr. Levine completed his orthopedic residency at the NYU Hospital for Joint Diseases. Combined with his Adult Reconstructive Fellowship at Rush University Medical Center, Dr. Levine has trained at two of the top ten orthopedic hospitals in the nation.

Through his continued affiliation with Midwest Orthopaedics at Rush, Dr. Levine looks to advance his research in joint replacement technology including the latest minimally invasive techniques, porous biomaterials, and partial knee replacement technology. He is an active member of the American Academy of Orthopaedic Surgeons, the American Association of Hip and Knee Surgeons, and the Mid-America Orthopaedic Association.

FACULTY

Kris J. Alden, MD, PhD
Hinsdale Orthopaedics
Hinsdale, IL
