It's dark, brutal, and smartly written, and features a knockout performance from Woody Harrelson as the cold and obsessive man hell-bent on destroying the apes. This year has seen new installments in beloved action franchises, some timely and gritty reboots, and the requisite superhero movies. But while these will all appeal to those looking for thrills and explosions, they manage to be superbly made as well. James Mangold's hard-R-rated feature isn't just brutally violent—it's a tough, serious look at mortality, driven home by a character who we never thought would get old. Patty Jenkins's epic serves as an origin story for the Amazon superhero, and its third act has all of the typical comic book movie cliches. Rent/buy on Amazon and iTunes. / TriStar Pictures / Focus Features The action genre is no longer made up of movies strictly meant to dominate the summer box office. Tasked with retrieving a list of double agents, she faces KGB henchmen and double-crossers—and finds she can't trust anyone but herself. 5 War for the Planet of the series has come a long way from the first (a silly origin story starring James Franco). But this one skips the heavy-handedness of Sam Raimi's original trilogy (and whatever happened in the Andrew Garfield-starring reboot, did you even see that?) and instead makes our neighborhood hero and precocious teen who has to fight bad guys and puberty all at once. 4 Logan The latest in the dark and dreary anti-superhero genre finds our favorite mutant Wolverine laying low (alongside Professor X, who is suffering from dementia) in the desert long after his X-Men cohort and other mutants have been exterminated. Joined by the Hulk (Mark Ruffalo), Chris Hemsworth's hero finds himself imprisoned on a strange planet where he must fight against his fellow Avenger in a gladiatorial battle for the delight of Jeff Goldblum's Grandmaster—all the while trying to escape this torment in order to save his home from the deadly Hela (Cate Blanchett). Nolan views the historical events from every possible angle—land, sea, and air—and delivers an intense, terrifying, and incredibly suspenseful action-thriller that we'll likely see copied for decades to come.
