Sinhala Unicode Rendering and Displaying issues on Chrome, Microsoft Word and Firefox

- In Sinhala words with the letter ö, the letter ö switches position with any letter which is in the right of the above letter.
- This can be seen in the following web browsers, MS Office versions with Windows 10 and Windows 11 Operating Systems (OS).
- Google Chrome, Firefox and Microsoft Edge web browsers with Windows 10 and Windows 11 OS.
- This issue is occurred with Iskoola pota version 6.0. To install the latest version of Iskoola pota you can follow these following steps.

To resolve this problem, follow the below steps

Step 01

• Type and search "Font Settings" in Windows search bar- Image 01
