THE NEW 6MM ARC - NOW AVAILABLE!

Advanced. Versatile. Efficient. Effective

Tested, selected and fielded by a specialized group within the U.S. DoD for its multipurpose combat rifle program, the versatile 6mm ARC does much of what larger cartridges can and everything that smaller cartridges can't. Designed to meet the needs of the world's toughest critics, the 6mm ARC utilizes efficient, high-BC bullets to deliver unprecedented performance. Commercial 6mm ARC offerings will feature bullets selected to deliver ideal performance for hunting, match shooting and personal protection applications.

Cartridge Comparisons

The 6mm ARC does what much larger cartridges can and everything that smaller cartridges can't. It delivers substantially better ballistics than the 223 and offers a much lighter gun/ammo system with 30% less weight than the AR-10/308 Win system. Overall, the 6mm ARC delivers optimum all-range performance and barrel life.

Howa 6mm Offering

- Stalker (p. 06)
- Elevate (p. 07)
- Mini Action (p. 11)
- Mini EXCEL Lite (p. 12)
- Oryx by MDT (p. 16)

HOW THE 6MM ARC SURPASSES THE OTHERS

308 Win

The 6mm ARC delivers substantially less recoil allowing shooters to spot their own shots. The 6mm ARC offers a 30 to 35% lighter-weight package (gun and ammo).

223/5.56

The 6mm ARC achieves substantially better ballistics than the 223/5.56. It delivers less drop, less wind deflection and the ability to shoot accurate groups at much greater distance (1000+ yds).

224 Valkyrie

The 6mm ARC gives hunters the ability to successfully hunt varmints and deer. The 6mm ARC produces a larger splash signature that allows shooters to self-spot impacts and make Rapid adjustments.

6.5 Grendel

The 6mm ARC delivers comparable performance from a wider assortment of bullets, making it a more versatile choice.

6.8 SPC

The 6mm ARC is a better long-range performer.

1500 BARRELED ACTION

CELEBRATING OVER 100 YEARS OF HISTORY AND PRECISION ENGINEERING

HOWA 1500 BARRELED ACTION

Howa 1500 Barreled Actions are the perfect platform for a quality precision rifle build, at an affordable cost. Every Howa Barreled Action, from the firing pin to the barrel is perfectly designed; quality machined, fitted with exacting tolerances and all with superior hammer forged pre-hardened steel.

Howa features a machined receiver and forged bolt. The bolt features an integral bolt handle and pressure vent holes and the reliable M-16 style extractor/ejector. Our factory barrels are cold hammer forged steel and are chambered symmetrically at the center of the axis with headspace set to stringent and exacting specs. Bolt faces are true and square to the chamber. All Howa Barreled Actions are equipped with outstanding technical features and innovations. All Howa's have a 3-position safety which allows for the action to be locked down as well as unloaded while safe.
