

I'm not robot!

This mod provides visualization and teleportation portals without seams, which allows you to do some really unique effects. The biggest drawing of the Minecraft Immersive Mod portals is the elimination of the annoying load screen. You can instantly enter another without dealing with the black and purple barriers of regular portals. Another attraction of the immersive portal mod minecraft is its vision quality. You can literally look at transition kingdoms. Isn't it great? With him, you can create "non-eclidian" effects, causing a space to seem some of a science fiction movie. Immersive mod minecraft portals eliminates many limitations of Nether and End portals. You can load more with a dimension and render sdoM sdoM tfarceM1.61.1 tfarceM61.1.1 tfarceMtfarceM Isatinifni nos sedadilibisop sal ,dom etse noC .ohcum ratnemirepxe ed etar²Agesa euq Åsa ,evisremmi ed selatrop sol ne raturfsid sedeup euq saveun sasoc ed opit odot yaH .olralatsni ratnetni ed setna tfarceM ne sdom sol nanoicnuf om²Ac rednetne ed etar²Agesa euq Åsa .ojelpmoc etnemavitaler dom nu se etsE .elbitapmoc-dom amargorp nu razilitu o etnematerid dom tfarceM latrop le ralatsni edeuP .liv²Åmni etneis es orto a onier nu ed n²Åicatropsnartelet al ,agrac ed allatnap yah on euq a odibeD .ojevpe ed senoicacifdom sal y n²Aicator al ed s²Åratursid etnemavitinifed ,rodaguj omoC .savitnitsid etnemanieneq nos tfarceM dom ovisremni latrop led sacits²Aretrarac sanuglA .sojel y acrec
