

# Essential Assessment- Spelling

**Learning Intention:** To build understanding of words and strategies for their uses in reading and writing.

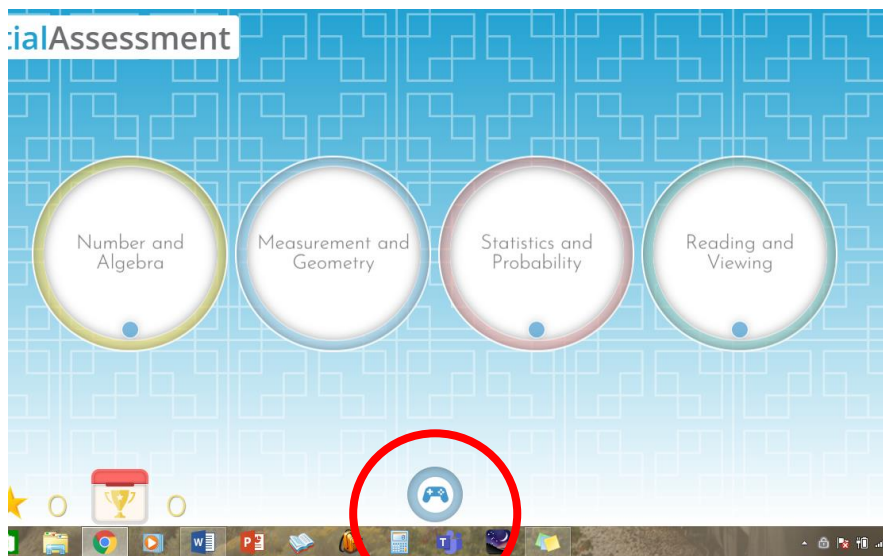

**Success Criteria:**

- I can identify many types of words and the parts and patterns in words.
- I can use my understanding to help me read and write words.
- I can work independently

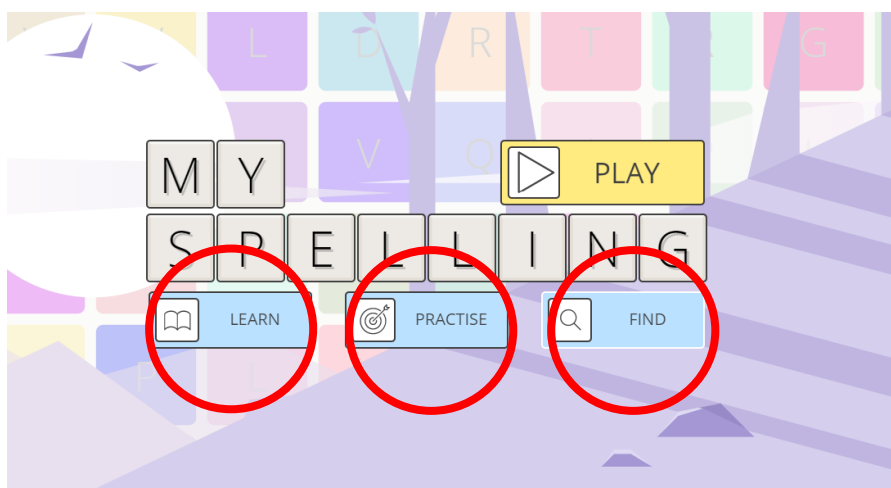

**Task**

Open your Essential Assessment and click on the games icon at the bottom - circled here.

Then select ***My Spelling***. Today you are going to explore the MY SPELLING features to see what is in it. We will keep a check on how you are going. See what things you enjoy using and what features will help you learn more about words.

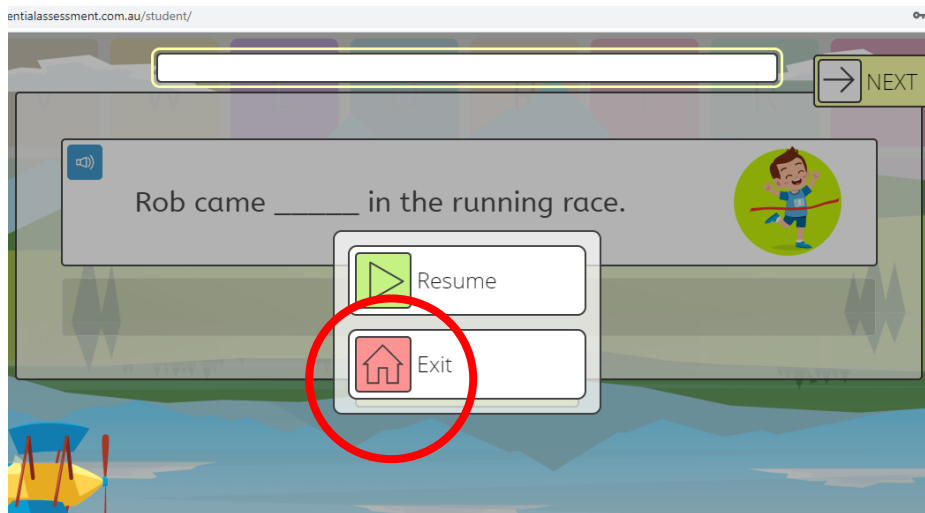

Spend around 5 minutes using each of the LEARN, PRACTISE and FIND tasks.

When you want to move on to something else, click on the PAUSE button in the bottom right corner. You can resume at another time.

Then click the EXIT button. Next time you will click RESUME.

Then, you can choose PLAY.

Select a land you would like to begin with and click on it. Away you go! Just pause when you are finished for the session. You can click on the speaker to help you with the words or you can make it harder and try to work out the word yourself!
