Grading

If your particular system requires that a grade be given for spelling, we would recommend that tests for grading purposes be given at a separate time and that your children be graded on their learning of the spelling of the sounds — not the words as the suggested tests for grading purposes are constructed to do. AVKO gives permission for parents to duplicate (for classroom purposes only) the tests on the following pages. Read the sentences to your children. All they have to do is fill in the blanks. Notice that you are not testing on the whole word. You are testing only on the spelling patterns taught. That is why the initial consonants or blends are given to the children. Note: You can use this as a pre-test as well as a post-test to show real gains. How you grade these tests is up to you. Or use the 0-1 wrong = A, 2-3 = B, 4-5 = C, 6-7 = D. We don't expect that you'll have any E's.
