INTRODUCTION

In partnership with County Tax Commissioners, the Department of Revenue Motor Vehicle Division (MVD) is responsible for issuing certificates of title, disabled persons' parking permits (placards), certificates of registration, and license plates to owned or leased vehicles operated in the state of Georgia, while safeguarding the interests of lienholders and security interest holders. A title is a legal document that should be kept in a safe place with other important legal documents.

The MVD is committed to providing prompt, efficient service. We welcome comments and suggestions that will enhance business operations and customer service. Unless otherwise noted, all references to titles, registrations, disabled persons' parking permits (placards) and license plates, laws, rules and regulations refer to the state of Georgia and have no bearing on the laws or business rules of other states. This manual is designed to be used online and includes links to sections within the manual and on the MVD website. If there are any questions after reviewing this manual, please contact your <u>County Tag Office</u> or the MVD.

All vehicle owners who are required by law to have their vehicle registered in Georgia must also apply for a title when the vehicle requires one. All County Tax Commissioners in this state are authorized agents of the State Revenue Commissioner and are authorized to accept title applications and the associated fees/taxes from county residents. Customers can apply for the vehicle's title and license plates/registration at the County Tag Office where the buyer/owner resides. Disabled persons may apply for parking permits/placards, decals and license plates at the County Tag Office where they reside.

Many MVD forms require a notary public witness signature. In addition to signing, the notary public must enter the date (day, month and year) the witnesses sign the form, affix their notary seal or stamp and enter the date (month, day and year) their notary commission expires. The notary's name, stamp, and dates must be clearly legible to be accepted.

Valuable license plate, title and insurance information, including the capability to complete and print most motor vehicle registration and title forms, is located at the following website: http://dor.georgia.gov/motor-vehicles. The telephone number for MVD is 855-406-5221.

County contact information, including county website addresses and telephone numbers are located at the following web site: https://mvd.dor.ga.gov/motor/tagoffices/SelectTagOffice.aspx.

Section A - General Information on Title and Registration

1. Titles

A title is a legal document issued by the Department that reflects the name and address of all owners and any recorded lienholders or security interest holders. This document also reflects legends and brands, indicating:

- the status of the title (i.e., replacement);
- the condition of the vehicle (i.e., salvage, rebuilt, water damage, stolen unrecovered, etc.); and
- the odometer reading when required.

When a title is issued, it is mailed, or an electronic notification is sent to the first lienholder or security interest holder. If there are no lienholders or security interest holders, the title is mailed to the vehicle owner.

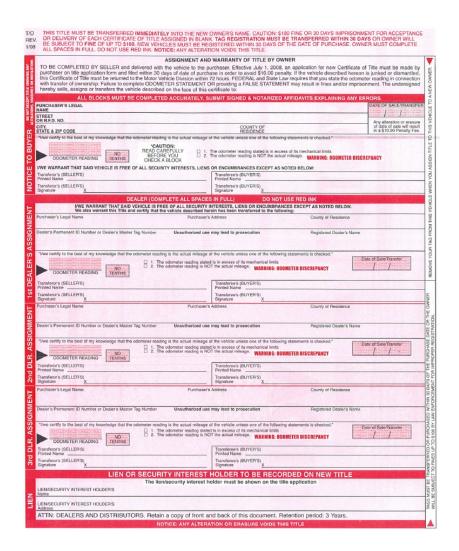

Spaces are provided on the face of the title for the release of any recorded liens or security interests. However, a new title must be applied for and issued to remove the lien or security interest from the state's record.

A. Sample: Georgia Certificate of Title (Front – Shown smaller than actual size)

Spaces are provided on the reverse side of the title for transfer of ownership. These spaces are referred to as assignments and must be completed by the *current* owner (seller) before delivery to the *new* owner (buyer). The title should be given to the buyer at the time the vehicle is delivered. The buyer should promptly apply for a title and registration/license plate in their name by completing the <u>Form MV-1 Title and Tag Application</u> and submitting it with all required documents, fees and taxes to the <u>County Tag Office</u> where the buyer resides or, if the buyer is a business, where the business is located.

B. Sample: Georgia Certificate of Title (Back – Shown smaller than actual size)

Vehicle owners who move to Georgia have 30 days from the date of the move to apply for or transfer title and registration.

Name and address changes must be made on the owner's Georgia driver's license or ID card with the Georgia Department of Driver Services before changing on the vehicle registration at the <u>County Tag Office</u> where the owner resides.

Also, if you moved out of state and your Georgia title is lost, stolen or mutilated, a replacement title can be issued and mailed to you at your out-of-state address.

Titles Optional

Note: A title will **not** be issued for a 1963 to 1985 model vehicle if the vehicle has been registered in someone else's names other than the owners shown on the face of the title.

You can title a 1963 to 1985-year model vehicle if:

- You have a title issued in your name.
- The owner on the front of the title has assigned the title to you; or
- The owner on the front of the title has assigned the title to a dealer and the dealer has assigned the title to you.

Conditional Title (Optional)

Starting July 1, 2019, Georgia law allows vehicles 1962 or older to be issued a Conditional Title.

- The Conditional Title includes a disclaimer indicating that the title may not reflect all liens or other encumbrances affecting the motor vehicle.
- No customer penalties will apply since this is optional and not required.
- The Rebuilt Title process does not apply to a Conditional Title.
- Vehicles receiving a Conditional Title that were sold by dealers are exempt from sales tax, but the
 dealers must submit title paperwork within 30 days to avoid penalties when selling vehicles with
 conditional titles requested.
- The standard \$18.00 title fee applies. The transaction is subject to TAVT based on \$100.00 vehicle value.

C. Research Requests

Information on research and fees can be found under the <u>Fees, Fines, and Penalties Section</u> of this manual. Mail research requests to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Research Title Processing

P. O. Box 740382

Atlanta, GA 30374-0382

The Motor Vehicle Division mails titles via regular mail to vehicle owners, security interest holders, lienholders or to persons named in power of attorney.

When submitting title applications by mail to be processed through the expedited title process, mail the title application, supporting documents, and fees/taxes due (check or money order for the application fee, the \$10.00 special handling fee payable, and any other fees or taxes due) to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Expedited Titles

Title Processing

P. O. Box 740382

Atlanta, GA 30374-0382

Transfer a Georgia Title

To apply for a title for a vehicle currently titled in Georgia, the following documents and fees must be submitted to the County Tag Office where the owner resides:

- Application Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1
- **Title Document** Current, original Georgia title properly assigned to the new vehicle owners using their full legal names showing their current Georgia address. All vehicle owners, other than licensed dealers, must obtain titles in their names **before** transferring vehicle ownership to another person, dealer or business.

Failure to apply for a title within 30 days of the purchase date or the date the ownership was transferred will result in a \$10.00 title penalty. If the title application is rejected, compliance with the rejection notice must be made within 60 days of the date shown on the rejection notice to avoid being charged an additional \$10.00 title penalty. All fees and penalties must be remitted at the time of application.

A \$10.00 title penalty is assessed when the purchase date has been changed or altered on the back of the title to the point that the original purchase date cannot be verified. To verify the purchase date, the owner may provide a copy of the canceled check (front and back) from the buyer to the seller or a bill of sale from a dealership. If the purchase date has been lined through and is verifiable and is within 30 days of the purchase or transfer of the vehicle, the penalty will not apply.

Example: An application submitted on 9/25/16 with the original purchase date of 9/12/16. This date has been lined through (you can clearly verify this date), and the newly recorded date is 9/20/16. A \$10.00 title penalty fee will **not** be assessed in this example.

9/25/16 - date received

9/20/16 - correct date placed above the incorrect date

9/12/16 incorrect date that has been lined through in the title assignment

This lined-through date is legible and is less than 30 days from the date (9/25/16) of application for title.

If a vehicle requires a title, the owner will not be able to register or purchase/transfer a license plate to the vehicle during the required 30-day period unless one of the following applies:

- The owner already has a Georgia title issued in their name for that particular vehicle
- The owner applies for a title in their name at the time of application for the license plate.

D. Completing the Title Assignment

When the owner is transferring the ownership of their vehicle, all owners on the face of the title must complete the first assignment on the back of the title to the buyer. This requires the entry of the buyer's full legal name, current address, date of purchase/transfer, and the <u>odometer reading</u> when required.

Title Assignment – The seller must print their name and sign the assignment. If the vehicle is jointly owned, **each** owner must print their own name and sign. The printed names and signatures should be the same as the names that appear on the face of the title. If the vehicle is currently titled in a company name, the printed name of the company is required in addition to the printed name and signature of the company's authorized agent.

Odometer – For vehicles requiring an odometer reading-declaration, the buyer must acknowledge the odometer declaration made by the seller by printing and signing their name in the assignment. If the vehicle is jointly purchased, **each** buyer must print and sign their name to acknowledge the odometer declaration. If the vehicle is purchased by a company and the vehicle is subject to the odometer declaration requirements, the printed name of the company is required in addition to the printed name and signature of the company's authorized agent. The Department accepts documents with a signature stamp by an agent/representative authorized by the dealership.

A licensed dealer is the only entity allowed to transfer ownership utilizing the assignments/Secure Dealer Reassignment Supplement Form without first having to obtain a title in the licensed dealer's name. It is acceptable for a dealership to use a Secure Dealer Reassignment Supplement Form when there are still title assignments available. Subsequent dealers may then go back to the title and use the available assignments.

In order to perfect a lien or security interest in a vehicle, the lienholder or security interest holder's name and address must be recorded on the application in the space provided.

Security Interest/Lien Releases and Recordings – All liens or security interests printed on the face of a title must be released before vehicle ownership is transferred. All liens or security interests recorded on the back of a title in a title assignment or on a Secure Dealer Reassignment Supplement Form must be released even if recorded in error. If a lien or security interest has not been satisfied, a title application in the owner's name shown in the referenced assignment must be submitted showing the lien or security interest holder's name and address in the spaces provided on the application.

A. Georgia DRIVES

The Georgia Driver Record and Integrated Vehicle Enterprise System (<u>DRIVES</u>) is Georgia's upgraded and more modernized system for vehicle registration and titling. It enables more self-service options, improves customer service, and enhances data integrity.

Renewing your registration requires that you supply:

- A license plate number or vehicle identification number (VIN)
- Your driver's license number or the Letter ID that appears on any letter that the Department of Revenue sends you regarding your vehicle.

3. Taxes

A. Title Ad Valorem Tax (TAVT)

Any motor vehicle that requires a title is exempt from sales and use taxes and is subject to Title Ad Valorem Tax (TAVT). TAVT is based on the fair market value of the vehicle and can be calculated online using the <u>Title Ad Valorem Tax Calculator</u>. TAVT is paid at the <u>County Tag Office</u> where the buyer resides at the time of title and registration application.

An owner has seven business days from the date of purchase or transfer or date of acquisition of the vehicle to apply for a title. If application is not completed within 30 days, the owner will be charged a 10 percent penalty based on TAVT liability, with an additional 1 percent penalty every 30 days thereafter.

Dealer sales will be assessed a penalty of 5 percent of the TAVT liability for any application and/or TAVT that is not submitted to the <u>County Tag Office</u> where the buyer resides or submitted electronically through the Department of Revenue Electronic Title and Registration (ETR) system within 30 days from the date of purchase. An additional 5 percent penalty is assessed every subsequent month that the application for title and/or TAVT is late.

B. Annual Ad Valorem Tax

When you are applying for a title and vehicle registration at the same time for a vehicle that is exempt from Title Ad Valorem Tax (TAVT), you must pay any <u>annual ad valorem tax</u> due at the time of application. This tax is based on the vehicle's value and the financial needs of various levying authorities in your county and depends on the owner's registration period. If you did **not** receive a pre-printed bill to renew your vehicle's registration, please contact your <u>County Tag Office</u> to see if this tax is due and, if due, the amount.

C. Sales and Use Tax

Vehicles that do not meet the statutory definition of motor vehicles are exempt from <u>Title Ad Valorem Tax</u> and are subject to <u>sales and use tax</u> and annual ad valorem taxes. Some examples of these vehicles include:

- trailers
- pull-behind campers
- mobile and manufactured homes
- vehicles that are not titled in Georgia
- vehicles not required to be titled in Georgia

Nonresident military members who purchase a vehicle in Georgia may be exempt from TAVT but are still responsible for paying sales tax.

Georgia sales and use tax must be paid at the time of application for a Georgia title and license plate for a vehicle:

- that requires a title in Georgia,
- was purchased from a dealer or business, and
- is exempt from Title Ad Valorem Tax (TAVT) i.e., IRP vehicles, vehicles of nonresident service members

Georgia sales and use tax as well as TAVT are not required when the applications are made for the following: salvage/rebuilt owner retained currently under TAVT, stolen unrecovered/recovered, and repossessions. Proof of payment must be submitted with the title and license plate application showing where this tax was paid, or proof that the applicant is exempt from this tax. See below for additional forms/documents required for applicants exempt from this tax.

Acceptable proof of payment is a copy of a sales invoice showing where the Georgia sales and use tax has been paid. The sales invoice must show the following information for calculating taxes: Purchase/selling price, trade-in allowance, and the amount of Georgia sales and use tax paid. A Georgia title and license plate will **not** be issued until all taxes due are paid.

The amount of Georgia sales and use tax due is based on:

- the vehicle's purchase price, less the trade-in allowance, or
- the vehicle's fair market value when a sales invoice is **not** submitted.

The including Georgia's sales tax rate, is available online.

If the buyer is exempt from sales and use tax, the following documents must accompany the title application:

D. Alternative Fuel and Heavy Weight Vehicle Fees

Alternative Fuel Vehicle Licensing Fee

Under Georgia law, certain alternative fuel vehicles are subject to annual licensing fees. These fees must be adjusted each year according to a statutory formula based on the percentage increase or decrease in average motor fuel efficiency as measured by the U.S. Department of Energy and the Consumer Price Index. The annual alternative fuel vehicle licensing fees must be paid at the time of initial registrations or renewal of all qualifying vehicles.

These fees apply to the following vehicles:

- Vehicles that operate solely on electricity, regardless of whether the owner uses an alternative fuel vehicle license plate.
- Plug-in hybrid electric vehicles and flex fuel vehicles (such as E-85), but only if those vehicles have elected an alternative fuel vehicle license plate.

These fees do **not** apply to the following vehicles:

- Vehicles that operate primarily on compressed natural gas, liquefied natural gas, or liquefied petroleum gas.
- Hybrid-electric vehicles that are not plug-in hybrid-electric vehicles.

Alternative fuel vehicle licensing fees are published annually and posted to the <u>Department of Revenue</u> website each year.

Heavy Weight Vehicle Fees

Under Georgia law, certain vehicles are subject to a heavy vehicle highway user impact fee. This fee is \$50.00 for any vehicle (commercial or non-commercial) with a gross vehicle weight rating of 15,500 to 26,000 pounds. For vehicles with a gross vehicle weight of 26,001 pounds or higher, the heavy vehicle highway user impact fee is \$100.00. The highway user impact fees will not apply to vehicles used as part of interstate commerce, i.e., those vehicles registered under the International Registration Plan (IRP).

The highway user impact fees are due at the time of initial vehicle registration and annually at the time of registration renewal. The law does not provide for any exemptions or exclusions from this fee, including government and farm vehicles.

4. Form MV-1 Title and Tag Application

A. Application Requirements

An application for vehicle title, registration, and a Georgia license plate should be made on <u>Form MV-1 Title and Tag Application</u>.

A valid Georgia driver's license or identification card issued by the Georgia Department of Driver Services is required to register a vehicle in this state unless you are not required to have a Georgia driver's license as provided in O.C.G.A. § 40-5-21. If you are not required to obtain a Georgia driver's license, you must have a valid driver's license or state-issued identification card from another state or country to be able to register and obtain a Georgia license plate for your vehicle in this state. Record your out-of-state or out-of-country driver's license number and the name of the issuing state or country in the spaces provided on the Form MV-1 Title and Tag Application. Contact the Georgia Department of Driver Services for additional information regarding Georgia driver's licenses and identification cards.

When applying for vehicle registration and license plate issuance when the vehicle does not require a Georgia certificate of title, the applicant must show proof of ownership, such as the original out-of-state title; registration from a non-title state or country; and any bills of sale needed to show a complete chain of ownership from the registered or titled owner to the applicant for a Georgia license plate. No vehicle shall be registered unless the county tag agent is satisfied that the applicant is entitled to have the vehicle registered in their name in Georgia. Some counties retain photocopies of ownership documents for vehicles not required to be titled. The state images and destroys documents supporting title issuance. Copies of scanned documents supporting title issuance are available no more than five years after the title is issued.

Serial Plate Verification – <u>Form T-22B Certification of Inspection</u> must be completed and signed in the following cases.

- A 1985 and older model year vehicle not registered in Georgia
- A 1986 and newer model year vehicle that is supported by a registration certificate from a non-title state or country

Form T-22B Certification of Inspection:

- Is not required when the vehicle is registered in Georgia in the owner's name that sold or transferred the vehicle to the applicant.
- Must be completed by a duly constituted state law enforcement officer in Georgia, who makes a visual inspection of your vehicle's serial plate.
- Must be typed, electronically completed, and printed, or hand printed.

B. Instructions on Completing Form MV-1 Title and Tag Application

The MV-1 Title and Tag Application is the first document needed to apply for a title. It must be completed in detail without changes, including pen/ink changes, strikeovers, or the use of correction fluid/tape. Applications must be completed in detail and signed – typed, electronically completed, and printed, or hand printed using blue or black ink with all required data entered legibly in the spaces provided. Full and accurate completion of the application ensures smooth and efficient title processing. All applicable spaces on the application must be completed. To save time, this form can be completed online prior to visiting the County Tag Office by going to DRIVES e-Services.

Original forms must be submitted without alterations or corrections. Photocopies, or forms containing alterations or corrections, will not be accepted. If jointly owned, each individual owner's full legal name, valid Georgia driver's license or Georgia identification card number and signature are required. An individual's full legal name is their complete name as it appears on their valid Georgia driver's license or identification card issued by the Georgia Department of Driver Services.

If an attorney-in-fact signs the application for the vehicle owner, the attorney-in-fact should print and sign their name and the owner's name on the application (e.g. John Doe by Mary Smith, attorney-in-fact) and attach the original Form T-8 Limited Power of Attorney authorizing the signing.

If a vehicle is to be titled in the name of a company, an authorized representative of the company must sign the title application. The company name should be above the authorized signature and the person signing the application for the company should enter their position or job title with the company beside their signature (e.g. president, vice president, secretary, owner, etc.).

Transactions can be completed faster by entering the owner's driver's license number or Georgia identification card number. The MV-1 also allows for the title to be processed for leased vehicles in the leasing company's name and address as well as allowing for the lessee's information to be captured at the time the license plate and registration are issued.

- Total blocking out of information (where the original information is not legible)

C. MV-18 – Correction of Information on a Georgia Title or Registration Certificate

<u>Form MV-18 Affidavit of Correction</u> cannot correct title or registration information that conflicts with the Department's source documents. The title and an \$18.00 fee must accompany the affidavit. There is **no** fee to correct a title when the Department or County Tag Office is in error.

<u>Form MV-18A Affidavit to Support a Request for Correction of a Georgia Certificate of Title</u> is used to request the correction of information recorded on the front of a title only when the original title application is over five years old and the Department no longer has copies of the title documents.

Refer to the instructions on the reverse side of the form for additional information and requirements for the submission of an affidavit to support a request for correction of a Georgia certificate of title.

E. Corrections to Title Assignments

- Lightly lining through all information about the transaction when a person decides not to purchase a vehicle. When the vehicle is resold, the new owner information should be entered above the incorrect lined-through information.

 - Bill of sale if the vehicle is 1985 or older and does not require a title
 - o If title is not available, a Manufacturer's Certificate of Origin (MSO) or a registration certification for non-title state/country. Must be assigned to the buyer using full legal name.
 - If transferred from a non-title state/country, provide a properly completed <u>Form T-22B</u>
 <u>Certification of Inspection</u>
- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.

 Taxes – Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and <u>Use Tax</u>.

The title is mailed to:

- The first recorded lienholder or security interest holder, or the title is held electronically through the Electronic Lien Title System.
- The vehicle owner if there are no lienholders or security interest holders.
- A third party, if the owner (when there is not a lien or security interest holder), or the lienholder or security interest holder requests. In this case, a <u>Form T-8 Power of Attorney</u> must be submitted along with the application, requesting the title be mailed to the appointed attorney-in-fact. To ensure the title is mailed to the attorney-in-fact, the "name and address of the attorney-in-fact" must be entered on the <u>Form MV-1 Tag and Title Application</u> as it appears on <u>Form T-8 Power of Attorney</u>. When completing any MVD forms, the person's full legal name should always be used as it appears on their valid Georgia driver's license or identification card issued by the Georgia Department of Driver Services.

Registration can also be completed by mail to the <u>County Tag Office</u> where the buyer/owner resides. Contact your <u>County Tag Office</u> for accepted methods of payment.

Note: If the manufacturer's certificate of origin is assigned to a dealer licensed to sell only **used** vehicles, the dealer must obtain a title in their name **before** transferring ownership. When the buyer applies for a Georgia title, the issued title will reflect the vehicle's status as "used." This does **not** apply to certificates of origin assigned to a franchise or new motor vehicle dealership that has a franchise agreement with the manufacturer.

2. Title and Register an Imported Vehicle

A. New Imported Vehicle

To apply for a title and license plate for an imported vehicle, the following documents and fees should be submitted to the <u>County Tag Office</u> where the owner resides.

If a vehicle was last registered in a foreign country, federal compliance forms must be submitted in addition to the surety bond.

Application – Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.

• Manufacturer's Statement of Origin (MSO) – Original, valid and properly assigned MSO must show a complete chain of vehicle ownership. As long as there is a complete chain of ownership, dealers can use a Secure Dealer Reassignment Supplement Form and the assignment spaces on the back of the MSO to transfer vehicle ownership. The MSO for passenger vehicles and motorcycles must be on a standard secure document.

Foreign Registration Certificate – If the vehicle was most recently registered in a foreign country, the valid foreign registration certificate issued by the country where the vehicle was last registered in the current owners' names must be submitted. For the vehicle to be titled as new, the foreign registration certificate must be issued in the current owners' names as shown on the title application.

Since a Georgia title is required for 1986 and newer model year vehicles, the state of Georgia will **not** issue a title based on a registration certificate from a foreign country for 1985 and older model year vehicles. Georgia will issue a title based on the submission of a foreign registration certificate for 1963 and newer mobile/manufactured homes.

Any lien/security interest noted on any assignment, or the foreign registration certificate must either be released or shown on the application.

- Certification of Inspection If a foreign registration certificate is submitted, a Form T-22B Certification of Inspection must be completed by a Georgia law enforcement officer after a visual inspection of the vehicle's serial plate.
- U.S. Customs Forms All imported vehicles must go through U.S. Customs before entry into the United States. Proof that an *imported* vehicle conforms to U.S. EPA and DOT standards and the U.S. Customs and Border Protection Form CBP-7501 must be submitted. When a motor vehicle, not a trailer or a vehicle imported from Puerto Rico or Guam, is imported into the United States, three federal forms are required. The required forms are U.S. DOT Form HS-7, U.S. EPA Form 3520-1 and U.S. Customs and Border Protection Form CBP-7501. The Form CBP-7501 must be stamped and signed by a U.S. Customs representative. No one, not a resident, a nonresident or a member of the military is exempt from providing these forms. In lieu of Form CBP-7501, you may submit a military Form DD 1252 or Form DD 1854. If you do not have these forms or you need additional information, please contact a U.S. Customs office located throughout Georgia. The applicant must submit the originals and copies of these forms; the originals will be returned upon request.

Note: U.S. Customs documents are **not** required to be submitted when applying for a Georgia title and license plate for a vehicle sold through Overseas Military Sales Corporation (OMSC) when the following documents are submitted:

 A certificate of origin from Daimler Chrysler Corporation, Ford Motor Company, General Motors Corporation, Harley-Davidson Motor Company, Polaris Industries Inc., VW of America, Audi Division, Volkswagen of America listing OMSC Ltd., Route de la Glane 107, Villars-Sur Glane, GE, Switzerland as the name of distributor, dealer, etc.

 A bill of sale from Overseas Military Sales Corporation (OMSC Ltd.) listing a U.S. franchise dealer's name and address as the delivery point and stating "Vehicle Certified U.S. FMVSS." This indicates that the vehicle was delivered directly from the manufacturer to the U.S. dealer (never leaving the U.S.) and that the vehicle conforms to U.S. federal motor vehicle safety standards.

The above applies only to vehicles sold through the OMSC. The certificate of origin and the bill of sale must be presented and contain all the information listed.  - o Any penalty fees due for late registration renewal or late application for title.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and <u>Use Tax</u>. See <u>Information on these taxes</u>.

Foreign Registration Certificate – Original foreign registration certificate issued by the country where the
vehicle was last registered. Any lien/security interest recorded on any foreign registration certificate or
supporting document must either be released or shown on the application.

- Bill of Sale Bill of sale from the registered owner on the foreign registration through the current owner recorded on the title application must be submitted to show a complete and correct chain of vehicle ownership. The required forms are: U.S. DOT Form HS-7, U.S. EPA Form 3520-1 and U.S. Customs and Border Protection Form CBP-7501. These forms verify compliance with federal safety standards, federal environmental standards and ownership, respectively. These federal forms are not required for vehicles brought into the United States from U.S. Territories (Puerto Rico or Guam). Vehicles that are 25 years old and older are exempt from the DOT safety requirements; vehicles that are 21 years old and older are exempt from the EPA requirements. Form CBP-7501 must be stamped and signed by a U.S. Customs representative. A letter from the converter who performed the work on the vehicle is not acceptable. In lieu of the Form CBP-7501, military personnel may submit a Form DD 1252 or Form DD 1854. If these forms are not available or additional information is needed, please contact a U.S. Customs office located throughout Georgia. The applicant must submit the originals and copies of these forms; the originals will be returned upon request.

o Any penalty fees due for late registration renewal or late application for title. Taxes - Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax.

C. Documents Not Printed in English

If a document is printed in any language other than English, the application for title and supporting documents must also be submitted with the following documents:

- Translation Certificates Completed Form T-207T Translation of a Foreign Registration Certificate and Form T-207E English Translation of an Attached Bill of Sale are required for the English translation of any foreign registration certificate not printed in English. If the foreign registration is not issued to the vehicle owner, a bill of sale completing the chain of ownership must also be submitted. A complete and correct chain of ownership is required. If any bill of sale is not printed in English, an English translation of each bill of sale must be submitted on Form T-207E. Each form must be completed in its entirety typed, electronically completed, and printed or legibly hand printed in blue or black ink and signed by the translator. The vehicle owner or a family member cannot complete these forms.
- Affidavit Completed Form T-207A Foreign Document Affidavit Owner's Declaration must be submitted if
 an English translation of a foreign registration certificate (Form T-207T) or an English translation of a bill
 of sale (Form T-207E) is required. Form T-207A must be completed in detail, signed by all vehicle owners
 and their signatures notarized. When properly completed and submitted, Form T-207A is a certification by
 the vehicle owner that the information in the application for title, supporting documents and forms is
 correct.

Note: The Department accepts documents with a signature stamp by an agent/representative authorized by the dealership. All liens noted on any assignment must either be released or shown on the application.

3. Out-of-State Residents

Georgia does not issue titles to out-of-state residents. Vehicle owners are required to obtain a valid Georgia driver's license or identification card issued by the Georgia Department of Driver Services in order to register or title their vehicle in Georgia (O.C.G.A. § 40-2-33(d)), unless they are military personnel or otherwise exempt. Their license should also reflect their current address and the county in which they reside. The only exceptions are cases of inheritance or repossession where there is a Georgia title on record and the current owner must secure a title in this state before obtaining a title in their home state. When the original title has been lost, stolen or mutilated, the title holder of record who has moved out of state may also apply for a replacement title showing their out-of-state address.

Out-of-state companies may obtain a title in their name showing their out-of-state address when the vehicle is located in this state. However, the county in Georgia where the vehicle is based must be shown on the application.

Owner's primary home is in another state, but they own a secondary home in Georgia and keep the vehicle in Georgia full time – The vehicle can be registered in Georgia if it is located in Georgia and the customer can provide a copy of a Georgia deed and their out-of-state driver's license.

Two owners. and one owner resides out of state – Regardless of the order in which the owners are listed on the title, the vehicle can be registered in Georgia if one of the owners (the user of the vehicle) is a full-time state resident, has a Georgia driver's license, and the vehicle is located in Georgia. Both owners must still provide all the required documentation including copies of both driver's licenses.

A full-time resident of another state or country who keeps a vehicle at their secondary home in Georgia may register their vehicle in Georgia with a copy of their Georgia deed and a valid driver's license from their home state or country. A tax bill or utility bill that provides the address and location where the vehicle will be located may also be required.

Military personnel who are legal residents of Georgia but stationed in another state or country may secure a Georgia title in their name. It will be necessary for them to indicate on the title application that Georgia is their state of residence and show the name of the county in Georgia where they legally reside. The title can be mailed to their out-of-state/country address.

Military personnel from another country who are stationed in Georgia for an extended period (two to three years) who purchase a vehicle locally and will be using the vehicle while stationed here can register their vehicle in Georgia only if they have a valid driver's license approved by the Georgia Department of Driver Services (DDS) (check with DDS to be sure the driver's license is valid for use in Georgia). They must provide military documentation showing they are stationed in Georgia. County attorneys can determine what level of information is required to waive taxes.

A nonresident student who is a resident of any state or Canadian province is exempt from the requirement of registering/titling their motor vehicle in Georgia provided the *valid* out-of-state/country license plate issued for the vehicle is properly affixed to the vehicle while the vehicle is being operated in Georgia.

A student when the vehicle is currently titled and registered in their parent's name – If the owner/parent resides out of state and neither the parent nor the student has a Georgia driver's license, the vehicle should not be titled or registered in Georgia. The student should not be allowed to establish residency through vehicle registration to avoid out-of-state status with the university.

Any other exemptions should be submitted by the County Tax Commissioner to the Motor Vehicle Division to receive Department of Revenue Legal Affairs and Tax Policy (LATP) approval.

4. Transfer Ownership to an Immediate Family Member

Whether a motor vehicle transferred to or inherited by an immediate family member* will be subject to <u>Title Ad Valorem Tax</u> (TAVT) will depend on whether the former owner had paid TAVT:

- 1. If the former owner of the vehicle had not paid TAVT and was paying annual ad valorem tax on the vehicle, the new owner may choose to either:
 - continue paying annual ad valorem tax on this vehicle and therefore not be subject to TAVT
 OR
 - at the time of transfer, pay the TAVT based on the current fair market value of the vehicle at the applicable rate for the current year.
- 2. If the vehicle was acquired from a family member who paid the TAVT at the time they purchased the vehicle, then the new owner's TAVT rate will be 0.50 percent (one-half of 1 percent). In this case the new owner does not have the option to revert to the annual ad valorem system.

5. Responsibilities of Sellers and Buyers

Titles and license plates must be applied for at the County Tag Office where the buyer resides.

A. Seller's Responsibility

When selling a vehicle, the vehicle owner must transfer ownership using the back form on the original title. The following should be completed:

- Buyer information using their full legal name as it appears on their Georgia driver's license or identification card issued by the Georgia Department of Driver Services.
- Buyer's current address.
- Date of sale or ownership transfer (month, day, and year).

^{*}Immediate family member is defined as spouse, parent, child, sibling, grandparent or grandchild. That includes such status as legally recognized in this state (Example: step, adopted, etc.).

Caution: An altered purchase transfer date results in a \$10.00 penalty. Get more information on <u>corrections</u> and <u>title penalties</u>.

- Complete the odometer reading at the time of sale in complete miles; do not include tenths of a mile.
 The word "exempt" should be entered when the <u>vehicle is exempt</u> from the odometer disclosure requirements of the Federal Truth in Mileage Act.
- Check the box if the vehicle's odometer does not reflect the total actual vehicle mileage. This occurs when:
 - The total actual miles are more than 99,999 on a five-digit odometer;
 - The total actual miles are more than 999,999 on a six-digit odometer;
 - The odometer was/is broken, replaced, or repaired; or
 - o The odometer does not reflect the actual miles.
- Print and sign your name under "Seller." If jointly owned, each seller must print their name and sign.
- If the seller is a company, the printed name of the company is required in addition to the printed name and signature of the company's authorized agent. The company's authorized agent should enter their position with the company after the signature.
- The buyer should print and sign their name under "Buyer." If jointly owned, each buyer must print their name and sign.
- Do not give or accept the title where the assignment has been signed without the buyer's name being entered. Doing so is a criminal offense.

O.C.G.A. § 40-3-91(c) states: "Any person, firm, or corporation which delivers or accepts a certificate of title assigned in blank shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than \$100.00 or imprisoned for a period not to exceed 30 days for the acceptance or delivery of each certificate of title assigned in blank."

• When a dealer is shown in the title assignment, they must complete the next available title assignment, or, in rare instances, a <u>Secure Dealer Reassignment</u> form when they sell the vehicle.

B. Buyer's Responsibilities

The buyer should:

• Ensure that the seller has completed all the sections mentioned above. Never sign a title that has been left blank.

 Acknowledge odometer declaration by printing and signing your name. If exempt from odometer declaration, do not print name and sign this document.

Note: When odometer disclosure is required, odometer reading must increase throughout the chain of ownership. "Exempt" should only be entered when the vehicle is exempt based on the Federal Truth in Mileage Act.

- If the buyer is a company, the company's name should be printed, and the company's authorized agent should print their name and sign under the Buyer section. The company's authorized agent should enter their position with the company after the signature. Never sign a title assignment that is blank.
- Transfer of the title and license plate must be completed within 30 days of purchase. Title must be
 applied for before or at the same time as transferring the license plate. Titles and license plates can be
 applied for at the <u>County Tag Office</u> where the buyer resides.
- In certain situations, appoint someone as attorney-in-fact to complete the title assignment by completing
 and signing a Form T-8 Limited Power of Attorney. Learn more about when a power of attorney can and
 cannot be used.
- All owners in the chain of ownership (except licensed dealers) must obtain a title in their names before transferring ownership.

6. Interstate Trucks and Charter Buses Registration

The <u>International Registration Plan (IRP)</u> and <u>International Fuel Tax Association (IFTA)</u> vehicle registration renewals should be done online. Renewal notifications for IRP are sent via email. Instructions can be found on the <u>Georgia Trucking Portal</u>.

The IRP is a reciprocity agreement between member jurisdictions for registering vehicles that travel in two or more jurisdictions. A jurisdiction may be a state or a Canadian province. The base member state issues one apportioned license plate and cab card for each vehicle.

General information on IRP, IFTA, Unified Carrier Registration (UCR), trip permits, and FAQs can be found on the <u>Georgia Trucking Portal</u>.

Questions and online access requests can be emailed to commercial.vehicles@dor.ga.gov.

7. Low-Speed Vehicles

Low-speed vehicles are registered and titled if they meet the definition in O.C.G.A. § 40-1-1 (25.1). Low-speed vehicle means any four-wheeled electric vehicle whose top speed attainable in one mile is greater than 20 miles

If the vehicle is used in connection with an established place of business located in another county in this state, you must register the vehicle at the County Tag Office where the business is located.

For 1986 and newer model year vehicles that require a Georgia certificate of title, you must apply for a Georgia title in your name at the same time as registration at the <u>County Tag Office</u> where you, the vehicle owner, reside. A Georgia title will not be issued for a vehicle based on a registration certificate from a non-title state or country when the vehicle does not require a Georgia title.

If your vehicle is not financed but leased, the Georgia title, when issued, will be mailed to the vehicle's legal owner, the leasing company. 20. Out-of-State or Out-of-Country Title Transfer

Title and license plate applications for vehicles titled in another state or country must be processed at the County Tag Office where the buyer resides with the following information:

Note: If the title is being held by a financial institution or leasing company, the <u>County Tag Office</u> agent processing the application will contact the financial institution or leasing company by mail requesting submission of the out-of-state title before the Georgia title application can be processed.

If an out-of-state title is issued in more than one owner's name; the word "or" is used to show joint ownership; and the title application is in one of the owner's names, the out-of-state title assignment does **not** have to be completed.

All vehicle owners, other than licensed dealers, must obtain titles in their names before transferring titles to another person, dealer or business. It is acceptable for a dealership to use a secure dealer reassignment supplement form when there are still title assignments available. Subsequent dealers may also go back to the title and use available assignments.

Note: If a vehicle from the 1963 to 1985 model years was last registered in a state or country that does not issue titles, a Georgia title will not be issued.

Exception:

When a motor vehicle, other than a trailer or a motor vehicle imported from Puerto Rico or Guam, is imported into the United States, the following federal forms are required:

- An original and a copy of properly completed and signed U.S. Customs and Border Protection Form CBP-7501. Military personnel may submit a Form DD 1252 or DD 1854 in lieu of the Form CBP-7501.

Forms can be obtained and additional information received from a <u>U.S. Customs Office</u> (located throughout Georgia). All vehicles must go through customs before entry into the United States. The applicant must submit the original and copies of each form (the original will be returned).

Transfer of out-of-state title marked Salvage, Rebuilt, Reconstructed, Damaged or Similar Brands/Legends

If an out-of-state title is issued with a brand/legend indicating that the vehicle was not rebuilt in another state, refer to requirements provided under the heading "Salvage Title for a Vehicle That Has Been Rebuilt."

If an out-of-state title is issued with a Salvaged, Rebuilt, Reconstructed, Damaged or similar brand/legend and the vehicle was rebuilt in another state, the vehicle must pass a Georgia MVD inspection *prior* to the issuance of a license plate and title. To request an inspection, the applicant must complete and submit <u>Form T-22R Request for an Inspection of a Rebuilt Motor Vehicle</u> and a certified check or money order for the inspection fee due to one of the <u>State-Approved Private Inspectors/Stations</u>. If the vehicle has a current, out-of-state license plate, the owner may drive the vehicle to one of the inspection stations. If the vehicle does **not** have a current, out-of-state license plate and the owner chooses to have the vehicle inspected at a station, the vehicle **cannot** be driven; it **must** be towed to the inspection station.

The applicant should refer to the MVD website for inspection station locations and hours of operation. Once the inspection is complete, the applicant should visit their local county tag office to submit the passing inspection report and complete the registration process. If mailed, the applicant must submit the inspection report with all required documents and payment of \$18.00 (an additional fee of \$100.00 is required when using a state inspector instead of a private inspector) to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Section

P.O. Box 740384

Atlanta, GA 30374-0384

The certified check or money order should be made payable to the Department of Revenue.

Vehicles Previously Registered in a Non-title Jurisdiction

Note: A title will not be issued on a 1985 and older model year vehicle coming from another state or jurisdiction that did not issue a title.

In order for a title to be issued on a 1986 and newer model year vehicle that was previously registered in a state or jurisdiction where a title was **not** required, for which Georgia requires a title, the following documents must be submitted to the <u>County Tag Office</u> where the owner resides.

The title application must be completed reflecting the VIN and **not** the model or chassis number.

Transfer Document – The current out-of-state registration certificate or a certification of the registration
from the appropriate out-of-state agency must be submitted. The registration certificate must be issued in
the applicant's name or properly assigned to the applicant using their full legal name. If assignment spaces

with the owner shown on the registration and showing transfer to the applicant for title. If the issuing out-

of-state agency requires notarization of signatures, the signature on the registration certificate and any bill of sale must be notarized.

All leasing companies shall renew their registration and pay the fee annually by July 1. Failure to register and pay the fee may result in a \$2,500 penalty,

B. Leased Vehicle Registration

Leased vehicle title and license plate applications must be processed at the <u>County Tag Office</u> where the lessee resides with the following information:

Application – Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1. Titles are no longer issued reflecting the lessee's name. If the title is to be mailed to the leasing company, the title application should show the leasing company's mailing address along with the county

Section C - Title Applications

1. Title Applications Supported by a Manufacturer's Statement of Origin (MSO)

New vehicles are:

- Purchased new from a dealer or directly from the vehicle manufacturer, and
- Have no previous owners other than the manufacturer and dealer.

Note: A vehicle is considered used if the dealer has titled the vehicle in the dealership name.

As long as ownership of a vehicle remains the same since it was purchased new, issued titles will always reflect the vehicle as new.

To apply for a certificate of title for a new vehicle never titled in any state or jurisdiction, the following documents must be submitted to the <u>County Tag Office</u> where the owner resides:

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- Manufacturers Statement of Origin (MSO) Original, valid and properly assigned MSO must show a complete chain of vehicle ownership. As long as there is a complete chain of ownership, dealers can use a Secure Dealer Reassignment Supplement Form and the assignment spaces on the back of the MSO to transfer ownership of a vehicle. The MSO for passenger vehicles and motorcycles must be on a standard secure document. The Georgia dealer must enter their signature and current MVD assigned Customer ID number or Master Dealer License Plate Number in the spaces provided on the assignment of the MSO. The 12-digit, Georgia Dealer Customer ID number is required on Form MV-1 Title and Tag Application, if it is not shown in the assignment of the MSO.

If an MSO is assigned to an independent or used motor vehicle dealer, the dealer must obtain a title in their name **before** any subsequent transfer of title to a customer. When the vehicle is titled in the retail customer's name, the status of the vehicle will be shown as "used."

- Fees Contact your County Tag Office for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days of the date of purchase or ownership transfer;
 - \$20.00 license plate/registration decal fee or \$5.00 license plate transfer fee;
 - A title penalty fee of \$10.00 if a title is not applied for within 30 days of purchase date;
 - o Any penalty fees due for late registration renewal or late application for title.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales and Use Tax</u>. See <u>Information on these taxes</u>.

Note: Every Georgia owner of a vehicle other than a licensed franchise dealer (dealer licensed to sell new motor vehicles) must obtain a title in their name **before** transferring.

2. Manufacturer's Statement of Origin (MSO) Submitted in Error

Sometimes manufacturer's statements of origin are switched in error when several new motor vehicles are sold at one time. The result is titles being applied for, and sometimes issued, in the wrong owners' names.

If a title was issued in the wrong name, the following procedure must be followed to correct the error. So that we can reissue titles reflecting the vehicles as new in the correct owners' names, submit the following together:

- Certificates of Title The title in question should be assigned back to the original selling dealer. All liens
 or security interests appearing on the face of the titles must be properly released. The second title
 assignment should then be completed by the original selling dealer. The correct buyers' names and their
 current address should be shown in this assignment.
- Statement of Error The original selling dealer must submit a signed and notarized statement on the dealership's letterhead stationery verifying the vehicle's model year, make and vehicle identification number (VIN); acknowledging specific errors made; explaining the reasons for the errors (a billing error, for example); and stating that the vehicle was sold new to the owners shown on the accompanying title application.
- Application Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>. This completed application must be signed by the applicants. This new MV-1 must reflect any outstanding liens.
- Fees Contact your County Tag Office for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days of the date of purchase or ownership transfer;
 - \$20.00 license plate/registration decal fee; or \$5.00 license plate transfer fee;
 - A title penalty fee of \$10.00 if a title is not applied for within 30 days of purchase date;
 - o Any penalty fees due for late registration renewal or late application for title.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax. See Information on these taxes.

3. Rejection Notice Letters

When applications are received incomplete or incorrect, documents are returned to:

- The Georgia dealer when the application indicates a Georgia dealer sold the vehicle to the applicant.
- The first lienholder or security interest holder, if the vehicle was **not** transferred through a Georgia dealer.
- The vehicle owner, if there are no liens or security interests recorded and the vehicle was not transferred through a Georgia dealer.

If the insurance company will not provide a letter, you will be required to have the vehicle <u>inspected by a state inspector</u>. The letter must indicate when and where the vehicle was stolen and provide a complete description of the vehicle, including model year, make of vehicle, and vehicle identification number (VIN)
- 4. **Fee** A certified check or money order for the \$18.00 title fee may be made payable to the Department of Revenue.

D. Stolen (Recovered Undamaged) with Serial Plate Intact

For a vehicle that has been stolen and recovered with the serial plate intact, and which (1) is undamaged, (2) has cosmetic damage only, or (3) the restoration of the vehicle would require the replacement of no more than one major component part, the following documents must be mailed to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Section

P.O. Box 740384

Atlanta GA 30374-0384

- Application Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>. A Salvage Title Application should **not** be completed for a "stolen/unrecovered" vehicle.
- **Title** The current stolen/unrecovered certificate of title in the insurance company's name.
- License Plate if available -The license plate from the vehicle should be submitted.
- Surrender Report Completed Form T-158 Report of and/or Surrender of a Georgia License Plate must be submitted. Form T-158 Report of and/or Surrender of a Georgia License Plate must be completed and submitted even when there is no license plate on the vehicle.

- Letter A signed statement on the insurance company's letterhead stationery documenting the following:
 - When and where the vehicle was stolen;
 - o When and where the vehicle was recovered; and
 - The condition of the vehicle at the time of recovery, listing any damage at the time the vehicle was recovered.
 - o If the serial plate was *intact* at the time of recovery, this needs to be included in the insurance company's statement.
- Fee A certified check or money order for the \$18.00 title fee may be made payable to the Department of Revenue.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and <u>Use Tax</u>. See <u>Information on these taxes</u>.

An inspection of the stolen-recovered vehicle will be required if the motor vehicle was recovered 'stripped' and involves any of the following "stripped parts":

- substantially all its interior parts
- engine
- transmission
- all doors
- complete soft-top assembly including the roof mechanism
- front clip assembly (fenders, hood, and bumper);
- cab and bed of a pickup truck
- serial plate

If the vehicle damage requires the replacement of two or more major component parts to restore the vehicle, or the vehicle was recovered in a stripped condition, an application for a salvage certificate of title must be made.

Buyers of stolen-recovered vehicles are required to account for all parts used to rebuild the vehicle. These buyers must show proof of the parts (including interior parts) required to repair these recovered vehicles.

8. Salvage Titles

Salvage vehicles cannot be operated legally on public roads in Georgia. You must apply for a salvage vehicle title within 30 days of the purchase or acquisition of the motor vehicle, or within 30 days of a "total loss claim" payment. A motor vehicle becomes a salvage motor vehicle when the following events have taken place:

- The vehicle has been damaged to the extent that its restoration to an operable condition would require the replacement of two or more major component parts.
- An insurance company has paid a total loss claim and the vehicle has not been repaired. This does
 not include any stolen motor vehicle that has been recovered with the manufacturer's vehicle
 identification number plate intact, regardless of the extent of damage to such a vehicle or the number
 of major component parts required to repair the vehicle. Also, it does not include stolen vehicles that
 have been recovered:
 - o undamaged
 - with only minor damage
 - odamaged to the extent that restoration to an operable condition will **not** require the replacement of two or more major component parts
- An imported motor vehicle has been damaged in shipment and disclaimed by the manufacturer because of the damage, has never been subject to a retail sale to a consumer, and has never been issued a certificate of title.
- Titled in another state and branded as "Total Loss," "Salvage," "Fire," or "Water."

The term "salvage motor vehicle" shall **not** include any motor vehicle for which a "total loss claim" has been paid when the vehicle has sustained **only** cosmetic damage from causes other than fire or flood.

When the vehicle requires one or more major component parts to restore it to a safe operable condition, the title will be branded as *rebuilt*.

A. What Are Component Parts?

The definition of a component part is important because if a vehicle is inoperable and requires the replacement of two or more component parts, the title is branded as salvage and cannot legally be driven on Georgia roads. Once the vehicle has been repaired and passed inspection, a rebuilt title will be issued.

A major component part of a motor vehicle is any one of the following:

- front clip assembly including fender, hood, and bumper
- rear clip assembly including quarter panels and floor panel assembly, and roof assembly, including a soft top
- engine and transmission
- frame
- complete side of a vehicle including fenders, doors, and quarter panel

There are usually two situations for which an application for a salvage title can be made when there is a "total loss claim" payment:

- Application when the owner retains the vehicle
- Application when the insurance company retains the vehicle

When applying for a title, all necessary documents must be mailed to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Section

P.O. Box 740384

Atlanta, GA 30374-0384

A "rebuilt" Georgia title will be issued after passing inspection by the <u>state approved private inspectors/stations</u>. This would affect the following:

- Damaged, restored, or rebuilt motor vehicles, requiring the replacement of one or more major component parts to restore to a safe operating condition
- Vehicles damaged by fire, flood, or water showing the applicable brand
- A tractor cab and front axle altered by a glider kit (Glider kit is a "new" tractor cab and tractor front axle used to replace a wrecked or retired cab and front axle)

B. Damaged, Scrapped, Dismantled or Demolished

A vehicle is considered damaged, scrapped, or dismantled to the extent that restoration to an operable condition would require the replacement of any of the following:

- front clip assembly (fenders, hood, and bumper), rear clip assembly (quarter panels), and floor panel assembly
- top assembly (excluding a soft top or convertible top)
- frame
- complete side (fenders, doors, and quarter panels)

A vehicle that has been demolished or scrapped and titled as "Parts" cannot be repaired or legally driven.

In accordance with O.C.G.A. § 40-3-36, any registered owner or authorized agent of a registered owner who in any manner sells or disposes of any motor vehicle as scrap metal or parts only, or who scraps, dismantles or demolishes a motor vehicle, must mail or deliver the following to the Motor Vehicle Division (MVD) within 72 hours:

- **Title Document** Mail or deliver the vehicle's original Georgia title issued in the submitter's names or properly assigned to the submitter to the MVD Salvage Unit within 72 hours of cancellation. Do not submit out-of-state/country titles or license plates.
- Letter Signed letterhead statement containing a complete description of the vehicle including:
 - model year
 - o make of the vehicle
 - o model of the vehicle
 - o vehicle's identification number (VIN)
 - o title number
 - o vehicle's Georgia license plate (when left on the vehicle)

These documents must be mailed **together** to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Title Section

P.O. Box 740384

Atlanta, GA 30374-0384

Note: Verification of receipt of the titles will be provided if an extra copy of the letter asking for cancellation is submitted with a stamped, self-addressed envelope.

C. Salvage Vehicle - Ten Years Old or Older

The insurance company is **not** required to make title application for 10-year-old and older model vehicles prior to paying a "total loss claim" if the title is **not** available at the time of settlement. However, the owner has 30 days from the date of settlement to obtain the title and apply for a salvage title.

In this case the insurance company must obtain from the vehicle owner:

- License plate, except specialized license plates that remain with the vehicle owner,
- Copy of license plate registration,
- Form T-158 Report of and/or Surrender of Georgia License Plate,
- <u>Form T-56 Notice of Owner Payment of a Total Loss Claim</u> or a written statement requesting a salvage title.

These forms must be submitted **prior** to paying a total loss claim. The owner should retain a copy of the registration certificate (tag receipt) for their records. Insurance companies must submit the following to the MVD Salvage Unit at the time of settlement:

- License Plate Vehicle's Georgia license plate (tag),
- Surrender Form Completed Form T-158 Report of and/or Surrender of Georgia License Plate, and
- Notice of Payment Completed Form T-56 Notice of Owner Payment of a Total Loss Claim.
- Submit to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Unit

P.O. Box 740384

Atlanta, GA 30374-0384

D. Total Loss Claim, Owner Retains Vehicle

When the owner retains the salvage vehicle as a result of a "total loss claim" being paid, an **application for a salvage title** must be made by the insurance company **before** the payment of the total loss claim. Vehicle owners have 30 days from the date of settlement to obtain the vehicle's title and apply for a salvage title in their name. Application must be made to the Motor Vehicle Division by submitting the following:

- Application Form MV-1S Application for an Original or Replacement "Salvage" Title "Only" must be completed in the vehicle owners' full legal names and signed by the vehicle owners.
- **Title Document** The Georgia title issued in the insured's name (if available), the manufacturer's statement of origin (MSO), or the out-of-state title (issued in the applicant names or properly assigned to the applicants) must be submitted. If an application for a replacement title is being made, then the "replacement" block on the top left-hand corner of the salvage title application must be checked.
- Lien or Security Interest Liens or security interests shown on the supporting documents must be released or shown on the new title application. In order to perfect a lien or security interest in a vehicle, it must be recorded on the title application in the space provided or a Form T-17 Statement of Title being Held by Lienholder or Security Interest Holder or Leasing Company must be completed by the lienholder. A Form T-4 Notice of Satisfaction of Security Interest or Lienholders Affidavit should be completed for all satisfied liens or security interests when not released in the spaces provided on the title.
- Notice of Total Loss Claim Completed <u>Form T-56 Notice of Owner Payment of a Total Loss Claim</u>, signed by the insured and by an agent of the insurance company.
- **License Plate** The license plate (except out-of-state license plates or specialized plates that remain with the vehicle's owner) with a completed Form T-158 Report of and/or Surrender of Georgia License Plate.
- Fees A certified check or money order for the \$18.00 title fee made payable to the Department of Revenue.
- Submit to:

Georgia Department of Revenue Motor Vehicle Division Attn: Salvage Unit P.O. Box 740384 Atlanta, Georgia 30374-0384

E. Total Loss Claim, Insurance Company Retains Vehicle

When the insurance company retains the salvage vehicle following payment of a "total loss claim," an application for a salvage title must be made. The insurance company must apply for a salvage title in their name within 30

days of the date of settlement when the vehicle requires a Georgia title. Application must be made to the Motor Vehicle Division by submitting the following:

- Application Form MV-1S Application for an Original or Replacement "Salvage" Title "Only" completed in
 the insurance company's name and signed by an authorized representative of the insurance company.
 Important: Form MV-1S cannot be used to apply for a title on a recovered vehicle or a stolen/unrecovered
 branded title.
- **Certificate of Title** The title **must** be properly assigned to the insurance company with **all** recorded liens or security interests properly released.
- Fees paid with check or money order made payable to the Department of Revenue

Submit to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Unit

P.O. Box 740384

Atlanta, GA 30374-0384

Disposition of License Plate:

- If the insurance company takes possession of the vehicle, the owner retains the license plate. The owner may transfer the license plate to another vehicle that requires the same license plate category type.
- If the owner retains possession of the vehicle, the license plate must be turned in to the <u>County Tag</u>
 <u>Office</u> where the owner resides for cancellation with <u>Form T-158 Report of and/or Surrender of Georgia License Plate</u>

Exception: Special license plates and out-of-state license plates should not be turned in but should be removed from the vehicle. The vehicle cannot be driven until it has passed inspection and been issued a 'Rebuilt' title. A special license plate can be reassigned to the vehicle once a "Rebuilt" title has been obtained and registration of the vehicle has occurred.

F. Release of Insurance Information

Persons authorized to receive the insurer's name and the insurance status under the power of subpoena approved by the Department's Legal Affairs and Tax Policy Division can obtain insurance information for salvage titles.

G. Salvage Title for a Vehicle That Has Been Rebuilt

After you obtain a salvage title and rebuild or have someone rebuild the vehicle for you, you must apply for a *rebuilt title*. To apply for a rebuilt title, the following documents must be submitted to a <u>State Approved Private Inspector/Station</u>.

Important: The vehicle is not to be painted until after it has passed an inspection.

Photographs – One or more photographs of the motor vehicle in its salvaged condition.

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- Salvage Title The salvage certificate of title should be issued in the applicants' full legal names or properly assigned to applicants using their full legal names. Note: Every Georgia owner including a licensed dealer is required to apply for a rebuilt title in their name before transferring to another party.
- Labor and Parts Certification Completed Form T-129 Labor and Parts Certification signed by the owner.
- **Receipts** Submit receipts showing the rebuilder as the purchaser, listing each part used in repairing the vehicle. These receipts must:
 - o Indicate whether the part was "new" or "used."
 - o Show the stock number or part number along with the part name if the part is "new."
 - o Show serial number of the parts vehicle it was taken from, if the part is "used."
 - o Be signed with the full signature of the seller.
- Fees Inspection fees vary, with minimum of \$100.00.
- Rebuilder's License Copy of the rebuilder's license must be submitted with each request for inspection.

Notes:

- If the vehicle requires a re-inspection by a <u>State Approved Private Inspector/Station</u>, an additional fee will be charged for **each** inspection.
- When the vehicle requires less than two major component parts to restore it to an operable condition, the title will be branded as "Rebuilt."
- The vehicle must pass an inspection by a <u>State Approved Private Inspector/Station</u> before a new certificate of title or a license plate will be issued.
- If parts receipts are not available, a surety bond must be obtained and submitted.

Important Notice: Any person, partnership, limited liability company, firm, or corporation engaged in the business of buying salvage or wrecked motor vehicles for the purpose of restoring or rebuilding them with used or new motor vehicle parts, or both, to sell as motor vehicles must have a Georgia Used Motor Vehicle Parts (rebuilder's) license. A copy of this license must be submitted with **each** application for a rebuilt title.

If it is determined upon the inspection of the vehicle that the vehicle is **not** in full compliance with the law, the inspector may order additional corrective repairs.

If after an initial inspection of a motor vehicle, it is determined that the damage is so extensive that returning the vehicle to a safely-operable condition is impossible, the certificate of title shall be revoked and such vehicle may be used only for scrap or parts.

H. Inspection of Out-of-State Vehicle

Any motor vehicle for which the current out-of-state title is marked "Salvage", "Rebuilt", "Restored", or any similar phrase must be inspected by the <u>State Approved Private Inspectors/Stations</u>. Any vehicle which has been declared as *Non-Rebuildable* will **not** be titled in the state of Georgia.

Notes: If the out-of-state title's brand/legend indicates the vehicle was rebuilt in another state, parts receipts, photographs and <u>Form T-129 Labor and Parts Certification</u> are **not** needed.

Any motor vehicle for which the current out-of-state certificate of title is marked "Salvage", "Rebuilt", "Restored", or any similar such brand must be inspected by the <u>State Approved Private Inspectors/Stations</u>. This also applies when the make of a vehicle reflects "Assembled," "Homemade," "Kit," and so forth.

If a Georgia assigned number (GA00000) or another state's assigned number has been issued to a vehicle, that is the vehicle's permanent vehicle identification number. A correction affidavit (MV-18E) will **not** change the vehicle identification number back to the original manufacturer's identification number.

Once the title has been issued, the vehicle owner can apply for a license plate at the <u>County Tag Office</u> where the owner resides.

I. Out-of-State Title Previously Branded 'Salvage' in Georgia's Registration and Title Database

In order to transfer a clear out-of-state title previously branded as "Salvage" in Georgia's registration and title database, the following documents must be mailed to:

• Taxes – Subject to <u>Title Ad Valorem Tax (TAVT)</u>. See <u>Information on these taxes</u>.

An owner has 30 days from the date the title application was made to the Department of Revenue in order to avoid being charged a 10 percent Title Ad Valorem Tax (TAVT) penalty fee, with an additional 1 percent penalty every 30 days thereafter.

J. Vehicle Damaged in Shipment (Disclaimed by Manufacturer)

When a new vehicle has been damaged in shipment by fire, by water or by flood, the vehicle's serial plate is usually removed, and the vehicle is disclaimed by the manufacturer. The manufacturer usually withholds the issuance of a manufacturer's statement of origin (MSO). Therefore, the only way the Motor Vehicle Division will issue a title is on the basis of a surety bond. The vehicle must pass a Georgia motor vehicle inspection before a title or license plate will be issued. To apply for a Georgia title for such a vehicle, the following documents must be submitted to a State Approved Private Inspector/Station:

- Application Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>. The applicants' names on the title application and the principals' names on <u>Form MV-46 Certificate of Title Bond must match.</u>

 - o Indicate whether the part was *new* or *used*.
 - o Show the stock number or part number if the part is new, along with the part name.
 - o Show the serial number of the vehicle the part was taken from if the part is used.

Each part's bill of sale must be signed with the full signature of the seller.

- Ownership Documents Any other available ownership documents should be submitted.
- Fees Inspection fees vary, minimum of \$100.00.

If the vehicle requires a re-inspection by a private inspector, an additional fee will be charged for **each** inspection.

Once the vehicle passes inspection, all the above paperwork along with the inspector's report must be submitted with:

Application fees – \$18.00 title fee (an additional fee of \$100.00 is required when using a state inspector instead of a private inspector). The certified check or money order should be made payable to the Department of Revenue.

Submit to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Salvage Unit

P.O. Box 740384

Atlanta, GA 30374-0384

Note: The titles for vehicles damaged with water or as the result of a flood will be branded "Flood Damaged." Titles for vehicles damaged by fire will be branded "Fire Damaged."

Any person, partnership, limited liability company, firm, or corporation engaged in the business of buying salvage or wrecked motor vehicles for the purpose of restoring or rebuilding them with used or new motor vehicle parts, or both, to sell as motor vehicles must have a Used Motor Vehicle Parts (rebuilder's) license.

 fees/taxes. The supporting documents must be issued in the dealer's name from whom the vehicle
 was repossessed or properly assigned to the dealer. If there is a Georgia title on record issued in the
 dealer's name from which the vehicle was repossessed, the title must be submitted, if available.
- Affidavit of Repossession Completed Form T-16 Affidavit of Repossession signed by an authorized agent. A complete chain of ownership must be submitted from the repossessor to the applicant. Bills of sale are acceptable for vehicles exempt from the odometer declaration requirements but are not acceptable when an odometer declaration is required. If the Georgia title is lost, the repossessor must apply for a Georgia title in their name first before the title can be transferred (for vehicles where an odometer declaration is required).
- Floor Plan A copy of the floor plan between the repossessor and the dealer from whom the vehicle was repossessed must be submitted.
- Fees \$18.00 title fee and \$20.00 license plate fee. Contact your County Tag Office for acceptable methods of payment. If the applicant purchased the vehicle from the repossessor or a dealer, they must apply for a Georgia title in their name within 30 days of the purchase date or a \$10.00 title penalty fee must be included in their payment.
- Taxes Subject to Title Ad Valorem Tax (TAVT). See Information on these taxes.

 reflecting a complete description (model year, vehicle make and vehicle identification number). A certified
 copy of any court document must have the Clerk of the Court's signature and their seal or stamp affixed.
- Affidavit of Repossession Completed Form T-16 Affidavit of Repossession if the vehicle was sold after repossession pursuant to court action. The authorized agent of the party repossessing the vehicle must sign this completed form.

11. Mobile/Manufactured Home

To apply for a title for a mobile or manufactured home, the following must be submitted:

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.

The certificate of title will reflect the "A" and the "B" side in the identification number as shown on the manufacturer's statement of origin.
- There are exceptions when processing bonded mobile/manufactured homes for double- and triplewide homes when the customer has a choice to have one or two titles issued and when it must be one with both sides combined.

12. Joint Ownership and Joint Tenants with Rights of Survivorship

Georgia does not use the word "or" or the word "and/or" to establish joint ownership of a vehicle on the title. In other words, the title to a vehicle that is jointly owned will be printed to reflect their names with one name on line one and the other on line two. When the vehicle is transferred to a new owner, all current owners must sign the title assignment.

Joint Ownership – When applying for a Georgia certificate of title and/or registration/license plate (tag) showing joint ownership use the word "and" instead of "or".

Owners can decide to have the title branded as "Joint Tenants with Rights of Survivorship." If this legend/brand is to be shown on the face of the title, it must be printed on the title application below the owners' names.

Joint Tenants with Rights of Survivorship – Requests for a "Joint Tenants with Rights of Survivorship" disclosure on a Georgia certificate of title can be applied for at the <u>County Tag Office</u> where the owners reside using the following process:

- Inform the processing clerk, or
- Enter "Joint Tenants with Rights of Survivorship" on <u>Form MV-1 Title and Tag Application</u> below your name.

When a title is issued with the legend/brand "Joint Tenants with Rights of Survivorship" and one of the owners dies, the surviving owner may transfer the title to another party by:

- · Completing the title assignment, and
- Attaching a copy of the deceased's death certificate.

The surviving owner could also apply for a title in their name by providing the following to the <u>County Tag Office</u> where the applicant resides:

Application - Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>.

- Death Certificate Copy of the deceased owner's death certificate
- Transfer Document The Georgia title should be submitted.
- Payment \$18.00 title application fee. Contact your <u>County Tag Office</u> for acceptable methods of payment.
- Taxes, if applicable See Information on these taxes.

Note: In situations where joint ownership has been established on a title and one owner is being removed through application for a new title, the TAVT is not due at the time of the new application. The ad valorem status will remain as it was prior to the new issuance. In situations where an additional owner is being added by way of a title application, the TAVT is due at the time of the application.

The title will be issued with the legend/brand, "Joint Tenants with Rights of Survivorship."

When a certificate of title reflects the joint tenant legend and is transferred to a new owner, all owners appearing on the face of the title must sign the first assignment on the back of the title.

When an application is made omitting one of the owners shown on the original certificate of title and the brand/legend "Joint Tenants with Rights of Survivorship" is reflected and one of the owners is deceased, a copy of the owner's death certificate must be submitted with the supporting documents. These brands/legends must be requested and **do not** automatically transfer from title to title.

13. Replacement Title

A replacement title may be applied for if the original title has been lost, stolen or mutilated. If the owner cannot find the original title, the owner should first check with the bank, credit union, or lienholder recorded on the original title.

When the note or lien is paid, the holder releases their interest in the vehicle and the title is sent to the owner or the next lienholder or security interest holder if there is one recorded. A satisfied lien or security interest is **not** removed from the state's records until a new title is applied for and issued.

To obtain a replacement title, submit the following to the <u>County Tag Office</u> where the owner resides. When the title is printed, the long, replacement title legend/brand, "This is a replacement certificate and may be subject to the rights of a person under the original certificate," will print on the title.

Application – Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>. The appropriate box at the top of the MV-1 must be checked indicating that the application is for a replacement title.

A replacement title may be issued in a person's married name even though the original title was issued in the person's maiden name. In order for a replacement title to be issued in a person's married name, the application should be completed and signed in the married name. A copy of the person's official marriage certificate must accompany the application, fees and any other supporting documents.

- Original title The mutilated (damaged) title, when applicable
- Fee The replacement title application fee is \$8.00 for a lost or stolen title. Contact your <u>County Tag Office</u> for acceptable methods of payment. If the title application is submitted in person at the MVD Main Office or mailed to MVD for expedited processing, a \$10.00 special handling fee, in addition to the \$8.00 application fee, must be included in the payment. When submitting title documents (by mail) for expedited processing, you must clearly indicate on the outside of the envelope: Attn: Expedited Processing.
- Supporting Documents Additional requirements for certain situations include:
 - Lien or Security Interest still showing on current title record An original Form T-4 Notice of Satisfaction of Security Interest or Lienholders Affidavit for each lienholder or security interest holder recorded on the original title that has not been satisfied or paid. A paid or satisfied lien or security interest should not be recorded on the application. If the security interest or lien recorded on the original title is not satisfied, the name and address of the lienholders or security interest holders must be printed on the application in the order that their interest in the vehicle was perfected.
 - Do not record satisfied or paid lien or security interest information on the application.
 - Any lien or security interest recorded on a Georgia title for 10 years from the title's issue date shall be considered satisfied and a release will not be required, except for liens and security interests recorded for mobile/manufactured homes, cranes, and vehicles weighing more than 10,000 pounds gross vehicle weight.
 - A new release is required if the lien or security interest is still recorded on the state's title records. This occurs when your financial institution released their interest in your vehicle on the vehicle's title and you did not apply for a clear title.
 - Deceased person A replacement title cannot be issued in a deceased person's name. See requirements for a <u>title after inheritance</u>.
 - Name change If your name has changed since the title was issued, complete the application in your new name and attach a certified copy of the legal court document authorizing the name change:
 - certified copy of your marriage license

- divorce decree
- other court documents.

Note: A certified copy of any court document must have the Clerk of the Court's signature and their seal or stamp affixed.

o **Assigned not issued** – If the title was assigned to you but you have not received a title in your name, the current vehicle owner (on record) must apply for a replacement title.

A. Mutilated/Invalidated Title (Original Title Not Lost or Stolen)

A replacement title must be issued when a title is invalidated by improper assignments, mutilated to the extent that critical information is illegible or that the title cannot be archived on film, or correction fluid is used. A replacement title application, the mutilated/invalidated title and the application fee of \$18.00 must be submitted to the County Tag Office where the owner resides or the MVD Main Office. When the title is printed, the short legend of "Replacement Title" will be printed on the title.

B. Title Lost in the Mail

Georgia law allows for the free replacement of an original Georgia title lost in the mail to the vehicle owner if application for the replacement title is received within 60 days from the issue date of the original title. The following documents must be submitted to the County Tag Office where the owner resides or the MVD Main Office.

- Application -- Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1.
- Form T-216 Affidavit (Report of a Georgia Certificate of Title Lost in the Mail) This form must be completed
 in full typed, electronically completed and printed or legibly hand printed in blue or black ink and signed
 by the vehicle owners. The signatures on this form must be notarized. Any alterations or corrections will
 void this form.

An attorney-in-fact **cannot** complete <u>Form T-216 Affidavit (Report of a Georgia Certificate of Title Lost in the Mail)</u>. If this form is **not** received within 60 days of the date of the issuance of the original title, the \$8.00 replacement title-processing fee is required.

A lienholder or security interest holder cannot apply for a title lost in mail.

C. Removal of Replacement Legend

If a replacement certificate of title is issued for six months in an owner's name without the ownership being challenged, the owner may have the long replacement legend removed by submitting the following documents to the County Tag Office where the owner resides. The title, when issued, will reflect the legend/brand "Replacement Title" instead of the legend/brand, "This is a replacement certificate and may be subject to the rights of a person under the original certificate."

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- **Supporting Documents** The current Georgia title must be submitted. A letter, signed by the vehicle owner, requesting that the replacement legend be removed must be submitted.
- Fee The title application fee is \$18.00. Contact your <u>County Tag Office</u> for acceptable methods of payment.

D. Removal of Replacement Legend/Brand After Original Georgia Title Found

If a replacement title has been issued and the owner finds the original title, the following documents must be submitted if the applicant wishes to have the replacement legend/brand removed.

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>. The names of all owners must be reflected exactly as shown on their driver's licenses. The certificate of title will be printed, using the exact names as shown on the title application.
- The Replacement Title
- The Original Georgia Title
- Lien or Security Interest Liens or security interests shown on the supporting documents must be released
 or shown on the new title application. In order to perfect a lien or security interest, it must be recorded on
 the title application in the space provided.
- A **letter** requesting that the replacement legend be removed must be submitted from the owner on record. This letter must be signed by all vehicle owners.
- Fee -- \$18.00 title fee. Contact your <u>County Tag Office</u> for acceptable methods of payment.

The title, when issued, will **not** reflect either legend/brand.

E. Replacement Title Applications by Lienholder

A lienholder or security interest holder is considered a personal representative of a vehicle owner if a lien or security interest holder is recorded on the current Georgia title and the lien or security interest is **not** satisfied. Under these conditions, an authorized employee of the recorded lienholder or security interest holder may sign a

replacement title application for the owner, if the original, current title is lost or stolen. The following documents and fees must be submitted to the <u>County Tag Office</u> where the owner resides.

- Application Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1. Except for the owner's Georgia address, the information on the replacement title application must be the same information as recorded on the original title. The following can sign the application:
 - The vehicle owners
 - A person authorized by the owner on Form T-8 Limited Power of Attorney, or
 - A person that is directly employed by the lienholder or security interest holder on the current Georgia title record. If an employee signs, the employee's position or job title with the company must be printed beside the employee's signature.
- Processing Fee \$8.00 fee for each replacement title. Contact your <u>County Tag Office</u> for acceptable methods of payment.

If the application is submitted to the Motor Vehicle Division in-person or mail-in expedited title services, a total of \$18.00 per application will apply (\$8.00 fee for each replacement title plus an additional expediting fee of \$10.00). When submitting title documents (by mail) for expedited processing, you must clearly indicate on the outside of the envelope: **Attn: Expedited Processing**.

Note: Authorization to sign the owners' names on an application for a replacement title **cannot** be passed on to another individual or company.

14. Odometer Disclosure Information

Dealers are required to retain records containing an odometer declaration for five years. These records must be open for inspection by the Secretary of State, State Board of Registration of Used Motor Vehicle Dealers, or representatives of the Department of Revenue.

Sellers must accurately disclose vehicle's odometer reading at the time of sale on secure transfer documents (title, dealer reassignment, or secure power of attorney).

A. Seller's Responsibilities

The Federal Truth in Mileage Act requires the vehicle's odometer reading be entered by the seller at the time of sale or ownership transfer on a secure transfer document such as a title, Manufacturer's Statement of Origin (MSO), Secure Dealer Reassignment Supplement Form or a Secure Power of Attorney.

The Federal Truth in Mileage Act restricts the use of a Power of Attorney between the seller and buyer for the purpose of making the odometer declaration and the acknowledgement of the declaration. It does, however, allow

for the use of a Secure Power of Attorney between the buyer and seller when the title is **not** available at the time of transfer for one of two situations:

- The title is held by the lienholder/security interest holder, or
- The title is lost

The seller enters the odometer reading (no tenths of a mile should be recorded) on the secure transfer document and checks the applicable box on this same document when the declared odometer reading exceeds the odometer's mechanical limits or when there is an odometer discrepancy, and the odometer reading is **not** the actual mileage. When neither box is checked, the seller is declaring that the odometer reading entered reflects the total actual mileage the vehicle has traveled.

The seller must print their name above their signature on the secure document where the odometer reading has been recorded. If the vehicle is jointly owned, **each** owner/seller is required to print their individual name and sign. If the vehicle is titled in the name of a company, the company name must also be printed above the printed name and signature of the company's authorized agent in the odometer declaration section.

Sellers should enter the following in the odometer box:

- · Actual mileage, or
- The word "exempt" when the vehicle is exempt from odometer disclosure.

B. Buyer's Responsibilities

The buyer must print and sign their name in the assignment where the odometer declaration was made by the seller to acknowledge the odometer reading. If the vehicle is going to be titled in the name of a company, the company name must be printed above the printed name and signature of the company's authorized agent in the acknowledgment section. If jointly purchased, **each** owner must print and sign their name to acknowledge the odometer declaration made by the seller. If the vehicle is exempt from the odometer declaration, the buyer is **not** required to sign the title assignment.

Buyers should acknowledge the odometer declaration made by the seller by printing their names and signing a title with actual mileage listed.

C. Sole Owner of a Company

A sole ownership affidavit is required when the transfer involves a company where there is only one owner declaring and acknowledging the mileage reading. It is acceptable for that person to sign as **both** seller and buyer.

D. Odometer Disclosure

Vehicles exempt from odometer disclosure requirements of the Federal Truth in Mileage Act are vehicles:

- With gross weight of more than 16,000 pounds
- Not self-propelled (i.e., trailers)
- Twenty model years old or older, i.e., current calendar year minus 10
- Sold directly by manufacturers to a U.S. government agency in compliance with a contract's specifications
- Newly transferred from dealer to dealer prior to retail purchase

Note: Once a title is issued with the exempt status, each succeeding title will be issued with the status of exempt in place of an odometer reading.

An odometer discrepancy requires the following documents be submitted:

• Completed Form T-107 Odometer Discrepancy Affidavit by the seller and buyer or Form T-107A Application Odometer Discrepancy Affidavit completed by the vehicle owner to correct an existing title.

Note: If the discrepancy occurred with a previous owner, more than one affidavit may be required.

- Supporting documents
 - Proof of Ownership
 - Vehicle's original valid title
 - All buyer/seller information completed
 - Title must be assigned to the buyer using their full legal name as it appears on driver's license
 - Bill of sale, if the vehicle is 1985 or older and does not require a title
 - If title is not available, a Manufacturer's Certificate of Origin (MSO) or a registration certification for non-title state/country. It must be assigned to the buyer using full legal name.
 - If transferred from a non-title state/country, provide a properly completed <u>Form T-22B</u>
 Certification of Inspection
 - Application Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1.

- Emissions inspection if applicable. See <u>Appendix 3 Emissions Inspection Requirements, Georgia.</u>
- **Proof of Insurance** by one of the following:
 - Filed by the insurance company directly in the Department's database.
 - Insurance binder showing liability coverage.
- Fees Contact your County Tag Office for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days
 of the date of purchase or ownership transfer;
 - \$20.00 license plate/registration decal fee or \$5.00 license plate transfer fee;
 - o A title penalty fee of \$10.00 if a title is **not** applied for within 30 days of purchase date;
 - o Any penalty fees due for late registration renewal or late application for title.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax. See Information on these taxes.

If the title reflects an incorrect odometer reading due to a keying error and the Department's title record supports the correct information, submit:

- Completed <u>Form MV-18 Affidavit of Correction</u>
- Issued valid title
- No fees when Department's records reflect the correct odometer reading

If the title reflects an incorrect odometer reading due to an error only on the title application, submit:

- Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1.
- Completed Form T-107A Application Odometer Discrepancy Affidavit
- Issued valid title
- \$18.00 title fee

If an error is made or a discrepancy is noted between the mileage recorded on the application and the transfer documents, the documents will not be accepted. Odometer readings throughout the chain of ownership must remain the same or increase in number. Before a title is issued for a vehicle where there is an odometer discrepancy, the applicant must:

- Obtain new documents without a discrepancy if they contain alterations, strikeovers, erasures or correction fluid or tape.
- Complete <u>Form T-107 Odometer Discrepancy Affidavit</u> if the odometer reading was recorded incorrectly
 on the supporting document. The top portion of this form is completed by the seller and the bottom portion
 is completed by the buyer. <u>Form T-107 Odometer Discrepancy Affidavit</u> must be completed by all owners
 involved in the chain-of-ownership from the start of the discrepancy. An attorney-in-fact (someone
 appointed by a power of attorney to sign for the owner) cannot complete this affidavit.
- Obtain new documents if the odometer declaration shows an erasure or the use of correction fluid or tape.
- Complete a new application if the mileage on the application is incorrect.
- Obtain a surety bond if the owner is unable to obtain new documents. A surety bond can only be used to obtain a title for a vehicle that is required to be titled in this state.

15. Replacing Missing or Damaged Serial Plates

A. Replacement Serial Plate

To secure a replacement serial plate/VIN from the Motor Vehicle Division for a vehicle in which the original serial plate from the manufacturer is missing or altered, the following should be submitted to:

Section D - Liens and Security Interests

1. Lien and Security Interest Definition

A. What is a Lien?

A **lien** is involuntary. For example, if the owner of a motor vehicle does not pay a creditor, the creditor can take the case to court and obtain a judgment against the owner. This court order gives the creditor permission to place a lien on any vehicle owned by the person involved in the judgment.

To record a lien against a vehicle, the company can sign the title application reflecting their company as the lienholder. The owner's signature is **not** required on this application.

B. What is a Security Interest?

A **security interest** is voluntary. It is a monetary interest in a vehicle created by mutual agreement between a lender and the vehicle owner. The lender may be an individual, but is more often a bank, credit union, loan company, car dealership, or pawn shop. For example, an owner obtains a loan to purchase a vehicle. The vehicle is collateral for the loan.

To record a security interest against the vehicle, the vehicle owner must sign the title application reflecting the lender's name and address. If the owner of the vehicle fails to make payments as agreed to by the contract, the owner is in default of the loan and the lender may repossess the vehicle.

2. Recording a Lien or Security Interest

To record a lien or security interest against a vehicle when a Georgia title is required, the following should be submitted to the <u>County Tag Office</u> where the owner resides:

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- Transfer Document Original valid title or manufacturer's certificate of origin issued in the vehicle owner's name
- Fees Contact your County Tag Office for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days of the date of purchase or ownership transfer;
 - \$20.00 license plate/registration decal fee or \$5.00 license plate transfer fee;
 - A title penalty fee of \$10.00 if a title is not applied for within 30 days of purchase date;
 - Any penalty fees due for late registration renewal or late application for title.

To record a lien or security interest against a vehicle when a Georgia title is **not** required:

- Record the lien or security interest with the clerk of Superior Court's office in the county where the vehicle owner resides, under the provisions of the Uniform Commercial Code.
- Contact the Georgia Superior Court Clerks' Cooperative Authority for required forms, filing fees, and additional information.

To record an additional security interest on a vehicle that is currently titled in Georgia, submit by certified mail or overnight, return receipt requested, to the first lienholder or security interest holder having custody of the title:

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- Notice of Additional Security Interest Completed Form T-53 Notice of Additional Security Interest.
- Fee \$18.00 title fee
- Letter Cover letter addressed to the lienholder or security interest holder having custody of the title

Note: A Georgia title, when issued, is mailed to the first recorded lienholder or security interest holder until the interest is satisfied. Once satisfied, the lienholder or security interest holder shall release their interest in the spaces provided on the title and forward the title to the next recorded lienholder or security interest

holder. If there are no additional liens or security interests recorded, the title shall be forwarded to the vehicle owner.

3. Judgment Lien

In order for a Georgia certificate of title to be issued reflecting a judgment lien, the following documents and fee must be mailed "Registered mail, return receipt requested" to the holder of the Georgia certificate of title. If these forms are **hand carried** to the title holder, a receipt for proof of delivery must be obtained.

- Application Completed <u>Form MV-1 Tag and Title Application</u> signed by an authorized representative of
 the judgment lienholder and reflecting all recorded security interest holders and/or lienholders' names
 and addresses in the order their interest in the vehicle was perfected. See <u>Instructions for completion of
 the MV-1</u>
- **Judgment** A certified copy of the judgment (fieri facias or fi fa). The title application and the title of record must be in the same name as shown on the fieri facias.
- Title Lien Notice Completed Form T-53A Motor Vehicle Certificate of Title Lien Notice signed by the judgment lienholder. If the owner is not the title holder, the applicant must be notified by mailing a copy of Form T-53A Motor Vehicle Certificate of Title Lien Notice to them by "Registered mail, return receipt requested". The title holder is required to retain Form T-53A Motor Vehicle Certificate of Title Lien Notice and all attachments for ten days.
- Emissions inspection if applicable. See Appendix 3 Emissions Inspection Requirements, Georgia.
- Fees Contact your <u>County Tag Office</u> for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days of the date of purchase or ownership transfer;

 - o A title penalty fee of \$10.00 if a title is **not** applied for within 30 days of purchase date;

If the title holder fails to forward the title and other documents, then the judgment lienholder must submit the following to the Motor Vehicle Division:

This application must show all *unsatisfied* liens or security interests in the order perfected including the judgment lien. The judgment lienholder shall sign this completed application.

When applying for a title to reflect a mechanic's lien, the following fees and forms must be completed and mailed or delivered to the title holder via "Registered mail, return receipt requested". If the title is in the possession of a lienholder, security interest holder, or anyone other than the owner, the owner must be notified of the action taken by way of mailing a copy of the completed Form T-53A Motor Vehicle Certificate of Title Lien Notice, to them via "Registered mail, return receipt requested". If these forms are hand-delivered to the title holder, a receipt for proof of delivery **must** be obtained.

If the person holding the title contests the lien, the title holder must sign and date the bottom of <u>Form T-53A</u> and follow the instructions recorded on the notice.

5. Child Support Lien

The Child Support Enforcement Agency of the Department of Human Services and its contractors will determine the vehicles titled in the name of the parent that owes child support. This agency will also complete and submit by "Certified mail, return receipt requested" the following forms to the title holder for the perfection of a child support lien:

Note: For purposes of placing a child support lien, the "obligator" or "owner" is the parent that owes child support.

- Application Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1. The application must also show any current lien or security interest in the order the interest in the vehicle was perfected, plus the child support lien. An authorized representative of the Child Support Enforcement Agency should sign the completed title application.
- Lien Notice Form T-53A Motor Vehicle Certificate of Title Lien Notice must be completed in detail by the agency and include the owner's Social Security number.
- No fee is required to perfect a child support lien.

Note: Child support liens are only accepted from the Child Support Enforcement Agency.

Responsibility of Title Holder – The person holding the title must hold the MV-1 application and Form T-53A Certificate of Title Lien Notice for 10 business days. If the lien is not satisfied during that period, the holder of the title is required to submit the title application and Form T-53A to MVD together with the title. If the title holder does not have possession of the title, all forms should be forwarded to MVD with a note indicating that the title is unavailable and the reason it is unavailable.

If the person holding the title fails to comply, the Child Support Enforcement Agency shall apply directly to MVD for a title reflecting their lien by submitting the following:

Application – Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>. The application must also show any current lien or security interest in the order that the interest in the vehicle was perfected, plus the child support lien. An authorized representative of the Child Support Enforcement Agency should sign the completed application.

• Lien Notice – Form T-53A Motor Vehicle Certificate of Title Lien Notice must be completed in detail by the Child Support Enforcement Agency and include the owner's Social Security number.

Green Postal Return Receipt Request Card – All mail sent to the owner must be mailed "Certified mail,
return receipt requested." If the initial request is not complied with, the agency must submit the green
postal receipt.

No fee is required to perfect a child support lien.

Note: Child Support Liens are only accepted from the Child Support Enforcement Agency.

Note: When the documents are received by MVD, a "10-day letter" is mailed "Certified mail, return receipt requested" to the parent, again allowing them 10 days to either pay or contest the lien. If a letter is received contesting the lien, the lien is still recorded on the title and mailed to the first lienholder or security interest holder. A copy of the letter contesting the lien is forwarded to the Department's Title Board for review.

Applications and other correspondence regarding child support liens should be addressed to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Child Support Lien Unit

P.O. Box 740382

Atlanta, GA 30374-0382

6. When the Security Interest is Perfected (made public)

A lien or security interest is perfected (made public) by way of the title application; therefore, it is extremely important that any lien or security interest is shown in the space provided on the title application. It may be shown on the transfer document, but it must also be shown on the title application. If a lienholder or security interest holder applies for a title within 30 days of the date a lien or security interest is created, the perfection date is the date it was created. If a title is applied for 30 days after the date the lien or security interest was created, the perfection date is the date the County Tag Office or the MVD Main Office received the title application.

When a security interest is perfected, submit the following to the County Tag Office where the owner resides.

- Application Completed <u>Form MV-1 Tag and Title Application</u> or completed and signed <u>Form T-53 Notice</u> of Security Interest. See Instructions for completion of the MV-1.
- Perfection dates:
 - If filed within 30 days of the creation date, a security interest will be perfected as the contract's security date
 - If not filed within 30 days of the creation date, a security interest will not be perfected until the date received by the Department

A lien or security interest is recorded on a certificate of title for vehicles requiring a title. When applying for the title, the lien or security interest information must be shown on <u>Form MV-1 Tag and Title Application</u>, in the spaces provided. It may also be shown on the transfer document, but it **must** be shown on Form MV-1.

An **Electronic Lien on Title (ELT)** is perfected electronically in the Department database. A paper title is not generated until requested by the lienholder or security interest holder.

A. Form T-53D Notice of Security Interest

Form T-53D Notice of Security Interest is the form used to perfect a security interest in a vehicle when the transfer documents are not yet available. Submitting this form will **not** result in the vehicle being titled or registered. It may only be submitted to the County Tag Office where the owner resides by mail or in person, or the MVD by mail only. If submission is by mail, notices and \$18.00 filing fees must be mailed "Registered mail, return receipt requested". If the notice meets processing requirements, the notice will be returned stamped or validated with the date it was received. The system will generate a letter that will verify a notice of security interest has been processed and a reminder that the title must be submitted within 30 days of purchase.

B. Form T-53D Notice of Security Interest Filed in Error

When the sale of a vehicle has not been completed but the notice is updated in the system, <u>Form T-53D Notice of Security Interest</u> record needs to be canceled. A **second** notice should **not** be updated over the current record. The following procedure should be followed.

When the state's database shows a 53-control number on the vehicle's record in a **different** name and/or security interest holder, the following documents must be submitted:

- Application -- Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>.
- Transfer document Title or Manufacturer's Statement of Origin (MSO)
- Letter A signed statement from the dealer or lender on their letterhead stationery explaining why the information submitted is different from the information shown on the state's database
- Satisfaction Affidavit -- Form T-4 Notice of Satisfaction Affidavit from the lienholder or security interest holder shown in error on the state registration and title database
- Payment -- \$18.00 title application fee. Contact your <u>County Tag Office</u> for acceptable methods of payment.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax. See Information on these taxes.

7. Security Interest Holder After Assignment of Contract

When a security interest holder assigns their contract to another security interest holder, a new title showing the new security interest holder will be issued upon receipt of the following documents by the County Tag Office where the owner resides:

- Application -- Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1. The new security interest holder, or their authorized agent, must sign the completed application.
- Transfer document Title or Manufacturer's Statement of Origin (MSO)
- Contract Copy of contract between the recorded security interest holder and the new security interest holder showing that all rights of the contract were assigned to the new security interest holder shown on the title application. This contract must reflect a complete description of the collateral vehicle including year model, make, and vehicle identification number, and must be signed by the vehicle owners.
- Payment \$18.00 title application fee and all taxes due. Contact your <u>County Tag Office</u> for acceptable methods of payment.

8. Loan Assumption

In order for a Georgia title to be issued in the new owners' names after assuming the loan of the former owners, the following documents must be submitted to the <u>County Tag Office</u> where the owner resides:

- Application Completed Form MV-1 Tag and Title Application. See Instructions for completion of the MV-1.
- **Title Document** The original valid certificate of title must be submitted properly assigned to the applicants using their full legal names.
 - The buyer must complete the title assignment by entering the buyer's full legal name and their current address.
 - o The seller must print their name, enter the date (month, day and year), and sign.
 - o If the seller is a business, then the printed name of the business must be shown as well as the printed name of the person signing for the business.
 - o When an odometer declaration is required, the seller must enter the vehicle's odometer reading on the date of purchase. If the odometer reading does **not** reflect the total actual miles the vehicle has traveled, then the applicable box must be checked indicating why the odometer reading does **not** reflect the actual mileage. If the odometer reading reflects the total actual mileage the vehicle has traveled, do **not** check any box. When an odometer declaration is required, the buyer must print and sign their name to the assignment acknowledging the odometer declaration made by the seller.
- Loan Contract A copy of the transfer of the contract or account should be submitted or the lien or security interest shown on the current title must be released.
- Emissions inspection if applicable. See <u>Appendix 3 Emissions Inspection Requirements, Georgia.</u>
- Fees Contact your <u>County Tag Office</u> for acceptable methods of payment. The fees are as follows:
 - \$18.00 title application fee when the vehicle requires a title and application is made within 30 days of the date of purchase or ownership transfer;
 - \$20.00 license plate/registration decal fee or \$5.00 license plate transfer fee;
 - o A title penalty fee of \$10.00 if a title is **not** applied for within 30 days of purchase date;
 - Any penalty fees due for late registration renewal or late application for title.
- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax. See Information on these taxes.

9. How to Release a Lien or Security Interest

To release a lien or security interest, contact the lender holding the lien to electronically release the title. The Department will not release a lien or security interest that is electronically recorded.

When a lien or security interest is satisfied for a paper title, the lienholder/security interest holder should complete the "Release of Lien or Security Interest" section on the title by including:

- Name of the lienholder or security interest holder, as recorded at the time
- Authorized agent's signature
- Date released

Once a title has been released, the title should be:

- Mailed or delivered to the next recorded lienholder or security interest holder within five days of the date that interest was satisfied.
- If there are no additional lienholder or security interest holders recorded, the title should be mailed to the motor vehicle owner.

If the title is not available at time of release, the lienholder or security interest holder should provide the owner with a completed and signed Form T-4 Lien or Security Interest Release

Note: The County Tag Office reserves the right to verify Form T-4 prior to accepting the application.

In order to release a lien/security interest, the lienholder or security interest holder should:

- Complete the area on the title provided for releasing liens or security interests
- Complete a Form T-4 Lien or Security Interest Release
- Submit a signed letterhead statement showing a complete description of the vehicle (model year, vehicle
 make and identification number), the vehicle owners' names and addresses and the names and
 addresses of all secured parties. This statement must indicate that the lienholder's or security interest
 holder's interest in the vehicle has been satisfied. This statement must also include a contact person's
 name and telephone number for the County Tag Office or MVD to verify the validity of the release.

• Transmit an electronic release of interest for Electronic Lien on Title (ELT) transactions

Note: An electronic lien can only be released by the participating lienholder or security interest holder by generating an electronic transmission allowing a title to print.

Out-of-state lien/security interest release forms are acceptable.

A "PAID" stamp on the vehicle's title or contract is acceptable when dated and signed. The contract must reflect a description of the vehicle, the vehicle's year model, make and serial number, used as collateral. The vehicle owners' signatures must be on the contract.

Note: A lien or security interest is not removed from the state's records until a new title is applied for and issued.

A lien or security interest will be considered satisfied if the title was perfected and issued more than 10 years from the date of title issuance for a vehicle that is 11 model years old or less, or more than four years for a vehicle that is 12 model years old or greater. This does **not** apply to out-of-state titles or to titles issued for mobile/manufactured homes or vehicles that weigh more than 10,000 pounds gross vehicle weight.

The lienholder or security interest holder must submit another completed Form MV-1 Tag and Title Application, listing the lienholder or security interest holder information in order to provide for the **continuous** perfection of a lien or security interest that was originally entered into for a period of more than 10 years from the date of title issuance for a vehicle which is 11 model years old or less, or for a period of more than four years from the date of title issuance for a vehicle which is 12 model years old or greater. This application must be submitted to the County Tag Office where the owner resides together with the title, if applicable, and \$18.00 title fee. Contact the County Tag Office for acceptable methods of payment.

Within 10 days after satisfaction of a security interest or lien, the holder must mail either the executed release on the title or a completed Form T-4 Notice of Satisfaction Affidavit (T-4 must be submitted when the title is not available) to the vehicle owner when there are **no** additional liens or security interests recorded. When there are additional liens or security interests recorded, the holder must mail the title with the lien or security interest released to the next recorded lienholder or security interest holder and a release to the vehicle owner.

MVD and the <u>County Tag Office</u> reserve the right to verify the validity of the release of any lien or security interest prior to accepting the <u>Form T-4 Notice of Satisfaction Affidavit</u> or letterhead statement; therefore, the name and telephone number of the lienholder or security interest holder's contact person is required.

10. Out-of-Business Lienholder or Security Interest Holder

If the lienholder or security interest holder is out of business, the vehicle owner should:

- Conduct a thorough search, including an internet search, of all available resources to determine if the security interest holder has merged or otherwise changed their business name or location prior to making the determination that they are out of business.
- Obtain and submit a letter from the appropriate <u>regulatory authority</u> that states the lienholder or security interest holder is no longer in business or is unlicensed. If the regulatory agency states that the company is unlicensed:
 - Send by Registered mail, return receipt requested, a letter to the lienholder or security interest holder at their last known address as shown on the Department's title records.
 - o Submit the returned undelivered letter with the green postal card intact with the following:
 - Application Completed Form MV-1 Tag and Title Application. See <u>Instructions for completion of the MV-1</u>.
 - Title
 - Signed letter from the regulatory agency stating the lienholder or security interest holder is out of business and/or unlicensed
 - Returned letter in an unopened envelope addressed and mailed to the lienholder or security interest holder, "Registered mail, return receipt requested"
 - Payment \$18.00 title application fee. Contact your <u>County Tag Office</u> for acceptable methods of payment.
 - Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or Georgia Sales and Use Tax. See Information on these taxes.

This procedure does not include:

- Individuals who are lienholders or security interest holders
- Companies merged with other companies and operating under a different name
- Companies not regulated by a state agency

11. Deceased Lienholder or Security Interest Holder

If the lienholder/security interest holder was an individual as opposed to a business, the heir to the estate may release the lien/security interest. The release must be accompanied by a certified copy of the probated will, letters of administration or Form T-20 Affidavit of Inheritance. If a Form T-20 is submitted, a certified copy of the deceased's death certificate must also be submitted. If Form T-20 Affidavit of Inheritance is being submitted because the deceased left a will with limited assets that is not to be probated, a legible copy of the non-probated will with limited assets must also be submitted.

If the deceased's will has been probated and Letters of Testamentary issued appointing an executor, the executor can release a lien or security interest by submitting the following to the County Tag Office where the owner resides:

- A completed lien release section on the title or completed <u>Form T-4 Lien or Security Interest Release</u> on behalf of the deceased.
- A certified copy of the Letters of Testamentary appointing them as executor.

If the deceased lienholder or security interest holder left a will that contains limited assets and is **not** to be probated, the heir can release a lien or security interest by submitting the following to the <u>County Tag Office</u> where the owner resides:

- A completed lien release section on the title or completed <u>Form T-4 Lien or Security Interest Release</u> on behalf of the deceased.
- A certified copy of the deceased's death certificate

- A certified copy of the deceased's death certificate
- Completed Form T-20 Affidavit of Inheritance

13. Electronic Liens - ELT

A. Electronic Liens on Title (ELT) Program

The Georgia Department of Revenue Motor Vehicle Division has implemented an Electronic Liens on Title (ELT) program, which provides paperless vehicle titles to participating financial institutions. The ELT program exchanges lien information between the Department and the financial institution facilitated by one of the service providers.

The service provider's role is to transmit electronic security interest and lien notifications to the financial institution and the Department through a software application. O.C.G.A. § 40-3-26 requires that security interest holders and lienholders receive notice of recordings of security interests or liens electronically. Lien releases for ELTs are also done electronically.

Section E – Registration Processes

1. Application to Extend Initial Registration Period

The initial registration period is the 30-day period immediately following the date of purchase of a new or used vehicle. If the dealer has not provided the buyer with a title or proof that a title has been issued within five business days of the expiration date of the dealer-issued temporary operating permit (TOP) tag, the buyer may apply for an extension of the dealer-issued temporary tag. The County Tag Office where the owner resides may grant one 30-day extension of the initial registration period and provide a new TOP.

To apply to extend the initial registration period, the buyer or dealer must submit the following to the County Tag Office where the owner resides:

• Application – The completed Form T-226 Application to Extend the Registration Period of a Motor Vehicle must be typed, hand printed, or electronically completed and signed by the vehicle owner. Original forms without alterations or corrections must be submitted. Photocopies or forms containing alterations or corrections will not be accepted. If the vehicle is jointly owned, only one of the owners is required to sign this application.

This form must be submitted to the <u>County Tag Office</u> where the buyer resides. If the vehicle is used in connection with an established business, this form must be submitted to the <u>County Tag Office</u> where the business is located.

- Copy of the dealer's invoice or bill of sale
- Emissions inspection if applicable. See Appendix 3 Emissions Inspection Requirements, Georgia.

- Proof of Insurance by one of the following:
 - o Filed by the insurance company directly in the Department's database.
 - o Insurance binder showing liability coverage.
- The dealer-Issued Temporary Operating Permit (TOP) The TOP must be within five days of expiration. The County Tag Office shall then issue a tag agent TOP to expire 30 days after the expiration of the dealer-issued TOP. The county tag agent should advise the customer that the dealer is required to apply for a title for the vehicle in their name. If the dealer is an independent dealer (sells used motor vehicles) and the dealer has failed to obtain a title or has failed to apply for a title in the required time frame (30 days from the date of sale), the customer may submit a complaint to the Used Motor Vehicle Dealer Board.

2. Register a Newly Purchased Vehicle When Title Not Required

License plates can be applied for at the <u>County Tag Office</u> where the owner resides. The following information is required:

- Chain of Ownership one of the following:
 - o Original valid registration certificate issued in owner's name and properly assigned to buyer
 - Original signed bill of sale showing the chain of ownership from the registered owner, up through the buyer
- **Certification of Inspection** <u>Form T-22B Certification of Inspection</u> must be completed by a Georgia law enforcement officer after making a visual inspection of the vehicle's serial plate.
- Emissions inspection, if applicable. See Appendix 3 Emissions Inspection Requirements, Georgia.
- Proof of Insurance by one of the following:
 - o Filed by the insurance company directly in the Department's database.
 - Insurance binder showing liability coverage.
- Proof of residency, which may include:
 - Valid Georgia driver's license or Georgia identification card issued by the Georgia Department of Driver Services
 - o Lease, deed, or closing statement of new residence
 - Current utility bill from new residence

3. Transfer Ownership of a Motor Vehicle (License Plate and Registration)

All license plates are issued to the vehicle owner; therefore, when an owner sells or transfers the ownership of a vehicle, the owner must remove the license plate from the vehicle before the sale or ownership transfer.

Current license plates and revalidation decals must be transferred from one vehicle you no longer own to another vehicle you purchase or acquire within seven business days (O.C.G.A. § 40-2-29) of the vehicle's purchase or transfer date or date of acquisition. The license plate is transferable to another vehicle the same owner acquires as long as both vehicles require the same class of license plate.

For example, if a car is sold and a light weight pickup truck that weighs 14,000 pounds or less is purchased, the license plate and registration from the car may be transferred to the pickup truck at the <u>County Tag Office</u> where the owner resides because both vehicles require the same class of license plate. However, if a car is sold and a trailer is purchased, the license plate and registration from the car cannot be transferred to the trailer because the car and trailer are issued different classes of license plates.

A permanent trailer license plate or permanent trailer replacement license plate **cannot** be transferred to another trailer even if the owner is the same.

A current registration and license plate mean that the month, day and year of expiration have not passed.

A. General Rules

- **License Plate** The seller should remove the license plate from the vehicle before it is sold. If a vehicle is purchased and the previous owner's license plate is on the vehicle, it should be removed from the vehicle and returned to the previous owner if possible. If this is not possible, it should be surrendered to the County Tag Office where the owner resides.
- **Title** If the vehicle requires a title, the original valid title assigned to the buyers using their full legal names must be provided. An individual's full legal name is their complete name as it appears on their valid Georgia driver's license or identification card issued by the Georgia Department of Driver Services.
- Bill of Sale or Registration Certificate The seller must provide the buyer with a signed bill of sale or a
 legible copy of the vehicle's current registration certificate, when the vehicle does not require a title. If the
 County Tag Office verifies current registration information on Georgia's Title and Registration Information
 System, copies of registrations are not required when registering the vehicle in the buyer's name.

B. Transfer of a Current License Plate and Registration Certificate

In order to transfer a current registration and license plate from a vehicle that the owner no longer owns to another vehicle the owner purchases or acquires, the following must be submitted to the <u>County Tag Office</u> where the buyer resides within seven days of purchase:

- Proof of Ownership One of the following:
 - An original valid assigned title, when the vehicle requires a title; or,
 - An original bill of sale and certificate of registration from the previous owner when the vehicle does
 not require a title. If the previous owner's Georgia certificate of registration is not submitted, the
 County Tag Office must verify registration by a Georgia's Title and Registration Information System
 inquiry.
- Emissions inspection if applicable. See Appendix 3 Emissions Inspection Requirements, Georgia.
- Proof of Insurance by one of the following:
 - o Filed by the insurance company directly in the Department's database.
 - Insurance binder showing liability coverage.
- Registration or Verification Registration for the license plate being transferred or verification by the
 <u>County Tag Office</u> personnel that the license plate is issued in the same name is required. Verification by

- Taxes Subject to <u>Title Ad Valorem Tax (TAVT)</u>, <u>Annual Motor Vehicle Ad Valorem Tax</u>, or <u>Georgia Sales</u> and Use Tax. See <u>Information on these taxes</u>.

C. Transfer of an Expired License Plate and Registration Certificate

If the license plate and registration have expired (month, day and year of expiration on the registration have already passed) for a vehicle no longer owned, and transfer is being made to a newly purchased or acquired vehicle, the following must be submitted to the County Tag Office where the owner resides:

- Application Completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of the MV-1</u>.
- **Proof of Ownership** One of the following:
 - o An original assigned title, when the vehicle requires a title; or,
 - An original bill of sale and a copy of the previous owner's registration when the vehicle does not require a title. If the previous owner's registration is not submitted, the <u>County Tag Office</u> personnel must check the Georgia's Title and Registration Information System to verify registration.

4. How to Register Non-Titled Vehicles

The owner of a non-titled vehicle is required to establish proof of ownership to register the vehicle. Proof of ownership is established with:

- **Bill of Sale** The bill of sale must include the vehicle's year, make, model, vehicle identification number (VIN), and be signed by the Seller; and
- Certification of Inspection You must also submit an original Form T-22B Certification of Inspection, completed and signed by a Georgia law enforcement officer after they make a visual inspection of your vehicle's identification number (VIN) plate or serial plate.

Any officer completing the <u>Form T-22B Certification of Inspection</u>, must query the Georgia Crime Information Center (GCIC) to determine if the vehicle is stolen as well as indicate that the query was made on the face of the <u>Form T-22B</u>. This form will **not** be accepted if it is incomplete or contains alterations or erasures.

A vehicle owned by a <u>visitor</u> may be operated on the public streets and highways for pleasure purposes only for a period of 90 days without registering the vehicle in Georgia, provided the vehicle displays a valid license plate from the owner's home state.

C. Functionally Located Vehicles

A functionally located vehicle is a private passenger motor vehicle:

- Designed to carry 10 passengers or fewer;
- Used for transportation of persons; and
- Used and located in a different county than the county of the primary owner's legal residence.

Example: An individual motor vehicle owner owns a summer home on St. Simons Island, GA, where his 2010 Ford Explorer is and remains all year; however, his legal residence is in Fulton County. His Ford Explorer, which is driven and located on St. Simons Island, may be registered in Glynn County as a functionally located vehicle if it complies with all the business rules listed below. In this situation, any ad valorem taxes on the functionally located vehicle must be paid to the <u>County Tag Office</u> in Fulton County before registering and purchasing a license plate in Glynn County.

The following business rules apply to **functionally located vehicles**:

Vehicle must be titled/registered to an individual or leased to an individual, not a business.

- If co-owned or leased, all owners or lessees must be individuals.
- Vehicle cannot be used by a college or university student in a county in which the student goes to school and is not a resident.
- Vehicle must have been located within the county the primary owner wishes to register the vehicle for at least 184 days in the previous calendar year. Ad valorem taxes must be paid in the county in which the primary owner claims residency before registration renewal in the county where the vehicle is functionally located.

An application must be submitted each year. The application must be completed, and two copies made for distribution as follows:

- The primary owner's county of residence retains the original application.
- The primary owner retains a copy.
- The primary owner provides the county in which the vehicle is functionally located a copy of the application and the Georgia Title and Registration Information System receipt showing ad valorem taxes were paid.

You will be subject to fines and impoundment by law enforcement if you fail to register your vehicle and obtain a Georgia license plate within 30 days of establishing residency in Georgia or, for Georgia residents, 30 days from the purchase or acquisition date of the vehicle. The license plate must be properly affixed to the rear of the vehicle.

Renewal – If you fail to renew your vehicle's Georgia license plate registration during your county's established registration period, you will be charged the following penalties in addition to the regular registration fees and motor vehicle ad valorem taxes that are due:

- 10 percent of the amount of ad valorem tax due (\$5.00 minimum)

You will be subject to fines by law enforcement if you fail to transfer your license plate between vehicles or you fail to register and purchase a new license plate within 30 days of the vehicle's purchase or acquisition date. You should transfer your license plate or purchase a license plate at the County Tag Office where you reside. If the vehicle is used primarily for a business located in another county in Georgia, the license plate should be applied for in the county in Georgia where the business is located.

9. Register a Permanent Trailer

Motor vehicle owners in this state who own, lease or rent a trailer may apply for permanent trailer license plates at the <u>County Tag Office</u> where the owner resides.  - If the trailer is sold or the ownership transferred, the permanent trailer license plate is revoked.

11. Temporary Operating Permits (TOPs)

Only a temporary license plate issued by a registered motor vehicle dealer or the <u>County Tag Office</u> where the buyer resides will be considered valid. Any other type of temporary license plate is considered unlawful. State law requires all motor vehicles operated on Georgia roads and highways to be registered.

A. Dealer-Issued TOPs

Dealers are required to issue temporary operating permits (TOPs) for newly purchased vehicles. TOPs are valid for 45 days. Dealers are responsible for applying for a title for 1996 or newer model vehicles. While dealers can apply for the plate at the time of purchase, they are not required to by Georgia law. If the dealer does not apply for the license plate, the title must be issued or applied for in the buyer's name prior to applying for the license plate online or at the County Tag Office in the county where the buyer resides.

Dealers cannot issue an extension or additional TOPs, nor can the customer operate the vehicle legally with an expired TOP. If the dealer fails to obtain a title for transfer into the buyer's name (within five days before expiration of the TOP), the customer may apply for one 30-day TOP at the County Tag Office where the buyer resides. The buyer is required to:

- Complete and submit Form T-226 Application to Extend the Registration Period of a Motor Vehicle
 Purchased from a Georgia Motor Vehicle Dealer
- Turn in the dealer-issued TOP for destruction

If a dealer-issued TOP is lost or stolen less than 20 days from the date of issue, the dealership is required to replace it. If the TOP is lost or stolen 21 days or more from the date of issue, replacement should be requested from the County Tag Office where the owner resides.

- License Plates Not in the <u>County Tag Office</u>'s Inventory When an owner registers a vehicle and requests a license plate not in the <u>County Tag Office</u>'s inventory, the <u>County Tag Office</u> shall issue a 30-day TOP. This 30-day TOP should be given to the registrant for their use in operating the vehicle until the license plate is received. See O.C.G.A. §§ 40-2-8 and 40-2-33.

D. Corrections to Renewal Notice

If you receive a vehicle renewal notice with incorrect information, first follow the instructions that may appear on the front of the notice in the "Message from Your Tax Commissioner" area. If there are no instructions, contact the <u>County Tag Office</u> where the owner resides. Specialty License Plate Process for Sponsors

Specialty license plates are issued as <u>non-revenue sharing</u> and <u>revenue sharing</u> plates. A revenue sharing specialty plate recognizes the sponsor's nonprofit association, group, institution, organization or cause, and a portion of the revenue from registration and renewal of the plates goes to the nonprofit organization. Non-revenue sharing specialty plates may also be sponsored, but they do not have legislative support and are ineligible for raising funds for the sponsor.

Any sponsor interested in requesting a specialty license plate commemorating an association, group, institution, or organization should submit a <u>signed letter of intent</u> (sample below) to the office of the Motor Vehicle Division director. The letter containing all the required information should be mailed to:

Georgia Department of Revenue

Motor Vehicle Division

Attn: Director's Office

P.O. Box 740382

Atlanta, GA 30374-0382

In applying for a license plate that will share registration and renewal revenue with nonprofit organizations, the sponsor must arrange for a Georgia General Assembly representative or senator to introduce a bill supporting the specialty license plate on their organization's behalf. This is in addition to the signed letter of intent.

Upon receipt of the letter of intent, the director's office will provide the required forms, requirements, and detailed application instructions. The application should include a design of the proposed license plate and a bond of \$50,000 to serve as surety for monies collected from applicants by the sponsor. The sponsor should not accept applications and manufacturing fees for license plates until they have been approved to do so by the Department.

Once approved by the Department, the sponsor has two years to submit 1,000 prepaid applications with a manufacturing fee of \$25.00 each for a total payment of \$25,000.

- If the sponsor does not meet the requirements within the two-year time frame, the license plate will not be produced. All application fees paid will be refunded to applicants.
- If the sponsor meets the requirements within the two-year time frame, a letter of certification is provided to the sponsor verifying the requirements are met.

Section G – County Tag Offices

License Plates, Decals, and TOPs Ordering, Receiving, Inventory

Georgia Correctional Industries (GCI) supplies all the standard plates, specialty plates, decals, temporary operating permits (TOPs), handicap placards, and stickers (county name, municipality, "In God We Trust", government, educator, and others). GCI monitors the inventory, maintaining a four-to-six-week supply of standard plates (AA, A1), top 50 specialty plates, and decals. Any issues with stock levels or any needed items not on the inventory can be addressed/ordered through the County Ordering Portal.

Upon receipt of license plates or renewal decals, the county tag agent should do the following:

- Compare each box of license plates and renewal decals to the bill of lading to determine that everything shown on the bill of lading is included in the shipment.
- Verify the accuracy of the bill of lading, which shows the beginning and the ending license plate and renewal decal numbers included with the shipment.
- Verify that the beginning and ending license plate and decal numbers are shown on the outside of each

box or package.

- Acknowledge receipt of the license plates and renewal decals by accepting inventory though DRIVES (Driver Record Integrated Vehicle Enterprise System).
- If boxes are missing or torn open and license plates or renewal decals are missing or damaged, the
 items should be updated in DRIVES (Driver Record Integrated Vehicle Enterprise System) as Missing or
 Damaged.
- Check license plates and renewal decals within each box once the seal is broken before issuing to
 ensure license plates/renewal decals are in proper numerical sequence and none are missing,
 improperly printed or mutilated in any manner.

2. License Plate Envelopes and T-Serial Plates Ordering, Receiving, Inventory

License plate envelopes and T-serial plates can be ordered through the MVD County Help Desk by submitting the order form via email.

3. County Audits

A certain percentage of counties will be audited each month.

- Contact the MVD Finance Office the day you take your inventory audit to signal the beginning of your audit. Finance will generate a Georgia Title and Registration Information System Inventory Report that shows current inventory on hand at the time of your audit. This report will be used to reconcile with upon completion of your audit.
- The day before you take the inventory audit, sort and arrange your inventory -- license plates, T-serial plates, temporary operating permits, decals -- by type and series. You may pre-audit any inventory that will not be used the day you conduct this audit.
- Do a physical count of all inventories on hand:
 - o plates
 - T-serial Plates

- temporary operating permits
- decals (registration cards)
- o disabled person permits
- Enter inventory count on the Tag Inventory Report by plate type with beginning and ending series numbers
 and total quantity. Feel free to use additional pages if necessary. Prestige license plates
 (passenger/motorcycle) must be recorded individually on a separate sheet and attached to the inventory
 report.
- After the physical count is completed, the County Tax Commissioner should sign their name on the front of the inventory report "Approved by" block.
- Make copies of the report for your records.
- Verify inventory levels in Georgia's Title and Registration Information System.

4. Electronic Funds Transfer (EFT)

In an effort to streamline business processes and increase efficiency surrounding our customer service initiatives, the Motor Vehicle Division encourages counties to participate in the Electronic Funds Transfer (EFT) program. The EFT program allows counties to submit payments by transferring funds from their bank accounts directly to the Department of Revenue. Please note, this is not giving the Department of Revenue permission to pull funds from county accounts, and counties remain in control of when and how much they submit each reporting period.

5. Security Recommendations

Inventories of license plates, decals, temporary operating permits (TOPs), county name decals, registration cards, and T-serial plates must be secured in storage at all times. The County Tax Commissioner is responsible for ensuring that all inventory is stored securely to avoid theft or fraud.

The most desirable type of security storage is a safe where the combination is known only to one or two <u>County Tag Office</u> employees. The next most desirable secure storage area is a locked wall cabinet where the keys are controlled by one or two <u>County Tag Office</u> employees. The next acceptable type of secure storage area is a locked storage room where the keys are controlled by one or two <u>County Tag Office</u> employees. Access to the secure storage area would be limited to the <u>County Tag Office</u> employees who have been approved by the County Tax Commissioner. Several examples of unacceptable storage arrangements are as follows:

- License plate boxes stacked in the courthouse hallway.
- License plate boxes stacked in the reception room of the <u>County Tag Office</u>.
- License plate boxes stacked behind the counter in the County Tag Office.
- Registration card boxes stacked behind the counter or on top of the counter in the County Tag Office.
- License plate boxes and/or registration card boxes stored in a county warehouse that is not separately secured and is accessible to county employees and others.
- License plate boxes and/or registration card boxes stored in a supply room that is uncontrolled and/or unattended.

The County Tag Office inventory must be secured and safeguarded at all times.

The un-issued decals, license plates, TOPs, county name decals, T-serial plates, and registration cards should be secured and safeguarded at the end of each business day. It is recommended that the cashier or employee designated to maintain control of the un-issued loose inventory record the un-issued serial number in each series of license plates, decals, registration cards, TOPs and T-serial plates at the end of each business day.

Upon opening for business the next day, the unused inventory should be verified against the previous day's records prior to release to the counter. This method will enable the <u>County Tag Office</u> employee to determine if any inventory is missing or otherwise unaccounted for.

The county tag agent is responsible for the box contents whenever the seal is broken and/or the box is opened. A county tag agent employee should verify the contents of the box whenever the seal is broken and/or the box is opened. If any of the contents of a box is missing or determined to be un-saleable, the items should be entered into Georgia's Title and Registration Information System database as "M" for missing or "D" for damaged. In the situation where the boxes are opened and screened immediately upon receipt, missing or un-saleable items must be reported to the license plate vendor. Also, the missing or un-saleable items must be recorded on the boxes prior to being put into inventory. The County Tag Office employee screening the box contents should always initial and reseal the box.

6. Reporting and/or Surrendering Georgia License Plate (Tag)

When a license plate is being surrendered because of a court order, repossession, abandoned/derelict, or salvage vehicle, Form T-158 Report of and/or Surrender of Georgia License Plate must be submitted. The form

must be properly completed as follows or it will be returned.

- **Section 1**: Show the complete mailing address of the company and the name of the authorized agent surrendering the license plate. Check the appropriate box under "Reason for Report". You will be either surrendering a license plate or declaring that there was "no license plate" on the vehicle. Check only one box.
- Section 2: These are the only acceptable reasons for surrendering a license plate and/or making a report of a surrender of a license plate.
- Section 3: Show the complete vehicle and license plate information. The full and complete identification number of the vehicle must appear or the form will be returned for this information. If **no** Georgia license plate is submitted, do not show a license plate number.
- Section 4: Check the appropriate method of delivery to the local County Tag Office.
- **Section 5**: This form must be signed by the authorized representative of the company surrendering the license plate.

Once the returned license plate is entered in Georgia's Title and Registration Information System database, it is boxed and sent for secure destruction and cannot be retrieved.

Registration/Title Applications, Supporting Documents, and Money Collected

All county tag agents in this state accepting registration/title applications shall endeavor to submit to the Department of Revenue, Motor Vehicle Division, on at least a weekly basis reports of the license plate applications accepted. These reports shall be accompanied by the total monies due the state and any related applications/documents (when required). Payment should be with EFT, check or money order for the total amount due the state made payable to the Department of Revenue. These reports, payments and related applications/documents must be submitted to the Department of Revenue's Motor Vehicle Division within seven calendar days from the close of the business week during which the registration/title applications were handled and the related sums of money received. Business week shall mean Monday through Friday or Saturday, if applicable.

The following penalties shall be imposed if the County Tax Commissioner fails to submit the reports or monies due the state within the required timeframe:

10 percent of the amount due the state; plus,

Interest at the Prime Rate plus 3 percent per month from the date the money is due until the date the
money is paid. Any period of less than one month shall be considered as one month. Ref: O.C.G.A §§
40-2-34 and 48-2-44

.

8. Request for Extension

Before the expiration of the filing period for a license plate or title report with the Department or the related money remitted to the Department, the County Tax Commissioner may submit a request for an extension to the director of the Motor Vehicle Division. This request must include the reason for the delay in submitting. Upon receipt of the request showing a justifiable cause, the director is authorized to extend the deadline for up to 30 days. Only one such extension may be granted.

9. County Tag Agent Fees

County Tax Commissioners may retain a \$1.00 agent's fee for each registration or renewal/revalidation decal issued during any calendar year unless the license plate is a free license plate or one where the law specifically states an agent's fee cannot be retained. If no license plate fee is required for the issuance of the registration/renewal decal, then the County Tax Commissioner cannot retain an agent's fee.

County Tax Commissioners may retain 50¢ for each title application received when an \$18.00 original title fee or an \$8.00 replacement title fee is collected. When no title fee is required, County Tax Commissioners cannot retain an agent's fee. Ref: 0.C.G.A. §§ 40-2-33 and 40-3-39

.

Section I - Insurance

Motor vehicle owners and lessees are required by law to maintain continuous Georgia liability insurance coverage on vehicles with active registrations. Driving a vehicle while the registration is suspended, revoked, or canceled is a criminal offense. Additional penalties will apply if convicted of driving a vehicle with a suspended or canceled registration.

The state has an insurance database, the Georgia Electronic Insurance Compliance System (GEICS), an online tool for law enforcement and <u>County Tag Office</u> personnel to check the insurance status of any vehicle registered in the state of Georgia.

The insurance status of any vehicle registered in the state of Georgia can be checked thru DRIVES e-Services.

1. Owner's/Lessee's Responsibilities

An owner or lessee of a motor vehicle must have acceptable proof of Georgia liability insurance to be able to:

- Legally drive the vehicle;
- · Register and obtain a Georgia license plate; and

Renew, replace, or transfer their existing Georgia license plate.

Non-motorized vehicles like trailers, campers and so forth, and <u>vehicles exempt from registration</u> in this state like snowmobiles, bicycles, mopeds, all-terrain vehicles, golf carts and so forth, do not require insurance. See the information in this manual under the heading "<u>Vehicles Exempt from Registration</u>" to view a list of vehicles exempt from registration in this state.

2. Incorrect Vehicle Identification Number (VIN)

The vehicle identification number (VIN) on your vehicle, your insurance policy information card and your vehicle's current registration receipt and title must match.

If your insurance policy information card does not reflect your vehicle's correct and complete VIN, please contact your insurer immediately since only your insurer can add, delete, or modify information on the insurance database.

If your registration certificate (tag receipt) and title do not reflect your vehicle's correct and complete VIN, please contact the <u>County Tag Office</u> where the owner resides immediately for assistance in obtaining a new registration receipt and/or title showing the correct information.

3. Insurance Related Penalties/Fines

Georgia law requires a motor vehicle to be continuously insured. The Department of Revenue is required by law to suspend and/or revoke the registration of any motor vehicle that is not continuously insured with Georgia mandatory liability insurance.

The insurer must electronically transmit insurance information to the GEICS insurance database within 30 days of the date the coverage is to begin. Insurers must also electronically transmit insurance information pertaining to terminations of vehicle liability insurance coverage to the insurance database.

4. Lapse in Coverage

A lapse in coverage means 10 or more days during which the records of the Department do not reflect that a motor vehicle was insured by a policy of minimum liability insurance. If there is a lapse in coverage, a 30-day Notice of Pending Suspension letter will be mailed to the vehicle's registered owner advising the owner that their vehicle's registration is subject to suspension. This letter will include what is required to avoid suspension and fines.

If the lapse fee is not paid within 30 days of the Notice of Pending Suspension letter's date, the vehicle's registration will be suspended. To cancel the suspension, the vehicle owner must pay the \$25.00 lapse fine and a \$60.00 reinstatement fee. The vehicle owner is eligible to cancel their vehicle registration to avoid the fines and fees under the following circumstances:

- Vehicle is registered in another state
- Vehicle was sold or traded to a dealer
- Vehicle was repossessed, stolen, wrecked, salvaged by an insurance company, or junked
- Vehicle is inoperable or stored and used seasonally for agricultural or other purposes

The vehicle owner may submit a completed <u>Form MV-18J Application for Voluntary Registration Cancellation</u> along with proof to the <u>County Tag Office</u> where the owner resides.

Lapse and reinstatement fines can be paid online using <u>DRIVES e-Services</u>, at the <u>County Tag Office</u> where the owner resides, or by mail. Driving a vehicle with a canceled, suspended or revoked registration is a criminal offense and may result in the impoundment of the vehicle by law enforcement.

5. Notice of Insurance Termination

When a Notice of Insurance Termination is electronically transmitted to the Department's insurance database, the transmitted vehicle identification number (VIN) is cross-referenced with the VIN stored on the Department's registration and title database. If the transmitted VIN matches the VIN on the registration or title database, the insurer will be given 30 days to electronically transmit new liability insurance information to the insurance database.

6. New Insurance Information Received – No Lapse in Coverage

If new insurance information is received within the 30-day period allowed and there is no lapse in coverage, a valid insurance indicator will remain on the vehicle's record. A lapse means 10 or more days during which the records of the Department do not reflect that a motor vehicle was insured by a policy of minimum motor vehicle insurance.

7. New Insurance Information Received - Lapse in Coverage

If new insurance information is **not** received within the 30-day period and there is a lapse in coverage, a valid insurance indicator will **not** remain on the vehicle's record. A lapse means 10 or more days during which the records of the Department do not reflect that a motor vehicle was insured by a policy of minimum motor vehicle insurance.

If the lapse fine is not paid within 30 days of the Notice of Pending Suspension letter's date, the vehicle's registration will be suspended. To cancel the suspension, the vehicle owner must pay the \$25.00 lapse fine and a \$60.00 reinstatement fee. The vehicle owner is eligible to cancel their registration to avoid the fines and fees under the following circumstances:

- Vehicle is registered in another state
- Vehicle was sold or traded to a dealer
- · Vehicle was repossessed, stolen, wrecked, salvaged by an insurance company, or junked
- Vehicle is inoperable or stored and used seasonally for agricultural or other purposes.

The vehicle owner may submit a completed <u>Form MV-18J Application for Voluntary Registration Cancellation</u> to the <u>County Tag Office</u> where the owner resides along with proof.

Lapse and reinstatement fines can be paid online using <u>DRIVES e-Services</u>, at the <u>County Tag Office</u> where the owner resides, or by mail. Driving a vehicle with a canceled, suspended or revoked registration is a criminal offense and may result in the impoundment of the vehicle by law enforcement.

8. No New Insurance Information Received

If no new insurance information is received within the 30-day period allowed, the vehicle registration will be suspended or revoked. The registered owner should refer to their Pending Suspension Letter for instructions on how to reinstate their registration.

It is a criminal offense to drive a vehicle while the registration is suspended, revoked, or canceled and it may result in the impoundment of the vehicle by law enforcement.

9. Acceptable Proof of Insurance

Acceptable proof of insurance includes one of the following:

- Owned or leased vehicles Proof of insurance electronically submitted by owner's/lessee's insurance company directly to the Department's database. Access the <u>Insurance State Inquiry Application</u>.

- **Self-insured owners** A valid self-insured insurance card and a certificate of self-insurance issued by the Georgia Insurance and Safety Fire Commissioner.

A self-insurer is any owner who has on file with the Georgia Insurance and Safety Fire Commissioner's office an approved self-insurance plan. This plan provides coverage, benefits, and a claims handling procedure equal to those provided by an automobile liability insurance company. It should comply with all state laws, rules, and regulations.

Vehicles registered under the Georgia International Registration Plan (IRP) – A valid insurance policy
information card issued by an insurer licensed in Georgia in the registered owner's name and reflecting
the vehicle identification number (VIN). This card must be in the vehicle at all times while it is being
driven.

The Department of Revenue is required by law to:

- Suspend and revoke registration of any vehicle that does not have continuous Georgia liability insurance coverage
- Fine the vehicle owner/lessee \$25.00 for lapse in coverage while the vehicle is actively registered.
- Fine the vehicle owner/lessee up to \$160.00 in addition to the \$25.00 (if not paid within 30 days)
- Not allow renewal or reinstatement of the registration for any of the following:

- fines have not been paid
- o unresolved lapse in coverage
- o vehicle is not insured

Motor vehicle owners and lessees are required to:

- Maintain continuous Georgia liability insurance coverage on all registered vehicles
- Voluntarily cancel the vehicle registration immediately if the vehicle is not in service, using <u>Form MV-18J</u>
 Application for Voluntary Registration Cancellation
- Not drive or let anyone else drive a vehicle that does not have a valid vehicle registration and liability insurance coverage

If you, the vehicle owner, do not have acceptable proof of insurance as shown above, you will be unable to register your vehicle and purchase a Georgia license plate for it; unable to renew, replace or transfer your existing Georgia license plate; and subject to fines and vehicle impoundment by law enforcement.

If you allow someone else to drive your vehicle, you must provide the driver with acceptable proof of insurance as shown above and your valid insurance policy information card.

To avoid lapse and reinstatement fines, you must cancel your vehicle registration before canceling the vehicle's insurance.

D. Request for Waiver of Lapse/Reinstatement Fees

If a lapse fee and reinstatement fee were calculated in error for one of the following reasons, the vehicle's registered owner may submit a request to the <u>County Tag Office</u> where the owner resides that the fees be waived:

- The insurer did not transmit a valid insurance coverage record to the insurance database that resulted
 in a lapse fee and reinstatement fee being calculated. The insurer has now transmitted a valid insurance
 record showing that the vehicle has had continuous insurance coverage.
- A service member was deployed while the vehicle was uninsured and the vehicle was stored and not driven on public roads and highways of Georgia while the vehicle was uninsured.

<u>Form MV-18J Application for Voluntary Registration Cancellation</u> must be completed and signed. The applicable box must be checked indicating the reason why the vehicle was uninsured. All applicable spaces on the form must be completed. The form must be submitted to the <u>County Tag Office</u> where the owner resides. - Registered Vehicle Owner's Name

Failure to enter the information correctly will prevent your insurance status from being updated.

3. Insurer's Requirements

Insurers issuing liability insurance policies for motor vehicles in this state are required by law to electronically report insurance information to the department's insurance database within 30 days of the date the insurance coverage is to begin. Terminations, additions or deletions of vehicles from existing policies must also be electronically reported.

Vehicles registered in this state under the International Registration Plan (IRP), self-insured vehicles and fleet vehicles must have Georgia liability insurance but are exempt from the electronic reporting requirements.

A. Insurer Must Be Licensed

Insurers must be licensed with the Georgia Insurance and Safety Fire Commissioner's Office to be able to issue insurance policies in this state.

B. Insurer Must Register with the Department of Revenue

To be able to electronically transmit the required insurance records to the insurance database, the insurer must first register with the Georgia Department of Revenue. To register, the insurer must have a valid National Association of Insurance Commissioners (NAIC) number. The insurer may access the online registration site at https://mvd.dor.ga.gov/geics/Index.aspx. After successfully registering, the required login information to access the insurance database will be provided.

C. When Not to Transmit

Insurers should not electronically transmit insurance information for the following:

- Comprehensive coverage-only policies.
- Vehicles exempt from registration in Georgia, such as snowmobiles, bicycles, mopeds, all-terrain vehicles, golf carts, and so forth. To view a list of vehicles exempt from registration in Georgia, please see the information in this manual under the heading, 'Vehicles Exempt from Registration."
- Non-motorized vehicles, such as campers and trailers.
- Vehicles insured under a fleet vehicle insurance policy. See the definition of a "Fleet Vehicle Policy' in the Definition section in this manual.
- Vehicles registered in Georgia under the International Registration Plan (IRP).
- Self-insured vehicles. See the definition of "Self-Insurer" in the Definition section in this manual.

Licensed insurers with the Office of Insurance and Safety Fire Commissioner must electronically transmit information to the Department of Revenue's Insurance Database.

D. Additional Information on Insurer Requirements

For commercial vehicles registered under a commercial insurance policy, insurers must electronically report insurance information, as shown in the <u>GEICS Reporting Guide</u>.

- How does the GEICS insurance database work?
 - Vehicle identification numbers (VIN) electronically transmitted to the GEICS database are crossreferenced with the VIN on Georgia's title and registration information system.
 - If the VIN submitted matches the VIN in Georgia's title and registration information system, a valid insurance coverage indicator shows in the system on the vehicle record.
 - Law enforcement and <u>County Tag Offices</u> in this state have access to Georgia's Title and Registration Information System and can check insurance status.

- If the VIN submitted passes the Vehicle Identification Number Analysis (VINA) check but does not match a VIN in Georgia's Title and Registration Information System, the insurance information is re-processed for 30 days before being returned as an error.
- o Only insurers are allowed to add, delete, or edit information in GEICS.

Note: What is VINA? It is a program installed on the Department's databases that checks entered VINs against established VIN patterns provided by vehicle manufacturers.

- Insurance information cards are required to be issued to policyholders for each vehicle insured. The insurance information card must be in the vehicle at all times while the vehicle is in operation.
- The VINs must match. Motor vehicle owners are instructed to contact their insurer immediately when
 their insurance policy information card does not match the vehicle's complete and correct VIN, since any
 changes to GEICS would have to be made by the insurer. If the registration receipt does not match the
 vehicle's complete and correct VIN, the vehicle owner is instructed to contact the <u>County Tag Office</u>
 where the owner resides.

4. Child Support Registration Suspensions

The Division of Child Support Services (DCSS) suspends registration for nonpayment of child support. DCSS places the suspension on the vehicle registration and removes the suspension via DRIVES e-Services once legal requirements have been satisfied.

5. Road and Tollway Registration Suspensions

The State Road and Tollway Authority (SRTA) suspends registration for nonpayment of toll fines. SRTA places the suspension on the vehicle registration and removes the suspension via <u>DRIVES e-Services</u> once the fines in arrears have been settled.

6. Registration and Title Holds for School Bus Stop and School Zone Violations

Municipal authorities can place holds on registration renewals of vehicles when the owner fails to pay fines for passing a stopped school bus picking up or dropping off children or for speeding in an established school zone. This process puts a hold on the registration renewal and does not allow for the title to be transferred. The municipal authorities place the holds via DRIVES e-Services and remove the holds once the fines in arrears have been settled.

- Contain a delaminating feature that will, if removed, destroy the official TOP sticker.
- Repel commercially available inks and marking pens.

- Issuing multiple TOPs per vehicle, per buyer.

- Issuing TOPs to a demonstrator, or for an employee's use, or for transporting vehicles from one location to another.

H. Valuation of Motor Vehicles Subject to Taxation

The Georgia Revenue Commissioner is charged by law with the annual valuation of the motor vehicles subject to taxation in this state. The <u>Motor Vehicle Title Ad Valorem Assessment Manual</u> is prepared annually by the Georgia Department of Revenue and contains the official assessments and the assessment procedures that are used by <u>County Tag Offices</u>.

Newly purchased vehicles are exempt from sales and use tax and the annual ad valorem tax. Instead, these vehicles will be subject to a onetime <u>Title Ad Valorem Tax (TAVT)</u> that is based on the value of the vehicle. Additional registration or mailing fees may also apply.

Contacts

- Contact the <u>County Tag Office</u> where the buyer resides for questions about paying motor vehicle ad valorem taxes, registration and titles.
- Email motorvehicleinquiry@dor.ga.gov for questions about the valuation on your motor vehicle.
- Contact the Georgia Department of Revenue, Taxpayer Services Division for questions about ad valorem tax that can be deducted on your income tax return.

TAVT Quick Reference Guide for Dealers

- Dealers should collect the state and local Title Ad Valorem Tax (TAVT) fee from customers purchasing vehicles
 that will be titled in Georgia, unless an exemption applies. Payment of the TAVT provides an exemption from
 sales tax on the motor vehicle and the buyer will also be exempt from the annual ad valorem tax, or "birthday
 tax."
- TAVT should be collected by the dealer and submitted, along with the application for certificate of title <u>Form MV-1 Tag and Title Application</u>, to the <u>County Tag Office</u> where the buyer resides.
- The TAVT and application for title must be received by the <u>County Tag Office</u> within 30 days of the date of purchase or a late penalty will be assessed against the dealer. Additional dealer penalties accrue every 30 days during which the TAVT and title application have not been submitted.
- Generally, the TAVT is calculated by multiplying the applicable rate times the fair market value (FMV), as
 defined by law.

FMV is defined differently depending on whether the vehicle is new, used, leased, or meets the requirements for a seller-financed (Buy Here Pay Here) sale.

- For a new motor vehicle, the retail selling price, less any reduction for the trade-in value of another motor vehicle and any rebate.
- For a used motor vehicle, other than under a seller financed sale arrangement, the retail selling price of the motor vehicle, less any reduction for the trade-in value of another motor vehicle.
- For a used motor vehicle purchased under a seller financed sale arrangement, FMV is the value listed in the Motor Vehicle Title Ad Valorem Assessment Manual. If the value is not listed in the manual, FMV is the "average trade in" value provided by the National Automobile Dealers Association (NADA) from January of the current year minus any trade in value of another motor vehicle. Only dealers registered with the DOR as directly financed dealers (using Form MV-DF1) can conduct a "seller financed sale arrangement" for these purposes.

Leases:

- o In the case of a motor vehicle that is leased to a lessee for use primarily in the lessee's trade or business and for which the lease agreement contains a provision for the adjustment of the rental price as described in Code Section 40-3-60, the agreed upon value of the motor vehicle less any reduction for the trade-in value of another motor vehicle and any rebate.
- o For all other leases, the total of the Depreciation plus any Amortized Amounts pursuant to the lease agreement, plus any down payments.

The retail selling price shall include any charges for labor, freight, delivery, dealer fees and similar charges, tangible accessories, dealer add-ons, and mark-ups, but shall not include any federal retailers' excise tax or extended warranty, service contract, maintenance agreement, or similar products itemized on the dealer's invoice to the customer or any finance, insurance, and interest charges for deferred payments billed separately.

The term "any down payments" as used in this subparagraph shall mean cash collected from the lessee at the inception of the lease which shall include cash supplied as a capital cost reduction, shall not include rebates, noncash credits, or net trade allowances, and shall include any upfront payments collected from the lessee at the inception of the lease except for taxes or fees imposed by law and monthly lease payments made in advance.

- The TAVT rate is variable and may go as high as 9 percent.
- Leased vehicles are subject to TAVT upon application for certificate of title. Thereafter, the monthly lease payments are exempt from sales and use tax. Leased vehicles are also thereafter exempt from annual ad valorem tax.
- Dealers should not collect Georgia sales tax or TAVT from buyers residing in other states who are required to apply for title and/or license plate in their state of residence.

State and Local Title Ad Valorem Tax (TAVT) Fee Questions and Answers

For the purpose of TAVT, what is a "lease" and what is a "rental"?

Under O.C.G.A. § 48-5C-1, a "lease" is any transfer of possession or control of a motor vehicle for a term lasting more than 31 consecutive days for consideration. A "rental" is any transfer of possession or control of a motor vehicle for a term lasting 31 consecutive days or fewer.

To which vehicles and titles does TAVT apply?

TAVT applies to any motor vehicle for which a Georgia title is issued, unless an exemption applies. If it is a motor vehicle for which no title is required, then TAVT does not apply. Likewise, if there is a vehicle that has a title but it is not a *motor* vehicle, then TAVT does not apply. For those vehicles that are not subject to TAVT, ordinary sales and use tax rules still apply.

The following are examples of vehicles that do not qualify as a "motor vehicle for which a title is issued" and thus would not be subject to TAVT:

- Pull-behind trailers
- Pull-behind campers
- Any motor vehicle for which a title is not issued such as:
 - Vehicles manufactured prior to 1963 (these vehicles are not eligible to receive a Georgia title)
 - 1963-1985 model year vehicles that do not have a Georgia title (these vehicles may have a Georgia title but are not required to in all cases)

There are certain types of titles that are exempt from TAVT:

- Titles being corrected, replaced, or reissued to the same owner
- Addition or substitution of lienholders on the title so long as the owner of the motor vehicle remains the same
- Bonded titles pursuant to 0.C.G.A. § 40-3-28 issued to registered Georgia dealers
- Titles issued pursuant to the foreclosure of a mechanics lien in O.C.G.A. § 40-3-54
- Titles issued to certain persons acquiring abandoned vehicles under Chapter 11 of Title 40
- Titles issued to an insurance company paying out a claim on a stolen vehicle under O.C.G.A. § 40-3-43
- Titles issued to a registered rebuilder, retail dealer, or manufacturer for the purpose of resale
- Titles issued pursuant to the foreclosure of a security interest in the name of the security interest holder pursuant to Part 6 of Article 9 of Title 11
- Motor vehicles titled in Georgia on which the TAVT has been paid and the owner subsequently moves out of state, but later returns and retitles the same motor vehicle in Georgia with no changes in ownership
- Titled vehicles registered under the International Registration Plan (IRP)

Likewise, there are certain types of buyers who are exempt from TAVT:

- Government entities
- Certain veterans

What is the Fair Market Value (FMV) of the motor vehicle?

The FMV is defined by statute in different ways depending on whether the vehicle is new or used and what type of valuation data is available for the vehicle.

How is FMV determined on a new motor vehicle?

The dealer should compare the retail selling price (or in the case of a lease, effective January 1, 2022, the total of the depreciation plus any amortized amounts, pursuant to the lease agreement, plus any down payments, prior to January 1, 2022 the total of the base payments pursuant to the lease agreement would be considered) and the value listed in the Motor Vehicle Title Ad Valorem Assessment Manual. The greater of these two values is the starting point. For most new car transactions, the retail selling price if purchased, or, if leased, the total of the base payments pursuant to the lease agreement, will be higher than the assessment manual value. After the higher amount is determined, that amount is reduced by any trade-in value and any rebate or cash discount offered by the selling dealer at the time of the sale (manufacturer rebates provided after the time of the sale do not qualify). The remaining balance is the FMV.

The retail selling price if purchased, or the total of the base payments if leased, includes any charges for labor, freight, delivery, dealer fees, and similar charges and dealer add-ons and mark-ups, including any charges necessary to complete the sale such as doc fees and ETR transaction fees. Retail selling price if purchased, or the total of the base payments if leased, does not include any extended warranty or maintenance agreement itemized on the dealer's invoice to the customer or any finance, insurance, and interest charges for deferred payments billed separately.

For the Fair Market Value of a new motor vehicle, what items are considered part of taxable base for the "retail selling price" or, in the case of leases, the "base payments pursuant to the Lease Agreement"? Which items are not?

The retail selling price if purchased, or the total of the base payments pursuant to the lease agreement (effective January 1, 2018) if leased, is meant to mirror the taxable base that was formerly used for purposes of sales tax.

Items that would be considered part of the retail selling price if purchased, or if leased, the total of the depreciation plus any amortized amounts, pursuant to the lease agreement, plus any down payments, include, but are not limited to the following:

- Sale price of the vehicle
- Labor charges
- Freight charges
- Delivery charges
- Dealer fees including doc fees and electronic title and registration (ETR) fees
- Transaction fees
- Dealer add-ons and mark-ups
- Lease acquisition fee (for leases only)

Items that would **not** be considered part of the retail selling price if purchased, or if leased, the total of the depreciation plus any amortized amounts, pursuant to the lease agreement, plus any down payments, include, but are not limited to, the following:

- Extended warranty or maintenance agreement itemized on the invoice
- Finance, insurance, and interest charges for deferred payments billed separately

Remember that for a dealer sale, the retail selling price if purchased, or the total of the depreciation plus any amortized amounts, pursuant to the lease agreement, plus any down payments is reduced by the trade-in value and any rebate or cash discount taken by the selling dealer at the time of sale to calculate the FMV.

Where can I find motor vehicle values listed in the Motor Vehicle Title Ad Valorem Assessment Manual?

At our website at https://dor.georgia.gov/motor-vehicles

How is Fair Market Value determined on a used motor vehicle sold by a dealership?

For a used motor vehicle, the FMV is the value listed in the Department of Revenue Motor Vehicle Assessment Manual, with a reduction for trade-in value since it is a dealer sale. If the vehicle is not listed in the assessment manual, use the **greater** of the value listed on the bill of sale or the NADA base "average trade-in" value from January of the current year, and then take a reduction for the trade-in value from the value that is used since it is a dealer sale.

How is Fair Market Value determined on a *used* motor vehicle sold by someone other than a dealership?

For a used motor vehicle sold by someone other than a dealership, the FMV is the value listed in the <u>Motor Vehicle Title Ad Valorem Assessment Manual</u>, with no reduction for trade-in value. If the vehicle is not listed in the assessment manual, use the **greater** of the value from the bill of sale and the NADA base "average trade-in" value from January of the current year. No reduction for trade-in value is allowed in a non-dealer sale.

I am selling a used car that is listed in the <u>Motor Vehicle Title Ad Valorem Assessment Manual</u>. What amounts are included when determining the Fair Market Value?

The amount that is relevant for purposes of determining FMV is only the value listed in the assessment manual, with a reduction for trade-in as part of a dealer sale. Even if the car is sold with upgrades or the selling price is higher than the assessment manual value, the only value that should be utilized is the value listed in the manual. As part of a dealer sale, there should also be a reduction for any trade-in value.

I am selling a used car that is not listed in the <u>Motor Vehicle Title Ad Valorem Assessment Manual</u>. What amounts are included when determining the Fair Market Value?

In this case, the FMV is the higher of the value from the bill of sale or the base "average trade-in" value provide by NADA from January of the current year. When determining the "value from the bill of sale," you must include the price of the motor vehicle plus any other items sold with the vehicle that **add actual value** to the vehicle. For example, if the customer adds a roof rack or a stereo, the price of both items must be included in the "the value from the bill of sale." On the other hand, the doc fee would not be included in "the value from the bill of sale" because a doc fee does not add actual value to the vehicle.

If NADA value is used, consider only the NADA value and the other items should not be considered.

In either case, as part of a dealer sale there should also be a reduction for any trade-in value allowed from the value that is used to determine the FMV.

What items are considered to add actual value to the vehicle for the purposes of determining Fair Market Value of a used car when the value is not listed in the <u>Motor Vehicle Title Ad Valorem Assessment Manual</u> and the "value from the bill of sale" is being used? What items are not considered?

Items that would be considered to add actual value are those items that become part of the vehicle and include, but are not limited to, items such as the following:

- Bed liners
- Floor mats
- Lights
- Leather seats
- Rims
- Roof racks
- Stereo equipment
- Tires

Items that would **not** be considered to add actual value to the vehicle include, but are not limited to, the following:

- "Doc fee" or other similar types of processing and service fees such as ETR fees
- Financing or interest charges
- Fuel or similar substances that will be depleted during the use of the vehicle such as gas, oil, wiper fluid, nitrous oxide (NOS), etc.
- Lemon law fees or any other federal, state, or locally mandated fees
- Trinkets or prizes such as shirts, key chains, coffee mugs, etc.

If a vehicle taken in trade is subject to an installment note with a balance, what is the correct trade-in value?

The allowance for another motor vehicle taken in trade is made without a deduction for liens, in the same manner as was previously done for sales tax.

What is the rate of the TAVT?

The rate is variable and can go as high as 9 percent.

How is TAVT liability calculated for a motor vehicle?

After determining FMV, the TAVT liability is calculated by multiplying the FMV by the TAVT rate in effect on the date of purchase. Remember that the vehicle value utilized for the calculation is different depending on whether the vehicle is new or used as well as what valuation data is available (see information on valuation above).

- For a new motor vehicle purchased from a dealer, the formula is expressed as follows: (vehicle value minus trade-in value minus dealer rebate minus cash discount) multiplied by rate equals TAVT
- For a used motor vehicle purchased from a dealer, the formula is expressed as follows: (vehicle value *minus* trade-in value) *multiplied by* rate *equals* TAVT

 For a used motor vehicle in a non-dealer sale, the formula is expressed as follows: Vehicle value multiplied by rate equals TAVT

How does the sale and use tax exemption apply?

When the customer pays the TAVT, they are exempt from sales and use tax on the vehicle purchase transaction. If a customer has an explicit TAVT exemption provided in O.C.G.A. § 48-5C-1, such as a disabled veteran's exemption, they are also exempt from sales and use tax on the vehicle purchase transaction. The sales and use tax exemption applies to the sale of the motor vehicle itself as well as those items that add actual value to the same motor vehicle. Generally, this means that most items on the same bill of sale for a particular motor vehicle at the time of the same transaction, where the TAVT is paid or where there is an explicit TAVT exemption provided in O.C.G.A. § 48-5C-1, will be exempt from sales and use tax. The exemption from sales and use tax also applies to items other than the motor vehicle that would have been considered part of the taxable base for sales tax purposes, such as the "doc fee."

Each vehicle must be considered separately, so a second vehicle on the same bill of sale must be looked at separately to determine what tax applies.

The sales and use tax exemption for items that become a part of the vehicle does not extend or apply to other items purchased in the same transaction that do not become part of the vehicle. For example, if a customer purchases a car where the TAVT is paid and also buys 10 tires, the tires affixed to the car would not be subject to sales tax, but the other tires would be subject to sales tax.

For the IRP exemption from TAVT, the extent to which the vehicle registered under IRP will also receive an exemption from sales and use tax is determined by O.C.G.A. § 48-8-3(33)(A).

Is the Transportation Special Purpose Local Option Sales Tax (TSPLOST) also exempted from a motor vehicle sale?

Yes. The sale, purchase, or lease of a motor vehicle where TAVT has been paid or where there is an explicit exemption from TAVT in O.C.G.A. § 48-5C-1 is also exempt from all sales and use tax, including TSPLOST.

How is TAVT remitted to the county and the state?

Effective January 1, 2018, all dealer transactions, including TAVT payments, are required to be submitted electronically (online) via the Georgia Electronic Title and Registration system.

Does the dealer remit a monthly TAVT return similar to sales and use tax?

No. The TAVT is calculated on a vehicle-by-vehicle basis and must be paid, and the application for title submitted, within **30 days** of the date of purchase.

Is the dealer required to collect and remit the TAVT and title application to the county?

Yes

What happens if the dealership is not able to submit the application for title and/or the TAVT to the county of residence within 30 days of the date of purchase?

A penalty of 5 percent of the TAVT liability will be assessed on the dealer for any application and/or TAVT that is not submitted to the <u>County Tag Office</u> where the buyer resides within 30 days from the date of purchase.

Are there any other late penalties after 30 days?

Yes. If the TAVT is not submitted within 60 days of the date of purchase, the dealership will be assessed a penalty equal to 10 percent of the TAVT. A penalty of 15 percent of the TAVT will be assessed if the TAVT is not submitted within 90 days. A penalty of 20 percent of the TAVT will be assessed if the TAVT is not submitted within 120 days. Thereafter, an additional penalty of 25 percent of the TAVT will be imposed if the payment is submitted more than 150 days late.

What is the "date of purchase" for the purpose of determining the penalty deadlines?

The date of purchase is the date reported on Form MV-1 Tag and Title Application.

Circumstances When Sales and Use Tax May Still Apply

What sales are exempt from sales and use tax?

The exemption from sales and use tax applies to the sale or purchase of a motor vehicle as well as to fees and other items which are part of the contract for sale of a motor vehicle.

Are lease payments also exempt from sales and use tax?

Yes. For leases of a motor vehicle for longer than 31 consecutive days, the gross monthly lease charge is exempt from sales and use tax.

Since most of my sales are now exempt from sales tax, can I exclude those sales from my monthly sales and use tax return?

No. Exempt motor vehicle sales must still be reported as non-taxable on your monthly sales and use tax return.

All of my sales are exempt from sales and use tax. Do I need to continue filing a monthly sales and use tax return?

Yes. Although you no longer return any sales tax, you must continue to file monthly sales and use tax returns for at least six consecutive months, after which you may be eligible to apply for a reduced frequency of filing. See Department of Revenue Rule 560-12-1-.22.

Will sales and use tax continue to apply to items like doc fees?

No. Ancillary charges such as doc fees incurred as part of the contract for purchase of a motor vehicle will be exempt from sales and use tax. However, for a new motor vehicle, such charges and fees are included in the retail selling price when determining the amount subject to TAVT.

Does sales and use tax still apply to sales of tangible personal property and services if no motor vehicle sale takes place?

Yes. If the item of tangible personal property or service is not transferred in the course of a motor vehicle sale, the general rules of sales and use tax apply. For example, the parts used to repair a customer's vehicle are subject to sales and use tax.

Are parts used in the non-warranty repair of motor vehicles subject to sales and use tax?

Yes. The parts used to repair a customer's vehicle are subject to sales and use tax. If the charges for parts and labor are itemized on the customer's invoice, only the charges for parts would be subject to the tax.

Is repair labor subject to sales and use tax?

Repair labor that is separately stated on the invoice is not subject to sales and use tax. Repair labor that is not separately stated is subject to sales and use tax.

Are repairs covered under a manufacturer's factory warranty subject to sales and use tax?

No. Sales and use tax is not due for parts used in repairs covered by a manufacturer's factory warranty regardless of whether the vehicle was subject to sales tax or TAVT when sold.

Are repair charges paid by an insurance company or under an extended warranty subject to sales tax?

The parts used in the repair are subject to sales tax, but the repair labor is not taxable if separately stated on the invoice.

Are customer charges for shop supplies used to repair a motor vehicle subject to sales and use tax?

Yes, a charge for shop supplies, when separately stated on a dealer's invoice to the customer, is subject to sales and use tax. Therefore, a dealer may purchase these items under terms of resale through the issuance of properly executed Form ST-5 Sales Tax Certificate of Exemption because the dealer will later collect sales tax from the customer. However, in the event a dealer does not separately itemize and charge customers for shop supplies, a dealer must pay tax on its own purchase of such supplies or accrue use tax on such items.

Is a charge for a wheel alignment or tire rotation subject to sales and use tax?

No. Only items of tangible personal property are subject to sales and use tax. Labor is therefore not subject to the tax. Charges for labor must be separately stated on the invoice.

Are parts used to recondition a new or used vehicle for resale subject to sales and use tax?

No. Use of parts to recondition a dealer's vehicle for resale is treated as a sale of parts for resale purposes. See Department of Revenue Rule 560-12-2-.009(7).

Is sales tax due on a free oil change?

No. However, the dealer accrues use tax based on the cost price of the materials used.

Is goodwill extended to a dissatisfied customer subject to sales tax?

Goodwill is considered a transaction where the company gives items to the customer without charge; no sales tax liability would be incurred by the customer. However, the dealership generally owes use tax on goodwill transactions based on the cost price of parts. A repair or service covered by a factory warranty is not considered a goodwill transaction and thus a dealership would not owe use tax on the parts used.

Does a dealer incur use tax on shop supplies?

It depends. A charge for shop supplies is subject to sales and use tax when separately listed on a dealer's invoice to the customer. Therefore, a dealer may purchase these items under terms of resale through the issuance of properly executed Form ST-5 Sales Tax Certificate of Exemption. However, in the event a dealer does not separately itemize and charge the customer for shop supplies, a dealer must pay tax on the purchase of such supplies or accrue tax on such items.

Is use tax due on paint used in a body shop?

Yes. When sales tax is not charged by the vendor, the paint, sandpaper, tape and brushes used to repair vehicles are treated as items used and not resold. The dealership would be liable for tax on the paint at the time of the dealer's purchase unless specifically itemizing the quantity, color and the price on the customer's invoice and collecting sales tax on such itemized sale of paint.

Does a dealer incur use tax for free oil changes or customer adjustments?

Yes. Generally, by furnishing the wholesaler with <u>Form ST-5 Sales Tax Certificate of Exemption</u>, the dealership can purchase oil, filters, and other repair parts exempt for resale and later charge the customer sales tax on those items. But when an oil change or an adjustment is provided at no charge to the customer, the dealer is treated as the user of the item and thus is liable for use tax at the cost price of the item.

Does a dealer incur any tax liability when a vehicle is sold with a "Tires for Life" allowance?

Yes. Even if the vehicle is subject to TAVT, a "tires for life" program or similar dealer-sponsored lifetime programs are not considered a resale of tires. Thus, the dealer is responsible for use tax at the cost price of the tires when a tire is withdrawn from inventory to be installed on a vehicle.

Is use tax due on promotional items given to prospective buyers?

Yes. Promotional items such as key chains, lighters and other items are not considered purchased for resale. A dealer incurs a use tax liability on the cost price of these items unless the supplier previously charged sales tax at the time of purchase.

Do dealers need to collect Form ST-5 Sales Tax Certificate of Exemption on sales of vehicles to wholesalers?

Yes, to verify the sales tax exemption on audit.

Leases

For the purpose of TAVT, what is the difference between a "lease" and a "rental"?

Under O.C.G.A. § 48-5C-1, a "lease" is any transfer of possession or control of a motor vehicle for a term lasting more than 31 consecutive days. A "rental" is any transfer of possession or control of a motor vehicle for a term lasting 31 consecutive days or fewer.

Are leased vehicles subject to TAVT?

Yes.

Is the lease or rental of an automobile subject to sales and use tax?

Rental charges are subject to sales and use tax based upon the county where the motor vehicle is to be registered; however, lease payments are exempt from sales and use tax. For rentals, the tax is computed on the gross rental charge.

Does sales and use tax apply to cash buy-downs?

No. A cash buy-down is treated as a cash payment rendered to lower a lease payment and, like lease payments, is exempt from sales and use tax.

Does sales and use tax apply to a manufacturer's rebate used to buy down a lease payment?

No. A manufacturer's rebate is treated as a cash payment rendered to lower a lease payment and, like lease payments, is exempt from sales and use tax. This is deemed to be the manufacturer paying for part of the vehicle on behalf of the buyer.

Is a buyout amount or purchase option at the end of a lease subject to sales and use tax?

No. However, because the title will be transferred to the lessee (who is now the buyer), the lessee will be liable for the TAVT at the time they apply for a certificate of title. A buy-out or purchase option of a lease, when exercised, is a purchase so long as title passes to the customer for consideration; thus, this transaction is exempt from sales and use tax because it is subject to TAVT.

Is a finance charge used to compute a lease payment subject to sales and use tax?

No. The finance charge is part of the lease payment and is therefore exempt from sales and use tax.

Is an amount charged for optional waiver of damage or insurance on a lease subject to sales and use tax?

No. A charge for an optional waiver of damage or insurance is not subject to sales and use tax.

Is a leased vehicle allowed to receive trade-in credit?

No. When trading in a leased vehicle, there is no allowable credit on the new purchase.

Rental Motor Vehicle Concerns

What is a "rental motor vehicle concern"?

"Rental motor vehicle concern" means a person or legal entity that owns or leases five or more rental vehicles and that regularly rents or leases such vehicles to the public for value. Certain rental motor vehicle concerns are eligible to pay a reduced rate of TAVT if the statutory requirements are met.

Can any company that rents motor vehicles qualify for a reduced rate?

No. Only those companies which average \$400.00 of sales tax per vehicle attributable to the "rental charge" of each vehicle are eligible. The term "rental charge" is defined to include only those amounts derived from rentals of 31 days or fewer. Therefore, only companies that regularly rent vehicles for 31 days or fewer will have eligible tax payments for the purpose of qualifying for this reduced rate. To qualify, the vehicle owner must rent at least five motor vehicles at all times.

(The averages described are based on the 12 months of business being conducted prior to submitting the application for review).

What is the reduced rate applicable for qualifying rental motor vehicle concerns?

Qualifying rental motor vehicle concerns will be eligible to pay at a rate of .625 percent for a state TAVT and .625 percent for a local TAVT, totaling a combined 1.25 percent TAVT rate for motor vehicle purchases. The reduced rate applies to a motor vehicle designed to carry 15 or fewer passengers and used primarily for the transportation of persons that is rented without a driver.

How does a rental motor vehicle concern qualify for the reduced rate?

Rental motor vehicle concerns that believe they qualify for the reduced rate must apply for certification. They must submit Form MV-15 Rental Certification Affidavit to the Georgia Department of Revenue along with any documentation required by the form. *Additional documentation may be requested on a case by case basis.* Failure to submit required documentation may result in the denial of certification.

Electronic Title and Registration (ETR)

What is ETR?

The Electronic Title and Registration service allows dealerships to process title and registration work electronically at the point of sale through <u>private vendors</u> that have been certified by the Department of Revenue for this purpose. The service allows for electronic payment of TAVT and electronic submission of title work. ETR is a tool for dealers to submit title applications and TAVT payments, thereby eliminating the need for submission by mail or in person to the various <u>County Tag Offices</u>.

Note: Effective January 1, 2018, pursuant to O.C.G.A. § 40-3-33(d), all dealer transactions, except for TAVT exempt transactions, are required to be submitted via ETR.

Can dealerships submit title applications and remit TAVT through ETR?

Yes. The ETR process provides a consolidated method of processing title applications and remitting TAVT payments electronically and remotely to the county where the vehicle will be registered.

However, a TAVT exempt transaction **cannot** be processed through ETR. Accordingly, a TAVT exempt transaction, such as certain disabled veterans' transactions, must be processed manually by the dealer. However, the reduced rate for an approved rental car concern may be processed through ETR.

Exemptions and Special Circumstances

* Out-of-State Buyers

Do I need to collect sales and use tax or TAVT from a buyer who is not a resident of Georgia and will be titling the vehicle in another state?

No. TAVT should not be collected because there will not be a Georgia certificate of title issued for the vehicle. Likewise, the so called "drive out" exemption for sales and use tax still applies to buyers who are residents of another state.

What documentation is the dealer required to collect for a customer who is an out-of-state resident?

The dealer should have the customer execute <u>Form ST-8 Certificate of Exemption for Nonresident Purchase of a Motor Vehicle</u> which the dealership should retain for audit purposes. Form ST-8 will suffice for the non-collection of both sales and use tax and the TAVT.

* Veteran's Exemptions

Which veterans are exempt from TAVT?

- Disabled veterans receiving a grant from the U.S. Department of Veterans Affairs to purchase and adapt a vehicle for their disability
- Disabled veteran having a service-related disability that renders such veteran as being 100 percent totally disabled or being less than 100 percent totally disabled but compensated at the 100 percent level due to individual unemployability.
- Disabled veteran who are entitled to a statutory award from the U.S. Department of Veterans Affairs for loss of certain faculties
- Former prisoners of war or their surviving spouse that has not remarried
- Purple Heart recipients
- Medal of Honor recipients

What does the county tag agent do if a buyer claims to be a veteran who is exempt from the TAVT?

The paperwork for these exemptions should be completed by the dealership and submitted along with the application for certificate of title to the <u>County Tag Office</u> where the vehicle will be registered. Even though these veterans are receiving an exemption from TAVT, they will still receive the same exemption from sales tax and annual ad valorem tax as those who are required to pay TAVT.

Can veteran exemptions be processed in conjunction with an ETR transaction?

No. For veteran exemptions provided on <u>Form MV-30 Affidavit for Relief of State and Local TAVT</u>, the dealer must do all title and TAVT work manually.

What paperwork must be completed for the veteran exemptions?

<u>Form MV-30 Affidavit for Relief of State and Local TAVT</u> contains the list of classifications of veteran exemptions. Form MV-30 should be completed and the box for the appropriate exemption claimed by the veteran should be checked. Any required supporting documentation should be included.

* Military Service Members Stationed in Georgia

Do nonresident military service members stationed in Georgia pay TAVT when they purchase a vehicle in Georgia?

Nonresident service members are subject to special rules due to the requirements of federal law. Please see <u>TAVT</u> Information Bulletin: Nonresident Service Members of the Armed Forces.

Do resident military service members stationed in Georgia pay TAVT when they purchase a vehicle in Georgia?

Yes. If a military service member is a Georgia resident, then the military service member will be subject to TAVT (unless they qualify for one of the exemptions above) and will receive the associated exemption from sales and use tax and annual ad valorem taxes. The dealer should collect the TAVT in accordance with the regular TAVT collection procedures in this manual.

* Purchases Made by a Governmental Entity

Do governmental entities pay TAVT when they purchase a vehicle in Georgia?

No. Motor vehicles purchased by state, county, consolidated government, municipality, independent school district or other governmental entities not otherwise subject to sales tax and annual ad valorem tax are not subject to TAVT.

What documentation is the dealer required to collect on a purchase made by a governmental entity?

The dealer should collect a copy of the purchase order showing that the purchase was made by a governmental entity. A copy of the purchase order should be submitted by the dealer to the <u>County Tag Office</u> where the buyer resides along with the application for certificate of title.

* Older Motor Vehicles

Are vehicles of model years 1962 or older subject to TAVT?

No. Under O.C.G.A. § 40-3-4, motor vehicles with model years 1962 or older are not issued a Georgia title. TAVT only applies to vehicles for which a title is issued. Therefore, no TAVT is due. These vehicles are subject to annual ad valorem tax. If purchased from a dealer, vehicles are also subject to sales and use tax.

Are sales of motor vehicles with model years 1962 or older subject to sales tax?

Yes. These vehicles are subject to sales and use tax because they do not fall under the requirements of O.C.G.A. § 48-5C-1.

Are vehicles of model years 1963 through 1985 subject to TAVT or sales tax?

It depends. Motor vehicles from model years 1963 through 1985 may or may not have a Georgia title.

If the dealership sells a vehicle that is not titled, then no TAVT should be collected and regular sales and use tax rules would apply. However, a motor vehicle from model years from 1963 through 1985 that does have a title will be subject to TAVT, and the dealership should collect TAVT in accordance with the regular TAVT collection procedures in this manual.

Any motor vehicle from model years 1986 or newer should have a Georgia title and will be subject to TAVT.

* Loaner Vehicles

Are loaner vehicles subject to TAVT?

A loaner vehicle, for purposes of TAVT, is defined as a vehicle owned by a dealer that is withdrawn temporarily from inventory for exclusive use as a courtesy vehicle. A courtesy vehicle can be loaned to a customer whose motor vehicle is being serviced by such dealer at no charge for a period not to exceed 30 days per customer.

The law provides that a loaner vehicle is not subject to TAVT for a period not to exceed 366 days. At the end of the 366-day period, if the dealer does not return the loaner vehicle to inventory for resale, the dealer is required to pay TAVT.

* Dealer Exemptions and Refunds

Can a dealer acquiring a title be exempt from TAVT?

In some instances, a dealer can be exempt from TAVT when acquiring a title in the name of the dealership. Please reference Form MV-66 Affidavit of Relief of State and Local TAVT. If the dealer qualifies for one of these exemptions, the executed Form MV-66 should be submitted to the County Tag Office where the buyer resides along with Form MV-1 Tag and Title Application.

Can a dealer request a refund for TAVT?

A dealer may submit <u>Form MV-33 TAVT Refund Request</u> to the <u>County Tag Office</u> where the buyer resides to request a refund of TAVT when applicable.

Examples

Calculating the Amount of Tax

In January 2014, Dealer and Customer agree to a purchase price of \$5,000, as listed on the bill of sale, on the sale of a used motor vehicle. The model year of the vehicle is 1988, and it is not listed in the Motor Vehicle Title Ad Valorem Assessment Manual. Customer has no trade-in and Dealer does not provide a rebate.

Because the vehicle is not listed in the assessment manual, Dealer must first determine the fair market value (FMV) under the alternative method provided by O.C.G.A. § 48-5C-1(a)(1)(B) for used motor vehicles. The Dealer must compare the NADA base "average trade-in" value from January of the current year with the value listed on the bill of sale, selecting the greater of the two values. Here, NADA provides a vehicle value of \$4,500. Therefore, dealer uses the value on the bill of sale which is \$5,000.

Next, the dealer calculates the TAVT by reducing the fair market value by any trade-in value and multiplying the balance by the TAVT rate. Here, there is no trade-in and the TAVT rate is 6.75 percent in 2014. Therefore, the Dealer calculates the TAVT by multiplying \$5,000 times 6.75 percent to reach the TAVT liability of \$337.50.

Sales Tax Exemptions

- Customer purchases a new car from Dealer with a sales price of \$20,000.
 - Adds a stereo system worth \$500, floor mats worth \$200, and a roof rack worth \$300.
 - o Dealer charges a doc fee of \$500.
 - o The value with the additions and doc fees results in a total cost to the customer of \$21,500.

The value listed in the <u>Motor Vehicle Title Ad Valorem Assessment Manual</u> is \$19,000 and there is no trade-in, rebate or cash discount.

Because this is a new car, the higher of the retail selling price or the value listed in the assessment manual should be used. Because the retail selling price is higher, the fair market value (FMV) for the vehicle is \$21,500. Customer will pay \$21,500 multiplied by the TAVT rate of 6.5 percent for that year, for a total of \$1,397.50 for the TAVT. No sales tax is due.

- Customer purchases a used car from Dealer with a sales price of \$20,000.
 - Adds a stereo system worth \$500, floor mats worth \$200, and a roof rack worth \$300.
 - Adds a dealer doc fee of \$500.

On the bill of sale, the price for the car with the upgrades and doc fee results in a total cost to the customer of \$21,500. The value listed in the Motor Vehicle Title Ad Valorem Assessment Manual_is \$19,000 and there is no trade-in. The FMV for the vehicle is \$19,000. Customer will pay \$19,000 multiplied by the TAVT rate of 6.5 percent for that year, or \$1,235 for the TAVT. No sales tax is due.

- Customer purchase a used car from the dealer with a sales price of \$20,000.
 - Adds a stereo system worth \$500, floor mats worth \$200, and a roof rack worth \$300.
 - Adds a dealer doc fee of \$500.

On the bill of sale, the price for the car with the upgrades and doc fee results in a total cost to the customer of \$21,500. There is no value in the Motor Vehicle Title Ad Valorem Assessment Manual for the vehicle. Since the car is a used vehicle and no value is listed in the assessment manual, the starting point is to use the higher of the value from the bill of sale or the NADA base "average trade-in" value from January of the current year.

The value from the bill of sale includes the vehicle itself and any additional items that add actual value to the vehicle, which in this example includes the stereo system, floor mats, and roof rack. Accordingly, the value from the bill of sale is \$21,000, the NADA value is \$18,000, and there is no trade-in. The value that should be used is the higher value from the bill of sale. Customer will pay \$21,000 multiplied by the TAVT rate of 6.5 percent for that year, or \$1,365 for the TAVT. No sales tax is due.

- Customer purchases a motor vehicle with an FMV of \$19,000, and a trailer with a purchase price of \$500. The TAVT only applies to motor vehicles and the sales tax exemption is only applicable when the TAVT was paid or where the vehicle is otherwise subject to O.C.G.A. § 48-5C-1 but has a specific exemption from TAVT. Therefore, TAVT of \$1,250 (\$19,000 multiplied by the applicable TAVT rate of 6.5 percent) must be collected by the dealer for the car, and the sale of the motor vehicle is exempt from sales tax. However, the trailer is not subject to TAVT and therefore is subject to sales tax.
- Customer purchases a motor vehicle for which the TAVT is paid. The same customer returns to the dealership two months later and buys new floor mats for the same car. The sale of the floor mats is a

separate and distinct transaction and is a sale of tangible personal property. Because the sale of the floor mats did not occur at the same time as the sale of the motor vehicle, the sale of the floor mats is subject to sales tax.

I. Frequently Asked Questions for Dealers and Customers

How is fair market value determined for a used motor vehicle?

- A used motor vehicle is any motor vehicle that has been the subject of a sale at retail to the general public.
- The fair market value for a used motor vehicle is the value identified in the Motor Vehicle Title Ad Valorem Assessment Manual. This value is calculated by averaging the current wholesale and retail values of the motor vehicle pursuant to O.C.G.A. § 48-5-442. Accordingly, the fair market value for a used motor vehicle for purposes of the TAVT will generally be the same as the value that was used in the old annual ad valorem tax system.
- A reduction is made for a trade-in when the sale was made by a dealer, but not when the sale was made by a private individual.

What if the used motor vehicle is NOT listed in the Motor Vehicle Title Ad Valorem Assessment Manual?

- If the vehicle is a used vehicle and not listed in the assessment manual, the fair market value will be the higher of
 - o the value from the bill of sale, or
 - o the value listed in a used car market guide designated by the Revenue Commissioner
- A reduction is made for a trade-in when the dealer makes the sale, but not when the sale is made by a private individual.

How is TAVT calculated?

- The TAVT is calculated by multiplying the fair market value by the rate in effect on the date of purchase. Current rates are available through the Online TAVT Calculator.
- A reduction is made for a trade-in when the sale was made by a dealer, but not when the sale was made by a private individual.

How is the trade-in value determined?

As defined in O.C.G.A. § 48-5C-1, the "trade-in value" is the value of the motor vehicle as stated in the bill of sale for a vehicle that has been traded in to the dealer in a transaction involving the purchase of another vehicle from the dealer.

Where do I apply for my title and pay TAVT?

- The application for title and TAVT payment must be submitted to the <u>County Tag Office</u> in which the buyer resides. The TAVT must be paid at the time application for title and registration are made.
- Effective January 1, 2018, if you purchase your vehicle at a dealership, the dealer must electronically submit the application for title and TAVT payment on your behalf.

Where do I go to transfer a title?

Title applications must be submitted to the County Tag Office where the buyer resides.

Can the fair market value of the vehicle be appealed?

Yes, the value can be appealed in the same manner as values for ad valorem tax purposes are appealed. The appeal takes place at the county level.

Can a vehicle be transferred to an immediate family member or inherited by an immediate family member without paying TAVT?

Whether a motor vehicle transferred to or inherited by an immediate family member will be subject to TAVT depends on whether the former owner has paid TAVT:

- If the former owner of the vehicle has not paid TAVT and was paying annual ad valorem tax on the vehicle, the new owner may choose to either:
 - o Continue paying annual ad valorem tax on the vehicle, and therefore not be subject to TAVT, or
 - At the time of transfer pay TAVT based on the fair market value of the vehicle at the applicable rate for the current year.
- If the vehicle is acquired from a family member who paid TAVT at the time they purchased the vehicle, then the new owner's TAVT rate will be 0.50 percent (one-half of 1 percent). In this case the new owner does not have the option to revert to the annual ad valorem system.

Note: Immediate family member is defined as a spouse, parent, child, sibling, grandparent, or grandchild and includes those who have obtained such status through a legal determination recognized in this state, such as step parent and stepchild.

What evidence is required to prove a family transfer or inheritance?

The transferor and transferee will have to complete and have notarized an affidavit affirming that such persons are immediate family members. Anyone who falsely attests shall be subject to a penalty up to \$5,000.

I am a new resident of Georgia. How does TAVT affect me?

Individuals moving to Georgia are required to register and title their motor vehicle in Georgia and must pay:

The TAVT within 30 days of moving to the state

Note: Lessees and businesses are required to pay the full TAVT at time of title application

What happens if TAVT is not timely remitted to the County Tag Office where the buyer resides?

- If the purchase is made at a dealership, the dealer has 30 days from the date of purchase to remit the title application and TAVT payment to the County Tag Office where the buyer resides. If remitted later than 30 days from the date of purchase, the dealer will begin to accrue penalties.
- For non-dealer sales, such as a casual sale, the buyer must remit the title application and TAVT payment to the County Tag Office where the buyer resides. If paid later than 30 days from the date of purchase, there is a penalty of 10 percent of the amount of the TAVT owed plus an additional 1 percent per month for every month late. Please note that motor vehicles purchased through a casual sale must be registered within seven days from the date of purchase, and the titling of the motor vehicle and payment of the TAVT should take place at that time.

I am a Georgia resident but I plan to buy a car in another state. Will I be required to pay TAVT when I title this motor vehicle in Georgia?

Yes.

I am not a Georgia resident but I plan to buy a car in Georgia. I will immediately drive it back to my home state and will be titling and registering the motor vehicle in my home state. Will I be required to pay TAVT?

No. Form ST-8 Certificate of Exemption for Nonresident Purchase of a Motor Vehicle should be executed to provide for the *drive out* exemption. You will not pay TAVT or Georgia sales and use tax but will be subject to the taxing rules of your home state. Please refer to Form ST-8 to ensure you qualify for this exemption.

Are leased motor vehicles subject to TAVT?

Yes.

What vehicles are NOT subject to TAVT?

TAVT does not apply to:

- Motor vehicles for which no title is required
- Vehicles that have a title but are not motor vehicles

Note: For those vehicles not subject to TAVT, sales and use tax and annual ad valorem tax may still apply.

The following are some vehicles that are not subject to TAVT:

- Pull-behind trailers
- Pull-behind campers
- Mopeds
- Any vehicle for which a Georgia title has not been issued, such as
 - o Vehicles manufactured prior to 1963 (these vehicles are not eligible to receive a Georgia title)
 - Vehicles from model years 1963 to 1985 that do not have a Georgia title (these vehicles may have a Georgia title but a title is not required in Georgia)

I have a motor vehicle with a model year between 1963 and 1985 and want to have it titled. Does TAVT apply?

Yes. Vehicles from model years 1963 to 1985 for which a title is issued are subject to a TAVT rate of 1 percent and will receive the associated sales-and-use tax exemption and the exemption from the annual ad valorem tax.

What other TAVT exemptions are available?

- Titles being corrected, replaced, or reissued to the same owner
- Additional or substitution of lienholders on the title so long as the owner of the motor vehicle remains the same
- Bonded titles pursuant to O.C.G.A. § 40-3-28 issued to registered Georgia dealers
- Titles issued pursuant to the foreclosure of a mechanic's lien under O.C.G.A. § 40-3-54
- Titles issued to certain persons acquiring abandoned vehicles under Chapter 11 of Title 40 of the Georgia Code
- Titles issued to an insurance company paying out a claim on a stolen vehicle under O.C.G.A. § 40-3-43

- Titles issued to a registered rebuilder, retail dealer, or manufacturer for resale
- Titles issued pursuant to the foreclosure of a security interest in the name of the security interest holder pursuant to Part 6 of Article 9 of Title 11 of the Georgia Code
- Motor vehicles on which the TAVT was paid and the owner subsequently moves out of state but later returns and retitles the same motor vehicle in Georgia
- Vehicles registered under the International Registration Plan

Are motor vehicles acquired by veterans exempt from TAVT?

The following veterans may be eligible to receive an exemption from TAVT:

- Disabled veterans receiving a grant from the U.S. Department of Veterans Affairs to purchase and adapt a vehicle for their disability
- Disabled veteran having a service-related disability that renders such veteran as being 100 percent totally disabled **or** being less than 100 percent totally disabled but compensated at the 100 percent level due to individual unemployability.
- Disabled veterans who are 100 percent disabled and entitled to receive service-connected benefits, or who are entitled to a statutory award from the U.S. Department of Veterans Affairs for loss of certain faculties
- Former prisoners of war or their surviving spouses that have not remarried
- Purple Heart recipients
- Medal of Honor recipients

I plan to donate my car to a nonprofit organization. Does the nonprofit organization have to pay TAVT when the title is transferred to its name?

If a vehicle is donated to a 501(c)(3) nonprofit organization for the purpose of being transferred to another person, then that organization shall only pay a TAVT rate of 1 percent of the fair market value of the motor vehicle when the vehicle is titled in the name of the nonprofit organization.

If I pay TAVT do I still have to register my vehicle every year and pay the license plate renewal fee? What other fees still apply?

You are still required to annually register your vehicle at the <u>County Tag Office</u> where you reside and pay:

- \$20.00 standard renewal fee, and
- Specialty license plate renewal fee, if applicable.

You must continue to maintain continuous liability insurance as required by Georgia law.

• If you live in one of the 13 emissions counties, the annual emissions test is still required prior to registration. See Appendix 3 - Emissions Inspection Requirements, Georgia.

J. When a Power of Attorney Can and Cannot Be Used

The Federal Truth in Mileage Act restricts the use of a <u>Form T-8 Limited Power of Attorney</u> between the seller and the buyer when making the odometer declaration and the acknowledgement of the declaration. The person signing as the seller and declaring the odometer reading **cannot** use a limited power of attorney to sign for the buyer acknowledging the odometer reading.

There is one exception. If a vehicle is transferred from the vehicle owner's name to the vehicle owner's company name or from the owner's company name to the owner's name, the owner can sign as both the seller and the buyer as long as an affidavit is submitted affirming the person as the sole owner of the company.

Powers of attorney and affidavits can only be signed by a natural person. A business cannot be appointed as an attorney-in-fact or give an affidavit. The power of attorney and all affidavits must include the full legal name of the person appointed.

General and "Limited" Powers of Attorney

- May be used to authorize another person to act on the grantor's behalf to complete, sign and/or pick up motor vehicle title and/or license plate registration documents.
- May not be used when the vehicle requires an odometer declaration on an acceptable secure document.
- May be used if the vehicle is exempt from the odometer declaration requirements and when someone other than the buyer is being appointed as the seller's attorney-in-fact.

Limited Power of Attorney and Dealer Sales

<u>Form T-8 Limited Power of Attorney</u> is limited in how it can be used when a vehicle is traded into a dealership and when an individual purchases a vehicle from a dealership. Please make note of the following scenarios to better understand the limitations of the limited power of attorney.

Trade-Ins

- The owner trades in their vehicle at a dealership. At the time of the trade-in, the owner has the title to the vehicle and assigns it to the dealership. There was no need for a Form T-8 Limited Power of Attorney since the owner completes this business transaction in person.
- The owner trades in their vehicle at a dealership. At the time of the trade-in, the owner does not have the title to the vehicle. It was lost or with the lienholder or security interest holder. The dealership requested that the owner sign Part A of Form T-8S Secure Power of Attorney. There was *no* need for a Form T-8 Limited Power of Attorney since the owner completes this business transaction in person.

Dealer Sales (Used Vehicle Trade-in)

- A customer is buying a used vehicle. They have cash and do not need to obtain a loan. At the time of
 purchase, the title is still with the previous owner's lienholder or security interest holder and as a result,
 the dealership will have the customer sign Part B of Form T-8S Secure Power of Attorney/Dealer
 Reassignment and a completed <u>Form MV-1 Tag and Title Application</u>. See <u>Instructions for completion of
 the MV-1</u>. There is no need for a limited power of attorney.
- The customer is obtaining a loan to buy a used vehicle. The title is available at the time of purchase; however, it is locked up and the sales representative does not have access to the title. The sales representative will have the customer sign the completed Form T-8S Secure Power of Attorney/Dealer Reassignment.

Form T-8S Secure Power of Attorney

Form T-8S Secure Power of Attorney/Dealer Reassignment contains language and security features recommended by the Federal Truth in Mileage Act to deter illegal reproduction and to help make alterations visible to the naked eye. Form T-8S is designed for use by dealerships to allow them to accept vehicles that have been traded in and to sell those vehicles when the title is not available at the time of transfer because it is lost or being held by a lienholder or security interest holder. This power of attorney is printed on security paper and provides language and spaces for an odometer declaration and an acknowledgment, which the other powers of attorney do not.

Secure Power of Attorney/Dealer Reassignment:

- Provides spaces for the seller to enter the odometer reading at the time of sale.
- Provides boxes for the seller to check when the entered odometer reading does not reflect the total actual miles the vehicle has traveled.
- Provides spaces for the seller to print and sign their name declaring the entered odometer information is correct.
- Provides spaces for the buyer to print and sign their name acknowledging the odometer disclosure made by the seller.
- Allows the appointed attorney-in-fact to apply for a replacement when the original title is missing.
- Authorizes the attorney-in-fact to transfer the odometer information exactly as shown on this form to the title when the title becomes available.

Form T-8S Secure Power of Attorney/Dealer Reassignment can only be used in the rare instances when the title is not available at the time of sale or transfer because the title is missing or is being held by the owners' lienholder or security interest holder. If the owner's title is available (i.e. at home in the owner's safe), a secure power of attorney cannot be used. In this case, the title should be retrieved and properly assigned to the buyers.

Part A: Form T-8S Power of Attorney to Disclose Mileage

Part A is designed for the current owner to appoint the dealership as their attorney-in-fact to sign all documents required to secure a title and to disclose the mileage on the title when it becomes available. Part A must reflect the current odometer reading, name and address of the current owner, and the name of the dealership. Both the current owner and a representative of the dealership must sign Part A.

Part B: Form T-8S Power of Attorney to Review Title Documents and Acknowledge Disclosure

Part B is only valid if Part A is completed. Part B does **not** always have to be completed, since it is possible for the title to be available at the time of transfer to a new owner. In Part B, the current owner will always be the dealership shown in Part A. The representative signing for the dealership in Part A does **not** have to be the same representative signing in Part B.

Part C: Form T-8S Certification

(To be completed only after Part A or Part A and B have been completed)

The dealership's representative shown in Part C will be the individual required to complete all title assignments on behalf of the dealership, the seller and the buyer, if applicable. The dealership's representative shown in Part C does **not** have to be the same individual shown in Part A or Part B. Parts A and B of this form are for odometer disclosure. The actual appointment of an attorney-in-fact is made in Part C. The person named as attorney-in-fact in Part C is the only person authorized to complete the assignment on the title.

The T-8S is a multi-part form. The original *green copy* must accompany the title, application and fees. The *yellow copy* is used to apply for a replacement title.

Note: Only the completed Part A is required to apply for a replacement title.

Note to Leasing Companies: When a vehicle is purchased from a leasing company, a T-8S Secure Power of Attorney Form may be used. There are times when Form T-8S is acceptable if used as a power of attorney form and **not** in conjunction with the Federal Truth in Mileage Act. For example, the T-8S may be used to appoint someone to sign for the owner on the application.

Note: Secure Power of Attorney forms are not available at the <u>County Tag Offices</u> or the MVD Main Office. These forms may be purchased from one of the following two authorized dealer associations:

Secure Dealer Reassignment Supplement Form

As long as there is a complete chain of ownership, dealers can use the Secure Power of Attorney/Dealer Reassignment Supplement Form and the assignment spaces on the back of a manufacturer's statement of origin (MSO) or certificate of title to transfer the ownership of a vehicle. They may use the Secure Dealer Reassignment Supplement Form even when there are still title assignments available. Subsequent dealers may then go back to the title and use the available assignments. The Secure Dealer Reassignment Supplement Form may be purchased from one of the approved dealer associations listed above.

To register, renew or transfer your license plate, the emissions inspection report must be electronically submitted by the testing station to the Georgia Department of Revenue. For a list of exempt vehicles, cost, inspection station locations, directions, waivers/extensions, acceptable proof of inspection, etc., please contact the Georgia Clean Air Force.

It is recommended that you have your vehicle tested four to six weeks prior to your registration renewal date (typically the 30-day period of time ending at midnight on the primary vehicle owner's birthday) to allow time for any required repairs.

An emissions test is valid for 12 months or one registration renewal by the same owner. Vehicles from the three most recent model years and vehicles that are 25 model years old or older are exempt from emissions testing.

Appendix 4 – Motor Vehicle Ad Valorem Tax

Ad Valorem is a Latin phrase meaning "according to the worth." The ad valorem tax in Georgia is a local tax collected by the County Tax Commissioner to meet the financial needs of various levying authorities in your county of residence and is based on the vehicle's value. This is determined by calculating 50 percent of the vehicle's published wholesale value plus 50 percent of the published fair market value as listed in nationally accepted market guides as of January 1 of each tax year. Taxpayers wishing to dispute the taxable value of their vehicle may do so only through the local county tax assessor's office. For more information on filing an appeal, taxpayers should contact their county tax assessor's office no later than the due date of the registration.
