Latest version 7.1.2 of this app is available for download. You can also download 6.0.1 Version of the app. This app is 12 MB in Size. The app is downloaded more than 160 Million times Worldwide Home » Google Account Manager APK Download Bypass FRP Lock Google Account Manager APK is used for unlocking factory reset protection (FRP) lock in android device. Now the question what is factory reset protection. It is a feature of android that protects the device from an unauthorized individual who tries to get access in it. The device will ask to enter Google account details whenever the factory reset is performed and restarted. The unauthorized person mustn't have known those account details, so it's impossible for them to have access in your device. That way factory reset protection lock protects the data and provides enough privacy. But it can be troublesome if you forget your Google account details. You might not get back access to your device.The fact about how to bypass the factory reset protection may be bothersome for you. Don't think yourself too hard. You can Download Google Account Manager APK easily. This application is made for bypassing FRP lock with no trouble. This thing removes previously used Google account credentials. You can add a new Google account on the device. You can also try Samsung bypass APK if you have Samsung Smartphone.Google Account Manager APK ParticularsIt is best to know about all the details about the application what you are going to use. Then you will be able to know how the app will work on your android device.
