

2021 NABP E-Profile Aggregate Data  
a report for the  
Pharmacy Workforce Center  
October 2021

## Introduction

In September 2021, the National Association of Boards of Pharmacy (NABP) arranged to provide the Pharmacy Workforce Center (PWC) a summary of demographic and practice-related information on United States-licensed pharmacists, as a follow up to a previous study based upon data as of October 2020.

Founded in 1904, NABP is the impartial professional organization that supports the state boards of pharmacy in protecting public health. NABP aims to ensure the public's health and safety through its pharmacist license transfer and pharmacist competence assessment programs, as well as through its Digital Pharmacy (formerly VIPPS), Drug Distributor (formerly VAWD), and DMEPOS Pharmacy accreditation programs, its Verified Pharmacy inspection program, and its Pharmacy Verified Websites program.

NABP's member boards of pharmacy are grouped into eight districts that include all 50 United States, the District of Columbia, Guam, Puerto Rico, the Virgin Islands, ten Canadian provinces, and the Bahamas. The Association is governed by its Executive Committee, whose officers and members are elected during the Association's Annual Meeting.

In 2011, NABP launched its e-profile system. Developing an online e-profile allows pharmacists and pharmacy technicians to purchase publications, and allows pharmacists to access CPE Monitor, examinations (NAPLEX, MPJE, FPGEE, Pre-NAPLEX, Pre-MPJE, and Pre-FPGEE), and License Transfer. CPE Monitor, through the collaborative efforts of NABP, the Accreditation Council for Pharmacy Education (ACPE), and ACPE providers, allows pharmacists to automatically keep track of CPE credits from ACPE-accredited providers electronically.

As of September 30, 2021, 1,262,860 e-Profiles have been created in NABP's systems as part of examination registration, as well as CPE Monitor. This total includes pharmacists, pharmacy technicians, pharmacist interns, pharmacy students, technician trainees, and other professionals.

## Data Collection

In October 2021, NABP staff ran a query of all active United States-licensed pharmacist records in the e-Profile system. Generally, the data in the e-Profile system is self-reported by the profile holder. Additionally, due to historical variances in the information collected from registrants, including records migrated to the e-Profile system which were created prior to March 2011, some of the totals below will not completely match other totals. The fields queried include:

- Gender
- Date of birth
- State/jurisdiction of residence
- State/jurisdiction of licensure
- Location of pharmacy school (US versus non-US)
- Name of pharmacy school (if within US)

- Degree type (Bachelors of Science-Pharmacy, Doctor of Pharmacy, etc.)
- Graduation date
