Handheld Scientific Calculators for FSA/FAST/B.E.S.T. Mathematics

The following are FDOE-approved calculators for the 2022–2023 school year:

- Texas Instruments TI-30Xa
- Casio fx-260 solar
- Casio fx-82 solar
- Sharp EL-510R
- Sharp EL-510RN

Schools may use calculators not on this list if district mathematics specialists determine they meet the specifications below. FDOE will not review or approve additional models not listed above. Calculators are only allowed for the calculator session(s)/segments of assessments. Students are not allowed to share calculators. Not every test item in the calculator session/segment will require the use of a calculator.

Note: A handheld four-function calculator may be provided for computer-based mathematics tests that require a scientific calculator but is not recommended and may not be sufficient for all assessment items.

Students will need access to the following calculator functions:

- π
- x^2
- Square root ($\sqrt{\quad}$)
- x^3 or x^y for Grade 8 and EOCs
- $\sqrt[3]{x}$ or $\sqrt[y]{x}$ for Grade 8 and EOCs
- Trigonometric functions for Geometry

Students **may not** use a handheld calculator that has **any** of the following prohibited functionalities:

- CAS (an ability to solve algebraically) or a solver of any kind
- regression capabilities
- a table
- unit conversion other than conversions between degrees and radians (e.g., feet to inches)
- ability to simplify radicals
- graphing capability
- matrices
- a display of more than one line
- text-editing functionality (edit, copy, cut, and paste)
- the ability to perform operations with complex numbers
- the ability to perform prime factorization
- the ability to find greatest common divisor (gcd) or least common multiple (lcm)
- wireless or Bluetooth capability or Internet accessibility
- QWERTY keyboard or keypad
- need for an electrical outlet
- calculator peripherals

Please remember that students may not have access to ANY electronic device, including, but not limited to, cell phones, smartwatches, and smartphones, during testing OR during breaks. They may not, therefore, use any personal electronic device to access a calculator. Use of an electronic device, other than an APPROVED handheld calculator, will result in test invalidation.

Reference Sheets for FSA/FAST/B.E.S.T. Mathematics Assessments

- Reference sheets are available as online resource (in a pop-up window) in the CBT platform.
- A paper version of the reference sheet is included in each session of the test and answer books for paper-based tests. Students may not tear the reference sheets out of the test and answer books.
- Schools may provide separate hardcopy reference sheets to students.
- There is no reference sheet for Grade 3 FAST Mathematics.
- For Grades 4, 5, 6, 7, and 8, and B.E.S.T. Algebra 1 and Geometry, some formulas will be provided on the reference sheet.

Periodic Table of the Elements for NGSSS Statewide Science Assessment Grade 8 and Biology 1 EOC Assessment

- For paper-based tests (Grade 8 Science and paper-based accommodations for Biology 1 EOC), a paper version of the periodic table is provided to students along with their test materials. A sample version is posted on the [portal](#).
- The periodic table is available as an online reference (in a pop-up window) in the CBT platform for Biology 1 EOC.
- Schools may provide separate hardcopy periodic tables to students taking the CBT Biology 1 EOC. Any hard copy periodic tables must be printed or copied from [the file](#) found on the portal (<https://fsassessments.org/fsa.html>).
