**RADIAN
COLLECTION**
Inspired by Europe

The Radian Collection is high-end, full access cabinetry, providing the elements your designer expects, to create a stunning Euro-style design for you.

Radian's frameless cabinetry gives you full access to each cabinet and much more usable storage space.

Emphasis on clean lines does not end when you open the cabinet. Sleek interior components and metal drawer boxes, that can be upgraded to stainless steel, complement its high-end modern style.

The Radian Collection offers stunning finishes that are scratch and wear resistant.

Our flawless *high-gloss* finishes heighten the color's depth, clarity and richness.

Super Matte finishes are fingerprint resistant.

Textured laminates are so realistic, it's nearly impossible to distinguish from real wood, making it the perfect choice for vertical applications and for grain matching across doors and drawer fronts.

Easy to clean melamine interiors are offered in a variety of finishes to complement your design. Fully adjustable shelves and soft-closing hardware are standard in all base and wall cabinets. Channel hardware is available for a sleek European style.

Doors and drawers completely cover the cabinet frame. With clean horizontal design elements, minimal integrated pulls and floating shelves, the Radian Collection delivers the seamless continuity and simple lines so essential in contemporary Euro-style design.

Make your design dream a reality with cabinetry from the Radian Collection.
