Carlos Osvaldo Cortez, Ph.D.
President
Continuing Education

Dear Students,

Welcome to San Diego Continuing Education (SDCE) and congratulations on starting a new academic journey or welcome back for those who are returning. SDCE is home to 40,000 adult education students who come from the most diverse backgrounds in the state.

SDCE ranked first in the San Diego-Imperial Counties Region in Strong Workforce Program outcomes. Students can feel confident in completing industry-recognized and state-approved career training programs that lead to jobs and living wages. Additional free courses include ICOM Academy (Interactive Competency-based Online Micro-credentialing Academy), High School Diploma/Equivalency, English as a Second Language (ESL), Citizenship, and Emeritus for adults age 55+.

SDCE's seven campuses remain closed in response to the coronavirus pandemic; however, faculty and students are teaching and learning remotely and online with strategies in place to mirror in-person learning and industry competencies.

At SDCE, we believe a student's academic success can be tied to the support offered beyond the traditional classroom. There are virtual opportunities and online resources available to you from veteran services to career and college transition centers. I encourage you to take advantage of all that SDCE has to offer.

Best wishes for a successful semester.

Sincerely,

Carlos Osvaldo Cortez, Ph.D.
President

Student Success

Ana Ochoa

Ana Ochoa, 30, enrolled in San Diego Continuing Education's (SDCE's) English a Second Language (ESL) program after arriving in the United States from Mexico. She earned an engineering degree from Autonomous University of Baja California in Mexico and later worked as one of the few female engineers in her hometown. After arriving in San Diego, Ana knew she wanted to continue her career but was hesitant because she only knew Spanish.

"My experience at SDCE was amazing, I met many friends from different countries and my teacher, Beth, supported me with all of my classes including ESL, Python, and Project Management," said Ana. With the help of SDCE's ESL classes and faculty, Ana interviewed for a prestigious satellite communications company in San Diego and is now working there as a Manufacturing Engineer. Following SDCE, Ana has plans to study chemistry at San Diego City College.

Welcome

San Diego Continuing Education

San Diego Continuing Education (SDCE) provides adult education for the San Diego Community College District (SDCCD). SDCE is the largest, separately accredited continuing education in the United States, and serves approximately 40,000 students each year at seven main campuses around San Diego.

Classes are noncredit, which means they do not earn college credit. Students attend noncredit classes for many reasons. Some are preparing for college, others have plans to complete a certificate program for specific job training, and many are looking to sharpen career skills, or attend personal enrichment classes.

Most classes are free because of affiliation with the California system of higher education. Funding also comes through business and industry partnerships. Classes in SDCE's Community Education program (professional and personal enrichment) have a low fee.

Calendar

Spring semester classes begin January 28, 2021 and end June 11, 2021. Classes meet throughout the spring semester unless noted within the class information. No classes on the following holidays/breaks:

02/12/21	Lincoln Day
02/15/21	Washington Day
03/29/21-04/03/21	Spring Break
04/02/21	Cesar Chavez Day
05/31/21	Memorial Day

No Saturday or Sunday classes after a Friday holiday. No Sunday classes before a Monday holiday.

VISION

To be the leader in innovative education that transforms students' lives

MISSION

San Diego Continuing Education commits to student success and community enrichment by providing accessible, equitable, and innovative quality education and support services to diverse adult learners in pursuit of lifelong learning, training, career advancement, and pathways to college.

Student Services

Associated Student Body (ASB)

The purpose of the Associated Student Body (ASB) is to promote the interests and welfare of students and the campus community. Membership is open to all students and is voluntary.

Counseling

Continuing Education and Support Services counselors work with you to ensure your success. Whether you are pursuing your High School Diploma or equivalency, courses for Certificate Programs, or preparing for transition to college, our counselors are available to help. Contact Student Services to access counseling and student services including:

- » Assessment (reading and math) for placement into classes
- » Orientation
- » Student education plans and counseling
- » Student follow-up

Career Services

Career Services helps students individually and in seminars with career planning and job search training including career assessment and exploration, resume preparation, and interview techniques. Contact the Student Services office at any campus for an appointment and seminar schedule, and more resources at sdce.edu/services/cds

Rising to Success (R² Student Equity Centers)

SDCER2S@sdccd.edu

R²S, Student Equity Centers, provide supportive and safe environments to inspire and empower people, cultivate lifelong learning, create lasting solutions for social justice, and strengthen communities by providing unparalleled access to support services, resources and referrals, and specialized programs for students. Dedicated R2S counselors increased access, enrollment, and completion, promoting student success.

New Horizons

New Horizons provides CTE students individual and group career advising, expanded resources and referrals, career exploration, work readiness, and additional student support services. Priority is given to eligible students in a nontraditional area of study such as women in welding and men in child development courses and programs.

CalWORKs

CalWORKs assists students receiving public assistance to achieve self-sufficiency through coordinated academic and student services. CalWORKs student support services include counseling, work readiness, paid and work study, employment skills training, and expanded resource and referrals.

Disability Support Programs and Services (DSPS)

Disability Support Programs and Services (DSPS) supports students in their personal, educational, and vocational goals. Examples of services include enrollment assistance, interpreters for Deaf students, use of special equipment and adaptive devices, and specialized counseling and referral. Eligible students who have a verifiable disability will qualify for support. Email DSPS at SDCEDSPS@sdccd.edu to find out more information regarding services and classes.

Student Success

Manuel Cortez

Manuel Cortez, 43, turned his life around when he became a certified plumber, a career path accomplished through free workforce training at San Diego Continuing Education (SDCE). Prior to working in commercial buildings and private homes, three years ago, Cortez was rehabilitating at the San Diego Rescue Mission (SDRM) overcoming addiction. SDCE and the SDRM launched a partnership in 2018, to transition homeless adults into the workforce. The project helps students like Cortez get back on their feet through free job training.

Cortez chose to specialize in plumbing. In preparation for apprenticeships, he learned how to inspect, troubleshoot, and repair water systems. After completing his second plumbing certificate, Cortez was hired as a Plumbers Apprentice for RXR Plumbing, Inc. "SDCE has opened the doors for me in so many ways, all of our lives have changed," he said. Cortez looks forward to advancing his career and becoming a Journeyman Plumber.

Consider Community College

If you are thinking about college, consider brushing up on basic skills (e.g. math, English or computers) to prepare yourself for success. Continuing Education classes give you an advantage. Research shows a similar (or even greater) success rate for students who enroll in free basic skills classes before going to college. Contact the Student Services office at any campus and speak to a counselor about your options.

San Diego Gateway to College and Career

Young adults, who are ages 18-24 years old, can connect with San Diego Gateway to College and Career if they require additional services such as mentoring, case management, motivational supports, paid internships and job placement assistance in order to achieve their educational and career goals. This program is dedicated to helping students overcome barriers to their successes, personally and professionally, and continues to support them as they transition to college and/or employment. There are specific eligibility requirements.

San Diego Promise

This program pays for the enrollment fees at San Diego City, San Diego Mesa and San Diego Miramar Colleges, and provides continued support until students accomplish academic goals. Speak to a counselor about availability and eligibility for this program.

Back 2 Work Veteran Outreach Program (VOP)

Back 2 Work, a partnership program with Butte County Office of Education and SDCE's R²S, helps Veteran students overcome employment barriers and get them back into the workforce. Veterans served through the program face many challenges in attaining successful, sustainable employment. The program supports eligible Veteran students through work readiness and apprenticeship opportunities.

SDCEats!

SDCEats! continues to support students and communities impacted by food insecurity. Please find more information about SDCEats! and resources guides to local food distribution sites and more during SDCE's temporary closure at sdce.edu/services/sdceats

Get Started

1. APPLY

Complete a free application online at sdce.edu

Select CE and CEHS for spring 2021 term

Receive a student ID number

2. CREATE YOUR MYSDCCD ACCOUNT

Follow the online prompts to stay connected via e-mail

3. SEARCH FOR CLASSES

Choose your class(es)
Counselors are available to help you

4. ORIENTATION

Many programs require assessment and/or orientation

If required, pre-registration or orientation will be noted in the program information

5. ENROLL

If the class requires a permission number, you'll receive it in orientation

Log into your mySDCCD account by entering your student ID number and password

Add the class(es) to your schedule

6. START CLASS

Attend the class remotely for spring 2021

for registration details

Enrollment

Application/Registration

Online application and registration is required. Many classes operate on an open-entry open-exit format. Students are served on a first-come, first-served basis. Minimum attendance is necessary for classes to be held. Be certain to attend the first day of class to reserve your space. Enrolling is easy.

Eligibility

If you are 18 or older and a resident of California, you may attend classes. If you are under 18 and a high school graduate, married, or in the military, and a resident of California, you may also attend. Contact Student Services if you have questions about attending classes. Regulations set by USCIS (United States Citizenship and Immigration Services) prohibit individuals in the U.S. with an F-1, B-1 or B-2 (visitor) visa, or with a border crossing card from attending Continuing Education classes.

Orientation

Many programs require assessment and/or orientation. If required, pre-registration or orientation will be noted in the program information. You can sign up for an orientation session online at sdce.edu. The contact information is listed with the class information.

To find classes use
sdce.edu/services/registration-enrollment

Noncredit (no fee) Registration for Continuing Education Students (Spring 2021 classes are online)

1. Apply online at: <http://www.sdce.edu/services/registration-enrollment> (new students must complete an application online; returning students must update their application online)
2. After you have completed (or updated) your application online you may obtain a permission number (access code) once you have completed an orientation.
3. After you have a permission number (access code), register online using the code and the class CRN (special number for each class); please note that a separate permission number (access code) is needed for each class
4. Emeritus (OA), Disability Support Programs and Services (DSPS) and some individual classes do not require a Permission Number. These classes will be available for enrollment 3 weeks prior to the start date of the class.

Free Career Training

San Diego Continuing Education offers more than 70 different career training certificates.

If you are home with time to learn something new, consider a free online certificate course to upskill and be ready for employment.

All classes are free and online. Most programs require a free online orientation to begin.

To sign up for an orientation visit sdce.edu.

Free Career Training Online Classes

When searching at sdce.edu for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

Automotive

Search online using course keyword:
Automotive Technology

AUTO BODY AND PAINT TECHNICIAN

600 hours. Attend 25 hours per week for 24 weeks.

Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/automotive

Examples of jobs you may be qualified for after completion of this program:

**Auto Body Technician/
Auto Body Painter** \$26,170-72,650/yr.

(AUTO 411, 411A) Entry level skills required for employment in auto body repair and related industries. Learn how to use hand and power auto tools, how to remove and install auto body panels, parts, and glass. You'll also learn how to prepare a vehicle for paint, and how to use high transfer paint equipment. Guided practice in a simulated work environment, sanding, masking, detailing, spot painting, complete body painting, collision repair, and glass installation. Instruction is based on standards developed by the National Automotive Technicians Education Foundation (NATEF), and is an Industry Conference on Auto Collision Repair (I-CAR) certified training course.

Classes are free. Materials fee of approximately \$100 for tools and supplies.

Requires completion of two courses:

- AUTO 411 Auto Body and Paint Technician
- AUTO 411A Auto Body and Paint Technician

AUTO TECHNICIAN

920 hours. Attend 25 hours per week for 39 weeks.

Mandatory orientation and pre-registration required at sdce.edu

Examples of jobs you may be qualified for after completion of this program.

Automotive Service Technician \$22,880-72,260/yr.

(AUTO 507, 507A, 507B) Learn safety procedures, correct use of hand tools and equipment; how to diagnose and repair problems with engines, brakes, suspension, steering, electronics, and fuel systems. Tune-up and drivability; electrical and computer controls; front and rear suspensions; brakes, including ABS; gasoline engine repair; transmission and axles. Lessons are based on best-practice industry standards from the National Automotive Technician Education Foundation (NATEF). Topics include analysis, diagnosis and troubleshooting techniques required to repair computer-controlled automotive engine management systems; use and interpret scan tool and labscope data, and analysis of exhaust gas. Prepares students for ASE certification exams and includes California Smog Inspector license training.

Classes are free. Materials fee of approximately \$135-150 for textbook and supplies.

Requires completion of three courses:

- AUTO 507 Auto Technician
- AUTO 507A Auto Technician
- AUTO 507B Auto Technician

SERVICE ADVISOR PROGRAM

300 hours. Attend 25 hours per week for 13 weeks.

Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/automotive.

Examples of jobs you may be qualified for after completion of this program.

Cost Estimator	
Automotive Parts Sales	\$21,220-59,750/yr.
Service and Sales Rep	\$25,410-119,120/yr.
Service Station Technician	\$24,190-73,410/yr.

(AUTO 508, 508A) Learn the skills that you need to become an Automotive Service Advisor for both small and large independent garages and dealerships. The program covers the overall role of the service advisor, including customer service and communication skills, writing repair orders, estimating parts and labor costs. You will also gain a basic understanding of vehicle systems, functions, service requirements and parts including original equipment manufacturing and aftermarket parts identification.

Classes are free.

Requires completion of two courses:

- AUTO 508 Service Advisor I
- AUTO 508A Service Advisor II

QUICK SERVICE INSPECTION TECHNICIAN

162 hours. Complete in 13 weeks.

Examples of jobs you may be qualified for after completion of this program.

Quick Service Technician \$22,880-72,260/yr.

(AUTO 600, 601) Inspect vehicles, prepare estimates, change fluids and learn correct hazardous waste disposal. Learn the various uses of hand tools and power tools for automotive repair.

Classes are free. Materials fee of approximately \$135-150 for textbook and supplies. Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/automotive

Requires completion of two courses:

- AUTO 600 Quick Service Technician
- AUTO 601 Automotive Intro and Safety

To find classes use
[sdce.edu/services/
registration-enrollment](http://sdce.edu/services/registration-enrollment).

Free Career Training Online Classes

When searching at sdce.edu for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

Skilled & Technical Trades

Search online using course keyword:
Electronics

ELECTRONICS TECHNICIAN

900 hours. Attend 25 hours per week for 36 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/electronics to preregister and sign up for announcements about orientation dates.

Example of a job you may be qualified for after completion of this program:

Electronics Technician \$40,370-99,770/yr.

(ELRN 451, 452) Wires and parts interest some people. If you like to work with your hands, have good eyesight and a commitment to precision, this may be a good career for you.

Designed to teach skills required for entry-level employment as an electronic technician. Learn fundamentals of electricity, DC and AC circuit theory, electronic devices, and basic communications electronics. Instruction includes the operation of test instruments, basic programming, problem solving, and safety practices. Instruction is in a simulated workplace enabling students to gain necessary skills for employment.

Instructors are field engineers currently employed by local firms to provide the latest trends in electronics and market demands in this hands-on training program.

Classes are free.

Requires completion of two courses:

- ELRN 451 Electronics Technician
- ELRN 452 Electronics Technician

Skilled & Technical Trades

Search online using course keyword:
Mechanical Technology

AIR CONDITIONING AND HEATING I & II

120 hours. Attend 7 hours per week for 18 weeks.

Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/hvac

(MECT 431, 432) Entry level training in heating and air conditioning occupations. Includes instruction in diagnostic techniques; the use of testing equipment, and the principles of mechanics, electricity, and electronics as they relate to the repair of heating, air conditioning and refrigeration systems.

Learn areas of comfort cooling including basic air conditioning and heating theory; heating fundamentals and appliances; requirements and controls; circuits, thermostats; schematics, and communications. Includes hands-on instruction in brazing copper pipping and fittings. Instruction focuses on gas and electric heating; cooling fundamentals, components, and installation; heat pumps; general service; Environmental Protection Agency certification; troubleshooting, and job search techniques.

Classes are free.

Skilled & Technical Trades

Search online using course keyword:
Mechanical Technology

PLUMBING

Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/plumbing

Example of a job you may be qualified for after completion of this program:

Plumber's Helper \$14/hr.

Skilled workers are always in demand for this industry and jobs are generally recession-resistant due to the ongoing need for trained plumbers.

In addition to learning the necessary skills to work in the industry, classes help with career preparation including communication, interpersonal skills, problem solving, and technology in the workplace.

Learn plumbing systems and theories; plumbing codes; plumbing tools and materials, and safety practices and procedures. Use torches, cutoff saws, pipe threaders, pipe cutting tools, and assorted hand tools.

To find classes use
sdce.edu/services/registration-enrollment.

Free Career Training Online Classes

When searching at sdce.edu for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

PLUMBING I

120 hours. Attend 7 hours per week for 18 weeks.

(MECT 421) Instruction in source determination, water distribution, waste removal, pressure adjustment, basic physics, technical math, blueprint reading, pipe installation, pumps, welding and soldering, inspection, and applicable codes and standards.

Classes are free.

PLUMBING II

120 hours. Attend 7 hours per week for 18 weeks.

(MECT 422) Focused on the latest adopted Uniform Plumbing Code (UPC), the model plumbing code adopted by the State of California, published by the International Association of Plumbing and Mechanical Officials (IAPMO). Instruction includes basic math as it relates to the plumbing trade.

PLUMBING III

120 hours. Attend 7 hours per week for 18 weeks.

(MECT423) Provides upgrade and advanced training in plumbing occupations. Includes layout and design, sizing of piping systems, materials, specialized systems, public relations, tests, coding, and inspections (including solar), plumbing math, safety requirements, advanced theory, and plumbing and solar codes. Students use saws, rigid chain cutters, thread-o-matics, triangles, T-squares, and scales.

Skilled & Technical Trades

Search online using course keyword:
Upholster helper

UPHOLSTERY

Example of a job you may be qualified for after completion of this program:

Furniture Upholsterer

\$13.30/hr.

Upholstery is one of those services that most people need at some point, but few know how to actually do themselves, so they hire a professional.

Whether you are recovering furniture, or working in the automotive industry replacing vehicle seat covers, the skills you need to become a professional upholsterer are similar throughout the industry. Even boats and jet skis have upholstery, so this is a great skill to learn.

You'll have hands-on experience in a work area that is like an actual upholstery service center, and you will use tools that are industry-standard. Commercial sewing and installation are also part of this program.

Course is not offered spring 2021 semester.

BASIC UPHOLSTERY SKILLS

250 hours. Attend 25 hours per week for 10 weeks.

(AUTO 414) Training and hands-on experience for entry-level employment in the automotive, furniture, and related upholstery industries. Competency standards approved by the industry advisory board.

AUTOMOTIVE UPHOLSTERY

350 hours. Attend 25 hours per week for 14 weeks.

(AUTO 415) Practical instruction in a real-world business environment gives you hands-on experience in a work area that is like an actual upholstery service center, and you will use industry-standard tools and equipment. Commercial sewing and installation are also part of this program.

HOUSEHOLD UPHOLSTERY

250 hours. Attend 25 hours per week for 10 weeks.

(HMID 535) Upholstering footstools, benches, chairs, chaise lounges. Methods of springing, stuffing, covering, cushion-making, study slipcovers when appropriate. Shop practice and theory.

To find classes use
[sdce.edu/services/
registration-enrollment](http://sdce.edu/services/registration-enrollment).

Free Career Training Online Classes

When searching at sdce.edu for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

GAS METAL AND FLUX CORED ARC WELDING

600 hours. Attend 25 hours per week for 24 weeks.

(INDT 605, INDT 606) An introduction to GMAW and FCAW-G and FCAW-S processes used in the welding industry today. Gain practical experience necessary to safely perform GMAW and FCAW on projects using ferrous materials. Students also gain workplace skills such as math, communications, and business ethics.

Requires completion of two courses:

INDT 605 Gas Metal and Flux Cored Arc Welding
INDT 606 Gas Metal and Flux Cored Arc Welding

PIPE WELDING

600 hours. Attend 25 hours per week for 24 weeks.

(INDT 611, INDT 612) Introduces the principles and practices of the shielded metal arc welding process used in the pipe welding industry today. Learn practical experience welding steel pipes and steel plates to American Welding Society acceptable standards. Students also gain workplace skills such as math, communications, and business ethics.

Requires completion of two courses:

INDT 611 Pipe Welding
INDT 612 Pipe Welding

METAL FABRICATION I AND II

600 hours. Attend 25 hours per week for 24 weeks.

(INDT 631, INDT 632) An introduction to the principles and practices of the metal fabrication industry. You will learn practical experience necessary to safely perform metal fabrication projects utilizing a variety of shop power tools, hand power tools, and hand tools required for ferrous and non-ferrous. Plus, you'll also gain valuable knowledge in basic workplace skills including math, communications, and business ethics.

Requires completion of two courses:

INDT 631 Metal Fabrication I
INDT 632 Metal Fabrication II

To find classes use
sdce.edu/services/registration-enrollment.

Skilled & Technical Trades

Search online using course keyword:
Industrial Technology

WELDING/METAL FABRICATION

Orientation and pre-registration required prior to enrollment. Visit sdce.edu/job-training/welding

Examples of jobs you may be qualified for after completion of a program:

Structural Welder	\$19/hr.
Pipe Welder	\$19/hr.
Fabricator	\$20/hr.

Introduces the principles and practices used in the welding industry today. Provides instruction and practical experience necessary to safely perform shielded metal arc welding on projects utilizing steel plates and shapes with fillet and groove welds acceptable to American Welding Society standards. Students also gain workplace skills such as math, communications, and business ethics.

These program are offered at the Educational Cultural Complex.

Classes are free.

GAS TUNGSTEN ARC WELDING

600 hours. Attend 25 hours per week for 24 weeks.

(INDT 621, INDT 622) An introduction to the principles and practices of the gas tungsten processes used in the welding industry today. Gain practical experience necessary to safely perform Gas Tungsten Arc Welding on projects using ferrous and non-ferrous materials. Students also gain workplace skills such as math, communications, and business ethics.

Requires completion of two courses:

INDT 621 Gas Tungsten Arc Welding I
INDT 622 Gas Tungsten Arc Welding II

SHIELDED METAL ARC WELDING

600 hours. Attend 25 hours per week for 24 weeks.

(INDT 601, INDT 602) Provides basic instruction in the shielded metal arc welding (SMAW) process on steel plates and shapes. Topics include orientation, safety, measuring tools, material types, metal cutting and preparation, and SMAW procedures and practices. Workplace skills including math, communications, and business ethics are integrated into the curriculum. Students successfully completing this course will be prepared for entry-level positions.

Requires completion of two courses:

INDT 601 Shielded Metal Arc Welding
INDT 602 Shielded Metal Arc Welding

BUSINESS INFORMATION WORKER CERTIFICATE PROGRAMS

To learn more and get started, please sign up for an orientation at sdce.edu/job-training/office-skills

Examples of jobs you may be qualified for after completion of this program:

Secretary	\$27/hr.
Office Support Staff	\$23/hr.
Municipal Clerk	\$25/hr.
Customer Service	\$26/hr.
Receptionist	\$26/hr.

Prepares students for entry level jobs in office settings, retail shops and/or as customer service representatives, receptionists and information clerks. Also provides valuable skills that can be used to begin or advance a career in any profession. Learn the fundamental skills required to use common office computer applications and prepare for entry-level general office employment including keyboarding, word processing, office procedures and basic computer skills. Students will compose business communications including letters, reports, presentations, webinars, and spreadsheets. Completion times may vary by student.

Receive each certificate by completing 3 courses:

Business Information Worker: Entry-Level Skills

180 hours.

- OFSY 541 Keyboarding - Multilevel
- OFSY 596 Word Processing: Beginning
- OFSY 528 Electronic Info Management

Business Information Worker: Communication Skills

162 hours.

- OFSY 505 Business Communications I
- OFSY 506 Business Communications II
- OFSY 507 Workplace Professional

Business Information Worker: Technical Skills

150 hours.

- OFSY 575 Spreadsheets: Beginning
- OFSY 527 Microsoft Windows
- COMP 628 Business Information Systems

BUSINESS INFORMATION WORKER: ENTRY LEVEL SKILLS

Keyboarding: Multilevel

Program orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 541) Emphasizes proper keyboarding techniques and the operation of a typewriter or a computer. Includes typing tasks found in a business office such as letters and memos. Increasing a student's typing speed, addressing proper business practices, reinforcing grammar, punctuation and spelling skills are emphasized.

Classes are free.

Word Processing: Beginning

Program orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 596) Introduction to text editing features including insert, delete, blocks, search and replace, headers, footers, pagination, spell check, merging, creating tables, and format changes. Instruction in basic business letter styles, tabulated documents, manuscripts, speed and accuracy drills and timings.

Classes are free.

Microsoft Outlook: Electronic Info Management

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills to sign up for a free orientation.

(OFSY 528) Introduction to an electronic information management software application. Students learn to compose, send and manage e-mail, and schedule meetings using electronic calendars. In addition, students manage contact information, schedule tasks, create notes and customize the application environment. Prepares students to use an e-mail software application in a business environment.

Classes are free.

BUSINESS INFORMATION WORKER: COMMUNICATION SKILLS

Business Communications I

Program orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 505) English and communication skills specifically applied to business: vocabulary, sentence structure, punctuation, capitalization, misused words, spelling and dictionary usage. Emphasis on proofreading.

Classes are free.

Business Communications II

Program orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 506) Review principles and techniques of business writing: vocabulary, language structure, mechanics of style. Practice writing various types of business letters, resumes, memos and informal business reports. Emphasis on proofreading, editing and working with proper proofreading symbols.

Classes are free.

Workplace Professional

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 507) An introduction to working in a variety of workplace environments. Learn soft skills required in the workplace, including communication, problem-solving, critical-thinking and customer service. Topics include work ethic, teamwork, roles and responsibilities and records management. Learn how to research job opportunities, application processes and basic interview skills.

Classes are free.

To find classes use
sdce.edu/services/registration-enrollment.

Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

Business & Accounting

Search online using Subject drop-down menu:
Office Systems;
Computer & Information Science

BUSINESS INFORMATION WORKER: TECHNICAL SKILLS

Spreadsheets: Beginning

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 575) Spreadsheet fundamentals: data entry, editing, creation, and printing. Utilization of what-if functions and analysis in a lecture-based lab.

Classes are free.

Microsoft Windows

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 527) This course introduces Windows' software and various application programs using Windows' Graphical User Environment. Students will utilize the program's ability to interface or create an environment in which they can communicate with the computers' hardware, software and peripherals.

Classes are free.

Business Information Systems

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(COMP 628) Introduction to using technology including computers, networks, information systems and the Internet in a business environment. Topics include computer components and functions, application software, systems software, digital devices and media. Students learn about computer system evaluation, security, software programing and databases.

Classes are free.

Business & Accounting

Search online using Subject drop-down menu:
Accounting; Office Systems

ACCOUNT CLERK

376 hours.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills to sign up for an orientation.

Examples of a job you may be qualified for after completion of this program:

Accounting, Tax Preparation, Bookkeeping, and Payroll Services \$26/hr.

Provides students with the basic skills necessary to achieve successful employment in the accounting field.

Classes are free.

Receive certificate by completing six courses:

- OFSY 500 Basic Business Math 1
- OFSY 501 Basic Business Math 2
- ACCT 502 Computerized Accounting
- ACCT 511 Accounting: Beginning
- ACCT 512 Accounting: Intermediate
- OFSY 577 Spreadsheets: Advanced

Basic Business Math I

(OFSY 500) Master math concepts and skills needed in the business world. Topics include addition, subtraction, multiplication, division, whole numbers, common and decimal fractions, percentage, interest and practical applications.

Basic Business Math II

(OFSY 501) Reviews math used in business transactions such as interest; discount; depreciation; payroll; taxes, and mark-up. Students are advised to complete OFSY 500 (Basic Business Math 1) or equivalent prior to enrollment.

Computerized Accounting

(ACCT 502) Complete typical accounting work using a computer, and learning QuickBooks Pro software at beginning, intermediate, and advanced levels. May include work in general ledger, accounts payable and receivable, payroll, and depreciation.

Accounting: Beginning

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills to sign up for an orientation.

(ACCT 511) Prepare for entry level employment as an Accounting Clerk and/or the further study of accounting. Learn basic accounting/bookkeeping theory, procedures and terminology. The accounting cycle is presented in logical sequence with an introduction to business transactions, general journals, and automated accounting.

Classes are free.

Accounting: Intermediate

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills to sign up for an orientation.

(ACCT 512) Accounting and bookkeeping theory, procedures, terminology leading to entry level employment as an Accounting Clerk and/or further study of the subject. Specialized journals, accounts receivable and payable, payroll, bad debts, notes and interest, depreciation, and inventory. Prerequisite: Completion of ACCT 511 or equivalent.

Classes are free.

Spreadsheets: Advanced

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/office-skills.

(OFSY 577) This course provides instruction in advanced spreadsheet functions, including graphs, macros, database management, what-if analysis, macro programming, program and file operations with the ability to design and analyze business applications.

Classes are free.

Business Management

SMALL BUSINESS PLANNING

108 hours.

Mandatory orientation required prior to enrollment.

Visit sdce.edu/job-training/business to sign up for an orientation.

Example of a job you may be qualified for after completion of this program:

Entrepreneur \$25-50/hr.

Ideal for aspiring entrepreneurs, this program—taught by experienced business professionals—provides knowledge and skills to start and manage a profitable small business or for a career in business management, market analysis, business development or sales. Topics include:

- » Essentials of starting a small business
- » Local, state and federal requirements
- » Best hiring practices
- » Sales and marketing strategies

In the capstone business plan project, students present a profitable business model that identifies a market, creates customer value in a product or service, and identifies how a student may successfully create their own small business. Students may use the final assignment to seek investment, loans or partnerships to launch a small business with the support of the growing San Diego Continuing Education community of like-minded entrepreneurs and small business organizations. Learn more at kindlespark.net.

Classes are free.

Requires completion of two courses:

- BUSN 630 Small Business Essentials
- BUSN 631 Small Business Planning

SMALL BUSINESS GROWTH

135 hours.

Mandatory orientation required prior to enrollment.

Visit sdce.edu/job-training/business to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Marketing Coordinator	\$15-25/hr.
Marketing Manager	\$30-40/hr.
Marketing Director	\$40-50/hr.
Sales Representative	\$25-30/hr.
Sales Manager	\$30-35/hr.

Ideal for small business owners or employees, this program provides management knowledge and skills to grow a small business. Instruction focuses on time management, negotiations, business process improvement, sales, and marketing planning.

In the capstone project, students demonstrate a plan to grow a small business through a strategic sales and marketing plan.

Students who successfully complete the program can use the skills learned to start and manage their own small business for self-employment or to start or advance in the fields of business management, market analysis, business development or sales. Learn more at kindlespark.net.

Classes are free.

Requires completion of three courses:

- BUSN 632 Small Business Skills
- BUSN 633 Small Business Sales
- BUSN 634 Small Business Marketing

PROJECT MANAGEMENT

120 hours.

Mandatory orientation required prior to enrollment.

Visit sdce.edu/job-training/business to sign up for an orientation.

Example of a job you may be qualified for after completion of this program:

Project Manager \$25-40/hr.

Taught by instructors with real-world experience, students will learn how to define, manage, and control a project. Students learn to accomplish objectives through key process steps such as consideration of alternatives, selection and implementation of solutions, and project closure. The course culminates in a group capstone project. Classes may include online instruction. Topics include:

- » Building effective teams
- » Problem solving and decision making
- » Change and risk management
- » Use of creativity
- » Emerging trends

Classes are free.

Requires completion of two courses:

- BUSN 621 Project Management I
- BUSN 622 Project Management II

ZERO TEXTBOOK COST (ZTC)

Classes and programs with the Zero Textbook Cost symbol have no cost for textbooks.

ICOM
ACADEMY

San Diego Continuing Education (SDCE) has built a new fully online educational program to provide adult learners in California with a fast, free, flexible job training and extensive career placement services. ICOM Academy (Interactive Competency-based Online Microcredentialing Academy) offers career education options including Small Business Entrepreneurship and Information Technology.

Visit sdce.edu/icom for details.

Free Career Training Online Classes

DIGITAL DESIGN PROGRAMS (FORMERLY INTERACTIVE MEDIA/IMCP)

875 hours. Attend 25 hours per week for 36 weeks.

Mandatory orientation required prior to enrollment.

Visit sdce.edu/job-training/digital-media to sign up for orientation.

Examples of jobs you may be qualified for after completion of this program:

Multimedia Artists and Animators	\$35/hr.
Graphic Designers	\$26/hr.
Web Developers	\$36/hr.

The Digital Design Certificate Program is a series of certificates designed to prepare students for the visual, print and motion graphics industries. Learn basic design principles and best practices used by the digital communications industry. Through a hands-on, portfolio-based approach, students will gain a working knowledge of the creative fields of visual design, print, page layout, portfolio design, video production, and web development. You'll learn about selecting the appropriate tools, applying industry standard design principles, and understanding best practices in motion graphics and video production.

Complete one certificate or earn all four certificates to be as competitive as possible in the industry.

Classes are free.

Receive the Visual and Vector Design certificate by completing two classes:

COMM 660 Visual Design
COMM 661 Vector Design

Receive the Digital Design certificate by completing four classes:

COMM 660 Visual Design
COMM 661 Vector Design
COMM 662 Page Layout Design
COMM 663 Portfolio Design

Receive the Motion and Video Production certificate by completing two classes:

COMM 667 Motion Graphics
COMM 668 Video Production

Receive the Web Design and Content Management certificate by completing two classes:

COMM 666 Workflow for Modern Web Design
COMM 669 Content Management Basics

FRONT END WEB DEVELOPER I

360 hours. Attend 20 hours per week for 18 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/digital-media to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Web Designer	\$17-36/hr.
User Interface Designer	\$24-44/hr.

Learn to design website user interfaces and gain skills in visual design, user interaction and browser compatibilities. Topics include:

- » HTML5 and CSS
- » Responsive Web Design
- » Web frameworks: Bootstrap
- » Aesthetics, usability, accessibility,
- » Search Engine Optimization (SEO)
- » Industry standards and techniques

Students are advised to first complete the Digital Design Program or equivalent. Additional recommendations include a strong interest in web development, intermediate Photoshop skills, and experience in web browsing, the Windows operating system, file management, and oral and written communication. FEWD I is available only in fall.

Students can prepare for the certificate program by first completing a FEWD Prep course.

Classes are free.

Receive certificate by completing three courses:

COMM 641 Web Programming Beginning
COMM 642 User Interface Design
COMM 643 Design Principles

FRONT END WEB DEVELOPER II

360 hours. Attend 20 hours per week for 18 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/digital-media to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Search Engine Optimization Specialist	\$21-42/hr.
Web Designer	\$24-44/hr.
Web Application Developer	\$34-55/hr.
User Interface Designer	\$24-44/hr.

FEWD2 takes web development to the next level by providing you the skills necessary to develop dynamic web sites that respond to user interaction. Topics include:

- » Git and GitHub
- » JavaScript
- » JQuery and other libraries
- » Content Management Systems (CMS)
- » Advanced HTML5 and CSS3
- » CSS pre-processors: SASS
- » Angular

Classes are free.

FEWD II is available only in spring and students must first complete FEWD I.

Receive certificate by completing four courses:

COMM 644 Web Programming Intermediate
COMM 645 Online Content Management Systems
COMM 646 Online Responsive Web Design
COMM 647 Online Website Promotions

To find classes use
sdce.edu/services/registration-enrollment.

Student Success

Debora Green

Debora Green came to SDCE's Information Technology program with a master's degree from Mexico and a background in law, wanting to advance her career. "The classes were hard for me because English is my second language. I had to study 4 to 5 hours a day," she said. "During the first month I wanted to quit, not only was I learning to speak better English, I was learning another language in IT." Despite the linguistic barriers, she completed a Cybersecurity Analyst certificate and earned both a San Diego Promise Scholarship and a San Diego Workforce Partnership/TechHire Scholarship to attend San Diego City College and National University.

Free Career Training Online Classes

When searching at **sdce.edu** for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

Digital Media

Search online using Subject drop-down menu

MOBILE APPLICATION DEVELOPMENT

84 hours.
Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/digital-media to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Web Application Developer	\$18-36/hr.
Software Application Developer	\$35-57/hr.

Provides students with the knowledge and skills needed to develop and publish cross-platform mobile applications. The program teaches the practical and analytical skills needed to develop, publish, and market mobile applications for multiple platforms.

Provides instruction in common markup, styling, and programming languages, including open source frameworks.

Topics include:

- » Construction of a content screen
- » Database storage of user input
- » Geolocation services
- » Software Development Kits (SDKs)
- » Application testing
- » Publication

Classes are free.

Receive certificate by completing three courses:

- COMP 645 Mobile App HTML Development
- COMP 646 Mobile Software Development Platform
- COMP 647 Mobile App Publication

PROGRAMMING WITH PYTHON

378 hours.
Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/digital-media to sign up for orientation.

Examples of jobs you may be qualified for after completion of this program:

Python Software Developer	\$49/hr.
Quality Assurance Engineer	\$42/hr.
Geographic Information System (GIS) Analyst	\$35/hr.

Learn the essentials of the Python language, data structuring techniques using tuples, lists, and dictionaries, object-oriented programming and exception handling. Examples and labs used in these courses draw from diverse areas such as financial data processing, gaming applications, and more. Prepare for entry-level and mid-level positions in the fields of data science, embedded programming, game development, software development, and cybersecurity penetration development.

Classes are free.

Receive Programming with Python certificate by completing two courses:

- COMP 660 Programming with Python I
- COMP 661 Programming with Python II

Receive Data Management with Python certificate by completing three courses:

- COMP 660 Programming with Python I
- COMP 661 Programming with Python II
- COMP 662 Programming Databases-Python

To find classes use sdce.edu/services/registration-enrollment.

ICOM Academy: A new way of learning online

San Diego Continuing Education (SDCE) has built a new fully online educational program to provide adult learners in California with a fast, free, flexible job training and extensive career placement service.

ICOM Academy (Interactive Competency-based Online Microcredentialing Academy) includes career education options in Small Business Entrepreneurship and Information Technology.

Courses

- » Small Business Planning
- » Virtual Datacenter
- » Linux Server Administration
- » Mobile Application Development
- » Programming with Python
- » Data Management with Python
- » Windows System Administration
- » Cyber Threat and Response
- » Cybersecurity Analyst
- » Quick Service Technician
- » Service Advisor
- » Child Care Provider
- » Infant Care Specialist
- » Child Home Care Training
- » Health Unit Coordinator
- » Project Management

sdce.edu/ICOM

Fast

Programs are intensive and short-term. Most can be completed in 5-10 months.

Free

Career training programs are industry recognized and state approved. Open Educational Resources and Zero Textbook Costs are prioritized for most classes.

Fully Online

Short-term certificate programs are fully online. Dynamic synchronous instruction makes these programs unique from other programs that provide less instructor interaction and peer-to-peer collaboration.

Flexible

Learn on your own time and in your own space. Every online class includes self-paced activities as well as scheduled faculty-led instruction and peer-to-peer collaboration.

**ICOM
ACADEMY**

Interactive Competency-Based
Online Microcredentialing

Computer & Information Science

NETWORK TECHNICIAN

Two courses, 12 weeks each

Orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for orientation.

Examples of jobs you may be qualified for after completion of this program:

Computer Network Support Specialists	\$21-34/hr.
Network Technician	\$21-34/hr.

Serves as a foundation for the full CCNA (Cisco Certified Network Associate) program by providing students with the knowledge and skills required to install, operate, and troubleshoot a small enterprise branch network, including basic network security. Topics include:

- » Networking fundamentals
- » LAN/WAN technologies
- » LAN security concepts
- » Routing and switching fundamentals
- » Configuration of simple networks
- » Network theory and design
- » IP addressing
- » Wireless configuration
- » Router set-up and troubleshooting

Classes are free.

Receive certificate by completing two courses:

- COMP 600 Introduction to Networking (CCNA1)
- COMP 601 Routing and Switching Essentials (CCNA2)

CCNA ROUTING AND SWITCHING

Three courses, 12 weeks each.

Orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for orientation.

Examples of jobs you may be qualified for after completion of this program:

Field Engineer	\$18-30/hr.
Network Administrator or Analyst	\$24-37/hr.

Prepares students for the Cisco Certified Network Associate (CCNA) certification exam.

Cisco is transforming its certificate program by streamlining and updating topics to better align with employer needs. SDCE, as a Cisco Networking Academy partner, has integrated these new topics into our certificate programs.

Students learn networking fundamentals and advanced concepts with hands-on practice and simulations to develop skills in managing routers and switches.

- » Routing, switching, network applications, protocols, and services
- » Security concepts and fundamentals
- » Cisco IOS command and configuration
- » Install, operate, configure IPv4 and IPv6 networks
- » Automation and programming
- » Wireless technologies

Classes are free.

Receive certificate by completing three courses:

- COMP 600 Introduction to Networking*
- COMP 601 Routing and Switching Essentials (CCNA2)*
- COMP 602 Local Area Network (LAN) Design

*also part of Network Technician program

Information Technology

Search online using Subject drop-down menu
Computer & Information Science

DESKTOP TECHNICIAN

429 hours.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Computer Network Support Specialist	\$21-34/hr.
Computer User Support Specialist	\$16-27/hr.
Computer Systems Administrator	\$24-37/hr.

Provides students with the knowledge and skills necessary to manage and secure computers and basic network infrastructures. Students will learn both practical and analytical skills to configure, manage and troubleshoot computer and network hardware and software.

The program courses provide instruction in fundamental computer and network theories including computer system models, operating systems, safety procedures, network infrastructures and architectures, and security threats and mitigation. Topics include:

- » Computer hardware configuration and diagnostics
- » TCP/IP (transmission control protocol/ internet protocol)
- » Network topologies
- » Operating system and security configuration and compliance

Classes are free.

Receive certificate by completing three courses:

- COMP 640 Windows Operating System
- COMP 612 Hardware Service Technician (A+)
- COMP 608 Basic Network Configuration (N+)

SECURITY ESSENTIALS

240 hours.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for orientation.

Examples of jobs you may be qualified for after completion of this program:

Information Security Analysts	\$30-45/hr.
Network and Computer Systems Administrators	\$24-37/hr.
Computer User Support Specialists	\$16-27/hr.

Provides students with the knowledge and skills required to manage and secure network infrastructures. Includes practical and analytical skills needed to design, operate and troubleshoot, and secure network software and hardware. Topics include:

- » Addressing
- » Physical infrastructure
- » Network architecture
- » Security threats
- » Mitigation techniques
- » Transmission Control Protocol/Internet Protocol (TCP/IP)
- » Network topologies
- » Security configuration parameters
- » Security compliance
- » Cryptography

Classes are free.

Receive certificate by completing two courses:

- COMP 608 Basic Network Configuration
- COMP 609 Network Security Basics

CYBERSECURITY ANALYST

ICOM
ACADEMY

135 hours.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Information Security Analysts	\$30-45/hr.
Network and Computer Systems Administrators	\$24-37/hr.
Computer User Support Specialists	\$16-27/hr.

These certificate programs will teach cybersecurity architecture and tools. Students will use tools and guidelines to build a set of security policies and procedures. Students will also design a layered security architecture and analyze it for flaws. Students use industry standards for software security. The review, selection, and assembly of tools for performing threat and incident management will also be covered.

- » Topics include:
 - » Cybersecurity architecture
 - » Info security framework
 - » Remediation of identity and access management issues
 - » Common exploits used to compromise identity
 - » Data analytics to determine appropriate compensating controls
 - » Defense-in-depth to secure networks and systems.
 - » Secure coding as a part of the Software Development Life Cycle
 - » Common cybersecurity tools & technologies

This is a great introductory program which, when combined with other network and security administration certificates, will help launch your Cybersecurity career.

Classes are free.

Receive certificate by completing three courses:

- COMP 655 Cyber Threat and Vulnerability
- COMP 656 Cyber Incident Response
- COMP 657 Cyber Security Architecture

To find classes use
sdce.edu/services/registration-enrollment.

STACKABLE SYSTEM ADMINSTRATOR CERTIFICATES

Examples of jobs you may be qualified for after
completion of this program:

Computer Support Specialist	\$18-41/hr.
Computer Operator	\$13-33/hr.
Web Developer	\$13-56/hr.
Database Administrator	\$27-63/hr.

The Stackable Bundle begins with Windows administration, ventures into the world of Linux, and prepares you for up in the red-hot field of web application development. Using in-class and online lectures, labs, and group assignments, you complete one class at a time, allowing you to focus and immerse yourself fully.

Complete two sequential courses to earn a program certificate in as little as 18 weeks. For each additional course in the sequence, you earn an additional certificate. Certificate programs do not need to be completed in the order listed.

WINDOWS SYSTEM ADMINISTRATION

Complete in 18-36 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation.

This program is the ideal start to your career in computer system administration. Learn foundational knowledge and skills to administer a Windows client-server environment. Topics include:

- » Windows Server and Desktop OS
- » Active Directory
- » Configuration
- » System troubleshooting
- » Server roles

Classes are free.

Receive certificate by completing two courses:
COMP 640 Windows Operating Systems
COMP 642 Server Admin Fundamentals

SERVER ESSENTIALS

Complete in 18-36 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation

Building on your system administration skills, this program introduces you to Linux, one of the hottest skills in demand by employers. Linux is used in a variety of ways, including troubleshooting other computers (including Windows!), hacking and security, website hosting, home automation, and many household appliances at the heart of the Internet of Things. Topics include:

- » BASH shell (Linux) and PowerShell (Windows) command execution and scripts
- » Windows and Linux security and system administration
- » Computer networking

Classes are free.

Receive certificate by completing two courses:

Computer & Information Science

LINUX SERVER ADMINISTRATION

Complete in 18-36 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation.

Linux administration skills are in high demand and the need is growing! This program teaches you the fundamentals of Linux and then builds on that knowledge with installation, configuration, and management of a Linux server and common server applications. Topics include:

- » Linux Web Servers
- » Linux file and network services
- » DNS, SAMBA, APACHE
- » Server configuration files
- » Shell scripting

Classes are free.

Receive certificate by completing two courses:

- COMP 641 Linux Essentials
- COMP 643 Linux Server Technologies

CLOUD SOLUTIONS AWS-ASSOCIATE

Complete in 18 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology to sign up for an orientation.

Through our membership with the Amazon Web Services Academy, the Cloud Solutions AWS-Associate program will teach how to architect and deploy secure and robust applications on a cloud computing platform. Focus will be on the ability to define a solution using cloud computing architectural design principles and provide implementation guidance based on best practices throughout the lifecycle of the project. Topics include key cloud concepts, the core cloud services, security, architecture, pricing, and support.

Classes are free.

Receive certificate by completing two courses:

- COMP 671 AWS Academy Cloud Foundations
- COMP 672 AWS Academy Cloud Architecture

VIRTUAL DATACENTER

Complete in 18-36 weeks.

Mandatory orientation required prior to enrollment. Visit sdce.edu/job-training/information-technology.

Server virtualization--using software to simulate a computer system--is a highly valued skill in today's workplace. This course prepares you to administer a vSphere infrastructure for an organization of any size and will form a foundation of knowledge for most other VMware technologies in the software-defined data center. Topics Include:

- » vSphere environment
- » Virtual networks & infrastructure
- » Virtual machines
- » vMotion migration
- » High Availability and Fault Tolerance
- » DRS clusters and scalability

Classes are free.

Receive certificate by completing two courses:

- COMP 651 Virtual Datacenter 1
- COMP 652 Virtual Datacenter 2

ICOM ACADEMY

San Diego Continuing Education (SDCE) has built a new fully online educational program to provide adult learners in California with a fast, free, flexible job training and extensive career placement services.

ICOM Academy (Interactive Competency-based Online Microcredentialing Academy) offers career education options including Small Business Entrepreneurship and Information Technology.

Visit sdce.edu/icom for details.

The free, short-term Certificate Programs for Healthcare Careers are designed to help the beginning student, as well as students who are CNAs (Certified Nurse Assistants).

Healthcare Careers

Search online using subject:
Health

PERSONAL CARE ASSISTANT/ CAREGIVER

230 hours. Complete in 10 to 18 weeks.

Example of a job you may be qualified for after completion of this program:

Personal and Home Care Aide \$24,000-34,000/yr

Requires completion of two courses:

- HLTH 609 Healthcare Careers
- HLTH 610 Personal and Home Care Aide

Classes are free. Mandatory orientation is required prior to enrollment. Visit sdce.edu/job-training/health-career-training/orientation to sign up for an orientation.

Healthcare Careers

(HLTH 609) Provides an overview of the healthcare industry, career opportunities and the basic knowledge required for entry level positions in the healthcare profession. Topics include: business aspects of healthcare, delivery systems, services and specialties, regulations and mandates, workplace communication, safety issues, introduction to medical terminology, common diseases, legal and ethical issues, professional conduct, career pathways, and employment readiness.

Personal and Home Care Aide

(HLTH 610) Prepares the student to provide personal care to individuals in their homes and for employment in home care agencies and assisted living facilities. Instruction includes the role of the personal and home care aide or caregiver and procedures for assisting clients in performing their activities of daily living. Topics include communication, basic nursing skills, home safety, infection control, use of adaptive equipment, basic nutrition and meal preparation. Maintaining a clean, safe environment, emergency procedures, and workplace skills are integrated throughout the course. Students are advised to complete HLTH 609 prior to enrolling.

NURSING ASSISTANT TRAINING PROGRAM

400 hours. Complete in 16 to 20 weeks.

Examples of jobs you may be qualified for after completion of this program:

Nursing Assistant \$28,000-40,000/yr
Home Health Aide \$28,000-40,000/yr

Requires completion of two courses:

- HLTH 605 Nursing Assistant Training
- HLTH 606 Home Health Aide

Classes are free.

Nursing Assistant Training

(HLTH 605) Prepares the student for the California Nurse Assistant certification exam and for employment as an entry-level health care worker in a skilled nursing facility or other healthcare organization or agency. The student will gain knowledge of basic nursing theory and practice nurse assistant procedures. Be trained to provide care to those who need assistance caring for themselves. Through lecture and hands-on skills practice, you learn to bathe, dress, feed, and assist patients with toileting as well as report changes in a patient's physical or mental status to the supervising nurse. You will learn: Professionalism, and ethics, effective communication and documentation, patients' rights and infection control. Includes: Observation and charting, vital signs, mobility assistance, and nutrition.

Home Health Aide

(HLTH 606) Prepares Certified Nurse Assistants (CNAs) for certification as Home Health Aides by the state. This certification allows students to function as an entry level worker on a health care team or with a home health agency. Includes medical and social needs of the client, personal care services, nutrition, and cleaning and care tasks in the home. Advisory: CNA license and a current TB test.

NURSE ASSISTANT (REHABILITATIVE)

400 hours. Complete in 16-20 weeks.

Mandatory orientation is required prior to enrollment. Visit sdce.edu/job-training/health-career-training/orientation to sign up for an orientation.

Example of a job you may be qualified for after completion of this program:

Restorative Nurse Assistant \$28,000-40,000/yr

Requires completion of two courses:

- (HLTH 605) Nursing Assistant Training
- (HLTH 608) Restorative Nurse Assistant

Restorative Nurse Assistant

(HLTH 608) Advisory: Current California Certified Nurse Assistant certificate or work experience or courses in the field. Expands the knowledge and skills of the Certified Nurse Assistant to work as a Restorative Nurse Assistant in a skilled nursing facility or rehabilitation center. Students learn to use interventions that promote a patient's ability to adjust to living as independently as possible. Instruction includes supporting participation in activities of daily living, mobility, exercises, splints and adaptive devices. Advisory: Successful completion of HLTH 605 and HLTH 610.

Classes are free.

Free Career Training Online Classes

Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

NURSE ASSISTANT (ACUTE CARE)

480 hours. Complete in 13-22 weeks.

Mandatory orientation is required prior to enrollment. Visit sdce.edu/job-training/health-career-training/orientation to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Acute Care Nurse Assistant \$30,000-44,000/yr

Requires completion of two courses:

(HLTH 605) Nursing Assistant Training
(HLTH 607) Acute Care Nurse Assistant

Acute Care Nurse Assistant

(HLTH 607) Advisory: Current California Certified Nurse Assistant certificate. Prepares the Certified Nurse Assistant to perform basic nursing care in an acute care hospital setting under the supervision of a Licensed Registered or Vocational nurse. Class consists of theory and hands-on practice. Areas covered are medical and surgical patient care, oncology, orthopedics, obstetrics, and maternal-child care. Infection control, anatomy and physiology, medical terminology, psychosocial needs, and communication and reporting methods are integrated throughout the course. Advisory: Successful completion of HLTH 605 and HLTH 607.

Classes are free.

NURSE ASSISTANT (BEHAVIORAL HEALTH AIDE PROGRAM)

400 hours. Complete in 16-20 weeks.

Mandatory orientation is required prior to enrollment. Visit sdce.edu/job-training/health-career-training/orientation to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Behavioral Health Aide \$28,000-40,000/yr

Requires completion of two courses:

(HLTH 605) Nursing Assistant Training
(HLTH 611) Behavioral Health Nurse Assistant

Behavioral Health Aide

(HLTH 611) Provides Certified Nurse Assistants (CNAs) and Personal Care Assistants/Caregivers to assist adults, adolescents and pediatric patients with social, personal, behavioral and mental health issues while providing nursing care and physical safety. Can serve as a second step toward more specialized training for CNAs and other healthcare professionals after completing course. Advisory: Successful completion of HLTH 605 and HLTH 611.

Classes are free.

HEALTH UNIT COORDINATOR

275 hours

Mandatory orientation is required prior to enrollment. Visit sdce.edu/job-training/health-career-training/orientation to sign up for an orientation.

Examples of jobs you may be qualified for after completion of this program:

Unit Clerk \$34,000-\$50,000/yr

Requires completion of two courses:

(HLTH 612) Medical Terminology
(HLTH 613) Health Unit Coordinator

Medical Terminology

(HLTH 612) This course provides instruction in the definition and pronunciation of basic medical terms and vocabulary used in the health care industry. Medical terminology will be taught using an anatomy and systems approach and will include the use of prefixes and suffixes. Students will learn terminology related to diseases, laboratory tests, imaging, surgical and treatment procedures, and basic terms related to specialized areas of medicine.

Classes are free.

Health Unit Coordinator

(HLTH 613) The course provides instruction on the responsibilities for the coordination of non-clinical activities related to patient care and the department (unit). Areas covered are ethical issues, patient medical records, medical transcription and processing orders. Students will also learn how to professionally communicate in the healthcare environment with professionals, visitors, families and business partners.

Classes are free.

TRANSITION TO COLLEGE

Student Success

Simone Scano

Simone Scano traveled to the United States from a small town near Venice, Italy. Remembering his experience teaching Italian language to youth in Europe inspired him to explore a career path in child development. He completed the free Child Development Certificate program at San Diego Continuing Education (SDCE) in spring 2019. "I am happy I finally have the opportunity to study and work in early education. It is important for young children to have a positive male role model in their lives." Following SDCE, Scano was hired as a Preschool Assistant for the University of California San Diego Early Childhood Education Center.

Free Career Training Online Classes

When searching at sdce.edu for a class, use the search drop down menu boxes: **Term** select Spring 2021, **Course Career** select Continuing Education, choose a **Subject** from the drop down menu. Optional; click on additional search criteria drop down menus to identify specific class list. Using a **Course Keyword** i.e account, will identify all courses associated with the keyword.

Seven certificates are available in this program to accommodate all child care professions from running a child care business to working in a child care center. Choose from an Infant & Toddler specialization in newborn to 23-month-olds or an Early Learner specialization in 2 to 5-year-olds.

Please note: certificates are stackable - course requirements in one certificate often apply in another

Child Development

CHILD CARE PROVIDER TRAINING

144 hours to complete, 18 weeks, 8 hours per week

Examples of jobs you may be qualified for after completion of this program:

Operate, own or work in a family childcare home business **\$39,440.00/yr.**

Students receive an introduction to the foundations of early childcare, including: basic child development, health and safety, nutrition, and behavior management and discipline. Learn practical guidelines for childcare and explore options for careers and vocations in early childcare.

Students receive an introduction to topics common to childcare providers, including: licensing, record keeping and insurance; safety, facility preparation and regulations; illness and injury prevention; creative and enriching activities; communication with parents; and menu planning. Students gain skills and knowledge of practical guidelines for building and/or working in nurturing, successful childcare environments.

*3 units of college credit could be earned when 575A and 575B are both completed with a B or better

Requires completion of two courses:

HMDV 575A Foundations of Child Care
HMDV 575B Introduction to Child Care Business

INFANT CARE SPECIALIST

198 hours to complete, 18 weeks, 11 hours per week

Examples of jobs you may be qualified for after completion of this program:

Operate, own or work in a family childcare home business **\$39,440.00/yr.**

Students receive an introduction to the foundations of early childcare, including: basic child development, health and safety, nutrition, and behavior management and discipline. Includes practical guidelines for childcare and explores options for careers and vocations in early childcare.

Students receive an introduction to topics common to childcare providers, including: licensing, record keeping and insurance; safety, facility preparation and regulations; illness and injury prevention; creative and enriching activities; communication with parents; and menu planning. Students gain skills and knowledge of practical guidelines for building and/or working in nurturing, successful childcare environments.

Students gain knowledge of the physical, cognitive and social/emotional development that takes place during the first year of life. Students will focus on strategies to create a caring and enriching environment that promotes positive infant development while developing skills in family communications, problem-solving and stress reduction for caregivers. Students will explore careers and vocations in Early Childhood Care and Education.

Requires completion of three courses:

HMDV 575A Foundations of Child Care
HMDV 575B Introduction to Child Care Business
HMDV 580 Infant Development and Care

CHILD HOME CARE TRAINING

288 hours to complete, 18 weeks, 16 hours per week

Examples of jobs you may be qualified for after completion of this program:

Operate, own or work in a family childcare home business **\$39,440.00/yr.**

Students receive an introduction to the foundations of early childcare, including: basic child development, health and safety, nutrition, and behavior management and discipline. Course includes practical guidelines for childcare and explores options for careers and vocations in early childcare.

Students receive an introduction to topics common to childcare providers, including: licensing, record keeping and insurance; safety, facility preparation and regulations; illness and injury prevention; creative and enriching activities; communication with parents; and menu planning. Students gain skills and knowledge of practical guidelines for building and/or working in nurturing, successful childcare environments.

Students learn how to care for and nurture development for multi-age children in an early childhood environment. Emphasis on addressing topics related to the care and nurturing of multiple children include: sibling adjustment, birth order, temperament, family dynamics and parenting styles, communication and stress management, effective discipline and age and gender considerations. Students explore careers and vocations in Early Childhood Care and Education.

Requires completion of three courses:

HMDV 575A Foundations of Child Care
HMDV 575B Introduction to Child Care Business
HMDV 584 Multi-age Development and Care

INFANT & TODDLER DEVELOPMENT

108 hours to complete, 18 weeks, 6 hours per week

Examples of jobs you may be qualified for after completion of this program:

Nanny/Caregiver positions \$39,440.00/yr.

Students gain knowledge of the physical, cognitive and social/emotional development that takes place during the first year of life. Students will focus on strategies to create a caring and enriching environment that promotes positive infant development while developing skills in family communications, problem-solving and stress reduction for caregivers. Students will explore careers and vocations in Early Childhood Care and Education.

Students gain knowledge of the physical, cognitive, social, and emotional development of children from 12 months of age to 23 months of age (Toddlers). Emphasis is placed on creating safe and nurturing environments and how toddlers learn and develop through play. Students explore careers and vocations in Early Childhood Care and Education.

Requires completion of two courses:

HMDV 580 Infant Development and Care
HMDV 581 Toddler Development and Care

EARLY LEARNER DEVELOPMENT

216 hours to complete, 18 weeks, 12 hours per week

Examples of jobs you may be qualified for after completion of this program:

**Assistant Preschool Teacher;
Preschool Aide/Helper \$39,440.00/yr.**

Students learn about the physical, cognitive and social-emotional development of the 24-36 month-old, including developmentally appropriate expectations and behavior. Focus is placed on the importance of independence, self-regulation, language development, play and learning, safety, and wellness in two-year-olds. Students will explore careers and vocations in early childhood care and education.

Students gain knowledge of the physical, cognitive, and socioemotional development and education of the three to five-year-old child. Emphasis is on learning how to create a nurturing and safe environment, which fosters emerging skills and school preparedness. Students develop communication and problem solving skills while planning and implementing developmentally appropriate activities with children in a classroom setting.

Requires completion of two courses:

HMDV 582 Two Year Old Development and Care
HMDV 583 Three to Five Year Old Development and Care

INFANT & TODDLER ENRICHMENT

99 hours to complete, 18 weeks, 5.5 hours per week

Examples of jobs you may be qualified for after completion of this program:

Child and Youth Program Assistant \$39,440.00/yr.

With music-based movement and dance, rhythms, rhymes and singing, students will explore how physical activity supports cognitive learning and social/emotional development in infants and young toddlers. Using multi-sensory props and instruments, students will experience how music and movement promote and sustain early developmental patterns necessary for building a strong foundation between body and brain. Laboratory portion of the course may require students to participate in activities along with children ages 0 to 24 months.

Students receive an introduction to the development of the 0 to 24 month old child in outdoor settings. The physical, cognitive and social-emotional benefits of outdoor play and activity for families and children will be emphasized. Students develop ecological and environmental awareness of local outdoor community resources. Students experience, plan and create safe and appropriate outdoor spaces, caring for and stimulating the positive development of infants and toddlers in outdoor settings. Students will explore careers and educational pathways in Early Childhood Care and Education.

Requires completion of two courses:

HMDV 585 Infant/Toddler Brain Dance
HMDV 590 Infant/Toddler Outdoor Enrichment

EARLY LEARNER ENRICHMENT

117 hours to complete, 18 weeks, 6.5 hours per week

Examples of jobs you may be qualified for after completion of this program:

**Paraeducator/Instructional Aide (SD City Schools)
Camp Counselor;
Activities Coordinator \$39,440.00/yr.**

Students will explore how physical activity supports cognitive learning and social-emotional development in early learners. Using multi-sensory props and instruments, students will experience how music and movement will promote and sustain early developmental patterns necessary for building a strong foundation between body and brain. Laboratory portion of the course may require students to participate in activities along with children ages at least 24 months old.

Students receive an introduction to the development of the 2-5 year-old child in outdoor settings. The physical, cognitive and social-emotional benefits of outdoor play and activity for families and children will be emphasized. Students develop ecological and environmental awareness of local outdoor community resources. Students experience, plan and create safe and appropriate outdoor spaces, caring for and stimulating the positive development of 2-5 year olds in outdoor settings. Students will explore careers and educational pathways in Early Childhood Care and Education.

Requires completion of two courses:

HMDV 586 Early Learner Brain Dance
HMDV 591 Early Learner Outdoor Enrichment

CLOTHING CONSTRUCTION

288 hours. Complete in 24 to 36 weeks.

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation

Examples of jobs you may be qualified for after completion of a program:

Alterations Expert	\$15,000-40,000/yr.
Seamstress (Casino)	\$22,000-34,000/yr.
Clothing Production Worker	\$22,214-39,832/yr.

Zippers, buttons and hemlines change over the years, but the fashion industry never goes out of style. If you like the idea of making clothes, you might be a good match for this comprehensive fashion production training program. Students learn beginning through advanced fashion/sewing skills.

Classes are free.

Requires completion of four courses:

- CLTX 620 Sewing Fundamentals I
- CLTX 625 Sewing Fundamentals II
- CLTX 630 Sewing Like a Professional
- CLTX 635 Contemporary Tailoring

Sewing Fundamentals I

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation (

CLTX 620) Emphasizes the development of basic sewing skills used to create apparel for individual clients, self and family. Focuses on pattern and fabric selection, basic construction techniques, pressing skills, and timesaving technologies. Selection, care and use of various types of sewing machines included.

Classes are free. .

Sewing Fundamentals II

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation.

(CLTX 625) This course bridges the skills between the beginner and the professional sewer. Emphasis on the attainment of intermediate skills needed to create apparel and sewn products. Topics include elements of style, textile knowledge and identification, equipment, tools, fitting techniques and evaluation of apparel quality. Introduction of fashion industry concepts including green technology.

Classes are free.

Contemporary Tailoring

Visit sdce.edu to sign up for an orientation.

(CLTX 635) traditional tailoring techniques simplified using basic methods to achieve professional results. Time saving machine skills and new shaping fabrics are presented. Prerequisite: Sewing Fundamentals 1 and 2 and Sewing Like a Professional

Classes are free.

Sewing Like a Professional

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation.

(CLTX 630) Achieve professional sewing standards without complicated or unnecessary work. Gain confidence in the use of new fabrics. Learn how to add distinctive details to garments. Includes commercial and time-saving techniques. Prerequisite: sewing fundamentals 1 and 2 or instructor's consent.

Classes are free.

To find classes use

SEWN PRODUCT BUSINESS

324 hours. Complete in 50 weeks.

Examples of jobs you may be qualified for after completion of this program:

Small Business Owner

\$25.63

Learn the ins and outs of developing a sewn product from concept to consumer in this entrepreneurial program. Turn ideas into your entrepreneurial sewn product business. Learn aspects of the sewn products business; develop a feasibility and marketing plan related to a conceptual product; sewn product manufacturing in industrial and home-based environments, and preparation for employment in the clothing construction industry.

Classes are free. Sign up for an orientation at sdce.edu

Requires completion of three courses:

- CLTX 651 Sewn Product Business I
- CLTX 652 Sewn Product Business II
- CLTX 653 Sewn Product Business III

Sewn Product Business I

(CLTX 651) This course takes the student from sewn product concept to consumer. A feasibility plan will be created to see if the student's entrepreneurial idea has merit as a sewn product business venture. Instruction in employment preparation for either the global sewn product industry or for starting a sewn product business venture will be included.

Course is not offered Spring 2021 semester

Sewn Product Business II

Orientation is required prior to enrollment.

(CLTX 652) This course is designed for the student to acquire entry level proficiency in a sewn product manufacturing and production environment, with an emphasis on sustainability concerns. Production techniques on industrial and home sewing equipment will be used in the classroom. Skills addressed will include technical design, costing, sourcing, garment specifications and order of operations for production. Instruction in employment preparation for either the global sewn product industry or for starting a sewn product business venture will be included.

Class is free.

This class will be offered in a hybrid format.

Requiring both online and on campus attendance.

Sewn Product Business III

Orientation is required prior to enrollment.

Visit sdce.edu to sign up for an orientation

(CLTX 654) This course helps the student comprehend how to market sewn products to the consumer. A marketing plan will be created. Instruction in employment preparation for either the global sewn product industry or for starting a sewn product business venture will be included.

Class is free.

Intro to Fashion Industry

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation.

(CLTX 670) Explore the many employment opportunities and paths to career success in the fashion industry. Students will learn about the fashion industry past and present, fashion retail segments, green fashion, slow-fashion, sustainability and the SDCE certifications and courses that will aid the student in creating successful careers. Topics include industry terminology, history from couture to ready-to-wear, exploring the vast fashion industries, employability skills, entrepreneurial thinking and soft skills for the work environment.

Class is free.

Fashion Retail Basics

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation.

(CLTX 671) This course prepares students for entry-level employment in the fashion retail industry. Topics include sales techniques and customer service, types of fashion retailers, product identification and consumer behavior. Students will learn the importance of soft skills in the work environment, the characteristics of a successful sales associate and national retail certification opportunities.

Class is free.

Student Success

Bill Barnard

Bill Barnard, 41, enrolled in SDCE's Clothing Construction and Textile Arts program after his two daughters Hayden, and Zoey, were asking for princess costumes. "I'm a girl dad and I am showing my girl's that their father is learning how to sew," he said. "I want to teach them that they can do anything they put their mind to, no matter their gender. They can change a tire, play sports, and sew." After serving 23 years in the military, Senior Chief Barnard will retire this fall, with plans to complete a Clothing Construction certificate at SDCE and to expand his parent advocacy business, Dad Involved, which mentors fathers on how to be engaged with their kids' interests.

Foods and Nutrition

CULINARY ARTS AND SCIENCES

900 hours. Complete in 36 weeks.

Mandatory orientation and pre-registration required prior to enrollment. Visit sdce.edu

Examples of jobs you may be qualified for after completion of this program:

Chefs and Head Cooks	\$34,000-56,000/yr.
Certified Personal Chefs	\$27,700-60,500/yr.
First-line Supervisors	\$22,600-36,300/yr.

Culinary Arts and Science I and Culinary Arts and Science II. Learn the basic principles of cooking, theory, food prep, safe food handling, and even how to make perfect pastry. Plus, you'll practice developing menus and managing food costs, to give you a good understanding of the restaurant business. This program is hands-on in an industrial kitchen area from day one.

Classes are free. Materials fee is approximately \$425 for books, uniform and supplies.

Requires completion of two courses:

- FDNT 681 Culinary Arts and Sciences I
- FDNT 682 Culinary Arts and Sciences II

Culinary Arts and Sciences II

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation. Plan to attend all classes to help ensure the class will be held. Classes may be canceled due to low enrollment.

(FDNT 682) This course provides an introduction to the principles of meat and seafood cookery, garde manger, nutrition fundamentals, and restaurant economics. Topics will include: principles of protein identification and fabrication, vegetable, fruit, and starch identification and preparation, and international cuisine. Students will also learn about restaurant management, standards, and menu development including food costing.

Class is free. Materials fee for food and supplies is \$425.

PROFESSIONAL BAKESHOP

216 hours. Complete in 18-36 weeks.

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation. Plan to attend all classes to help ensure the class will be held. Classes may be canceled due to low enrollment.

Example of a job you may be qualified for after completion of this program:

Bakers **\$17,200-30,200/yr.**

Develop professional skills and prepare for employment in the baking and pastry industries. Instruction includes theory and hands-on production; industry safety and sanitation guidelines, in-depth analysis of baking tools, ingredients, and measurement.

Class is free. Materials fee for food and supplies is \$135.

Requires completion of two courses:

- FDNT 627 Professional Bakeshop Skills
- FDNT 628 Advanced Bakeshop Skills

Professional Bakeshop Skills

(FDNT 627) Beginning bakeshop skills, baking and pastry making. Explore basic culinary skills, theories and techniques used in working kitchens and bakeries. Prepare a variety of products and learn presentation. Recipes included. Industry techniques emphasized. Build skills for your catering or personal chef business. Students in the Professional Bakeshop career training program complete this class for one of the program requirements.

Course is not offered spring 2021 semester

Advanced Bakeshop Skills

(FDNT 628) Learn advanced bakeshop skills, for your catering or personal chef business, baking and pastry making. Explore the advanced culinary skills in the baking industry from baking theory and techniques to hands-on production techniques used in working kitchens and bakeries. Students will prepare a variety of advanced bakeshop products. Advanced plating techniques will be highlighted.

Course is not offered spring 2021 semester

Culinary Arts V: Baking and Pastry

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation.

(FDNT 675) This course will cover international desserts, bread and yeast dough production, cake and pastries, including puff pastry, eclairs, fruit tarts.

Class is free.

Foods and Nutrition

CULINARY NUTRITION PROGRAM

162 hours, Complete in 18 weeks.

Examples of jobs you may be qualified for after completion of this program:

Food Preparation Worker	\$18,400-23,100/yr.
Food Preparation Supervisor	\$23,100-37,800/yr.

This program provides career readiness skills in the field of nutrition science and meal planning. Students will be exposed to the fundamentals of nutrition principles, scientific concepts, food safety, and bodily processes. Students will learn basic nutrition principles and explore how to apply these in a variety of dishes in order to retain maximum nutrient retention. Topics covered in the program will include national nutrition standards, cultural dietary habits, personal wellness, recipe development, seasonality, health coaching techniques, menu planning costing, and menu production in a laboratory setting. Students will gain an understanding of soft skills such as interpersonal skills, conflict resolution, time management, organizational skills while working in a culturally rich setting. Upon completion of this program, students will be prepared for gainful employment as a personal or private chef that specializes in dietary food plans or starting their own cottage industry business

Requires completion of four courses:

- FDNT 618 Nutrition Essentials
- FDNT 619 Meal Planning Essentials

Nutrition Essentials

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation

(FDNT 618) This course provides an introduction to the basic scientific principles of nutrition and their relationship to human health. Topics will include essential nutrients and how they influence bodily processes, scientific concepts, national nutrition standards, food sources, food safety and sanitation, cooking principles for maximum nutrient retention, and cultural dietary habits. In addition, students will also learn to analyze dietary intake, and its relationship to client and personal wellness.

Class is free.

Meal Planning Essentials

Orientation is required prior to enrollment. Visit sdce.edu to sign up for an orientation

(FDNT 619) This course provides an introduction to nutritional meal and menu planning, recipe development, and food creation within a variety of production settings. Topics will include: menu structures and design, recipe selection, identification of sources, quality standards, nutritional ingredient availability, seasonality, menu planning costs, health coaching techniques, and identifying behavioral changes needed to improve long-term eating habits. Students will also learn how to modify and improvise recipes, as well as recipe and ingredient costing.

Class is free.

Student Success

Riley Griffin III

Riley Griffin, III enrolled in San Diego Continuing Education's (SDCE's) free career program for Culinary and Bakeshop to pursue his passion for cooking. His goal is to make catering his full-time career and to give back to low-income communities. "I've learned so much at SDCE from seasoning to plating techniques," he said. "I look forward to partnering with local organizations to help out people who are in need of food." Following SDCE, Griffin plans to expand his home-based catering business

JOINT HIGH SCHOOL DIPLOMA PROGRAM

Assessment and orientation required prior to enrollment.

Continuing Education offers two Joint High School Diploma Program options. Programs use many teaching styles in the classroom including group and individualized instruction, and maximize the use of technology. The Joint High School Diploma is in cooperation with the San Diego Unified School District. Please speak with a Continuing Education counselor at any campus to understand how the options work, and to find out how you can achieve this important educational goal.

Classes are free.

HIGH SCHOOL EQUIVALENCY PREPARATION CLASSES/ADULT BASIC EDUCATION CLASSES

Assessment and orientation required prior to enrollment.

In addition to the traditional GED test, the California State Board of Education has approved new tests as alternatives for students who need a California High School Equivalency Certificate, which includes the HiSET (High School Equivalency Test). SDCE classes prepare students for this new test. Contact the campus to make a free appointment with a counselor.

Classes are free.

Student Success

Linda Ramirez

From sewing to housekeeping, Linda Ramirez worked many jobs before graduating high school. Sixty years ago, a student in Tijuana, Mexico, she dropped out of school to support her family. The now 75-year-old grandmother received her diploma through SDCE's High School Diploma/Equivalency program. "I'm so excited to learn that I don't want to miss a day or be tired at school because of work, so I am going to retire again to dedicate all of my time to school," she said. Following the diploma, Ramirez will continue her studies at SDCE beginning with English as a Second Language (ESL).

Excellence in Career, College and Life Preparation

ABOUT

If you want to pursue a rewarding career or continue your education, then earning a high school diploma or equivalency is the most important step you can take.

Continuing Education classes offer review in reading, math, spelling, writing, communication, and critical thinking. Classes help you prepare for a high school diploma, or a test that can earn a California (CA) High School Equivalency Certificate.

The options for earning a CA High School Equivalency Certificate include the GED® Exam, the HiSET® (High School Equivalency Test).

Classes are free. Contact DSPS for information and enrollment.

Cognitive Retraining

(DSPS 690D) Introduction for students with acquired brain injuries. Focus on rebuilding a sense of self and providing students with the tools necessary to succeed in important areas of daily living, including interpersonal relationships, work, school and community. Curriculum may include memory strategies, organization and time management, communication skills, personal development and advocacy.

Classes are free. Contact DSPS for information and enrollment.

Communication Skills

(DSPS 622D) This course is designed to help the student with a disability to develop or improve effective communication skills.

Classes are free. Contact DSPS for information and enrollment.

Food Preparation Basics

(DSPS 662D) For students with disabilities to learn basic concepts of food preparation to increase independence at home. Includes basic cooking vocabulary, reading and following recipe instructions, and basic nutrition concepts. Plus activities to teach kitchen safety and sanitation, grocery shopping skills, and budgeting.

Classes are free. Contact DSPS for information and enrollment.

Life Management/Career Prep

(DSPS 642D) For students with disabilities to promote independence by teaching career and life planning, and setting short and long term goals. Includes personal development and characteristics for work, job search strategies and techniques, identifying community resources, and developing an action plan.

Classes are free. Contact DSPS for information and enrollment.

Beginning Computers

(DSPS 610 D) Help the student with a disability learn basic computer skills with the benefit of a limited class size and individually paced instruction. Includes knowledge of computer components, care and maintenance of hardware, peripherals and accessories, basic operation of a computer and keyboarding skills. Adaptive technology will be made available to facilitate general computer use by students with disabilities.

Classes are free. Contact DSPS for information and enrollment.

Occupational Opportunities

(DSPS 639D) Introduction to assist students with disabilities to assess vocational aptitude and interests, and to acquire skills necessary to seek and maintain employment. Use of internet, and assistance with accommodations for success.

Classes are free. Contact DSPS for information and enrollment.

Relationships and Sexuality

(DSPS 605D) Students to explore attitudes and values regarding healthy sexual relationship development. Information will be shared about human anatomy, reproduction, contraception choices, sexual orientation, sexually transmitted infections, sexual coercion, and building relationships with emphasis on the development of positive personal strategies.

Classes are free. Contact DSPS for information and enrollment.

Physical Fitness for Disabled

(DSPS 621D) Adaptive instruction for students with physical disabilities to improve overall fitness.

Classes are free. Contact DSPS for information and enrollment.

PHYSICAL FITNESS: YOGA

Designed to meet the specific needs of the adult with a disability to develop and maintain a level of strength and flexibility to improve the functional abilities which facilitate independence.

Social Skills

(DSPS 609D) For students with disabilities to improve in-person and online social skills. Enhance social interaction skills including unstated rules of social situations, dealing with teasing and bullying, and managing rumors and gossip. Also covers skills related to relationships, verbal and non-verbal communication, conflict resolution, and attending social events.

Classes are free. Contact DSPS for information and enrollment.

Wellness Management

(DSPS 656D) This course is designed to teach students with disabilities evidence-based wellness and stress management strategies for academic, personal and workplace success. Topics will include identifying stress, the human stress response system, resiliency, perseverance, and stress management techniques. The course will include activities to enhance strategies to manage stress with specific regard to disability.

Classes are free. Contact DSPS for information and enrollment.

Basic Education for Deaf

(DSPS 624D) This course is designed to help Deaf students improve basic academic, cognitive, and communication skills. The student will learn basic concepts in reading, writing, and numerical concepts. Critical thinking, problem solving, and communication skills will be incorporated into daily lessons to reinforce academic skills.

Health and Wellness for the Aging Process

(HEAL 525) Classes provide instruction in health and wellness topics which are supported with corresponding physical activities. Classes are divided into four levels to meet the varying health and physical activity levels of older adults. Please review the description of each level below and select the class that is best suited to your needs. Instruction is focused for age 55+; adults age 18+ welcome.

LESS TO MODERATELY ACTIVE

For age 55+ who engage in less to moderately active health regimes and physical activities. Provides a focus on health content supported by physical activities that include chair and standing exercises, strength training, balance, stretching, and stress reduction techniques. Some classes also include the option of floor exercises and/or walking activities. Wear appropriate clothing and shoes for physical activity. In a virtual setting.

MODERATELY ACTIVE

For age 55+ who engage in moderately active health regimes and physical activities. Provides a focus on health content supported by physical activities that include chair exercises, strength training, balance and stretching. May also include standing exercises, walking, and stress reduction techniques. Wear appropriate clothing and shoes for physical activity.

ACTIVE

For age 55+ who engage in active health regimes and physical activities. All classes in this category provide a focus on health content which is supported by physical activities that include standing exercises, balance, and stretching. Some classes may also include a combination of chair, floor, and strength activities along with stress reduction techniques. Wear appropriate clothing and shoes for physical activity.

MULTI-LEVEL ACTIVITY

For age 55+ who engage in health and physical activities at multiple levels of activity. All classes in this category provide a focus on health content which is supported by physical activities that include a combination of chair and standing exercises, strength training, stretching, and stress reduction techniques. Some classes also include the option of floor exercises and/or walking activities. Wear appropriate clothing and shoes for physical activity.

CREATING SAFE SPACES FOR ALL STUDENTS!

In Support of DACA/Dreamers

San Diego City College is a multicultural institution committed to providing open access to all who can benefit from instruction and to meeting the diverse and ever-changing educational, cultural, and economic needs of the urban core and surrounding communities of San Diego. We are committed to the tradition of academic freedom and responsibility, to employee empowerment, and to maintaining a climate that promotes learning, understanding and respect for students, faculty, staff, community, and the environment.

* Prerequisite, corequisite, advisory or limitation on enrollment # Pass/No Pass available
Pass/No Pass Only Class meets both on the college campus and online
@ Off-campus locations are in bold type. See last page of schedule for location details.

**SAN DIEGO
CITY COLLEGE**

General Information

Open enrollment

It is SDCCD policy that, unless specifically exempted by statute, every course, course section or class, the attendance of which is to be reported for state aid, where offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted and who meets such prerequisites as may be established pursuant to Chapter 11, Div. 2, Part VI, Title 5 of the California Administrative Code, commencing with Sec. 51820.

Nondiscrimination

SDCCD policy prohibits discrimination on the basis of race, national origin, age, sex and disability in accordance with state and federal law, Ed. Amend. of 1972, Title IX, the 504 Provisions of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Complaints alleging noncompliance with this policy should be directed to Marie Doerner, Site Compliance Officer at 619-388-1827.

Title IX and Campus SaVE Act

San Diego Community College District (SDCCD) is committed to a safe and equitable learning environment for all students and employees. SDCCD has a Title IX and Campus SaVE Act website at <http://www.sdccd.edu/titleix/> that provides students with important resources, policies and instructions on how to prevent and report incidents of sexual violence to the Title IX coordinator on each campus.

Student rights, responsibilities & code of conduct

(Policy 3100) Students are subject to adhering to the policies and procedures of the San Diego Community College District, as well as all federal, state, and local laws. Students are subject to charges of misconduct concerning, but not limited to, the following acts when committed on District-owned or controlled property or at District-sponsored activities:

- » Academic misconduct or dishonesty as specified in Procedure 3100.3, Honest Academic Conduct.
- » Forgery, alteration, falsification, or misuse of campus/District documents, records, electronic devices, or identification.
- » All forms of nonacademic dishonesty, including but not limited to fabricating information, any form of bribery or knowingly furnishing false information or reporting a false emergency to officials acting in an official capacity.
- » Act or threat of damage to, or theft of property belonging to, or located on District-controlled property or facilities.
- » The physical or verbal disruption of instructional or student services activities, administrative procedures, public service functions, authorized curricular or co-curricular activities, the orderly operation of the campus, or prevention of authorized visitors from carrying out the purpose for which they are on campus.
- » Physical, verbal, or written intimidation or harassment of such severity or pervasiveness as to have the purpose or effect of unreasonably interfering with a student's academic performance, or a District employee's work performance, or of creating an intimidating, hostile, or offensive educational or work environment.
- » Any expression which is obscene, libelous or slanderous according to current legal standards, which so incites others as to create a clear and present danger of the commission of unlawful acts, or the substantial disruption of the orderly operation of the college/campus District.

- » Physical altercation or threats of violence including assault or battery upon a student or District personnel on District premises or at any time or place while under the authority of District personnel.
- » Unlawful conduct of a sexual nature including but not limited to indecent exposure, prostitution, voyeurism, or loitering for the purpose of soliciting or engaging in any lewd act or conduct.
- » Any conduct that threatens the health or safety of any person, including oneself.
- » Participation in hazing (California Education Code Sections 32050 through 32052).
- » Possession of weapons, explosives, unlicensed dangerous chemicals or objects which may be used as weapons or to threaten bodily harm, as specified in the California Penal Code or other applicable laws.
- » Conduct which is in violation of federal, state, or local laws or ordinances; while on District premises or at District-sponsored or supervised activities. (Ref. 76020, 76120)
- » Failure to comply with directions of staff members of the District who are acting within the scope of their employment. Continued and willful disobedience or open and persistent defiance of the authority of District personnel providing such conduct is related to District policies, activities or college/campus attendance.
- » Smoking on District premises, or in vehicles provided by the District used for transporting students; except as permitted by applicable ordinances, laws, college and district guidelines and procedures.
- » Use, possession, distribution, or sale of alcoholic beverages on campus except as permitted by law.
- » Use, possession, distribution, manufacture or sale of narcotics or other hallucinogenic drugs or substances or inhaling or breathing the fumes of, or ingesting, any poison classified as such by the California Business and Professions Code Section 4160, Schedule "D," except as provided by law, is prohibited when on district premises.
- » Violation of Policies & Procedures for Student Organizations as enumerated in Manual 3200.

Confidentiality

Federal and state laws and SDCCD policy require complete confidentiality of student records. On request, a complete statement of District policy regarding student records will be provided.

Crime awareness and campus security

The San Diego Community College District Annual Security Report, titled: "Safe and Sound, a guide to safety and security in the San Diego Community College District," includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by the San Diego Community College District; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security, such as policies on drug use, crime prevention, the reporting of crimes, sexual assault and other matters. You can obtain a copy of this report by contacting any campus admissions office, Vice President or Student Services office or college police business office. At anytime you may view a full copy by accessing the following website: <http://www.sdccd.net/police/statistics.html>

Drug and alcohol abuse

Policy 3100 states that use, possession or distribution of narcotics or other controlled substances is prohibited. A student may be suspended or expelled for violation of this policy. A complete list of legal sanctions, as well as information on drug treatment and prevention is available from the campus office.

Smoke and Tobacco-Free District Property

Board Policy 0505, Smoke and Tobacco-Free District Property. The District recognizes the fact that individual health can be impaired both by the direct and by the secondary effects of smoking. The District, therefore, prohibits smoking and the use of tobacco products on all properties and in all vehicles owned or controlled by the District. "Smoking" is defined as inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, pipe, or any other lighted or heated tobacco or plant product intended for inhalation, in any manner or in any form. For the purposes of this procedure, the use of smokeless tobacco products is also prohibited. A "tobacco product" is defined to include any combustible substance used in smoking as well as smokeless or spit tobacco, also known as dip, chew, snuff, or snus, in any form. "Smoking" or "smokeless" also includes the use of an e-cigarette which creates a vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this regulation.

Plagiarism

The faculty and staff at San Diego Continuing Education believe academic honesty is one of the fundamental basis for the academic community. To this end, we wish to assist students in defining acceptable standards of academic honesty as they pertain to written work. Penalties may be assigned for any form of academic dishonesty. Plagiarism is defined as follows: to take and pass off as one's own work the work or ideas of another. This includes taking material from the Internet.

Minor Children on Campus

Minor children who are not enrolled are not permitted in any classroom at any time. Minor children who are not enrolled are not to be left unattended at any time while on the campus.

Official GED® Test

The Official HSE (High School Equivalency) Tests are given at the West City Testing Center located at: 3249 Fordham Street, San Diego, CA 92110. Call 619-388-1873 for information.

The GED® Test fee is currently \$140.00 for the complete battery (4 subject areas). You must register and pay at www.GEDtestingservice.com.
Test available in English and Spanish:
Four tests can be spread across multiple days.

The HiSET® Test fee is currently \$140.00 for the complete battery (5 subject areas). You must register and pay at www.hiset.ets.org.
Test available in English and Spanish.
Take the test on paper.
Five tests can be spread across multiple days

Accommodations are available for test takers with diagnosed disabilities or health related needs.

Those who successfully pass will earn a high school equivalency certificate.

WHY PARTNER WITH US ?

» **We know the local market.**

We understand local business trends and economies, and we work with regional subject matter experts to customize our programs, delivering the specific return-on-investment benchmarks that businesses are looking for.

» **We understand how adults learn.**

Training programs come online, in-person, or blended model formats, with wrap-around services such as one-on-one coaching, pre and post-work, needs assessments, and post-program evaluations. No one client is the same, and we don't try to make it that way.

» **We have a size & scope that sets us apart.**

With unparalleled access to curriculum and subject matter experts, flexible scheduling and delivery formats, and projects managed through one consistent source, ETI can manage a wide scope of projects for a business of any size or industry.

Let us help you take your company to the next level.

ICOM Academy: A new way of learning online

San Diego Continuing Education (SDCE) has built a new fully online educational program to provide adult learners in California with a fast, free, flexible job training and extensive career placement services.

ICOM Academy (Interactive Competency-based Online Microcredentialing Academy) includes career education options in Small Business Entrepreneurship and Information Technology.

Courses

- » Small Business Planning
- » Virtual Datacenter
- » Linux Server Administration
- » Mobile Application Development
- » Programming with Python
- » Data Management with Python
- » Windows System Administration
- » Cyber Threat and Response
- » Cybersecurity Analyst
- » Quick Service Technician
- » Service Advisor
- » Child Care Provider
- » Infant Care Specialist
- » Child Home Care Training
- » Health Unit Coordinator
- » Project Management

Fast

Programs are intensive and short-term. Most can be completed in 5-10 months.

Free

Career training programs are industry recognized and state approved. Open Educational Resources and Zero Textbook Costs are prioritized for most classes.

Fully Online

Short-term certificate programs are fully online. Dynamic synchronous instruction makes these programs unique from other programs that provide less instructor interaction and peer-to-peer collaboration.

Flexible

Learn on your own time and in your own space. Every online class includes self-paced activities as well as scheduled faculty-led instruction and peer-to-peer collaboration.
