**Section A: The foundations of Rome: From kingship to republic, 753–440 BC**

Answer **all** the questions.

- 1 (a) State **two** important developments in Rome during the reign of Numa. [2]
- (b) Identify **two** buildings constructing during the reign of the Etruscan Kings. [2]
- 2 Outline how Romulus established the foundation of Roman political structures. [6]

**Passage A**

Then Lucius Tarquinius was the king, and his deeds got him the name Superbus (arrogant or proud), because he banned the burial of his father-in-law because he said that Romulus himself also was not buried when he died. Then he killed the most important senators because he thought they supported Servius. Then he realised that he had made himself king in such an evil way that he might have made an example that could be used against him, so he surrounded himself with armed men, since he had no right to rule except for by force, as he had not had the vote of the people or been accepted by the senate. As he could not rely on the good will of the citizens, it was safer for him to rule by fear.

Livy, *The History of Rome* 1.49

- 3 Using details from Passage A and your own knowledge, what can we learn about the nature of Lucius Tarquinius Superbus' reign? [10]
- 4 Using details from Passage A and your own knowledge, explain why the people of Rome removed the Etruscan kings. [15]
- 5\* To what extent did the demand for Plebeian rights change the Early Roman Republic between 494 and 440 BC? [20]
- (  ) Spelling, punctuation and grammar and the use of specialist terminology [5]

### Section B: Hannibal and the Second Punic War, 218–201 BC

Answer **all** the questions in this section.

- 6 (a) Name the final battle in the Second Punic War. [1]
- (b) Give **two** reasons why Hannibal started the war against the Romans. [2]
- (c) Give **two** details from the advice Maharbal gave to Hannibal after the battle of Cannae. [2]

#### Passage B

From the Druentia, Hannibal approached the Alps ... . As the column started up the first slopes, the mountain tribesmen appeared threateningly above them, standing on their high crags. Had they laid ambushes and attacked suddenly from the better cover of the valleys, they would have inflicted dire slaughter and panic on the army. Hannibal ordered his column to halt and sent his Gallic guides forward to reconnoitre. Once he discovered that there was no way through, he set up camp in the widest valley he could find amid all the boulder-strewn terrain and precipitous mountain slopes. ... he [Hannibal] learned that though the narrow passes were defended by day, at night the tribesmen all slipped away to their homes. At dawn the next day, therefore, he advanced towards the high ground as if determined to force a passage openly through the pass in daylight. His soldiers spent the rest of the day on activities designed to conceal his real intentions, building fortifications round the camp in the same position where they had originally halted.

Livy, *The History of Rome* 21.32

- 8 Using details from Passage B, evaluate how accurate you think Livy's account of these events is. [5]
- 9 Explain the importance of Fabius Maximus' tactics in the Second Punic War. [10]
- 10\* 'Hannibal's early victories against the Romans were entirely due to Hannibal's skill as a general.' How far do you agree with this view?

You must use and analyse the ancient sources you have studied as well as supporting your answer with your own knowledge. [20]

**Section C: Cleopatra: Rome and Egypt, 69–31 BC**

- (b) Give **one** reason why Egypt was important to the Romans. [1]
- (c) Give **three** details from Cleopatra's first meeting with Julius Caesar. [3]

**Passage C**

Then the day of the greatest battle arrived. Now Octavian Caesar and Antony led out their fleets to fight, one to save the world, the other to destroy it. ... At the start of the battle, one side had everything – general, rowers, and soldiers; the other had nothing except soldiers. Cleopatra was the first to flee. Antony preferred to join the fleeing queen rather than his fighting soldiers; the general, who ought to have punished deserters severely, became a deserter from his own army. Even though they had lost their leader, they were determined to carry on the fight for as long as and bravely as they could; despite losing hope for victory they fought to the death. ... To be honest, the soldiers had been the best of generals, while the general took the role of the worst soldier fleeing the battle; it might be asked whether he would have acted in victory as he wished or as Cleopatra wished since it had been her decision which had led him to flee.

Velleius Paterculus, *History of Rome*, 2.85

You must use and analyse the ancient sources you have studied as well as supporting your answer with your own knowledge. [20]

- (b)** Name **two** governors of Roman Britain. [2]
- (c)** Give **two** examples of how Claudius celebrated his victory in Britain. [2]

**Passage D**

As Caratacus had fewer troops than us [the Romans] but was better placed to use local knowledge for his treacherous purposes, he proceeded to transfer the war into the territory of the Ordovices, where he was joined by those who feared a Roman peace. ... He chose for battle a site that was difficult to approach but easy to abandon. ... On one side were high mountains and wherever there was a more gradual incline he constructed a barrier of stones. ... Caratacus sped round to every part to declare this was the day, this was the battle that would restore their liberty or make them slaves forever; he invoked the names of their ancestors who had routed the dictator Caesar. ... The men roared their approval when he made these and similar utterances and they bound themselves man by man by their tribal oaths not to yield to weapons or wounds.

Tacitus, *Annals* 12.33–34

- 17** What can we learn from Passage D about Caratacus' leadership? [5]
- 18** Using details from Passage D, evaluate how accurate you think Tacitus' account of these events is. [5]
- 19** Explain why the settlement at *Camulodunum* (Colchester) was significant during the period. [10]
- 20\*** 'Claudius' invasion of Britain was well organised and ran smoothly.' How far do you agree with this view?  
You must use and analyse the ancient sources you have studied as well as supporting your answer with your own knowledge. [20]

**SAMPLE MARK SCHEME**

**Duration:** 1 hour 45 minutes

**MAXIMUM MARK 105**

**This document consists of 40 pages**

**MARKING INSTRUCTIONS****PREPARATION FOR MARKING****SCORIS**

1. Make sure that you have accessed and completed the relevant training packages for on–screen marking: *scoris assessor Online Training*; *OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Log–in to scoris and mark the **required number** of practice responses (“scripts”) and the **required number** of standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

**TRADITIONAL**

Before the Standardisation meeting you must mark at least 10 scripts from several centres. For this preliminary marking you should use **pencil** and follow the **mark scheme**. Bring these **marked scripts** to the meeting.

**MARKING**

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 50% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone, email or via the scoris messaging system.

5. Work crossed out:
- where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks
  - if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.
6. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.
7. There is a NR (No Response) option. Award NR (No Response)
- if there is nothing written at all in the answer space
  - OR if there is a comment which does not in any way relate to the question (e.g. 'can't do', 'don't know')
  - OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question.
- Note: Award 0 marks – for an attempt that earns no credit (including copying out the question).
8. The scoris **comments box** is used by your Team Leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.** If you have any questions or comments for your Team Leader, use the phone, the scoris messaging system, or e-mail.
9. Assistant Examiners will send a brief report on the performance of candidates to their Team Leader (Supervisor) via email by the end of the marking period. The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
10. For answers marked by levels of response:
- To determine the level** – start at the highest level and work down until you reach the level that matches the answer
  - To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

11. Please note: the Assessment Objectives targeted by each question and the maximum marks available for each Assessment Objective are given at the top of each levels mark scheme for each question. Unless otherwise stated the weightings of the assessment objectives remain consistent throughout the levels. For example if the maximum marks are 6 AO1, 3 AO2, then the AO1/AO2 ratio will be 2/1 throughout the levels.

12. **Annotations**

### 13. Subject-specific Marking Instructions

#### INTRODUCTION

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper and its rubrics
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

#### USING THE MARK SCHEME

Please study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts.

The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme.

Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected.

Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range.

Always be prepared to use the full range of marks.

**INFORMATION AND INSTRUCTIONS FOR EXAMINERS**

- 1 The co-ordination scripts provide you with *examples* of the standard of each band. The marks awarded for these scripts will have been agreed by the Team Leaders and will be discussed fully at the Examiners' Co-ordination Meeting.
- 2 The specific task-related indicative content for each question will help you to understand how the band descriptors may be applied. However, this indicative content does not constitute the mark scheme: it is material that candidates might use, grouped according to each assessment objective tested by the question. It is hoped that candidates will respond to questions in a variety of ways. Rigid demands for 'what must be a good answer' would lead to a distorted assessment.
- 3 Candidates' answers must be relevant to the question. Beware of prepared answers that do not show the candidate's thought and which have not been adapted to the thrust of the question. Beware also of answers where candidates attempt to reproduce interpretations and concepts that they have been taught but have only partially understood.
4. Please note: the Assessment Objectives targeted by each question and the maximum marks available for each Assessment Objective are given at the top of each levels mark scheme for each question. The weightings of the assessment objectives remain consistent throughout the levels. For example if the maximum marks are 5 AO1, 5 AO2 and 10 AO3, then the AO1/AO2/AO3 ratio will be 1/1/2 throughout the levels. When marking, you must therefore give greater priority to the more heavily weighted Assessment Objective when determining in which level and where within a level to place an answer.

Claudius chose the location to receive the submission of the tribal chiefs. It was therefore a symbolic location in the process of legitimising Roman rule — one power was giving way to another. It was probably here that the client state system was established. Claudius may even have chosen the location because he may have had help invading Britain from the Trinovantes who traditionally governed the settlement but appear to have lost it to Cunobelinus.</li> <li>The settlement became even more significant in AD 49 when it was converted into a veteran colony. Apart from providing a reserve force in the southeast (to maintain order) as the final legion moved out of the area, the colony was to be a beacon of Roman civilisation that would hopefully encourage neighbouring peoples to accept the logic of Roman rule. The city was therefore provided with the usual Roman amenities and even some not usually found in Britain: a theatre has been excavated and so has a circus (chariot racing stadium). It seems that the Romans were keen for the Britons to see</li> </ul>

The new temple to Claudius was also resented as a symbol of Roman occupation, the tribal elites even had to foot the bill for its construction. It was no surprise that the actions of the veterans and soldiers of the settlement pushed the Trinovantes into joining the Iceni led uprising.</li> <li>Given this situation, Camulodunum was also significant as a target of the rebels' anger. The atrocities committed there were also significant for the Romans, damaging Roman confidence and halting expansion for a decade.</li> </ul>
