The Norton High School 50th Class Reunion Committee *welcomes you to the The Final Fling!*

As a class, we have met every five years beginning with our 10 year reunion in 1976. At that time, we were celebrating our new adulthood – the start of families, being in the workplace and being responsible for our futures.

Over the years, we have met to renew old acquaintances and to get to know those classmates we didn't know in school. We have realized that school cliques, popularity in high school, and financial capability during high school don't really mean anything. We have taken what life's twists and turns have given us and did our best! We are Panther strong!

Let's take a moment to remember classmates who are no longer with us. Then let's celebrate life and its future. For some of us, our physical well being may be running a little light – but each morning, the sun comes up and shines on us! We are Norton Panthers after all!!!

This year's reunion committee make-up has been different than in the past since our fearless leader Patti Vargo Szempruch is no longer with us. Very excitedly, we have had new folks join the group bringing great enthusiasm and wonderful ideas. Our meetings began in July, 2015. Each member has worked tirelessly toward the planning of our weekend – spending many hours tracking down classmates, designing our webpage, facebook page, the booklet, and planning each evening's details.

We hope you enjoy the Final Fling weekend!!! Let's have some fun!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Best regards,

History

Norton Township was originally part of Wolf Creek Township. It was organized as a separate township in April 1818. It was named for Birdseye Norton, one of the Connecticut proprietors. It was first settled by James Robinson in 1818, who came from New York and built a cabin on Wolf Creek.

Norton Township, when first settled was part of the Western Reserve. In making grants of land to the people in the Western Reserve, the Connecticut Land Company set aside certain areas in each Township to be used for public schools. The first two schools in Norton Township were built in 1831, and they were only open during the winter months when there wasn't much work to be done on the farms. In 1851, the State Uniform School Law was enacted. This law provided for both elementary and secondary schools.

Any student who got through elementary school and wanted to continue their education in high school had to pay tuition to either Western Star Academy or to the private school at Norton Center, was held in the big white house on the corner of Route 21 and Route 224. In 1892, a two room, wooden high school was built where the (former) Norton Junior High now stands. The first class graduated in 1895, with only three members in it. In 1914 the wooden building was torn down, and the first part of the Norton Junior High building was built. In 1936-37 a new addition was added to the building.

The building housed the high school until 1953 when it was moved into the north wing of the yellow brick building located on the northwest corner of the Norton Center Campus. The south wing of the building was added and occupied during the 1959-60 school year. Another addition was added in 1975. The Norton Primary School was built in 1956, and the current Middle School was built in 1966.

The Alma Mater

1st verse:

When the sun bends low its radiance,
While the storm clouds roll,
Norton High, we'll always love you,
You inspire our soul.

2nd verse:

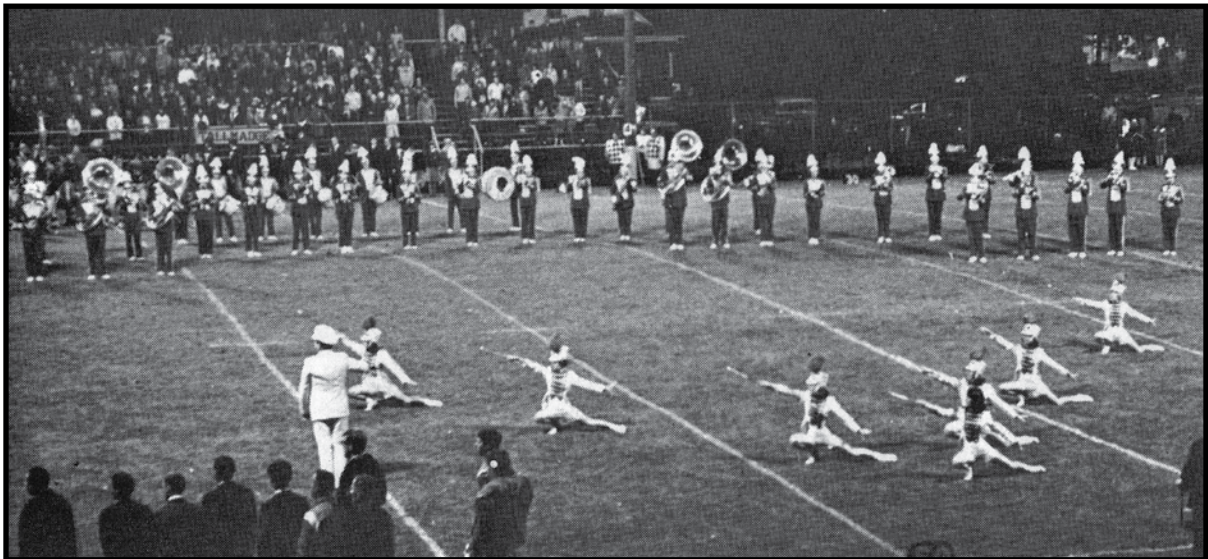

Walking with a stride of honor
To the road ahead,
Norton High, we will salute you,
With our white and red.

Refrain:

Alma Mater, Alma Mater,
Sing from pole to pole,
Hear our song so clearly ringing
Til we reach our goal.

When in high school I wanted a career as ____? but I became a ____?

I wanted to be a Veterinarian, but became a Telco Manager

What advice would you give a graduating senior this year?

What is something unique about you that no other member of the class has probably done?

My wife, Cheryl, and I were married while I was stationed in Okinawa. We were married three times in one day. A government ceremony in the morning and afternoon and a church ceremony in the evening.

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

Graduation and meeting my wife of forty-seven years.

What is your most embarrassing story from high school?

Getting a whack from Tony Prasher in front of 100 plus students during lunch period.

What high school event will you never forget?

What is the most interesting place you have traveled since high school?

Peggy Bail (Bradley)

Military Service

When in high school I wanted a career as ____? but I became a ____?

I wanted to be a Pharmacist and became a Church Financial Secretary.

What advice would you give a graduating senior this year?

What is something unique about you that no other member of the class has probably done?

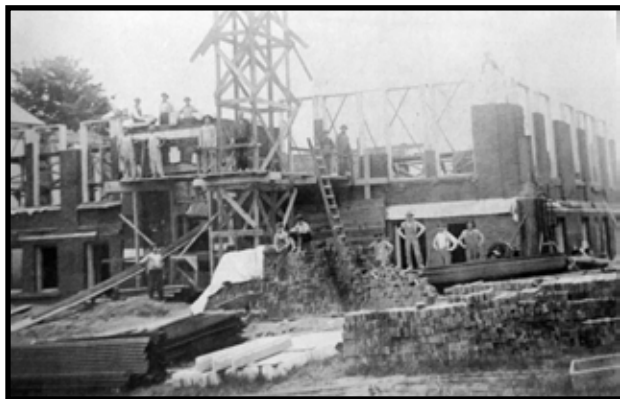

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

What is your most embarrassing story from high school?

What high school event will you never forget?

What is the most interesting place you have traveled since high school?

1939 Norton H.S. Construction

Bobbie Brean (Porter)

Military Service none

When in high school I wanted a career as ____? but I became a ____?

I wanted to be an English Teacher, but became an Accountant.

What advice would you give a graduating senior this year?

Do your best in all you do. Treat others as you would like to be treated.

What is something unique about you that no other member of the class has probably done?

What is the most practical thing you learned in high school—in or out of class?

When Mr. Bebout told me to get out of the secretarial course. I went on to college and ended in the accounting field. I also met my husband of forty-nine years. Best decision ever!

What is your favorite memory of high school?

Band, both marching and concert.

What is your most embarrassing story from high school?

I plead the 5th!

What high school event will you never forget?

Senior Prom has always been one of my best memories.

What is the most interesting place you have traveled since high school?

Alaska where I did a cruise/tour for my 50th birthday. It is an area that can only be experienced.

Lee Ann Case (Reamer)

Military Service none

When in high school I wanted a career as ____? but I became a ____?

I wanted to become a Nurse and that is what I became.

What advice would you give a graduating senior this year?

Find your passion and follow your dreams. Remove the words "I can't" from your vocabulary.

What is something unique about you that no other member of the class has probably done?

Ziplining through the rainforest of Costa Rica while on a cruise. I was in a contest where I had to stuff fruit and vegetables in my bathing suit while treading water. The canteloupe took the most room.

What is the most practical thing you learned in high school—in or out of class?

Cooking in Home Economics

What is your favorite memory of high school?

Prom

What is your most embarrassing story from high school?

I spilled something on my blouse, went to the restroom, took off my blouse and tried to get the stain out. Little did I know my shirtless silhouette was visible from Mr. Hennon's room. That was back when we didn't allow our bra straps to show.

What high school event will you never forget?

Graduation

What is the most interesting place you have traveled since high school?

Cartagena, Columbia

Ron Doles

Military Service Army 1968-1970

When in high school I wanted a career as ____? but I became a ____?

I wanted to go into Electronics, but became an Industrial Controls Engineer.

What advice would you give a graduating senior this year?

Best bet for employment is within STEM (Science, Technology, Engineering and Math). A student who has a major in computer or medical disciplines will have no trouble finding a lifelong career.

What is something unique about you that no other member of the class has probably done?

What is the most practical thing you learned in high school—in or out of class?

Taking Mr. Enlow's typing class. It was sort of unusual for guys to take typing then, but with my hobbies and career so heavily involving computers, it has served me well.

What is your favorite memory of high school?

I enjoyed sitting in the gym bleachers at lunchtime talking with friends. I didn't realize until years later what a carefree time that was.

What is your most embarrassing story from high school?

Getting paddled on my second day of class. I went St. Augustines for grade school and they didn't have the system of bells that NHS had. On the first day of class, I was assigned to Mr. Peterson's home room. When the bell sounded at the end of the day, people started leaving and I left too. The next day, Mr. Peterson took me out in the hall and explained to me that there were four bells, and freshmen leave on the fourth bell. To make sure that I really understood that concept, I got three whacks.

What high school event will you never forget?

It was November 22, 1963. I was in Mrs. Good's 10 am English class when they announced that President Kennedy had been shot. About an hour later, they announced that the president had died. Everyone was in shock and the school was dismissed early.

What is the most interesting place you have traveled since high school?

In 2001, I had to present a class in Milan, Italy. My wife was going to accompany me and we were going to spend two weeks there. Days before we left for Europe, we saw an article in the travel section of the Columbus Dispatch stating that Balzano Italy was one of the most beautiful cities in Europe. While we were in Milan, we took the two hour train ride north to Balzano which was in the Italian Alps. We spent the day there and we definitely agreed with the Dispatch article about the city.

Sharon Dressel (Murphy)

You should follow your dreams and never quit dreaming.

What is something unique about you that no other member of the class has probably done?

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

Going to the sporting games, football, basketball and Tri-Hi-Y.

What is your most embarrassing story from high school?

Going to Prom with a black eye I got from doing a flip on a trampoline.

What high school event will you never forget?

Prom

What is the most interesting place you have traveled since high school?

Ireland and cruises to the Caribbean, Bahamas, Mexico and Virgin Islands.

Joan Emrick (Kreps)

Military Service none

When in high school I wanted a career as ____? but I became a ____?

I wanted to become a Teacher and became an Elementary Teacher for a few years.

What advice would you give a graduating senior this year?

The world is your oyster. Life is short and goes by quickly. So ENJOY! Family and friends are a most enjoyable asset.

What is something unique about you that no other member of the class has probably done?

Snorkeling in Belize on the Palanear Reef.

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

Being in the band and having good times on the way to and from football games. I enjoyed marching in special events. Graduation was good too!

What is your most embarrassing story from high school?

Too embarrassed to write it down.

What high school event will you never forget?

Going to Prom with Porky (Mike Parsons). Being part of a good class.

What is the most interesting place you have traveled since high school?

Costa Rica and the Holy Land. We vacationed in Belize in the rainforest for a week and went snorkeling for a week with high school students and new friends we had met.

Kris A. Frase

Military Service U.S. Army 1969-71

When in high school I wanted a career as ____? but I became a ____?

Kris was a FAA certified air traffic controller and spent one year in VietNam.

What advice would you give a graduating senior this year?

Never give up on your dream.! No matter what obstacles life throws at you hang in there and with hard work and dedication anything is possible!

What is something unique about you that no other member of the class has probably done?

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

I never cared a lot for school, so my best memory was probably graduation and getting out of there! However, some of the high points would probably be: Kiba's Spanish class, Becker's world history, enjoying interaction with other students and social events. One memory that I would not consider good will be with me until I die, was the day they announced President Kennedy's assassination!

When in high school I wanted a career as ____? but I became a ____?

I wanted to become a Teacher, but was a substitute teacher for about five years and taught severely-profoundly deaf children to read and speak English, so they could function in society. They are my proudest accomplishments.

What advice would you give a graduating senior this year?

What is something unique about you that no other member of the class has probably done?

I am the mother of two severely-profoundly deaf children. With the help of God and hearing aids and cochlear implants, they speak well and use ASLT and function well in society. They both graduated from Utah Valley University in Utah

What is the most practical thing you learned in high school—in or out of class?

Never trust a high school "counselor".

What is your favorite memory of high school?

Choir

What is your most embarrassing story from high school?

What high school event will you never forget?

When I was a senior, I asked my guidance counselor how I could work my way through college because I really wanted to go. He looked at me and said, "you could do it, but it really will hard." Then he turned and walked away. I talked to other kids and they told me that Kent State had an extension at Wadsworth High School. In September 1966, I took night classes and later went to the University of Akron for an A.A. in Executive Secretarial Science. I wanted a BA, but didn't know how to make it happen. So, I "settled" for an AA. Later I received a BA in History, Sociology and then a teaching certificate BA in German.

What is the most interesting place you have traveled since high school?

After receiving an A.A. from the University of Akron, I took a three week trip to seven countries on a huge bus. Finally I got to see Europe, specifically Germany. Then in 2008, I went to Germany for a four week language study and in 2011, I returned for a five month study program. The best thing I enjoyed about my life was raising my two children. The second thing was being in Germany.

Jane Greenbank (Hodges)

When in high school I wanted a career as ____? but I became a ____?

I wanted a career as a wife, mother and stay at home-maker. I became a wife, mother, home-maker, accountant and finally a retiree.

What advice would you give a graduating senior this year?

What is something unique about you that no other member of the class has probably done?

What is the most practical thing you learned in high school—in or out of class?

What is your favorite memory of high school?

I was in Norval Hannah's class for three years. Math was difficult, but he made me believe I could do it. He was a great teacher with a good heart. RIP Mr. Hannah. I have never forgotten your kindness. (and he was right, I use algebra and geometry every day in my quilt making, who knew?)

What is your most embarrassing story from high school?

I'm sure there are many, but thankfully age has a way of clouding the waters of life. The embarrassing stories are now just another part of my history. However, if you ask my children what I may have done to embarrass them, you might have a story to read!

What high school event will you never forget?

What is the most interesting place you have traveled since high school?

Love all the travels we have done in the continental USA. North, South, East and West, still a few states I haven't been. Hiking out west with Dave will always be my favorite, but that's today's list, still more to come!

Barb Kunkle (Bell)

Military Service none

When in high school I wanted a career as ____? but I became a ____?

"I had no idea" what career I wanted,,so I became a grown up with "no idea." Settled on teaching.

What advice would you give a graduating senior this year?

Try to find a career you love doing everyday. So many hours of your life are spent working-hopefully you can look back and feel that you helped make things "better" in some small way.

What is something unique about you that no other member of the class has probably done?

I took Amtrak by myself, to visit my college roommate in Scottsdale, Arizona. I thought it was always sunny there! But when I got to Flagstaff, they had a "500-year Blizzard" that day. But, there was no public transportation and no roads open. I found out about a person who had a 4- wheel drive and got to my hotel where I stayed for four days. I made some new friends, "we were all in the same boat."

What is the most practical thing you learned in high school—in or out of class?

Typing! Who would have known then that it would be a skill we'd use everyday with computers, etc. Thank you, Mr. Bebout.

What is your favorite memory of high school?

There are lots of good memories, but some of my favorite ones were with marching band and taking the bus to games, learning the music, wearing "rollers" under my hat so I'd look "good" for the dance in the gym after the home games.

What is your most embarrassing story from high school?

Trying to learn to drive a "stick shift." Rick Carr very patiently listened to his beautiful white "63" Chevy as the gears ground away and the car lurched and stalled time after time. I never did "get it." Sorry Rick!

What high school event will you never forget?

I am not sure there was any "one" event. I loved all the dances and formals we had-it was always fun to get all dressed up and "double date"-usually with Doris Kerby and her date. Fun Times!

What is the most interesting place you have traveled since high school?

Tom and I have been lucky enough to do a lot of traveling. For me, the most interesting place was a week's stay in a villa in Tuscany with friends, I never thought I'd enjoy waking up to a rooster's crow at dawn!

What is the most practical thing you learned in high school—in or out of class?

Listen to the wisdom of others, but decide for yourself the best path to follow.

What is your favorite memory of high school?

What is your most embarrassing story from high school?

Several of my classmates and I decided to "cruise" Howard Street in Akron because we had heard that there were "women of the night" on every street corner. The Akron police immediately pulled us over and took our names. The "police" called our parents the next day. We didn't ever see any of those "women" and never went back. I'm sure we would have ran away if we did encounter any.

What high school event will you never forget?

Someone decided that we could create an unforgettable memory if one of our last days, we climbed on the high school roof and spent the night to surprise students and teachers the next morning. I guess it worked since that memory stands out. I also remember our great pep assemblies with Coach Tony Prasher acting crazy to get us fired up and attending all home and away football games.

When in high school I wanted a career as ____? but I became a ____?

I wanted to be a Teacher or an Electrical Engineer and became an Electrical Engineer.

What advice would you give a graduating senior this year?

Believe in yourself enough to set your goals high and take risks to achieve them. Do not limit your horizons because of group think, and do not take the advice of "experts" too seriously. Pessimistic projections based on current circumstances are almost always wrong because they discount the dynamic response to change of creative people. Many young people develop less than their full potential because of this. Remember that the world is run by those who show up. Take risks!

What is something unique about you that no other member of the class has probably done?

I worked testing new communications satellites after they were launched, using satellite earth stations located all over the world. (The ultimate dream job for a ham radio operator, which I still am.)

What is the most practical thing you learned in high school—in or out of class?

Block printing in Mr. Burton's Engineering Drawing class. My handwriting has always been bad, but this enabled me to write neatly whenever necessary and even to work as a draftsman. Close seconds are the rigorous grammar I learned from Mr. Bertsch (and Mr. Whitsett in Jr.High), trigonometry from Mr. Englert, and the can-do spirit I gained from playing football.

What is your favorite memory of high school?

The camaraderie we enjoyed together as a class. It was great then, and has persisted over the years.

What is your most embarrassing story from high school?

There are several that I still don't like to talk about. Most involved thoughtless words or actions that hopefully by now have been long-forgotten.

When in high school I wanted a career as ____? but I became a ____?

When in high school I wanted a career as an architect or photojournalist, and I became the latter.

What advice would you give a graduating senior this year?

My advice is to do something you really like to do and don't be afraid to try something that catches your attention. Treat other people with compassion and do everything you can do to help them succeed. In doing so, you too will have success. When visiting the office of the CEO of Goodyear, during Akron Beacon Journal business assignments, I would pass under a saying carved in the oak woodwork over the doorway. It said, "Protect Our Good Name." Advice I passed on to my sons and advice I give the many Eagle Scouts that I work with each year. Bottom line is ... you really have only one name and it is your choice how you protect it.

What is something unique about you that no other member of the class has probably done?

My job offered many opportunities to experience things many people would never experience. An example of this would be going inside the Perry Nuclear Reactor during annual refueling maintenance sessions with other media. Very interesting. Working at the Akron Beacon Journal enabled me to contribute to three Pulitzers. Another thing is my birthday. I have two brother's and two sisters. We are all born on the 14th, starting with me in March and proceeding each month until July 14th. Don't know how my parents pulled that off. My first wife Terri died in 2008 after a 20-year battle with Lupus. I have been blessed to have found a loving person, Sally, and we were married in 2013. We have 14 grandchildren between the two of us.

What is the most practical thing you learned in high school—in or out of class?

One of the most practical things I learned was during summer school at Barberton High School. Several friends and I took typing. We typed to music played on a "record player". The skill has served me well. The other thing was public speaking... morning announcements and after-game "Sock Hops" helped me have confidence to speak publicly.

What is your favorite memory of high school?

I really enjoyed drafting class with Dave Douglas sitting next to me. His sense of humor made the time pass quickly.

What is your most embarrassing story from high school?

Several guys and I had to line up and lean into the row of lockers after our senior camp out / senior prank. Imagine standing there, hearing the sharp sound of wood hitting back sides coming closer. It brings chills. Not to mention that I knew I would have to tell my father because my sister would probably bring it up at dinner.

What high school event will you never forget?

Listening to the announcement and broadcast that President Kennedy had been assassinated. That day is etched vividly like it was yesterday.

What is the most interesting place you have traveled since high school?

I have had the opportunity to travel to London, Paris, Greece and Rome. This past year we enjoyed a cruise around the Hawaiian Islands. Sally has daughters in Hood River, Oregon and Sarasota, Florida. and we enjoy visits with them. She has a son in Aurora, Oh and a daughter in Wooster, Oh. My two son's live one mile in each direction from me, so Sally and I get to visit with the grandchildren. We enjoy playing the roles of Grandpa & Grandma. We have been blessed!

Here's a picture of Jean, taken at the MD Statehouse with Maryland Governor Larry Hogan, at the recent signing of the landmark Maryland Lyme Disease bill. Jean was the spark and catalyst for getting this legislation going. She worked persistently with our MD delegate, Kathy Afzali, to alert her to the problem, and then gave her a lot of information on problems getting proper treatment for Lyme disease, based on Jean's first hand experience and that of many others in the community of Lyme sufferers with whom she communicates. The bill had bipartisan support. I am very, very proud of Jean. It's a long story, but Lyme sufferers' lives will be better because of this bill, and other bills to follow.

Dave Smith is recreating one of his long time high school memories with this 1964 Dodge. It is a recreation of the car he drove in high school and raced on Rt. 21 South. He has been working on the car for two-years and hopes to bring it to the Reunion.

The car has a 572 Hemi engine, and dyno'd at 740hp.
