

Continue Math Learning Through the Summer.

BCPS students can use DreamBox Learning Math this summer. The online math program adapts to each student providing a personalized instruction in a game based learning environment. Your child has access to the program through BCPS ONE.

Using DreamBox at Home

1. Set a session goal of **at least 20 minutes**. This should allow your child to complete at least two lessons.
2. Encourage your child to **complete each lesson** they begin.
3. Set a **weekly goal of 60-90 minutes**.
4. End each session by **exiting the program** or closing the browser. This allows DreamBox to decide the next lesson for your child.
5. Remind your child, that ***Mistakes are OK***. Incorrect answers actually help DreamBox find the next best lesson for your child to help build their strengths.
6. **Resist the urge to help** your child with answers or the program will move them ahead before they are truly ready.
