

Protect yourself from market downturns, and enjoy growth potential.

New York Life Premier Variable Annuity—P Series with Investment Preservation Rider—P Series

The Challenge: How do you safeguard your long-term goals from the unpredictability of the market and still have growth potential?

Targeting the right asset mix is an important component of a long-term investment strategy, especially in turbulent markets. Staying disciplined through the inevitable ups and downs of the market can take an emotional toll and may result in investing too conservatively. This can have a real impact on your ability to keep up with inflation and meet your investing goals.

Market Volatility Will Happen

Past performance is no guarantee of future results. The S&P 500® Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation. S&P and S&P 500 are registered service marks of Standard & Poor's Financial Services LLC. The CBOE Dow Jones Volatility Index is a key measure of market expectations of near-term volatility conveyed by S&P 500 stock index option prices. You cannot invest directly in an index.

Ask yourself these questions as you think about staying invested—in any market:

- How did you react during the most recent market downturn?
- How will you respond in the next market downturn?
- How will your current asset mix keep up with inflation?

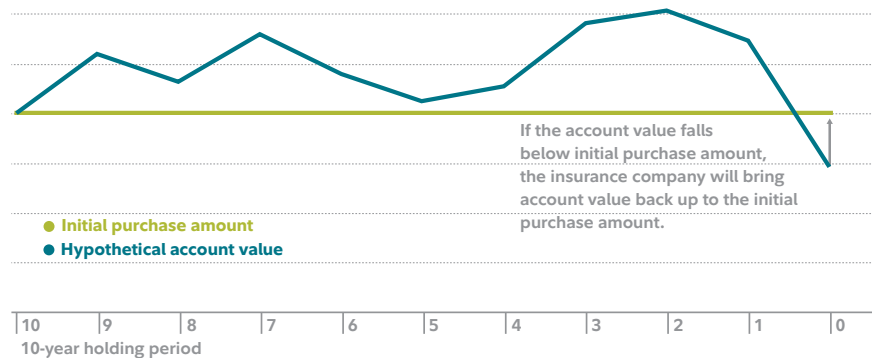

This annuity is issued by New York Life Insurance and Annuity Corporation (NYLIAC) (a Delaware corporation), a wholly owned subsidiary of New York Life Insurance Company. The contract's financial guarantees are solely the responsibility of the issuing company. Fidelity Brokerage Services, Member NYSE, SIPC, and Fidelity Insurance Agency, Inc., are the distributors; they are not affiliated with any New York Life Insurance Company.

One Solution: A deferred variable annuity with potential for growth—without fear of loss

The opportunity to grow your assets through a Fidelity managed diversified¹ portfolio with the security of initial investment protection helps provide you with greater confidence—no matter what happens day to day in the markets. The Investment Preservation Rider—P Series (IPR) protects 100% of the money you originally invested against market declines. If your account value at the end of the 10-year holding period is less than what you had initially invested, New York Life will add an amount that covers any losses to restore the full investment (less the impact of withdrawals and partial annuitizations).²

Hypothetical Example: Contract guaranteeing initial investment value after 10-year holding period

This hypothetical example is for illustrative purposes only and not intended to predict or project investment results. Your results will vary.

How it works: A guarantee to protect your initial investment from market risk, plus potential for growth

How do you balance fear of loss while still having growth potential to help achieve your goals? Fortunately, you don't have to treat growth and protection as mutually exclusive. The IPR protects you against market declines, allowing you to stay invested for a fee.*

Guarantees

- ✓ Guarantees the **return of your initial investment** at the end of the 10-year holding period, regardless of market performance (less the impact of any withdrawals).
- ✓ On every contract anniversary through age 75, you have the **option to reset** the guaranteed amount if the account value has increased.³

Growth

- ✓ **Growth potential** with Fidelity® VIP FundsManager® 60% Portfolio,⁴ which targets 60% stocks, 35% bonds, and 5% in short-term investments, may help outpace inflation.
- ✓ Your investment **grows tax-deferred** meaning earnings are not taxed until they are withdrawn, which results in a more tax-efficient strategy over the life of the investment.

Access

- ✓ The account value is **accessible as needed** (guaranteed amount will be reduced and surrender charges⁵ may apply).
- ✓ **Your beneficiaries** are guaranteed to receive, at minimum, every dollar you've invested, adjusted for any withdrawals you have already received.

Annuity guarantees are subject to the claims-paying ability of the issuing insurance company.

*The fees include a Mortality & Expense charge of 1.20%, applied during the 7-year surrender charge period; a charge of 1.00% after the surrender charge period ends; an IPR charge of 0.70% (as of 6/30/21) until the 10-year holding period ends, which is subject to change if the rider reset is selected; and a fee of 0.77% (gross, as of 4/30/2021) for the Fidelity VIP FundsManager 60% Portfolio.

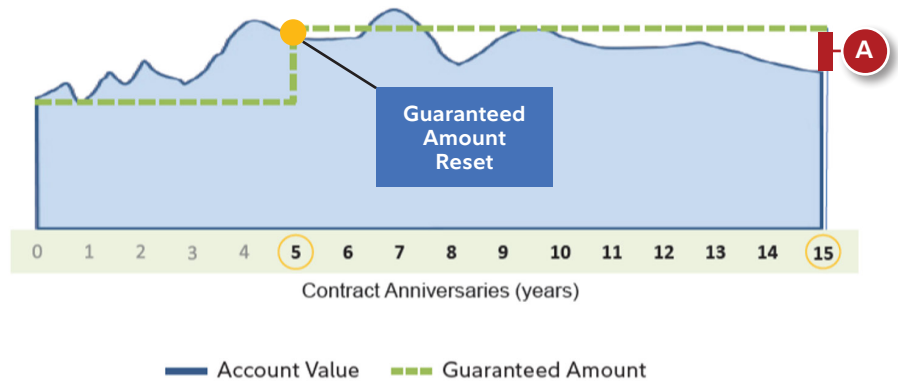

Market conditions can have a big impact on your portfolio's value over time and the quality of your retirement lifestyle.

The value of your account will fluctuate with the market. The following hypothetical examples illustrate what happens in both down and up markets. These examples assume that you complete a reset of the guaranteed amount once and never take withdrawals from the contract.

Hypothetical Example: Secure market gains with a reset of the guaranteed amount; market is down at end of 10 years

A Protect your reset amount against any market declines

If your account value is less than the guaranteed amount at the end of the holding period, New York Life will add an amount that covers any losses in order to restore the full, guaranteed amount.

Hypothetical Example: Secure market gains with a reset of the guaranteed amount; market is up at end of 10 years

B Take advantage of any market growth to help outpace inflation over time.

At the end of your holding period, your account value has increased due to market performance while providing protection along the way.

The guaranteed amount is no longer available after the 10-year holding period is completed. You will then be subject to market fluctuation and bear the risk of any decline in account value.

These hypothetical examples are for illustrative purposes only and are not intended to predict or project investment results. These examples assume no withdrawals. Your results will vary.

How does the reset work?

If the value of your account is higher than your guaranteed amount on any contract anniversary date, you have the option to reset your guaranteed amount to the current account value

This reset establishes a new 10-year holding period. However, it does not change the original 7-year surrender charge period.

After the 10-year holding period ends, the guaranteed amount is no longer available. You will then be subject to market ups and downs.

- ✓ Gain peace of mind
- ✓ Confidence
- ✓ Assurance

Before investing, consider the investment objectives, risks, charges, and expenses of the annuity and its investment options. Contact Fidelity for a prospectus or, if available, a summary prospectus containing this information. Read it carefully.

Investing in a variable annuity involves risk of loss—investment returns and contract value are not guaranteed and will fluctuate.

This information is intended to be educational and is not tailored to the investment needs of any specific investor.

¹Diversification/asset allocation does not ensure a profit or guarantee against loss.

²The IPR does not protect the account value from day-to-day market fluctuations or against losses that could be realized before the completion of the holding period. This means the rider will not provide a benefit if the policy is not held for the entire holding period after it is elected or reset. Withdrawals reduce the IPR guaranteed amount proportionally, which may be more than the actual dollar amount withdrawn; so the rider is not intended for clients who anticipate taking substantial withdrawals (including IRS required minimum distributions) before the completion of the IPR holding period. New York Life Insurance and Annuity Corporation (NYLIAC) reserves the right to discontinue offering the option to reset the IPR guarantee (not applicable in the state of New York).

³The option to reset is available during the holding period through age 75.

⁴The performance of the Fidelity® VIP FundsManager® 60% Portfolio depends on that of its underlying Fidelity and Fidelity VIP funds. This portfolio is subject to the volatility of the financial markets in the U.S. and abroad, and may be subject to the additional risks associated with investing in high-yield, commodity-linked, small-cap, and foreign securities.

⁵For policy years 1–7, the respective surrender charges apply: 7%, 7%, 6%, 5%, 4%, 3%, and 2%.

Tax-qualified plans already provide tax deferral; a variable annuity will not provide additional tax advantages. As variable annuities offer investment and insurance features, they may be subject to fees to which other tax-qualified funding vehicles are not.

Withdrawals of taxable amounts from an annuity are subject to ordinary income tax and, if taken before age 59½, may be subject to a 10% IRS penalty. Surrender charges may also apply.

The name, benefits, and guidelines of the Investment Preservation Rider-P Series may vary in some jurisdictions.

Issuing company: New York Life Insurance and Annuity Corporation (“NYLIAC”), a Delaware Corporation. NYLIFE Distributors LLC, a limited liability company organized under Delaware law and member FINRA/SIPC, is the wholesale distributor and underwriter for these products. Both NYLIAC and NYLIFE Distributors LLC are wholly owned subsidiaries of New York Life Insurance Company, 51 Madison Avenue, New York, NY 10010. Variable annuities are only offered through properly licensed registered representatives of registered broker dealers. In most jurisdictions, the policy and rider form numbers are as follows (state variations may apply): New York Life Premier Variable Annuity—P Series (ICC18V-P05 or it may be NC18V-P05); Investment Preservation Rider—P Series (ICC18V-R04 or it may be NC18V-R04). Some states may offer this rider under a different name, and benefits may vary.

NYL Premier Variable Annuity – P Series with Investment Preservation Rider (IPR) – P Series

A deferred variable annuity with potential for growth—without fear of loss. The Investment Preservation Rider (IPR) – P Series protects 100% of the money you originally invested against market declines*.

Premium

- Minimum: \$25,000
- Maximum: \$1,000,000

Issue Ages

- Nonqualified: ages 0–75
- Traditional IRA, Roth IRA: ages 18–75

Annual Contract Charges and Fees

- Mortality & Expense charge: 1.20% during the 7-year surrender charge period; 1.00% after the surrender charge period
- Fidelity® VIP FundsManager® 60% Portfolio:¹ 0.77% (gross, as of 4/30/2021)
- IPR² charges:
 - 0.70% (as of 6/30/2021)
 - no longer deducted after the 10-year holding period
 - subject to change if rider reset is elected

Surrender Charges

- For policy years 1–7: 7%, 7%, 6%, 5%, 4%, 3%, 2%

IPR Reset

- A new 10-year holding period can be elected before each contract anniversary during the holding period
- Maximum age of reset: 75
- Resetting the IPR does not reset the surrender charge period
- New York Life Insurance and Annuity Corporation (NYLIAC) reserves the right to discontinue offering the option to reset the IPR guarantee (not applicable in the state of New York)

Beneficiary Protection

- In the event of the owner's death, at least every dollar invested, minus the impact of any withdrawals taken, will be made payable to the beneficiaries.

* Annuity guarantees are subject to the claims-paying ability of the issuing insurance company.
