**IVANHOE**  
OF SWEDEN  
WORKBOOK | SPRING/SUMMER 2019

## *A family tradition*

---

The family firm of Ivanhoe was founded in 1946 in Gällstad, a district known as Sweden's own knitting centre, where the traditions and pioneering spirit of fine garment making still live on. Ivanhoe manufactures and sells clothes for active people and several generations of experience and competence enable us to continuously develop both base and functional garments.

We love wool and our collections are built around this magnificent material. We offer garments made of pure wool, but we also incorporate new blends, treatments and modern knitting and weaving techniques. This results in well made, classic and hardwearing clothes, clothes that will give you many long years of enjoyable use.

The company was founded by Martin Göthager in 1946, and has since the 80's been run by his three sons. Today the third generation - Anders, Anna and Karin - are the ones taking the business forward, with pride and high hopes for the future.

We have our own production facility in Gällstad where approximately 90% of all knitting takes place. We also have our design- and sample department, embroidery service and a small sewing department here.

Additional production takes place in partner factories around Europe. Having production in Sweden and Europe gives us control, flexibility, shorter lead times and shorter transportations. We can act and react quickly and can adjust production to demand and easily develop new products in season.

Having production in Sweden and Europe also means shorter distances with shorter shipments, and thus also a minor environmental impact when it comes to exhaust gases and emissions.

# IVANHOE WOOL

## WHY WOOL?

Wool is one of the trendiest and most eco-friendly textiles on the market. Wool is a renewable and natural material, which makes it one of our most sustainable material resources in the world.

Wool is not only environmental friendly, it is also nature's very own high functional material, and there is no man made fibre that comes even close when talking about functionality.

We work almost completely with wool in our collections and incorporate new blends and knitting techniques to reach the best function and comfortability.

## SUSTAINABLE FASHION

Second to oil, fashion & textiles is the most polluting industry in the world.

Consider quality rather than quantity. It's not about spending more money, but spending them on fewer more long-lasting items.

**It can take more than 29,000 litres of water to produce 1kg of cotton, and 1,5-7kg chemicals are used in the process of manufacturing 1 kg of cotton fabric.**

(Miljömärkning.se, 8 mars 2013)

**Compare this to WOOL - 44 litres of water=1 kg!**  
(Schoeller GmbH, 13 april 2017)

*Martin Göthager founded the company in 1946*

## BELLA FULL ZIP

1100416

Full zip style knitted in our thinner, cooler boiled wool quality with a mixture of 60% sport loden wool and 40% TENCEL®, weight approx. 350g/m<sup>2</sup>. Material is plated with TENCEL® closest to body which gives a softer and cooler feeling against the skin. This classic full zip jacket has moulded zip at front and in side pockets and embroidery on upper left arm.

## BELLA LONG

1100417

Full zip style knitted in our thinner, cooler boiled wool quality with a mixture of 60% sport loden wool and 40% TENCEL®, weight approx. 350g/m<sup>2</sup>. Material is plated with TENCEL® closest to body which gives a softer and cooler feeling against the skin. Style with length, side pockets with welt and embroidery on upper left arm.

## KALLA HOOD

1100457

Hooded style in our wool/TENCEL® quality, weight approx. 350g. Material is plated with TENCEL® closest to body which gives a softer and cooler feeling against the skin.

Colour blocks are combined in different combinations, some tonal and some with more contrast. Inverted zip with logo puller at front and in side pockets, drawstring down at body and embroidery on upper left arm.

## MONSTERA FULL ZIP

1100458

Jaquard knitted pattern in 60% Sport Loden/40%TENCEL®, weight 350g/m<sup>2</sup>. Wool is knitted in a mixture with TENCEL® which gives a softer and cooler material - perfect for spring/summer. Wool and TENCEL® is a perfect match and both fibres have outstanding properties and complement each other. Five beautiful colour combinations, all with inverted zip at front and in side pockets. Embroidery on upper left arm.

## MONSTERA LONG

1100459

Full zip style jaquard knitted in Sport Loden/TENCEL®, weight 350g/m<sup>2</sup>. Wool is knitted in a mixture with TENCEL® which gives a softer and cooler material - perfect for spring/summer. Moulded zip at front, side pockets with pocket stand, flatlock seams tonal to body colour and embroidery on upper left arm.

**Wool and TENCEL®** is a perfect match and both fibres have outstanding properties and complement each other:

- Wool blends with TENCEL® provide even better moisture transport
- Boiled Sport Loden garment with TENCEL® on the inside feels softer against the skin.
- TENCEL® closest to body also gives a cooler and more summery feeling.

TENCEL® branded lyocell fibres from the house of Lenzing. They are of botanic origin, since they are extracted from the raw material wood. Fibre production itself is extremely ecofriendly, due to the closed loop system. Textiles of TENCEL® fibres are more absorbent than cotton, softer than silk and cooler than linen.

([www.lenzing-fibers.com](http://www.lenzing-fibers.com))

## BEATA FULL ZIP

1100354

One of our most popular female styles, a full zip jacket in 100% boiled wool, weight approx. 450g/m<sup>2</sup>. Inverted zip at front and in side pockets, embroidery on upper left arm.

*506/sand*

*002/light navy*

*078/chutney*

*055/graphite marl*

## BEATA VEST

1100131

Vest in 100% boiled wool, weight approx. 450g/m<sup>2</sup>. Inverted zip at front and in side pockets, embroidery back on left shoulder. Please observe that vest has been upgraded and lycra tape around arm opening removed.

*002/light navy*

*078/chutney*

*506/sand*

*055/graphite marl*

## FIREWORKS

1100132

Full zip style knitted in 100% boiled wool, weight approx. 450g/m<sup>2</sup>. A beautiful jaquard pattern in seasonal colour combinations. Inverted zip at front and in side pockets. Embroidery on upper left arm.

*020/grey marl*

*078/chutney*

*051/off white*

*002/light navy*

---

## MALE COLLECTION

---

Our male range carries some good old favourites in new seasonal colours, but is ofcourse also enriched with new styles, and most of all new fresh, high functional wool blends. We are happy to present wool and TENCEL® in varoius expressions and patterns. We have also put some extra effort into our merino wool programme which have paid off both in design and qualities.

## ZACK FULL ZIP

2100446

Full zip merino style in half Milano knit, weight 400g/m<sup>2</sup>, where different colour blocks are put together into great combinations. Drop needle down at body, back and front, gives a rib knitted effect. Moulded zip at front and embroidery on upper left arm.

055/graphite marl

051/off white

022/navy

## ASKON HALF ZIP

2100445

Narrow fitted half zip style in our new, high functional wool blend in 84% fine merino wool and 16% TENCEL®, weight 350g/m<sup>2</sup>. Wool and TENCEL® is a perfect match and both fibres have outstanding properties and complement each other. The garment is knitted in our very unique full Milano knit, but because of the TENCEL® it gets a lighter, cooler and softer feeling. Striped pattern at front, back and arms. Solid coloured side panels and yoke. Small but expressive details in contrasting colours, embroidery at upper left arm.

022/navy

013/grey

*Merino wool, we use both fine- and extra fine merino wool, this wool is particularly soft and can easily be worn direct to skin.*

022/navy

028/pink

## GY UDDEBO FEMALE

1100462

Structure knitted sweater, slightly turtle necked with cuffs down at arms and body. Knitting in 70% cotton/30% linen, cotton is Öko-Tex certified. Small logo badge down at left arm.

## GY UDDEBO MALE *Male style!*

2100447

Structure knitted sweater, slightly turtle necked with cuffs down at arms and body and with a classic cut. Knitting in 70% cotton/30% linen, cotton is Öko-Tex certified. Small logo badge down at left arm.

## *GY collection*

In 1946 when the company was founded the name was Gällstads Ylle, and focus was on knitted fashion for women. After time focus changed to garments with a more sporty expression, and when entering this new industry decision was made that a new name was needed and the company name changes from Gällstads Ylle to Ivanhoe of Sweden, a name that was powerful and that worked internationally. Our main focus is still on the sporty designs, but a few years ago we took some of the favourites back from the old days and updated with the materials and techniques of today, and so the GÄLLSTADS YLLE - GY Collection was born.

---

## UNDERWOOL

---

Our layer one programme in 100% extra fine merino wool, "Underwool", carries some timeless classics, but is also expanded and enriched with a number of expressive prints. All merino wool used in our "Underwool" line is 100% MULESING FREE. For SS19 we are happy to present a new high functional, soft & comfortable quality in extra fine merino wool/TENCEL®.

**UNDERWOOL** 100% mulesing free!  
**MEJA**

WOOL+TENCEL® = 

Wool and TENCEL® are a perfect match and both fibres have outstanding properties and complement each other:

- Wool blends with TENCEL® provide even better moisture transport.
- Wool with TENCEL® feels softer against the skin.
- TENCEL® also gives a cooler and more summery feeling.

# Get warm stay COOL in wool

**IVANHOE COMPRESSION SOCKS** are specialized hosiery, designed to help prevent the occurrence of, and guard against further progression of venous disorder such as edema, phlebitis and thrombosis.

There are 4 main compression levels which are measured in millimeters of mercury (mmHg). The higher the numbers, the higher the compression. Our compression socks are Class 1 compression. 15-21 mm Hg, "support" socks, flight socks, sport compression socks.

---

We use  
**SPORT LODEN WOOL**

100% wool in our boiled wool garments.  
A Blue Sign certified yarn supplied by

4-thread weight approx. 425-460g/m<sup>2</sup>.  
3-thread approx. 350g/m<sup>2</sup>.

*NEW quality!*

Loden/Lycra quality 98% wool/2% Lycra,  
weight approx. 325g/m<sup>2</sup>

**COTTON**

Quality american type, fibre length 27-29 mm. Yarn is spun and dyed in Portugal.

In our cotton we use an extra high twist to make it stronger, more resistant against pilling, and shinier. Garments are also pre-shrunk and tumbled for softness.

Cotton weight on our flat knitted single jersey is 400g/m<sup>2</sup>.

**COTTON - LINEN**

Liegi is the name of our cotton/linen yarn in 70% cotton/30% linen where cotton is Öko-Text certified. Compared to regular cotton, this yarn has a dryer and cooler summer feeling.

TENCEL® branded lyocell fibres from the house of Lenzing. They are of botanic origin, since they are extracted from the raw material wood. Fibre production itself is extremely ecofriendly, due to the closed loop system. Textiles of TENCEL® fibres are more absorbent than cotton, softer than silk and cooler than linen.

We combine wool with TENCEL® to get a softer and cooler quality.

**SPORT LODEN/TENCEL®**

60% sport loden wool 40% TENCEL®,  
weight: approx. 350g/m<sup>2</sup>.

**SPORT LODEN/TENCEL®  
JAQUARD KNIT**

60% sport loden wool  
40% TENCEL®,  
weight: approx. 350g/m<sup>2</sup>.

*NEW quality!*

**FINE MERINO WOOL/ TENCEL®**

84% fine merino wool  
16% TENCEL®  
Full Milano Knitting, weight: 350g/m<sup>2</sup>

*NEW quality!*

**EXTRA FINE MERINO WOOL/  
TENCEL®**

49% extra fine merino wool  
49% TENCEL®  
2% elastane  
Structure knit, weight: 175g/m<sup>2</sup>

**LAMBSWOOL**

is a soft, but also a weak fibre, a mixture with 20% polyamide makes it stronger, more long lasting and form stable.

Sometimes we even knit adding some Lycra to make the material more stretchy. The mix with lycra also helps the garment retain its shape.

**EXTRA FINE  
MERINO WOOL**

We use both fine- and extra fine merino wool, this wool is particularly soft and can easily be worn direct to skin.

Our unique full Milano knit is balanced and developed for optimal comfort.

Full Milano knitting, weight: 485g/m<sup>2</sup>.  
Half Milano knitting, weight: 400g/m<sup>2</sup>.

**100% MULESING FREE**

*all merino wool used in our layer one programme is mulesing free*

*All our  
WINDBREAKER  
jackets and sweaters*

have lining with stretch in the back part in order to make them more comfortable and flexible to wear.

Breathability: 20000g/m<sup>2</sup>/24h  
Stretch lining: 40000g/m<sup>2</sup>/24h

The lining is developed by the Swedish company FOV in Borås for activewear and is certified with the Öko-Text standard 100.

## HOW TO TAKE CARE OF YOUR WOOL GARMENT

---

Make sure your woolen garment really needs to be washed. Unlike cotton and man-made materials, wool does not need to be washed frequently - even wool socks can be worn many times between washing if allowed to be aired out between wearing them.

*Wool sweaters do  
not need to  
be washed  
particularly often.*

*Instead, hang the garment out for airing occasionally and it will soon revive and feel clean and fresh again.*

When you wash, look for washing instructions in the side seam. Most of our wool garments can be washed in the washing machine, using the 30°C (approx. 80°F) **WOOL PROGRAM**.

---

HOWEVER, BEFORE PUTTING ANY WOOLLENS IN THE MACHINE, MAKE SURE THAT:

The care label states that it is machine washable.

The directions on the care label are followed.

The correct program on your washing machine is chosen.  + **WOOL PROGRAM**.

Spin speed is correct. When selecting the wool program, some machines automatically switch to the correct spin speed setting for wool, whilst others will require the spin speed to be set independently from the wool program.

---

If washing by hand, rub gently to avoid felting.

Pull gently into shape and dry flat.
