

Quick Installation Guide

DOCSIS 3.0 Cable Modem

TC-7610

Connect the Hardware

Activate the Modem

1 Get your Internet service account information ready, and find the serial number and MAC address on the product label at the bottom of the modem.

2 Make sure your computer is set to dynamically obtain an IP address.

3 Launch a web browser, and visit any website. You will be automatically redirected to your ISP's self-activation page. If the self-activation page does not show up, call your ISP's customer service.

For Comcast and Time Warner Cable (TWC):
Comcast Xfinity 1-800-934-6489 www.comcast.com
Time Warner Cable 1-855-704-4503 www.timewarnercable.com
The contact information listed might change. You can also find the contact number in your monthly Internet service billing statement.

4 Follow the on-screen instructions to activate the modem, and wait for about 10 minutes till the LEDs    become solid on.

Enjoy the Internet

Now you can use your computer to surf the Internet. If you want to share the Internet access, connect a router to the modem instead. You need to reboot the modem to get the router connected to the Internet.

Note: If the Internet is not accessible, contact your ISP and make sure that the modem is activated.

For additional configuration, log into the web interface at <http://192.168.100.1>, and enter **admin** (all lowercase) for both username and password.

FAQ (Frequently Asked Questions)

Q1. What can I do if I cannot access the Internet?

- A1. Make sure that all cables are connected properly and securely to the modem.
- A2. Contact your ISP to verify the modem is activated. If the modem is not activated, your ISP will activate it for you.
- A3. Make sure that your computer is set to obtain an IP address automatically.
- A4. Power cycle the modem by unplugging the power adapter from the electrical outlet and plugging it back in.
- A5. Reset the modem. Please refer to FAQ > Q4 for instruction.
- A6. Contact our Technical Support if the problem persists.

Q2. What can I do if the login page of the modem's web interface does not appear?

- A1. Check if the computer is set to a static for fixed IP address. If so, change the setting to obtain an IP address automatically.
- A2. Make sure **http://192.168.100.1** is correctly entered in the web browser.
- A3. Use another web browser.
- A4. Unplug and reconnect both ends of the Ethernet cable.

Q3. How can I reset the password to the modem's web interface?

- A. If you have changed the password and have forgotten it, refer to FAQ > Q4 to reset the modem. This will reset the password back to **admin**.

Q4. How do I restore the modem to its factory default settings?

- A. With the modem powered on, press and hold the **Reset** button on the rear panel until all LEDs turn on momentarily, then release the button.

Reset Button
Press & Hold for 5 seconds
