

# Monthly Living Expenses Calculation Template

This template has been designed to calculate Monthly Living Expenses during the home loan process. To calculate the Monthly Living Expenses, which is the amount of money needed to maintain a reasonable standard of living, consider existing expenses that will continue to be incurred, and any new expenses that will be incurred after the loan is funded. Expenses such as the ones below should be included (where applicable). If you are an existing CommBank customer you can use the tools located on the CommBank app to assist with completing this.

## Please Note:

Do not include investment property expenses as part of your Monthly Living Expenses. These are to be captured as Rental Expenses.
