The Windows Live Mail setup process is now complete. You have a choice of setting the new account as the default by checking the box.

- When a new email account is added on Windows Live Mail, the program creates 5 new folders -
 - > Inbox,
 - > Drafts,
 - > Sent items,
 - > Junk e-mail
 - > Deleted items

Inbox (3) Drafts Sent items Junk e-mail (2) Deleted items	Open Find Select quick views Remove account
Outbox	New folder Download all folders
Drafts Drafts Deleted items	Move up Move down Set color
Add an e-mail acc	Properties

For all you Outlook Express users - The Junk e-mail folder was included in Windows Mail Vista as a part of the automated junk email filter utility and carried forward to Windows Live Mail email client.

Step 3 - Modifying the properties of the email account

- The last step is to modify the properties of the newly set up email account.
 - Right-click on the account in the left panel
 - select "Properties".
 - Advanced tab.
 - Check "Leave a copy of messages on server"
 - "Remove from server when deleted..."
