

Train Kept A Rollin' by Tony Bradshaw (new lyrics by Wayne Potash)

I'm on a train
On a track
And I can feel the wheels going clickety clack
And I can hear the engineer
And I see can the black smoke coming from the
stack
The brakeman's letting go of the chord
The conductor's calling "all aboard!"

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!

Get along, boys and girls get along
Get along, boys and girls get along
Get along, boys and girls get along
Get along, boys and girls get along
Brakeman's letting go of the chord
The conductor's calling "all aboard!"

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!

(guitar solo)

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!

I'm on a train
On a track
And I can feel the wheels going clickety clack
And I can hear the engineer
And I see can the black smoke coming from the
stack
Brakeman's letting go of the chord
The conductor's calling "all aboard!"

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!

Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Train kept a rollin' all night long
Going fast, going slow
Look at that train, go, go, go!
