

Subject Invitation to Join Editorial Board of Scientific Reports
From White, Richard <R.White@nature.com>
To tiwari@eng.utah.edu <tiwari@eng.utah.edu>
Date 2015-04-28 06:24

Dear Professor Tiwari,

We are writing to invite you to serve as an Editorial Board Member for Scientific Reports, a journal from Nature Publishing Group, the publishers of Nature.

Scientific Reports launched in 2011 as a multidisciplinary, online-only, open access publication covering all areas of the natural sciences. It does not set a threshold of perceived importance to the papers that it publishes; rather, it publishes all papers that are judged to be technically valid.

All research papers benefit from rapid peer review and publication and, through the open access publishing model, are available to the entire scientific community. Nature Publishing Group brings 140 years of experience in the communication and publication of scientific research to the open access arena. Nature Publishing Group started publishing open access content in 2005, and now offers authors an open access option when publishing in Nature Communications and many of our non-Nature branded Academic Journals. Scientific Reports uses the tools, technology and experience of Nature Publishing Group, to provide our authors with improved service, visibility and functionality.

We have divided Scientific Reports into broad areas, each of which is represented by an Editorial Advisory Panel member, who offers editorial support and advice, and facilitates the recruitment of the Editorial Board. The Editorial Advisory Panel member for Chemical Physics is Professor Alexei Kornyshev from Imperial College London. We would be delighted if you would act as an Editorial Board Member for Scientific Reports within this field.

Editorial Board Members are recruited for an initial 2 year term, and the principal responsibilities are:-

- Assess whether manuscripts should be sent for peer review.
- Manage the peer review of manuscripts and make final editorial decisions – whether to accept, reject or allow resubmission.
- Act as an advocate for Scientific Reports.

Please contact us if you have any questions, and we hope to be working with you in the near future.

Best regards,
Richard

Dr Richard White
Editorial Manager
Scientific Reports

4 Crinan Street
London, N1 9XW, UK

Dear Ashutosh,

Thank you for agreeing to join the Editorial Board of Scientific Reports – we look forward to working with you.

Below is a link to two documents that you will need in the future. The first is a guide to our submission website (eJP). You will not need this until you are sent a manuscript to handle. At that point you will need to read through the instructions. The second document contains all of the information that you will need regarding peer review and editorial policy. You will also find a 'Quick Guide', please take a few minutes to familiarise yourself with this document.

<https://www.dropbox.com/sh/4omwlg65cq7i0ja/mxUv6xavr3>

There are also some short instructional videos on our website that will explain how to use eJP, and how to contact reviewers.

www.nature.com/multimedia/srep/videos/SciRepEJP.mp4

www.nature.com/multimedia/srep/videos/SciRep_ContactingReviewers.mp4

You will find a list of the subject categories associated with the journal here - <http://mts-common.nature.com/srep-vocabulary.html>. Please could you choose the top ~5 terms from this list that best describe your work and areas of expertise, and email these back to me. If you find that the words included on this list are somewhat limited, feel free to send terms that are more relevant.

By way of thanks for your presence on the Editorial Board, we would like to offer you a complimentary personal subscription to Nature. To redeem your subscription please register at <https://www.sunbeltfs.com/forms/na/scrdigital.asp>

If you have any questions at any point, or about any of the above, please contact me.

Kind regards,
Richard
