Coverage Rationale

Indications for Coverage

The services being requested must meet all of the following criteria:

- A written treatment plan must be submitted with the request for specific services and supplies. Periodic review of the written treatment plan may be required for continued Skilled Care needs and progress toward goals; and
- Be ordered and directed by a treating practitioner or specialist (M.D., D.O., P.A. or N.P); and
- The care must be delivered or supervised by a licensed professional in order to obtain a specified medical outcome; and
- Services are:
 - Not Custodial Care in nature; and
 - Not provided for the comfort and convenience of the member or the member’s family; and
 - Provided in the home in lieu of Skilled Care in another setting (including but not limited to a nursing facility, acute inpatient rehabilitation or a hospital); and
 - Clinically appropriate and not more costly than an alternative health service; and
 - Intermittent and part time (typically provided for less than 4 hours per day)

Note: Intermittent Care exceptions may be made in certain circumstances when the need for more care is finite and predictable.

Additional Information

- Eligible physical, occupational and speech therapy:
 - Received in the home from a Home Health Agency is covered under the Home Health Care benefit.
 - Received in the home from an independent physical, occupational or speech therapist (a therapist that is not affiliated with a Home Health Agency) is covered under the rehabilitation services - outpatient therapy benefit.
- Medical supplies and medications that are used in conjunction with a home health care visit are covered as part of that visit. Examples include but are not limited to:
 - Catheters
 - Irrigation devices
 - Surgical dressing
 - Syringes

Coverage Limitations and Exclusions

Covered pharmaceuticals, drugs, and Durable Medical Equipment provided in connection with home health services may be subject to separate benefit categories. Reference the Durable Medical Equipment and the Pharmaceutical Products benefit sections of the member specific benefit plan document. Home health care benefits do not include:

- Custodial Care
- Domiciliary care
- Private Duty Nursing [refer to the Coverage Determination Guideline titled [Private Duty Nursing \(PDN\) Services](#)]
- Respite care
- Rest cures and therefore these services are not covered (check the member specific benefit plan document)
- Homemaker services such as home meal delivery services (e.g., Meals-on-Wheels) or transportation services (e.g., Dial-a-Ride)
- Independent nurse hired directly by the family/member
- Personal care attendants (these are not home health aides)
- Home health services beyond benefit limits (e.g., number of visits)

UnitedHealthcare will determine if benefits are available by reviewing both the skilled nature of the service and the need for Physician-directed medical management. A service will not be determined to be "skilled" simply because there is not an available caregiver.

Documentation Requirements

Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service. The documentation requirements outlined below are used to assess whether the member meets the clinical criteria for coverage but do not guarantee coverage of the service requested.

Definitions

The following definitions may not apply to all plans. Refer to the member specific benefit plan document for applicable definitions.

Custodial Care: Services that are any of the following non-Skilled Care services:

- Non-health-related services such as help with daily living activities. Examples include eating, dressing, bathing, transferring and ambulating.
- Health-related services that can safely and effectively be performed by trained non-medical personnel and are provided for the primary purpose of meeting the personal needs of the patient or maintaining a level of function, as opposed to improving that function to an extent that might allow for a more independent existence.

Home Health Agency: A program or organization authorized by law to provide health care services in the home.

Intermittent Care: Skilled nursing care that is provided either:

- Fewer than seven days each week
- Fewer than eight hours each day for periods of 21 days or less

Exceptions may be made in certain circumstances when the need for more care is finite and predictable.

Place of Residence: Wherever the patient makes his/her home. This may include his/her dwelling, an apartment, a relative's home, home for the aged, or a Custodial Care facility.

Skilled Care: Skilled nursing, skilled teaching, skilled habilitation and skilled rehabilitation services when all of the following are true:

- Must be delivered or supervised by licensed technical or professional medical personnel in order to obtain the specified medical outcome, and provide for the safety of the patient,
- Ordered by a Physician,
- Not delivered for the purpose of helping with activities of daily living, including dressing, feeding, bathing or transferring from a bed to a chair,
- Requires clinical training in order to be delivered safely and effectively,
- Not Custodial Care, which can safely and effectively be performed by trained non-medical personnel.

Applicable Codes

The following list(s) of procedure and/or diagnosis codes is provided for reference purposes only and may not be all inclusive. Listing of a code in this guideline does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by the member specific benefit plan document and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Instructions for Use

This Coverage Determination Guideline provides assistance in interpreting UnitedHealthcare standard benefit plans. When deciding coverage, the member specific benefit plan document must be referenced as the terms of the member specific benefit plan may differ from the standard plan. In the event of a conflict, the member specific benefit plan document governs. Before using this guideline, please check the member specific benefit plan document and any applicable federal or state mandates. UnitedHealthcare reserves the right to modify its Policies and Guidelines as necessary. This Coverage Determination Guideline is provided for informational purposes. It does not constitute medical advice.

This Coverage Determination Guideline may also be applied to Medicare Advantage plans in certain instances. In the absence of a Medicare National Coverage Determination (NCD), Local Coverage Determination (LCD), or other Medicare coverage guidance, CMS allows a Medicare Advantage Organization (MAO) to create its own coverage determinations, using objective evidence-based rationale relying on authoritative evidence ([Medicare IOM Pub. No. 100-16, Ch. 4, §90.5](#)).

UnitedHealthcare may also use tools developed by third parties, such as the InterQual[®] criteria, to assist us in administering health benefits. UnitedHealthcare Coverage Determination Guidelines are intended to be used in connection with the independent professional medical judgment of a qualified health care provider and do not constitute the practice of medicine or medical advice.

For self-funded plans with SPD language other than fully-insured Generic COC language, please refer to the member specific benefit plan document for coverage.
