Oracle Primavera Global Price List

	License Price	Software Update License & Support	Metric	Minimum
Products				
Primavera P6 Enterprise Project Portfolio Management	2,750	605.00	Application User	
Primavera P6 Progress Reporter	950	209.00	Application User	
Primavera P6 Professional Project Management	2,500	550.00	Application User	
Primavera P6 Analytics	2,000	440.00	Application User	25
Primavera Contract Management, Business Intelligence Publisher Edition	2,000	440.00	Application User	
Primavera Earned Value Management	10,000	2,200.00	Application User	
Primavera Risk Analysis	9,500	2,090.00	Application User	
Primavera Portfolio Management	2,900	638.00	Application User	50
Primavera Capital Planning and Investment Control Budgeting	2,000	440.00	Application User	50
Primavera P6 Reporting Database	25,000	5,500.00	Processor	
Primavera Contractor	1,295	285.00	Application User	
Products: Unifier				
Primavera Unifier Project Controls	3,950	869.00	Application User	25
Primavera Facility Management	2,750	605.00	Application User	25
Primavera Real Estate Management	2,750	605.00	Application User	25
Primavera Unifier Portal User	75	17.00	Application User	100
Products: Instantis				
Instantis EnterpriseTrack	2,000	440.00	Application User	25
Instantis EnterpriseTrack Timesheets	400	88.00	Application User	25
Products: Oracle Primavera Prime				
Oracle Primavera Prime Capital Plan Management	2,750	605.00	Application User	10
Oracle Primavera Prime Project and Program Management	3,950	869.00	Application User	25
Oracle Primavera Prime Risk Management	1,200	264.00	Application User	25
Integration Products				
Primavera Gateway	20,000	4,400.00	Application User	5
Primavera P6 Enterprise Project Portfolio Management Web Services	500	110.00	Application User	10
Primavera Contract Management Web Services	500	110.00	Application User	10
User Productivity Kit				
User Productivity Kit Standard	17,500	3,850.00	UPK Developer	1
User Productivity Kit Standard	90	20.00	Application User	50
User Productivity Kit Standard	45	10.00	Employee	500
User Productivity Kit Professional	17,500	3,850.00	UPK Developer	1
User Productivity Kit Professional	100	22.00	Application User	50
User Productivity Kit Professional	50	11.00	Employee	500
User Productivity Kit Content Materials for Primavera				
Oracle User Productivity Kit for Primavera P6 Enterprise Project Portfolio Management				
(up to 4K employees and up to $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	70,000	15,400.00	UPK Module	not applicable
Oracle User Productivity Kit for Primavera P6 Enterprise Project Portfolio Management, Reporting				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
Oracle User Productivity Kit for Primavera P6 Team Member				
(up to 4K employees and up to $1 billion in revenue)	8,800	1,936.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	17,600	3,872.00	UPK Module	not applicable
Oracle User Productivity Kit for Primavera Contract Management				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
Oracle User Productivity Kit for Primavera Portfolio Management				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
Oracle User Productivity Kit for Primavera Unifier Project Controls				
(up to 4K employees and up to $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	70,000	15,400.00	UPK Module	not applicable
Oracle User Productivity Kit for Instantis EnterpriseTrack				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
User Productivity Kit Content Materials for Oracle Primavera Prime				
Oracle User Productivity Kit for Oracle Primavera Prime Capital Plan Management				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable

Oracle Primavera Global Price List

	Monthly Subscription Fee	Metric	Minimum
Products: P6 (Cloud Service)			
Primavera P6 Enterprise Project Portfolio Management Cloud Service	125	Hosted Named User	200
Primavera P6 Analytics Cloud Service	90	Hosted Named User	25
Primavera P6 Progress Reporter Cloud Service	12	Hosted Named User

Instantis Cloud Service Additional 1 GB File Storage	10	Gigabyte	
Instantis Cloud Service Additional Nonproduction Environment - Nonproduction Environment	10% of Monthly Subscription Fee	Nonproduction Environment	

Term licensing available for all Oracle Products. The list price for a term license is based on a specific percentage of the perpetual license price. Annual terms licenses are available from 1 to 5 years: 1 year - 20% of list; 2 year - 35% of list, 3 year - 50% of list, 4 year 60% of list and 5 year 70% of list.

The list support price for term licenses is 22% of the list perpetual license fee, as listed in the price list. The term license percentages are not applied to the list support price.

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion dates for your entire employee population. Application Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle iSupplier Portal, Oracle Services Procurement, PeopleSoft eSupplier Connection, PeopleSoft Strategic Sourcing and JD Edwards Supplier Self Service programs, use by your external suppliers is included with your application user licenses.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Hosts, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Ops Center Virtualization Management Pack, Grid Engine, Oracle VM Management Pack, and, Provisioning and Patch Automation Pack, only the processors on which the program is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator and Application Adapter for Data Integration, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be counted for the purposes of determining the number of licenses required.

For the purposes of the following program: Audit Vault Collection Agent, only the processors of the database sources from which audit data is collected must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, and In-Memory Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Database Firewall, only the processors of the database sources which are protected or monitored must be counted for the purpose of determining the number of licenses required.

Gigabyte: is defined as a gigabyte of storage space.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

Nonproduction environment: is defined as a single nonproduction environment provided to Customer as part of the Cloud Services. A nonproduction environment is used for testing and validating changes prior to promotion to the production environment as well as for recreating events and duplicating issues occurring in the production environment for the purposes of troubleshooting and facilitating incident resolution.

Oracle Support Services

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.
Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:
· Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
· Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to OracleMetaLink, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

Oracle On Demand

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administrative Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.
