**SALTWORKS®**, founded in 2001 near Seattle, Washington, is an American company that prides itself on offering a superior selection of over 100 varieties of salt. We currently import directly from over two dozen countries around the globe. Whether you are looking for a premium Dead Sea Salt from Israel or hand harvested grey salt from France, SaltWorks is dedicated to offering the highest quality and widest selection of salt at the best price-direct from the source.

Our customers span from individuals ordering salt by the pound to enjoy in their homes, to manufacturers and health food stores that order by the pallet. SaltWorks' strict commitment to quality ensures that all of our customers, large and small, receive the most pure and natural products possible.

All of our salts are responsibly harvested and guaranteed.

Special requests or questions? Please contact us! 800-353-7258 or [info@seasalt.com](mailto:info@seasalt.com). We pride ourselves on being able to answer tough questions, help with special projects and assist you in your hunt for the perfect salt to fit your needs.

**BOKEK® Dead Sea Salt** is a natural white crystal harvested from the southern Dead Sea in Israel, where the concentration of minerals is the highest. The waters of the Dead Sea are very distinct, having a total salt concentration that is 10 times higher than ocean water, reaching 33% versus 3%. The one of a kind composition of this special sea's brine is uniquely comprised of magnesium, potassium and calcium chloride. Additionally, the Dead Sea has a high concentration of bromides, which all contribute to the renowned healing properties.

This extraordinary composition has made the Dead Sea an ideal spot for people seeking relief from skin and rheumatic disorders, and an equally popular choice for vacationers seeking relaxation. In fact, these soothing, miracle-working waters have a reputation that dates back over 2,000 years to a time when Cleopatra established the world's first known "Day Spa" on its shores.

It is agreed by many health professionals that Bokek Dead Sea Salt is the most therapeutic of all bath salts. Dead Sea salt is recommended to relieve the symptoms of dry skin disorders, such as psoriasis and eczema, as well as, to help ease rheumatoid arthritis, joint and muscle pain. The salt is also used for overall body detoxification. With a sodium content of less than 12%, it is gentle on the skin. Its natural skin softeners and muscle relaxing properties make this salt truly exceptional.

The widely reputed soothing effects of the Dead Sea can now be enjoyed in the privacy of your own home! Bring the salt from the sea to your bathtub for relaxation and relief from skin troubles or daily stresses.

In addition to being an important ingredient at the spa, Bokek Dead Sea Salt is widely used as

a raw material in the cosmetic industry. Products including facial toners, lotions, soaps, shampoos, scrubs and creams incorporate this unique salt. The benefits extend well beyond the bath, and SaltWorks guarantees the purest Dead Sea salt on the market, offered in a selection of grain sizes to ensure you have the ideal fit for your project.

*useful Tip!* BATHING WITH **BOKEK DEAD SEA SALT AT HOME**

**Deep Therapy Bath**

For a deep therapy bath, add approximately 4 cups (2 pounds) of salt into a standard-size bathtub and soak for approximately 20-30 minutes twice a month. Use hot water to aid in detoxification or warm water for maximum absorption of the salt's benefits. The detoxification process will pull moisture from your body as it eliminates toxins. Be sure to drink plenty of water to rehydrate yourself while following a bath salt regimen.

**Everyday Bathing**

For everyday bathing, add approximately 1-2 cups of salt into a standard-size bathtub and soak for approximately 20-30 minutes.

**Added Benefits**

For added benefits and enjoyment, try mixing your sea salt with therapeutic oil.

**Cleanse:** Grapefruit/Eucalyptus  
**Soothe and Relax:** Lavender  
**Energize:** Spearmint/Rosemary

Simply mix 15-25 drops of blended essential oils with 16 oz. of Bokek Dead Sea Salt. Be sure to start adding the oils slowly and test as you go. Oil strengths can vary depending on the manufacturer.

Please be aware that Dead Sea salt is prone to absorbing moisture from the air. Be sure to store your salts in an airtight container to avoid clumping.

**BRETON™ French Grey Sea Salts** come from the Guerande region of France, and are among the best sea salts in the world. Sea water is channeled into clay-

lined evaporation ponds. As the salt crystals form, they absorb a beautiful grey color from the clay. The clay also adds to the high mineral content of these salts.

The harvesting of these salts is an art. The salt crystals are collected by hand using traditional Celtic methods. Breton sea salt undergoes no additional

treatment after harvesting. Neither washed nor refined, it keeps its essential nutrients vital to the human body.

The Breton sea salt crystals range in size from Velvet, which is close to the consistency of flour, to Brut grain, which is approximately 2-4 mm.

**ULTRA EPSOM® Salt** is known for its exceptional purity and therapeutic value. Available in four sizes, Ultra Epsom is ideal for use in a variety of applications, including home, spa and garden.

Ultra Epsom is the highest quality pharmaceutical-grade Epsom salt available. It dissolves easily, perfect for soothing sore muscles, relaxing soaks, and calming foot baths. Create body scrubs, bath salts and

much more with the new range of grain sizes available.

For those with a green thumb, using Ultra Epsom salt as plant

food will help bring your garden to life, creating a greener, lusher appearance. Use with plants such as tomato plants, rhododendrons, roses, and even your lawn by

dissolving in water, and using it as a fertilizer spray in your garden.

SaltWorks is excited to be able to offer the highest quality Epsom salt at an affordable price.

**CEARA™ Sea Salts** are pure Atlantic sea salt crystals from the clear waters off the coast of Brazil.

They are produced through the natural evaporation of sea water. Salt water is captured in retention

ponds and allowed to evaporate by means of the sun and wind. During the process, a salt bed forms on the bottom of the pond. The salt is harvested, screened and packaged. The typical salt crystal “crop” takes three to seven years to produce.

In high-mineral sea salt production, the environmental conditions directly influence the final salt produced. High quality sea water creates high quality sea salt. The sea water used to make Ceara bath salt crystals is especially clean.

It is collected from a mangrove area, an ecosystem that removes undesirable elements from the water. This is accomplished through a filtration process carried out by indigenous plants and shellfish.

This sea salt can be used in many products including salt scrubs, bath salts and potpourri. The various sizes allow you to customize the look and feel of your products.

A.

B.

C.

D.

E.

**RIO™ Sea Salt Crystals** are the same pure Atlantic sea salt as our Ceara brand, only brought to you in a larger form, ideal for creating stunning visual salt presentations.

The crystals are solar evaporated from the clear blue waters off the coast of Brazil. It is minimally crushed and left in large pieces. Rio is semi-transparent and

can be rinsed to create a clear, shimmering crystal. This is the ideal size to be used in salt potpourri. The large crystals are semi-porous, which enables them to be infused

with color and essential oils. When the scented crystals are placed in a diffuser, they can be heated, allowing a slow release of scent into the air.

Both Rio and Ceara are suitable for commercial spas, home use or by weekend crafters. The options are limitless!

F.

G.

*useful tip!* CREATIVE IDEAS WITH RIO SEA SALT CRYSTALS

Rio Crystals can be rinsed to create shimmering “glass-like” pieces. You can simply add essential oils or fragrance oils for a beautiful alternative to the traditional colored crystal potpourri. To rinse,

simply spray lightly with a salt water solution. Be sure not to let the crystals sit in the water or they will melt away! Lay out on parchment to dry. When completely dry, add fragrance with an eye dropper.

**EUROSPA™ European Sea Salt** is harvested from the crystal clear waters of the Mediterranean Sea. It is evaporated to a sparkling white by the sun and ocean air. Perfect for commercial spa use, or you can even use this sea salt as a key ingredient in your

own bath products at home. EuroSpa Fine is similar in grain size to table salt. Grains are approximately 0-1mm. The fine crystals are a wonderful exfoliant for salt scrubs and body treatments. It also works well in bath salt recipes, as it blends easily with powdered ingredients.

EuroSpa Coarse grain ranges in size from 1-3mm. It is a clean, white crystal that easily absorbs essential oils. This is a great salt for therapeutic bath soaks and blends, as it colors nicely and blends well with essential oils.

Also available in Extra Coarse with a grain size of 3-4mm.

B.

C.

*useful tip!* TRY THIS **EASY CUSTOM SALT SCRUBS**

You can get the unique benefits of the different salts by combing salts and grain sizes to create a custom salt scrub. Simply mix salts together with your choice of carrier oil and massage the skin. A mix of Eurospa and Bokek Dead Sea Salt in fine grains, make a wonderful blend for a soothing full-body exfoliation without being too harsh. Add a slightly larger grain size, like Ceara Small, to create a more abrasive scrub for use in a home pedicure.

**SONOMA SPA™ Sea Salt** is a great all-around sea salt. Produced in the United States, this sea salt is solar evaporated from the waters of the Pacific Ocean. The result is a clean, white crystal at an economical price. Sonoma has a low moisture content which works well for blending with essential or fragrance oils and for use in body treatments.

Sonoma Spa Fine is approximately the consistency of table salt. Crystals range in size from 0-1mm. This is great for salt scrubs, exfoliating soaps and body treatments.

Sonoma Spa Coarse ranges in size from 1-3mm. As with all Sonoma Spa salts, it is comprised of very clean, white crystals which are perfect for bath salts.

Sonoma Spa Extra Coarse has a substantial crystal size ranging from 4-8mm. This accepts oils easily, making it popular for salt potpourri, colored or scented bath salts and aromatherapy crystals.

*useful tip!* IDEAS FOR HIMALAYAN CRYSTALS

These salts are often used for crystal potpourri. To create this beautiful and aromatic display, simply lay crystals in a single layer. Using an eyedropper, add several drops of scented oil to each crystal. Allow to dry. Arrange crystals in a decorative bowl or in a heated scent diffuser for a long lasting aroma therapy. As scent dissipates over time, just add additional oil to refresh.
