

Florida Compilation of School Discipline Laws and Regulations

Prepared: March 31, 2021

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(a) Consistent policies and specific grounds for disciplinary action, including in-school suspension, out-of-school suspension, expulsion, and any disciplinary action that may be imposed for the possession or use of alcohol on school property or while attending a school function or for the illegal use, sale, or possession of controlled substances as defined in chapter 893.

Each district school board shall adopt a dress code policy that prohibits a student, while on the grounds of a public school during the regular school day, from wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the orderly learning environment.

2. Any student who violates the dress policy described in subparagraph 1. is subject to the following disciplinary actions:

a. For a first offense, a student shall be given a verbal warning and the school principal shall call the student's parent or guardian.

b. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal shall meet with the student's parent or guardian.

c. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to s. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

(e) Notice that illegal use, possession, or sale of controlled substances, as defined in chapter 893, by any student while the student is upon school property or in attendance at a school function is grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(f) Notice that use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(i) Notice that violation of district school board transportation policies, including disruptive behavior on a school bus or at a school bus stop, by a student is grounds for suspension of the student's privilege of riding on a school bus and may be grounds for disciplinary action by the school and may also result in criminal penalties being imposed.

(j) Notice that violation of the district school board's sexual harassment policy by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program or referral of such students to mental health services identified by the school district pursuant to s. 1012.584(4).

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred to mental health services identified by the school district pursuant to s. 1012.584(4) and the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred for criminal prosecution and mental health services identified by the school district pursuant to s. 1012.584(4) for evaluation or treatment, when appropriate. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(1) District school boards shall promote a safe and supportive learning environment in schools by protecting students and staff from conduct that poses a threat to school safety. A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

- (a) Defines criteria for reporting to a law enforcement agency any act that poses a threat to school safety that occurs whenever or wherever students are within the jurisdiction of the district school board.
- (b) Defines acts that pose a threat to school safety.
- (c) Defines petty acts of misconduct which are not a threat to school safety and do not require consultation with law enforcement.
- (d) Minimizes the victimization of students, staff, or volunteers, including taking all steps necessary to protect the victim of any violent crime from any further victimization.
- (e) Establishes a procedure that provides each student with the opportunity for a review of the disciplinary action imposed pursuant to s. 1006.07.
- (f) Requires the threat assessment team to consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety.

1006.135. Hazing prohibited at schools with any of grades 6-12.

(2) School district policy. - Each school district shall adopt in rule a policy that prohibits hazing and establishes consequences for a student who commits an act of hazing. The policy must include:

- (a) A definition of hazing, which must include the definition provided in this section.
- (b) A procedure for reporting an alleged act of hazing, including provisions that permit a person to anonymously report such an act. However, disciplinary action may not be based solely on an anonymous report.
- (c) A requirement that a school with any of grades 9 through 12 report an alleged act of hazing to a local law enforcement agency if the alleged act meets the criteria established under subsection (3).
- (d) A provision for referral of victims and perpetrators of hazing to a certified school counselor.
- (e) A requirement that each incident of hazing be reported in the school's safety and discipline report required under s. 1006.09(6). The report must include the number of hazing incidents reported, the number of incidents referred to a local law enforcement agency, the number of incidents that result in disciplinary action taken by the school, and the number of incidents that do not result in either referral to a local law enforcement agency or disciplinary action taken by the school.

1006.147. Bullying and harassment prohibited.

(4) Each school district shall adopt and review at least every 3 years a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution. Each school district's policy shall be in substantial conformity with the Department of Education's model policy. The school district bullying and harassment policy shall afford all students the same protection regardless of their status under the law. The school district may establish separate discrimination policies that include categories of students. The school district shall involve students, parents, teachers, administrators, school staff, school volunteers, community representatives, and local law enforcement agencies in the process of adopting and reviewing the policy. The school district policy must be implemented by each school principal in a manner that is ongoing throughout the school year and integrated with the school's curriculum, bullying prevention and intervention program, discipline policies, and other violence prevention efforts.

1006.195. District school board, charter school authority and responsibility to establish student eligibility regarding participation in interscholastic and intrascholastic extracurricular activities.

Notwithstanding any provision to the contrary in ss. 1006.15, 1006.18, and 1006.20, regarding student eligibility to participate in interscholastic and intrascholastic extracurricular activities:

- (1)(a) A district school board must establish, through its code of student conduct, student eligibility standards and related student disciplinary actions regarding student participation in interscholastic and intrascholastic extracurricular activities. The code of student conduct must provide that:
 - 1. A student not currently suspended from interscholastic or intrascholastic extracurricular activities, or suspended or expelled from school, pursuant to a district school board's suspension or expulsion powers provided in law, including ss. 1006.07, 1006.08, and 1006.09, is eligible to participate in interscholastic and intrascholastic extracurricular activities.
 - 2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets the criteria in s. 1006.15(3)(h).
 - 3. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s. 1006.20(2)(b).
- (b) Students who participate in interscholastic and intrascholastic extracurricular activities for, but are not enrolled in, a public school pursuant to s. 1006.15(3)(c)-(e) and (8), are subject to the district school board's code of student conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

A student may possess a wireless communications device while the student is on school property or in attendance at a school function. Each district school board shall adopt rules governing the use of a wireless communications device by a student while the student is on school property or in attendance at a school function.

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a

manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

(h) Notice that violence against any district school board personnel by a student is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of other disciplinary action by the school and may also result in criminal penalties being imposed.

District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

(m) Notice that any student who is determined to have made a threat or false report, as defined by ss. 790.162 and 790.163, respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred for criminal prosecution and mental health services identified by the school district pursuant to s. 1012.584(4) for evaluation or treatment, when appropriate. The district school superintendent shall perform all tasks necessary to make sound recommendations, nominations, proposals, and reports required by law to be acted upon by the district school board. All such recommendations, nominations, proposals, and reports by the district school superintendent shall be either recorded in the minutes or shall be made in writing, noted in the minutes, and filed in the public records of the district school board. It shall be presumed that, in the absence of the record required in this section, the recommendations, nominations, and proposals required of the district school superintendent were not contrary to the action taken by the district school board in such matters.

(24) Orderly classrooms and school buses. - Fully support the authority of each teacher and school bus driver to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and the authority of the school principal to place such students in an alternative educational setting, when appropriate and available.

1001.54. Duties of school principals.

(1)(c) The school principal shall fully support the authority of each teacher and school bus driver to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.

1002.20. K-12 student and parent rights.

Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(6) Educational choice. -

(a) Public educational school choices. - Parents of public school students may seek any public educational school choice options that are applicable and available to students throughout the state. These options may include controlled open enrollment, single-gender programs, lab schools, virtual instruction programs, charter schools, charter technical career centers, magnet schools, alternative schools, special programs, auditory-oral education programs, advanced placement, dual enrollment, International Baccalaureate, International General Certificate of Secondary Education (pre-AICE), CAPE digital tools, CAPE industry certifications, collegiate high school programs, Advanced International Certificate of Education, early admissions, credit by examination or demonstration of

competency, the New World School of the Arts, the Florida School for the Deaf and the Blind, and the Florida Virtual School. These options may also include the public educational choice options of the Opportunity Scholarship Program and the McKay Scholarships for Students with Disabilities Program.

1003.01. Definitions.

As used in this chapter, the term:

(5)(b) "In-school suspension" means the temporary removal of a student from the student's regular school program and placement in an alternative program, such as that provided in s. 1003.53, under the supervision of district school board personnel, for a period not to exceed 10 school days.

1003.04. Student conduct and parental involvement.

(2) The parent of each public K-12 student must cooperate with the authority of the student's district school board, superintendent, principal, teachers, and school bus drivers, according to ss. 1003.31 and 1003.32, to remove the student from the classroom and the school bus and, when appropriate and available, to place the student in an alternative educational setting, if the student is disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive.

1003.26. Enforcement of school attendance.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.

(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time. [...]

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

2. Evaluation for alternative education programs.

1003.31. Students subject to control of school.

(1) Subject to law and rules of the State Board of Education and of the district school board, each student enrolled in a school shall:

- (a) During the time she or he is being transported to or from school at public expense;
- (b) During the time she or he is attending school;
- (c) During the time she or he is on the school premises participating with authorization in a school-sponsored activity; and
- (d) During a reasonable time before and after the student is on the premises for attendance at school or for authorized participation in a school-sponsored activity, and only when on the premises, be under the control and direction of the principal or teacher in charge of the school, and under the immediate control and direction of the teacher or other member of the instructional staff or of the bus driver to whom such responsibility may be assigned by the principal. However, the State Board of Education or the district school board may, by rules, subject each student to the control and direction of the principal or teacher in charge of the school during the time she or he is otherwise en route to or from school or is presumed by law to be attending school. Each district school board, each district school superintendent, and each school principal shall fully support the authority of teachers, according to s. 1003.32, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting.

1003.53. Dropout prevention and academic intervention.

(1)(d)6. Prior to assignment of students to second chance schools, district school boards are encouraged to use alternative programs, such as in-school suspension, which provide instruction and counseling leading to improved student behavior, a reduction in the incidence of truancy, and the development of more effective interpersonal skills.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of students.

(b)3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. [...]

(2)(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program or referral of such students to mental health services identified by the school district pursuant to s. 1012.584(4).

1006.08. District school superintendent duties relating to student discipline and school safety.

(1) The district school superintendent shall recommend plans to the district school board for the proper accounting for all students of school age, for the attendance and control of students at school, and for the proper attention to health, safety, and other matters which will best promote the welfare of students. Each district school superintendent shall fully support the authority of his or her principals, teachers, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, to place such students in an alternative educational setting. When the district school superintendent makes a recommendation for

expulsion to the district school board, he or she shall give written notice to the student and the student's parent of the recommendation, setting forth the charges against the student and advising the student and his or her parent of the student's right to due process as prescribed by ss. 120.569 and 120.57(2). When district school board action on a recommendation for the expulsion of a student is pending, the district school superintendent may extend the suspension assigned by the principal beyond 10 school days if such suspension period expires before the next regular or special meeting of the district school board.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(a) Subject to law and to the rules of the State Board of Education and the district school board, the principal in charge of the school or the principal's designee shall develop policies for delegating to any teacher or other member of the instructional staff or to any bus driver transporting students of the school responsibility for the control and direction of students. Each school principal shall fully support the authority of his or her teachers and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, place such students in an alternative educational setting. The principal or the principal's designee must give full consideration to the recommendation for discipline made by a teacher, other member of the instructional staff, or a bus driver when making a decision regarding student referral for discipline.

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program.

1006.13. Policy of zero tolerance for crime and victimization.

(5) Notwithstanding any other provision of law, each district school board shall adopt rules providing that any student found to have committed any offense in s. 784.081(1), (2), or (3) shall be expelled or placed in an alternative school setting or other program, as appropriate. Upon being charged with the offense,

the student shall be removed from the classroom immediately and placed in an alternative school setting pending disposition.

1001.43. Supplemental powers and duties of district school board.

The district school board may exercise the following supplemental powers and duties as authorized by this code or State Board of Education rule.

(1) Student management. - The district school board may adopt programs and policies to ensure the safety and welfare of individuals, the student body, and school personnel, which programs and policies may:

(a) Prohibit the possession of weapons and drugs on campus, student hazing, and other activities that could threaten the operation of the school or the safety and welfare of the student body or school personnel.

1003.53. Dropout prevention and academic intervention.

(1)(d)5. A student may be assigned to a second chance school if the district school board in which the student resides has a second chance school and if the student meets one of the following criteria:

c. The student has committed a serious offense which warrants suspension or expulsion from school according to the district school board's code of student conduct. For the purposes of this program, "serious offense" is behavior which:

(III) Includes possession of weapons or drugs.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.

4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

1006.13. Policy of zero tolerance for crime and victimization.

(3) Zero-tolerance policies must require students found to have committed one of the following offenses to be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year, and to be referred to the criminal justice or juvenile justice system.

- (a) Bringing a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation or possessing a firearm at school.

1003.53. Dropout prevention and academic intervention.

(1)(c) A student shall be identified as being eligible to receive services funded through the dropout prevention and academic intervention program based upon one of the following criteria:

3. The student has a history of disruptive behavior in school or has committed an offense that warrants out-of-school suspension or expulsion from school according to the district school board's code of student conduct. For the purposes of this program, "disruptive behavior" is behavior that:
 - a. Interferes with the student's own learning or the educational process of others and requires attention and assistance beyond that which the traditional program can provide or results in frequent conflicts of a disruptive nature while the student is under the jurisdiction of the school either in or out of the classroom; or
 - b. Severely threatens the general welfare of students or others with whom the student comes into contact. [...]

(d)4. A student who is habitually truant may be assigned to a second chance school only if the case staffing committee, established pursuant to s. 984.12, determines that such placement could be beneficial to the student and the criteria included in subparagraph 3. are met.

5. A student may be assigned to a second chance school if the district school board in which the student resides has a second chance school and if the student meets one of the following criteria:

a. The student habitually exhibits disruptive behavior in violation of the code of student conduct adopted by the district school board. [...]

6. Prior to assignment of students to second chance schools, district school boards are encouraged to use alternative programs, such as in-school suspension, which provide instruction and counseling leading to improved student behavior, a reduction in the incidence of truancy, and the development of more effective interpersonal skills.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(c) The principal or the principal's designee may recommend to the district school superintendent the expulsion of any student who has committed a serious breach of conduct, including, but not limited to, willful disobedience, open defiance of authority of a member of his or her staff, violence against persons or property, or any other act which substantially disrupts the orderly conduct of the school. A recommendation of expulsion or assignment to a second chance school may also be made for any student found to have intentionally made false accusations that jeopardize the professional reputation, employment, or professional certification of a teacher or other member of the school staff, according to the district school board code of student conduct. Any recommendation of expulsion shall include a detailed report by the principal or the principal's designated representative on the alternative measures taken prior to the recommendation of expulsion.

(18) Implement school improvement and accountability. [...]

(b) Early warning system. -

1. A school that serves any students in kindergarten through grade 8 shall implement an early warning system to identify students in such grades who need additional support to improve academic performance and stay engaged in school. The early warning system must include the following early warning indicators:

a. Attendance below 90 percent, regardless of whether absence is excused or a result of out-of-school suspension.

b. One or more suspensions, whether in school or out of school.

c. Course failure in English Language Arts or mathematics during any grading period.

d. A Level 1 score on the statewide, standardized assessments in English Language Arts or mathematics or, for students in kindergarten through grade 3, a substantial reading deficiency under s. 1008.25(5)(a).

A school district may identify additional early warning indicators for use in a school's early warning system. The system must include data on the number of students identified by the system as exhibiting two or more early warning indicators, the number of students by grade level who exhibit

each early warning indicator, and a description of all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

2. A school-based team responsible for implementing the requirements of this paragraph shall monitor the data from the early warning system. The team may include a school psychologist. When a student exhibits two or more early warning indicators, the team, in consultation with the student's parent, shall determine appropriate intervention strategies for the student unless the student is already being served by an intervention program at the direction of a school-based, multidisciplinary team. Data and information relating to a student's early warning indicators must be used to inform any intervention strategies provided to the student.

1003.01. Definitions.

As used in this chapter, the term:

(8) "Habitual truant" means a student who has 15 unexcused absences within 90 calendar days with or without the knowledge or consent of the student's parent, is subject to compulsory school attendance under s. 1003.21(1) and (2)(a), and is not exempt under s. 1003.21(3) or s. 1003.24, or by meeting the criteria for any other exemption specified by law or rules of the State Board of Education. Such a student must have been the subject of the activities specified in ss. 1003.26 and 1003.27(3), without resultant successful remediation of the truancy problem before being dealt with as a child in need of services according to the provisions of chapter 984.

1003.26. Enforcement of school attendance.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(1) Contact, refer, and enforce.

(a) Upon each unexcused absence, or absence for which the reason is unknown, the school principal or his or her designee shall contact the student's parent to determine the reason for the absence. If the absence is an excused absence, as defined by district school board policy, the school shall provide opportunities for the student to make up assigned work and not receive an academic penalty unless the work is not made up within a reasonable time.

(b) If a student has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period, the student's primary teacher shall report to the school principal or his or her designee that the student may be exhibiting a pattern of nonattendance. The principal shall, unless there is clear evidence that the absences are not a pattern of nonattendance,

refer the case to the school's child study team to determine if early patterns of truancy are developing. If the child study team finds that a pattern of nonattendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies, and the principal shall notify the district school superintendent and the school district contact for home education programs that the referred student is exhibiting a pattern of nonattendance.

(c) If an initial meeting does not resolve the problem, the child study team shall implement the following:

1. Frequent attempts at communication between the teacher and the family.
2. Evaluation for alternative education programs.
3. Attendance contracts.

The child study team may, but is not required to, implement other interventions, including referral to other agencies for family services or recommendation for filing a truancy petition pursuant to s. 984.151.

(d) The child study team shall be diligent in facilitating intervention services and shall report the case to the district school superintendent only when all reasonable efforts to resolve the nonattendance behavior are exhausted.

(e) If the parent refuses to participate in the remedial strategies because he or she believes that those strategies are unnecessary or inappropriate, the parent may appeal to the district school board. The district school board may provide a hearing officer, and the hearing officer shall make a recommendation for final action to the district school board. If the district school board's final determination is that the strategies of the child study team are appropriate, and the parent still refuses to participate or cooperate, the district school superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

(f)1. If the parent of a child who has been identified as exhibiting a pattern of nonattendance enrolls the child in a home education program pursuant to chapter 1002, the district school superintendent shall provide the parent a copy of s. 1002.41 and the accountability requirements of this paragraph. The district school superintendent shall also refer the parent to a home education review committee composed of the district contact for home education programs and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least 3 years and who have indicated a willingness to serve on the committee. The home education review committee shall review the portfolio of the student, as defined by s. 1002.41, every 30 days during the district's regular school terms until the committee is satisfied that the home education program is in compliance with s. 1002.41(1)(d). The first portfolio review must occur within the first 30 calendar days of the establishment of the program. The provisions of subparagraph 2. do not apply once the committee determines the home education program is in compliance with s. 1002.41(1)(d).

2. If the parent fails to provide a portfolio to the committee, the committee shall notify the district school superintendent. The district school superintendent shall then terminate the home education program and require the parent to enroll the child in an attendance option that meets the definition of "regular school attendance" under s. 1003.01(13)(a), (b), (c), or (e), within 3 days. Upon termination of a home education program pursuant to this subparagraph, the parent shall not be eligible to reenroll the child in a home education program for 180 calendar days. Failure of a parent to enroll the child in an attendance option as required by this subparagraph after termination of the home education program pursuant to this subparagraph shall constitute noncompliance with the compulsory attendance requirements of s. 1003.21 and may result in criminal prosecution under s. 1003.27(2). Nothing contained herein shall restrict the ability of the district school superintendent, or the ability of his or her designee, to review the portfolio pursuant to s. 1002.41(1)(e).

(g) If a student subject to compulsory school attendance will not comply with attempts to enforce school attendance, the parent or the district school superintendent or his or her designee shall refer the case to the case staffing committee pursuant to s. 984.12, and the district school superintendent or his or her designee may file a truancy petition pursuant to the procedures in s. 984.151.

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who may refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

(3) Return student to parent. — A designated school representative may visit the home or place of residence of a student and any other place in which he or she is likely to find any student who is required to attend school when the student is not enrolled or is absent from school during school hours without an excuse, and, when the student is found, shall return the student to his or her parent or to the principal or teacher in charge of the school, or to the private tutor from whom absent, or to the juvenile assessment center or other location established by the district school board to receive students who are absent from school. Upon receipt of the student, the parent shall be immediately notified.

(4) Report to appropriate authority. — A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

(5) Right to inspect. — A designated school representative shall have the right of access to, and inspection of, establishments where minors may be employed or detained only for the purpose of ascertaining whether students of compulsory school age are actually employed there and are actually working there regularly. The designated school representative shall, if he or she finds unsatisfactory working conditions or violations of the Child Labor Law, report his or her findings to the appropriate authority.

1003.27. Court procedure and penalties.

The court procedure and penalties for the enforcement of the provisions of this part, relating to compulsory school attendance, shall be as follows:

(3) Habitual truancy cases. - The district school superintendent is authorized to file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151. If the district school superintendent chooses not to file a truancy petition, procedures for filing a child-in-need-of-services petition shall be commenced pursuant to this subsection and chapter 984. In accordance with procedures established by the district school board, the designated school representative shall refer a student who is habitually truant and the student's family to the children-in-need-of-services and families-in-need-of-services

provider or the case staffing committee, established pursuant to s. 984.12, as determined by the cooperative agreement required in this section. The case staffing committee may request the Department of Juvenile Justice or its designee to file a child-in-need-of-services petition based upon the report and efforts of the district school board or other community agency or may seek to resolve the truant behavior through the school or community-based organizations or agencies. Prior to and subsequent to the filing of a child-in-need-of-services petition due to habitual truancy, the appropriate governmental agencies must allow a reasonable time to complete actions required by this section and s. 1003.26 to remedy the conditions leading to the truant behavior. Prior to the filing of a petition, the district school board must have complied with the requirements of s. 1003.26, and those efforts must have been unsuccessful.

(4) Cooperative agreements. - The circuit manager of the Department of Juvenile Justice or the circuit manager's designee, the district administrator of the Department of Children and Families or the district administrator's designee, and the district school superintendent or the superintendent's designee must develop a cooperative interagency agreement that:

(a) Clearly defines each department's role, responsibility, and function in working with habitual truants and their families.

(b) Identifies and implements measures to resolve and reduce truant behavior.

(c) Addresses issues of streamlining service delivery, the appropriateness of legal intervention, case management, the role and responsibility of the case staffing committee, student and parental intervention and involvement, and community action plans.

(d) Delineates timeframes for implementation and identifies a mechanism for reporting results by the circuit juvenile justice manager or the circuit manager's designee and the district school superintendent or the superintendent's designee to the Department of Juvenile Justice and the Department of Education and other governmental entities as needed.

(e) Designates which agency is responsible for each of the intervention steps in this section, to yield more effective and efficient intervention services. [...]

(7) Penalties. - The penalties for refusing or failing to comply with this chapter shall be as follows:

(d) The student.

1. (b)3. The district school superintendent of the receiving school district may recommend to the district school board that the final order of expulsion be waived and the student be admitted to the school district, or that the final order of expulsion be honored and the student not be admitted to the school district. If the student is admitted by the district school board, with or without the recommendation of the district school superintendent, the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, at the direction of the district school board. [...]

(2)(k) Policies to be followed for the assignment of violent or disruptive students to an alternative educational program or referral of such students to mental health services identified by the school district pursuant to s. 1012.584(4).

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred to mental health services identified by the school district pursuant to s. 1012.584(4) and the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system. [...]

(7) Threat assessment teams. - Each district school board shall adopt policies for the establishment of threat assessment teams at each school whose duties include the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school

staff or students consistent with the model policies developed by the Office of Safe Schools. Such policies must include procedures for referrals to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, and procedures for behavioral threat assessments in compliance with the instrument developed pursuant to s. 1001.212(12).

Onsite school personnel shall report all such situations and actions taken to the threat assessment team, which shall contact the other agencies involved with the student and any known service providers to share information and coordinate any necessary followup actions. Upon the student's transfer to a different school, the threat assessment team shall verify that any intervention services provided to the student remain in place until the threat assessment team of the receiving school independently determines the need for intervention services.

1011.62. Funds for operation of schools.

(16) Mental health assistance allocation. - The mental health assistance allocation is created to provide funding to assist school districts in establishing or expanding school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth, and families who may experience behavioral health issues with appropriate services. These funds shall be allocated annually in the General Appropriations Act or other law to each eligible school district. Each school district shall receive a minimum of \$100,000, with the remaining balance allocated based on each school district's proportionate share of the state's total unweighted full-time equivalent student enrollment. Charter schools that submit a plan separate from the school district are entitled to a proportionate share of district funding. The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.

(a) Before the distribution of the allocation:

1. The school district must develop and submit a detailed plan outlining the local program and planned expenditures to the district school board for approval. This plan must include all district schools, including charter schools, unless a charter school elects to submit a plan independently from the school district pursuant to subparagraph 2.
2. A charter school may develop and submit a detailed plan outlining the local program and planned expenditures to its governing body for approval. After the plan is approved by the governing body, it must be provided to the charter school's sponsor.

(b) The plans required under paragraph (a) must be focused on a multitiered system of supports to deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses. The provision of these services must be coordinated with a student's primary mental health care provider and with other mental health providers involved in the student's care. At a minimum, the plans must include the following elements:

1. Direct employment of school-based mental health services providers to expand and enhance school-based student services and to reduce the ratio of students to staff in order to better align with nationally recommended ratio models. These providers include, but are not limited to, certified school counselors, school psychologists, school social workers, and other licensed mental health

professionals. The plan also must identify strategies to increase the amount of time that school-based student services personnel spend providing direct services to students, which may include the review and revision of district staffing resource allocations based on school or student mental health assistance needs.

2. Contracts or interagency agreements with one or more local community behavioral health providers or providers of Community Action Team services to provide a behavioral health staff presence and services at district schools. Services may include, but are not limited to, mental health screenings and assessments, individual counseling, family counseling, group counseling, psychiatric or psychological services, trauma-informed care, mobile crisis services, and behavior modification. These behavioral health services may be provided on or off the school campus and may be supplemented by telehealth.

3. Policies and procedures, including contracts with service providers, which will ensure that students who are referred to a school-based or community-based mental health service provider for mental health screening for the identification of mental health concerns and ensure that the assessment of students at risk for mental health disorders occurs within 15 days of referral. School-based mental health services must be initiated within 15 days after identification and assessment, and support by community-based mental health service providers for students who are referred for community-based mental health services must be initiated within 30 days after the school or district makes a referral.

4. Strategies or programs to reduce the likelihood of at-risk students developing social, emotional, or behavioral health problems, depression, anxiety disorders, suicidal tendencies, or substance use disorders.

5. Strategies to improve the early identification of social, emotional, or behavioral problems or substance use disorders, to improve the provision of early intervention services, and to assist students in dealing with trauma and violence.

(c) School districts shall submit approved plans, including approved plans of each charter school in the district, to the commissioner by August 1 of each fiscal year.

(d) Beginning September 30, 2019, and annually by September 30 thereafter, each school district shall submit to the Department of Education a report on its program outcomes and expenditures for the previous fiscal year that, at a minimum, must include the number of each of the following:

1. Students who receive screenings or assessments.
2. Students who are referred to either school-based or community-based providers for services or assistance.
3. Students who receive either school-based or community-based interventions, services, or assistance.
4. School-based and community-based mental health providers, including licensure type, paid for from funds provided through the allocation.
5. Contract-based collaborative efforts or partnerships with community mental health programs, agencies, or providers.

1012.584. Continuing education and inservice training for youth mental health awareness and assistance.

(4) Each school district shall notify all school personnel who have received training pursuant to this section of mental health services that are available in the school district, and the individual to contact if a student needs services. The term "mental health services" includes, but is not limited to, community mental health services, health care providers, and services provided under ss. 1006.04 and 1011.62(16).

(3) When a child is taken into custody as provided in this section, the person taking the child into custody shall attempt to notify the parent, guardian, or legal custodian of the child. The person taking the child into custody shall continue such attempt until the parent, guardian, or legal custodian of the child is notified or the child is delivered to the department under ss. 985.14 and 985.145, whichever occurs first. If the child is delivered to the department before the parent, guardian, or legal custodian is notified, the department shall continue the attempt to notify until the parent, guardian, or legal custodian of the child is notified. Following notification, the parent or guardian must provide identifying information, including name, address, date of birth, social security number, and driver license number or identification card number of the parent or guardian to the person taking the child into custody or the department.

1002.20. K-12 student and parent rights.

Parents of public school students must receive accurate and timely information regarding their child's academic progress and must be informed of ways they can help their child to succeed in school. K-12 students and their parents are afforded numerous statutory rights including, but not limited to, the following:

(3) Health issues.

(g) Substance abuse reports. - The parent of a public school student must be timely notified of any verified report of a substance abuse violation by the student, in accordance with the provisions of s. 1006.09(8). [...]

(b) Expulsion. - Public school students and their parents have the right to written notice of a recommendation of expulsion, including the charges against the student and a statement of the right of the student to due process, in accordance with the provisions of s. 1006.08(1).

(c) Corporal punishment.

1. In accordance with the provisions of s. 1003.32, corporal punishment of a public school student may only be administered by a teacher or school principal within guidelines of the school principal and according to district school board policy. Another adult must be present and must be informed in the student's presence of the reason for the punishment. Upon request, the teacher or school principal must provide the parent with a written explanation of the reason for the punishment and the name of the other adult who was present.

2. A district school board having a policy authorizing the use of corporal punishment as a form of discipline shall review its policy on corporal punishment once every 3 years during a district school board meeting held pursuant to s. 1001.372. The district school board shall take public testimony at the board meeting. If such board meeting is not held in accordance with this subparagraph, the portion of the district school board's policy authorizing corporal punishment expires.

1003.26. Enforcement of school attendance.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

(2) Give written notice.

(a) Under the direction of the district school superintendent, a designated school representative shall give written notice that requires enrollment or attendance within 3 days after the date of notice, in person or by return-receipt mail, to the parent when no valid reason is found for a student's nonenrollment in school. If the notice and requirement are ignored, the designated school representative shall report the case to the district school superintendent, who may refer the case to the child study team in paragraph (1)(b) at the school the student would be assigned according to district school board attendance area policies or to the case staffing committee, established pursuant to s. 984.12. The child study team shall diligently facilitate intervention services and shall report the case back to the district school superintendent only when all reasonable efforts to resolve the nonenrollment behavior are exhausted. If the parent still refuses to cooperate or enroll the child in school, the district school superintendent shall take such steps as are necessary to bring criminal prosecution against the parent.

(b) Subsequent to the activities required under subsection (1), the district school superintendent or his or her designee shall give written notice in person or by return-receipt mail to the parent that criminal prosecution is being sought for nonattendance. The district school superintendent may file a truancy petition, as defined in s. 984.03, following the procedures outlined in s. 984.151.

1003.573. Use of restraint and seclusion on students with disabilities.

(1) Documentation and reporting.

(b) The following must be included in the incident report:

f. Evidence of steps taken to notify the student's parent or guardian.

(c) A school shall notify the parent or guardian of a student each time manual or physical restraint or seclusion is used. Such notification must be in writing and provided before the end of the school day on which the restraint or seclusion occurs. Reasonable efforts must also be taken to notify the parent or guardian by telephone or computer e-mail, or both, and these efforts must be documented. The school shall obtain, and keep in its records, the parent's or guardian's signed acknowledgment that he or she was notified of his or her child's restraint or seclusion.

(d) A school shall also provide the parent or guardian with the completed incident report in writing by mail within 3 school days after a student was manually or physically restrained or secluded. The school shall obtain, and keep in its records, the parent's or guardian's signed acknowledgment that he or she received a copy of the incident report.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(1) Control of students.

(a) Adopt rules for the control, discipline, in-school suspension, suspension, and expulsion of students and decide all cases recommended for expulsion. Suspension hearings are exempted from the provisions of chapter 120. Expulsion hearings shall be governed by ss. 120.569 and 120.57(2) and are exempt from s. 286.011. However, the student's parent must be given notice of the provisions of s. 286.011 and may elect to have the hearing held in compliance with that section. The district school board may prohibit the use of corporal punishment, if the district school board adopts or has adopted a written program of alternative control or discipline. [...]

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.

7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy.

1006.08. District school superintendent duties relating to student discipline and school safety.

(1) The district school superintendent shall recommend plans to the district school board for the proper accounting for all students of school age, for the attendance and control of students at school, and for the proper attention to health, safety, and other matters which will best promote the welfare of students. Each district school superintendent shall fully support the authority of his or her principals, teachers, and school bus drivers to remove disobedient, disrespectful, violent, abusive, uncontrollable, or disruptive students from the classroom and the school bus and, when appropriate and available, to place such students in an alternative educational setting. When the district school superintendent makes a recommendation for expulsion to the district school board, he or she shall give written notice to the student and the student's parent of the recommendation, setting forth the charges against the student and advising the student and his or her parent of the student's right to due process as prescribed by ss. 120.569 and 120.57(2). When district school board action on a recommendation for the expulsion of a student is pending, the district school superintendent may extend the suspension assigned by the principal beyond 10 school days if such suspension period expires before the next regular or special meeting of the district school board.

1006.09. Duties of school principal relating to student discipline and school safety.

(1)(b) The principal or the principal's designee may suspend a student only in accordance with the rules of the district school board. The principal or the principal's designee shall make a good faith effort to immediately inform a student's parent by telephone of a student's suspension and the reasons for the suspension. Each suspension and the reasons for the suspension shall be reported in writing within 24 hours to the student's parent by United States mail. Each suspension and the reasons for the suspension shall also be reported in writing within 24 hours to the district school superintendent. A good faith effort shall be made by the principal or the principal's designee to employ parental assistance or other alternative measures prior to suspension, except in the case of emergency or disruptive conditions which require immediate suspension or in the case of a serious breach of conduct as defined by rules of the district school board. Such rules shall require oral and written notice to the student of the charges and an explanation of the evidence against him or her prior to the suspension. Each student shall be given an opportunity to present his or her side of the story. No student shall be suspended for unexcused tardiness, lateness, absence, or truancy. The principal or the principal's designee may suspend any student transported to or from school at public expense from the privilege of riding on a school bus for violation of district school board transportation policies, which shall include a policy regarding behavior at school bus stops, and the principal or the principal's designee shall give notice in writing to the student's parent and to the district school superintendent within 24 hours. School personnel shall not be held legally responsible for suspensions of students made in good faith. [...]

(2) Suspension proceedings, pursuant to rules of the State Board of Education, may be initiated against any enrolled student who is formally charged with a felony, or with a delinquent act which would be a felony if committed by an adult, by a proper prosecuting attorney for an incident which allegedly occurred on property other than public school property, if that incident is shown, in an administrative hearing with notice provided to the parents of the student by the principal of the school pursuant to rules adopted by the State Board of Education and to rules developed pursuant to s. 1001.54, to have an adverse impact on the educational program, discipline, or welfare in the school in which the student is enrolled. Any student who is suspended as the result of such proceedings may be suspended from all classes of instruction on public school grounds during regular classroom hours for a period of time, which may exceed 10 days, as determined by the district school superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. If the court determines that the student did commit the felony or delinquent act which would have been a felony if committed by an adult, the district school board may expel the student, provided that expulsion under this subsection shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under chapter 893 may be entitled to a waiver of the discipline or expulsion:

(a) If the student divulges information leading to the arrest and conviction of the person who supplied the controlled substance to him or her, or if the student voluntarily discloses his or her unlawful possession of the controlled substance prior to his or her arrest. Any information divulged which leads to arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging the information.

(b) If the student commits himself or herself, or is referred by the court in lieu of sentence, to a state-licensed drug abuse program and successfully completes the program. [...]

(8) The school principal shall require all school personnel to report to the principal or principal's designee any suspected unlawful use, possession, or sale by a student of any controlled substance, as defined in s. 893.02; any counterfeit controlled substance, as defined in s. 831.31; any alcoholic beverage, as defined in s. 561.01(4); or model glue. School personnel are exempt from civil liability when reporting in good faith to the proper school authority such suspected unlawful use, possession, or sale by a student. Only a principal or principal's designee is authorized to contact a parent or legal guardian of a student regarding this situation. Reports made and verified under this subsection shall be forwarded to an appropriate agency. The principal or principal's designee shall timely notify the student's parent that a verified report made under this subsection with respect to the student has been made and forwarded.

1006.147. Bullying and harassment prohibited.

(4) Each school district shall adopt and review at least every 3 years a policy prohibiting bullying and harassment of a student or employee of a public K-12 educational institution. Each school district's policy shall be in substantial conformity with the Department of Education's model policy. The school district bullying and harassment policy shall afford all students the same protection regardless of their status under the law. Such notification shall include other education providers such as the Florida School for the Deaf and the Blind, university developmental research schools, and private elementary and secondary schools. The information obtained by the superintendent of schools pursuant to this section must be released within 48 hours after receipt to appropriate school personnel, including the principal of the child's school, or as otherwise provided by law. The principal must immediately notify the child's immediate classroom teachers. (2) Except in emergency situations, a child may not be placed into or transported in any police car or similar vehicle that at the same time contains an adult under arrest, unless the adult is alleged or believed to be involved in the same offense or transaction as the child.

(3) When a child is taken into custody as provided in this section, the person taking the child into custody shall attempt to notify the parent, guardian, or legal custodian of the child. 1001.212. Office of safe schools.

There is created in the Department of Education the Office of Safe Schools. The office is fully accountable to the Commissioner of Education. The office shall serve as a central repository for best practices, training standards, and compliance oversight in all matters regarding school safety and security, including prevention efforts, intervention efforts, and emergency preparedness planning. The office shall:

(12) By August 1, 2019, develop a standardized, statewide behavioral threat assessment instrument for use by all public schools, including charter schools, which addresses early identification, evaluation, early intervention, and student support.

(a) The standardized, statewide behavioral threat assessment instrument must include, but need not be limited to, components and forms that address:

4. The response to a serious substantive threat, including mental health and law enforcement referrals.

1003.26. Enforcement of school attendance.

The Legislature finds that poor academic performance is associated with nonattendance and that school districts must take an active role in promoting and enforcing attendance as a means of improving student performance. It is the policy of the state that each district school superintendent be responsible for enforcing school attendance of all students subject to the compulsory school age in the school district and supporting enforcement of school attendance by local law enforcement agencies. The responsibility includes recommending policies and procedures to the district school board that require public schools to respond in a timely manner to every unexcused absence, and every absence for which the reason is unknown, of students enrolled in the schools. District school board policies shall require the parent of a student to justify each absence of the student, and that justification will be evaluated based on adopted district school board policies that define excused and unexcused absences. The policies must provide that public schools track excused and unexcused absences and contact the home in the case of an unexcused absence from school, or an absence from school for which the reason is unknown, to prevent the development of patterns of nonattendance. The Legislature finds that early intervention in school attendance is the most effective way of producing good attendance habits that will lead to improved student learning and achievement. Each public school shall implement the following steps to promote and enforce regular school attendance:

- (4) Report to appropriate authority. - A designated school representative shall report to the appropriate authority designated by law to receive such notices, all violations of the Child Labor Law that may come to his or her knowledge.

1003.29. Notice to schools of court action.

If a court takes action that directly involves a student's school, including, but not limited to, an order that a student attend school, attend school with his or her parent, perform at grade level, or perform community service hours at the school, the office of the clerk of the court shall provide notice to the school of the court's action.

1003.32. Authority of teacher; responsibility for control of students; district school board and principal duties.

Subject to law and to the rules of the district school board, each teacher or other member of the staff of any school shall have such authority for the control and discipline of students as may be assigned to him or her by the principal or the principal's designated representative and shall keep good order in the classroom and in other places in which he or she is assigned to be in charge of students.

- (5) If a teacher removes a student from class under subsection (4), the principal may place the student in another appropriate classroom, in in-school suspension, or in a dropout prevention and academic intervention program as provided by s. 1003.53; or the principal may recommend the student for out-of-school suspension or expulsion, as appropriate. The student may be prohibited from attending or participating in school-sponsored or school-related activities. The principal may not return the student to that teacher's class without the teacher's consent unless the committee established under subsection (6) determines that such placement is the best or only available alternative. The teacher and the placement review committee must render decisions within 5 days of the removal of the student from the classroom.
- (6)(a) Each school shall establish a placement review committee to determine placement of a student when a teacher withholds consent to the return of a student to the teacher's class. A school principal must notify each teacher in that school about the availability, the procedures, and the criteria for the placement review committee as outlined in this section.

1006.07. District school board duties relating to student discipline and school safety.

The district school board shall provide for the proper accounting for all students, for the attendance and control of students at school, and for proper attention to health, safety, and other matters relating to the welfare of students, including:

(2) Code of student conduct. - Adopt a code of student conduct for elementary schools and a code of student conduct for middle and high schools and distribute the appropriate code to all teachers, school personnel, students, and parents, at the beginning of every school year. Each code shall be organized and written in language that is understandable to students and parents and shall be discussed at the beginning of every school year in student classes, school advisory council meetings, and parent and teacher association or organization meetings. Each code shall be based on the rules governing student conduct and discipline adopted by the district school board and shall be made available in the student handbook or similar publication. Each code shall include, but is not limited to:

(g) Notice that the possession of a firearm or weapon as defined in chapter 790 by any student while the student is on school property or in attendance at a school function is grounds for disciplinary action and may also result in criminal prosecution. Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system under this section or s. 1006.13. Simulating a firearm or weapon while playing includes, but is not limited to:

1. Brandishing a partially consumed pastry or other food item to simulate a firearm or weapon.
2. Possessing a toy firearm or weapon that is 2 inches or less in overall length.
3. Possessing a toy firearm or weapon made of plastic snap-together building blocks.
4. Using a finger or hand to simulate a firearm or weapon.
5. Vocalizing an imaginary firearm or weapon.
6. Drawing a picture, or possessing an image, of a firearm or weapon.
7. Using a pencil, pen, or other writing or drawing utensil to simulate a firearm or weapon.

However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions. If a student is disciplined for such conduct, the school principal or his or her designee must call the student's parent. Disciplinary action resulting from a student's clothing or accessories shall be determined pursuant to paragraph (d) unless the wearing of the clothing or accessory causes a substantial disruption to student learning, in which case the infraction may be addressed in a manner that is consistent with district school board policies for similar infractions. This paragraph does not prohibit a public school from adopting a school uniform policy. [...]

(l) Notice that any student who is determined to have brought a firearm or weapon, as defined in chapter 790, to school, to any school function, or onto any school-sponsored transportation, or to have possessed a firearm at school, will be expelled, with or without continuing educational services, from the student's regular school for a period of not less than 1 full year and referred to mental health services identified by the school district pursuant to s. 1012.584(4) and the criminal justice or juvenile justice system. District school boards may assign the student to a disciplinary program or second chance school for the purpose of continuing educational services during the period of expulsion. District school superintendents may consider the 1-year expulsion requirement on a case-by-case basis and request the district school board to modify the requirement by assigning the student to a

disciplinary program or second chance school if the request for modification is in writing and it is determined to be in the best interest of the student and the school system.

1006.13. Policy of zero tolerance for crime and victimization.

(1) District school boards shall promote a safe and supportive learning environment in schools by protecting students and staff from conduct that poses a threat to school safety. A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

(a) Defines criteria for reporting to a law enforcement agency any act that poses a threat to school safety that occurs whenever or wherever students are within the jurisdiction of the district school board. [...]

(f) Requires the threat assessment team to consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety. [...]

(8) A threat assessment team may use alternatives to expulsion or referral to law enforcement agencies unless the use of such alternatives will pose a threat to school safety.

Onsite school personnel shall report all such situations and actions taken to the threat assessment team, which shall contact the other agencies involved with the student and any known service providers to share information and coordinate any necessary followup actions. Upon the student's transfer to a different

school, the threat assessment team shall verify that any intervention services provided to the student remain in place until the threat assessment team of the receiving school independently determines the need for intervention services.

(f) Each threat assessment team established pursuant to this subsection shall report quantitative data on its activities to the Office of Safe Schools in accordance with guidance from the office and shall utilize the threat assessment database developed pursuant to s. 1001.212(13) upon the availability of the database.

A district school board must collaborate with charter school governing boards to facilitate charter school access to all safe-school officer options available under this section. Of the remaining balance of the safe schools allocation, one-third shall be allocated to school districts based on the most recent official Florida Crime Index provided by the Department of Law Enforcement and two-thirds shall be allocated based on each school district's proportionate share of the state's total unweighted full-time equivalent student enrollment. Each school district must report to the Department of Education by October 15 that all public schools within the school district have completed the school security risk assessment using the Florida Safe Schools Assessment Tool developed pursuant to s. 1006.1493. If a district school board is required by s. 1006.12 to assign a school resource officer or school safety officer to a charter school, the charter school's share of costs for such officer may not exceed the amount of funds allocated to the charter school under this subsection.

(7) Threat assessment teams. - Each district school board shall adopt policies for the establishment of threat assessment teams at each school whose duties include the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Office of Safe Schools. Such policies must include procedures for referrals to mental health services identified by the school district pursuant to s. 1012.584(4), when appropriate, and procedures for behavioral threat assessments in compliance with the instrument developed pursuant to s. 1001.212(12).

The threat assessment teams shall identify members of the school community to whom threatening behavior should be reported and provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self. Upon the availability of the behavioral threat assessment instrument developed pursuant to s. 1001.212(12), the threat assessment team shall use that instrument.

(b) Upon a preliminary determination that a student poses a threat of violence or physical harm to himself or herself or others, a threat assessment team shall immediately report its determination to the superintendent or his or her designee. Nothing in this subsection shall preclude school district personnel from acting immediately to address an imminent threat.

(c) Upon a preliminary determination by the threat assessment team that a student poses a threat of violence to himself or herself or others or exhibits significantly disruptive behavior or need for assistance, authorized members of the threat assessment team may obtain criminal history record information pursuant to s. 985.04(1). A member of a threat assessment team may not disclose any criminal history record information obtained pursuant to this section or otherwise use any record of an individual beyond the purpose for which such disclosure was made to the threat assessment team.

(d) Notwithstanding any other provision of law, all state and local agencies and programs that provide services to students experiencing or at risk of an emotional disturbance or a mental illness, including the school districts, school personnel, state and local law enforcement agencies, the Department of Juvenile Justice, the Department of Children and Families, the Department of Health, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Education, the Statewide Guardian Ad Litem Office, and any service or support provider contracting with such agencies, may share with each other records or information that are confidential or exempt from disclosure under chapter 119 if the records or information are reasonably necessary to ensure access to appropriate services for the student or to ensure the safety of the student or others. (f) Each threat assessment team established pursuant to this subsection shall report quantitative data on its activities to the Office of Safe Schools in accordance with guidance from the office and shall utilize the threat assessment database developed pursuant to s. 1001.212(13) upon the availability of the database.

may use alternatives to expulsion or referral to law enforcement agencies to address disruptive behavior through restitution, civil citation, teen court, neighborhood restorative justice, or similar programs. Zero-tolerance policies may not be rigorously applied to petty acts of misconduct. Zero-tolerance policies must apply equally to all students regardless of their economic status, race, or disability.

(2) Each district school board shall adopt a policy of zero tolerance that:

(f) Requires the threat assessment team to consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts or the severity of an act, that would pose a threat to school safety. [...]
