Announcement from UVA-Wise   **November 18, 2015**

Spring 2016 registration is now open for online recertification and licensure classes at the UVA-Wise Center for Teaching Excellence.

During the spring semester, The Center for Teaching Excellence at The University of Virginia's College at Wise is offering a full schedule of online licensure and recertification courses for teachers in Virginia. The Online Licensure Courses meet the needs of provisionally licensed teachers who are pursuing their full endorsement; and the Online Recertification Courses assist teachers who want to earn points toward recertification.

As a result of the Virginia Department of Education's removal of the requirement for content specific courses, license holders without a master's degree may now earn up to 180 recertification points by completing college coursework that is aligned with the one or more of the VDOE domains of professional development. Each three credit-hour course offered by the Center for Teaching Excellence is worth 90 points.

Our spring semester courses begin on February 2 and end on April 29. Registration for spring semester closes on January 28.

The full tuition rate for licensure courses is $219 per credit hour ($657 total for a traditional three credit-hour course).

Again this year, we are able to offer a tuition reduction program for fully-licensed Virginia teachers in our Recertification Courses. All of our online recertification courses are three credit-hour undergraduate courses. With the applied reduction, the total tuition for three credit-hours is $375.

This email concludes with a listing of the courses available during the spring semester. Additional Information, including course descriptions, can be found in our catalog available at: http://www.uvawise.edu/cte/cte-course-catalog/

RECERTIFICATION COURSES - $375 for fully licensed Virginia teachers
