You may even have a more serious goal of completely mastering the Spanish language. Whatever your long range goals, in 31 days you'll have the tools you need to start conversing in Spanish.

There are 7 important components in the Shortcut to Spanish method

### **Shortcut to Spanish Component #1 Cognates – How to Learn 1000s of Spanish Words Instantly**

In a perfect world all Spanish courses would **start with this easy step**. It is very **user-friendly way to learn**. Much better than the ghastly grammar that you find in most language courses.

Cognates are English words with Latin roots.

Cognates are an easy, fast, fun way to get a **Spanish vocabulary of thousands of words**.

All you need to do is learn the rules to translate English word into Spanish. The amazing thing about cognates is that you can **use them instantly to speak Spanish**.

For example, changing **TY** to **DAD** can change most English words that end in **TY** into Spanish

<b>English</b>	<b>Spanish</b>
University	Universidad
Eternity	Eternidad
Velocity	Velocidad

You will learn instantly a Spanish vocabulary of **3013** words; In the book you will find **31 categories of cognates**.

## Shortcut to Spanish Component #2

### Mnemonics – How to ignite your imagination to learn Spanish words in a flash

**Mnemonics** are without doubt **the most powerful tool** for learning a language.

How do mnemonics work?

Mnemonics make a link between English and the Spanish word that you want to learn. For example, the Spanish word for bread is **pan**.

Imagine yourself cooking bread in a **pan**. Really use your imagination and see yourself in your mind cooking a whole loaf of bread in the **pan**. The crazier it looks the better.

By creating a picture in your mind and using your imagination you access the right brain. The right brain is the creative side of your brain. The right brain learns fast. Just look at the world's masters of right brain imagination and fast learning. Children! Plus, you have an easy to remember link between the English word bread and the Spanish word for bread, **pan**.

**The mnemonics in the book look like this.**

The Spanish word for there is or there are is **hay**. (EYE)  
Imagine a Cyclops says, "there is something in my **eye**."

#### **There are 4 elements in learning with mnemonics**

1. The word in the (BRACKETS AND CAPITAL LETTERS) on the far right is how to pronounce the word in Spanish.
2. The underlined words there is and there are are the English word or words you are learning.
3. The bold word on the first line (**hay**) is the Spanish word as it is spelled.
4. The bold word on the second line (**eye**) is the mnemonic link to the Spanish word as it is pronounced.

#### **Please note**

Mnemonic work best if the link word is close to the sound of the Spanish word not the spelling. So the mnemonics always mentally link to the sound of the Spanish words.

In this book you will learn **132 words** using mnemonics.

The mnemonics in this book are carefully selected Spanish words that give you maximum versatility in your Spanish communication. They are the most frequently used Spanish words. When you combine them with your **3013 cognate vocabulary** you have plenty of communication options to express yourself in Spanish.

### **Shortcut to Spanish Component #3**

**Power verbs – Useful words you can combine with cognates and mnemonics to make unlimited Spanish sentences.**

#### **Power Verbs**

As the power verbs are introduced you will see **Power Verb** in blue. Make sure you learn them well they will give you infinite communication opportunities.

When you do the exercises to create Spanish you will see and use the **power verbs** over and over again. By the time you have finished this course you will know them **forever**. You will be able to use **power verbs** without thinking about them.

### **Shortcut to Spanish Component #4**

**Power words – The 100 most frequently used words in Spanish.**

#### **Top 100 Word**

As the Top 100 words are introduced you will see **Top 100 Word** in red.

These **top 100 words** are simply the most frequently used words in Spanish.

In fact studies have shown that as few as 100 words are used over and over in 50% of all communication.

You will learn these 100 flexible and frequently used words. You will master powerful communication words like who, what, why, where, when, how, how much, very, more, many, drink, eat, new, with etc.

Learn these versatile **top 100 words** combine them with **power verbs** and **cognates** and they will reward you with maximum Spanish communication.

### **Shortcut to Spanish Component #5 Understand Spanish**

Each lesson has an exercise in understanding Spanish, real Spanish just as it's spoken. These lessons recycle words from previous chapters to reinforce and strengthen the Spanish in your mind. You will develop your sense of correctness in Spanish and an understanding of how Spanish is put together.

## **Shortcut to Spanish Component #6**

### **You create Spanish**

In every chapter after chapter 4 you actually create Spanish.

These are writing exercises. However, If you are like me and you won't want to write them out, That's okay. You don't have to write if you don't want. Instead translate in your mind and scroll down to the answers. Or print out the pages and cover the answers as you translate in your mind.

## **Shortcut to Spanish Component #7**

### **Español Claro, Conciso y Bien Expresado**

Clear, concise and well-expressed Spanish

As you go through the course you will see boxes like this one.

In each box is an explanation of Spanish structures. The explanations are short. They are designed to be easy, so you can use them right away as you create Spanish in the exercises.

You will find a lot of explanations about the Spanish masculine and feminine gender.

It is not really a big deal if you get it gender wrong. In Fact 99% of the time people will understand you even if you get it gender wrong.

So why did I write so many explanations of gender in Spanish?

Masculine or feminine gender features in just about every sentence of Spanish. So when you are creating Spanish you will be dealing with the issue of masculine and feminine constantly.

I make the point again **it is not that big a deal if you get it wrong**. Pay it as much or as little attention as you feel you need to.

It is normal to make mistakes with gender. Don't let mistakes bother you. Mistakes are an important part of learning. Just try and understand your mistake and move on.

Sometimes you'll make an error and you won't know why. Don't worry if you can't figure it out just keep going. Often you'll find that the doing is the learning. If you repeat the course you'll understand Spanish with a new clarity the second time around. In fact the difficult parts will become very easy the second time around

.

Well that's the pep talk to get you started.

As they say at Nike

**HAZLO**  
**Just do it.**

# **How to ask questions in Spanish**

Questions and statements are the same in Spanish

## Example

You have a sombrero = **tiene sombrero**

Do you have a sombrero? = **¿tiene sombrero?**

The structure is the same.

There is shade = **Hay sombra**

Is there shade? = ¿Hay sombra?

**So how do they tell the difference between a question and a statement?**

It's all in the tone of voice. The tone rises for a question.

## Spanish question mark ¿?

Also notice the (¿) upside down question mark at the beginning of the question in Spanish.

## ¿Tiene sombrero?

In Spanish the words order is the same for a question or a statement. So to make a clear distinction between statements and questions Spanish uses an upside down question mark.

E.g. <b>¿Tiene dinero?</b>	Do you have money?
<b>¿Tiene reservación?</b>	Do you have a reservation?

## Lección número cinco

Lesson number 5

### Cinco de mayo (5<sup>th</sup> of May)

If you live in the USA you will be very familiar with **cinco de mayo**.

### Instant Spanish Vocabulary Category 8 AI

#### The rule to create Spanish from English

The words in this category are almost all written identically in English and Spanish. Some have minor spelling and pronunciation changes.

When you have a letter **T** in English that is pronounced **SH** change the **T** to **C** to create Spanish.

English	Spanish
Initial	inicial
Partial	parcial

#### Pronunciation Tip

The letter A in Spanish is always pronounced **ah**

So animal is pronounced **ah ni mahl**

A great thing about learning Spanish is that all vowels have just one sound. You learn it once and you have got it forever.

English pronunciation of vowels varies, even within one word. For example, the name Abraham has 3 different A-sounds - **ay brah haam**. Three different sounds for the letter A in the same word.

In Spanish **Ah brah ahm** has just one **A** sound that never changes.

This consistency really helps with learning Spanish, in fact by reading Spanish you can learn new words from context. When you know the pronunciation rules you instantly know exactly how to pronounce new words in Spanish.

## **Español Claro, Conciso y Bien Expresado**

Clear, concise and well-expressed Spanish

### **I have to tell you more about the Birds and the Bees**

You already learned how to use **El** and **La** with nouns.

The man	El hombre
The woman	La mujer

And remember you learned how to use **Un** and **Una**.

A man	Un hombre
A woman	Una mujer

A difference with Spanish and English is that in Spanish adjectives that describe men or women change their ending. Adjectives that describe males usually end in **O**. Adjectives that describe females usually end in **A**. For example:

The ethical man	El hombre étic <b>O</b>
The ethical woman	La mujer étic <b>A</b>

The methodical boy	El chic <b>O</b> metódic <b>O</b>
The methodical girl	La chic <b>A</b> Metodic <b>A</b>

In Spanish inanimate objects also have gender and are masculine or feminine. So a **taco** is masculine and is **delicioso**. An **Enchilada** is feminine so **delicioso** changes to **deliciosa**.

### **Examples of how adjectives change with masculine and feminine objects.**

A delicious enchilad <b>A</b>	Un <b>A</b> enchilad <b>A</b> delicios <b>A</b>
A delicious <b>taco</b>	Un <b>taco</b> delicios <b>O</b>
A typical hat	Un sombrer <b>O</b> típic <b>O</b>
A typical shirt	Un <b>A</b> camis <b>A</b> Típic <b>A</b>
A tasty burrit <b>O</b>	Un Burrit <b>O</b> sabros <b>O</b>
A tasty coron <b>A</b> beer	Un <b>A</b> cervez <b>A</b> coron <b>A</b> sabros <b>A</b>

### **You may have seen these two example before.**

Wealthy port	Puert <b>O</b> Ric <b>O</b>
Wealthy coast	Cost <b>A</b> Ric <b>A</b>

**Making you Spanish as smooth as a Carlos Santana guitar solo.**

## Useful pronouns **LO** and **LA**

Look at this question and answer.

Can you buy the house?

¿Puede comprar **la** casa?

Yes, I can buy **it**

Sí, puedo comprarla

Notice how in the answer that la of la casa attaches to the infinitive comprar and becomes comprarla.

**Comprarla** = to buy **it**

**Here is another example**

Can you play guitar

Puede tocar **la** guitarra

Sí, pero no puedo tocarla como Carlos Santana

**LA** of **la** guitar joins onto **tocar** and becomes **tocarla**

Tocar **la** = to play **it**

With masculine subjects it is a little different.

Can you see the monument?

¿Puede ver **el** monumento?

Yes, I can see it.

Sí, puedo verlo.

Notice how in the answer **el** of **el** monumento changes to **lo** and joins onto the infinitive **ver** and becomes **verlo**. **Lo** is used with masculine subjects.

**Verlo** = to see **it**

**Lo** is also used for concepts. For example

**English** I can do it **Spanish** puedo hacerlo

## Español Claro, Conciso y Bien Expresado

### Speaking about him and her

If you have studied grammar you will recognize that all the verbs in exercise 25B were in the second person. The second person is used to talk directly with someone else.

The **third person** is used to talk about **he, she or it**.

In Spanish the verbs **are the same** in the **second** person and the **third** person.

Therefore **puede** which means **you can** also means **he can, she can, it can**.

Does this make Spanish harder or easier? That depends on your outlook. I think it is good to know that you already have all the knowledge you need to instantly speak in the third person he, she and it.

For example if you want to say, **he has a hat**,  
you just say the same as **you have a hat - tiene sombrero**.

Here are some more examples.

He has a house.	Tiene una casa.
He likes Mexico.	Le gusta México.
She can go tomorrow.	Puede ir mañana.
She likes the Mexican food.	Le gusta la comida mexicana.
It has shade.	Tiene sombra.

You may think that Spanish speaking people would never know whom they are talking about. But it actually works fine and you will find yourself doing the same very soon.

What if you are unsure or the sentence is ambiguous? Then you use pronouns.

**Él** = he

**Ella** = she

<b>Él</b> tiene un sombrero	<b>He</b> has a hat.
<b>Ella</b> tiene una habitación	<b>She</b> has a room.

But I have purposely avoided pronouns throughout this book.

Why?

Because Spanish speaking people rarely use them as they are included in the Spanish verbs. Using pronouns the way we do in English will actually make a mess of your communication. The way you have been using Spanish is how real Spanish is spoken.

Anyway this book is not about grammar it's about using Spanish to communicate. The best way to understand this lesson is to use the language. Practice this in exercise 25C

## Ejercicio 25C

If you can do this you are well on the way to mastering Spanish verbs in first, second and third person. Cover the answers and write the English on the line opposite.

Don't use pronouns in your answer only the conjugated verb. E.G It irritates = irrita

# **Español Claro, Conciso y Bien Expresado**

# **Talking about the future in Spanish**

Talking about the future is easy in Spanish.

**Voy** = I am going

To use **voy** to express the future in Spanish is easy. All you do is add **a + an infinitive**.

E.g.	Voy a <u>comer</u>	I am going <u>to eat</u>
	Voy a <u>concentrar</u>	I am going <u>to concentrate</u>

Let's look at some more examples of the future

## 1) First person

Any time you use **voy a** in front of another verb infinitive you are talking about what you will do in the future.

**Voy a** negociar I am going to negotiate  
**Voy a** visitar mi amigo I am going to visit my friend.

How easy is that?

## 2) Second person

To talk directly to someone else about what they will do just use **va a**; like this:

**¿Va a comer ahora?** Are you going to eat now?  
**¿Va a ordenar ahora?** Are you going to order now?

### **3) Third person**

Remember from the previous lesson to speak in the third person we use the same verb as the second person. Therefore **va** **a** can also mean **he** is going to, **she** is going to and **it** is going to.

El diplomado **va a** protestar.  
Angelic Jolie **va a** adoptar otro  
bebé de camboyano.  
La compañía **va a** exportar frutas.

The diplomat **is going to** protest.  
Angelic Jolie **is going to** adopt another  
Cambodian baby.  
The company **is going to** export fruits.
