Azure Serves Wholesale Customers Across the U.S.

Azure Standard began decades ago by delivering organically grown fruits, veggies, grains, and meats to customers in northern Oregon. After 30 years of dedicated customer service, we are now one of the largest natural food distributors in the United States.

As a family owned and operated company, we have remained committed to our original mission to help people everywhere realize their greatest potential for healthy and abundant living. We know our wholesale customers are manufacturers of food products, restaurants, bakeries or natural food retailers, and they are also interested in providing their customers with high quality, nutrient-rich foods.

We're glad you found us!

With Azure, you'll have the largest selection of non-GMO and organic ingredients, and Earth-friendly products, with a catalog of more than 14,000 non-GMO, organic and gluten-free products in dry foods, refrigerated & frozen. We have more than 1,500 bulk products for use as ingredients, bulk bins, resell, or distribution.

We welcome your call.

Azure wholesale customers include retailers and e-commerce, restaurants, bakeries, manufacturers, and medical practitioners with a wide variety of products, exceptional customer service, and competitive pricing. Experience Azure's unbeatable combination of:

Really Raw HONEY
Straight from the Hive!

For over 30 years our family has worked with a small community of beekeepers to produce honey that helps ensure the health and well-being of the honeybee, our customers and the planet.

The beekeepers at Really Raw Honey use holistic, non-industrial methods that nurture the honeybee and help sustain this ancient craft.

Our methods take more time but allow Really Raw Honey to use the whole hive, less fuel, and to minimize the health problems beginning to affect bee colonies worldwide.

Our health depends on the quality of our food, which depends in turn on the health of our small farms. Because of our holistic view, Really Raw Honey is helping beekeepers sustain their bees and their livelihoods.

Really Raw Honey is dedicated to raising awareness among beekeepers, and our family looks forward to a time when people everywhere will understand and honor the honeybee and the work she does to ensure the health of our planet.

“Delicious! Long live the bees, long live Really Raw Honey!”
— Pete Seeger, Folksinger and Activist
