Ways to Avoid Overdraft Charges

Use online, mobile, and telephone banking to stay on top of your account.

- Set up low balance and overdraft alerts by text or email (carrier fees may apply).
- Make a no-cost transfer between your Capital One Bank accounts either through Online Banking, at Capital One-branded ATMs, or at your nearest location.
- Make free transfers to your account from most other banks and brokerage firms.
- If you have previously opted in to have ATM withdrawals and everyday debit card transactions considered for overdraft coverage, you can opt out anytime. Or, if you prefer, you can opt out to have all types of transactions declined if they would cause an overdraft.

How Deposits and Withdrawals Work

The Order in Which Withdrawals and Deposits Are Processed

We'll post items to your account using the following priority:

- Credits received by the close of our business day, like check or cash deposits that increase your balance, generally post to your account before everything else.
- Debits, like ATM withdrawals and debit card transactions that decrease your balance, will be divided up into categories of similar types of transactions—and we'll use the date and time of your transactions when we have them. If we don't have this information, we'll post transactions based on dollar amount. Visit www.capitalone.com/bank/credits-and-debits/order for more details.

When Your Deposits Are Available (Funds Availability Policy)

Same Business Day

- Electronic deposits received (i.e., direct deposit or wire transfer).

Next Business Day

- Our general policy is to make your funds available for withdrawal on the first business day after the day we receive your deposit.
- State and local government checks; cashier's, certified or teller's checks; and traveler's checks if the checks are payable to you and you request that the teller use a special deposit slip when processing your deposit.

Second Business Day

- In some cases, we may delay your ability to withdraw funds beyond the FIRST business day. The delayed funds will generally be available by the SECOND business day after the day of deposit; however, the first \$200 will be available on the FIRST business day.

Longer Delays May Apply

- Funds you deposit by check may be delayed for a longer period under certain circumstances.
- We'll notify you if we delay your availability to withdraw funds for any reason, and we'll tell you when the funds will be available.

Business Day and Cutoff Times (when deposits are considered received)

- A "business day" is every day except Saturdays, Sundays, and federal holidays.
- Deposits made at a branch on a business day will be credited that business day. Deposits made at an ATM after 9 p.m. ET/8 p.m. CT will be credited the next business day.
