##### Create a Save Key

You must create a save key. The save key allows you to return to an application or correction later if you need to stop and save your work. It also allows you to share access to your application or correction if your parent needs to add information or sign.

The save key must be between 4 and 8 characters long. You can use any combination of numbers and / or uppercase and lowercase letters. For example, the save key "Student2" is different than the save key "sTuDeNt2."

Try to choose a save key that you can remember but that would be hard for
