Congratulations on the wise decision you've taken to invest to save on your yearly taxes. This guide has been prepared keeping in mind the need for concise and clear advice about tax saving. This would help you do the following

- a) Understand how to evaluate a tax saving investment
- b) Calculate your tax liability
- c) Know about individual sections which can help you save tax
- d) Plan your tax saving investments
- e) Invest online

This guide would come handy for anyone looking to invest to save tax and is new to the exercise. It would also help salaried individuals who are used to investing tax relook at their investment and make sure they are efficient.

Money has many roles to play. It can enhance the quality of your life when managed effectively. One of the cornerstones of effective money management is tax saving. Without efficient tax saving investments, your hard-earned money gets eroded. On the other hand, whenever your tax saving investments aren't optimal, your returns suffer. Hence, it is essential to understand the parameters to consider, while judging the worth of a tax saving investment.

1. Good Returns

This is the most crucial parameter to judge any investment's worth. Any investment plan should be started with a view of its returns over the course of time, which should satisfy your needs and goals. Competitive returns are generated by meticulous and well-researched investments. And since returns are invariably tied with risks, a high return investment would also mean that it entails higher risk. Hence one should decide their risk appetite before proceeding to invest in any instrument. ULIP plans by ICICI Prudential have given consistently good fund performance across all fund types. Along with the option to switch your money from one fund to another depending on your financial priorities and investment outlook, these plans ensure that you get potentially better returns. What makes ULIPs special is the life cover element which comes along with the potential for high returns. A life cover of upto 10 times the annual premium is recommended to ensure the safety of your family in case of any mishap.

[Check fund performance of our products here >](#)

It is also a good idea to get a pure protection plan to secure your family's financial future in your absence. Term plans are affordable and provide large cover at very low premiums. With ICICI Prudential's iProtect Smart, you can get a cover of ₹1 crore starting at just ₹490 p.m.¹ With the Smart Health cover,² you can also secure yourself against 34 critical illnesses.²

[Check premium for iProtect Smart >](#)

[Check premium for iProtect Smart along with Smart Health cover >](#)

2. Liquidity

Before investing, it is important to check how liquid your investment is. Liquidity means the degree to which your investment can be quickly converted to cash, for your use. Although any investment needs time to grow to be able to give good returns, a certain amount of liquidity is sought after so that you can have access to your money when need arises. You should note that ULIP plans let you withdraw money from your investment to meet your needs, after the 5th year. While liquidity is sought after by many investors, a longer term of investment provides better returns on your investment owing to the power of compounding.

3. Option to switch Premium Frequency

A strategic investment should be able to give you the flexibility of switching the premium frequency whenever you want. ICICI Pru Life Time Classic gives you that flexibility to change your premium paying frequency from monthly to yearly at the time of policy anniversary. This can come handy in situations when one starts their tax saving investment late in the year, and has to invest a sizeable amount of money in one go to save tax, but would need to break their investment to monthly installments to suit their budget from the next year onwards, after the financial year ends.

4. Tax Benefits on Maturity

The maturity corpus that you have built over the term of this investment should provide you all the benefits at no tax. With unit-linked plans, the sum of money which you receive on maturity is tax free subject to conditions of Section 10(10D)* and other provisions of Income Tax Act 1961. Claims received from term insurance plans are also tax* free subject to conditions under Section 10(10D).

5. Continuity in Tax Savings

Tax saving is a recurring need, one which has to be carried out year on year. Continuity in tax savings avoids the need to rethink your investments every year and hence devote time to other pursuits. An investment with 5 year lock in, like ULIPs serve the need of tax saving for all those 5 years and eliminates renewed planning. And towards the end, the maturity amount that you take home is also tax-free* subject to conditions of Section 10(10D) and other provisions of Income Tax Act 1961, making it all the more

rewarding. The only trade-off here would be that your money would be locked in for 5 years. However, you should always remember that it's advisable to stay invested as long as possible to gain the potential for higher returns.

The next step is to calculate your income tax outgo and make sure that you have the correct estimate. Below given are the income tax slabs relevant to a first time tax payer.

For every resident individual aged below 60 years and non-resident

S. No	Income Slabs	Applicable Tax Rates
(i)	Income not exceeding ₹2,50,000	Nil
(ii)	Income exceeding ₹2,50,000 but not more than ₹5,00,000	5% of the amount by which the taxable income exceeds ₹2,50,000
(iii)	Income exceeding ₹5,00,000/- but not more than ₹10,00,000	₹12,500 + 20% of the amount by which the taxable income exceeds ₹5,00,000/-.
(iv)	Income exceeding ₹10,00,000	₹1,12,500 + 30% of the amount by which the taxable income exceeds ₹10,00,000

Surcharge

10% of the Income Tax, where taxable income is more than ₹50 lacs but upto ₹1cr.

15% of the Income Tax, where taxable income is more than ₹1cr.

Start your tax saving investment

80C

Under this section, you can claim a maximum deduction of ₹1,50,000 from your total income. This section helps in a major way to reduce down your total taxable income. The deduction is eligible to an individual or an HUF. If you have paid excess taxes, but have made investment in PPF, NSCs, ULIPs, etc., you can file your Income Tax Return and get a refund.

80CCD

This includes deduction from taxable income for individuals who make deposits to pension scheme of Central Government. The maximum deduction permitted is either 10% of salary* (for an employee) or 20% of gross total income (for self-employed) or ₹1,50,000- whichever is less.

80CCE

The aggregate of deductions under section 80C, section 80CCC and 80CCD (1) shall not exceed ₹1,50,000/-

80D

This section has eligibility for individual and Hindu Undivided families (HUF) and is for the medical insurance premium paid. It can be paid for self, dependent children and spouse. The deduction amount here is up to ₹25,000` from taxable income. An additional deduction upto ₹25,000` of medical insurance premium paid for parents (father or mother, or for both) is allowed.

`₹50,000 if age of insured is 60 years or more

80DD

This section covers medical treatment expenditure, rehabilitation, and training of disabled dependent. This is for resident individual and HUF, provided dependent doesn't claim

any deductions under section 80U from his taxable income. A fixed concession of ₹75,000 can be claimed for disability within the range of 40% - 80%. In case of severe disability, deduction of ₹1,25,000 can be claimed from taxable income.

80DDB

It includes the tax benefit for medical treatment of himself or dependent towards treatment of diseases listed under rule 11DD. The deductions can be of amount actually paid up to ₹40,000 and upto ₹100,000 in case of senior citizens.

80E

This section provides deduction from taxable income for interest payment on loan taken for higher studies for relative*. The benefit* is equivalent to the entire amount of interest paid for 8 years. So if you are planning to pursue higher studies, make the best use of this section with the education loan.

80EE

This section is for individual taxpayers towards the interest repayment of a loan taken by them to buy a residential property. The maximum deduction from taxable income allowed is ₹50,000 subject to conditions of section 80EE of Income Tax Act 1961.

80GG

This section is for taxpayers who don't get HRA under salary.

The deduction under this section is available to the minimum of:

1. Rent paid minus 10% of total income
2. ₹5,000 per month
3. 25% of total income

Deduction from taxable income under this section is subject to conditions of section 80GG and other provisions of the Income Tax Act 1961.

80TTA

This section allows deduction from taxable income of the interest earned from a savings account held with a bank, or a co-operative society carrying on the business of banking or a post office. The deduction limit is of ₹10,000 on interest income and eligible for an individual and HUF.

End Note

- Tax benefits are subject to conditions of section 80C, 80CCC, 80CCD, 80CCE, 80D, 80DD, 80DDB, 80E, 80EE, 80GG, 80TTA and other provisions of Income Tax Act 1961. Tax laws are subject to amendments made thereto from time to time. Please consult your tax advisor for details, before acting on above.
- Before getting into tax-saving investments, read and understand the long term benefits and align them with your own future goals.

Start your tax saving investment

*Tax benefits under the policy are subject to conditions under Section 80C, 80D, 10(10D) and other provisions of the Income Tax Act, 1961. Goods & Services tax and applicable cesses will be charged extra as per prevailing rates. Tax laws are subject to amendments made hereto from time to time. This document may be used as a proof for claiming deductions while filing your tax returns. For any confirmation/impact analysis customer is advised to refer the matter to his tax consultant.

-Unit Linked products are different from traditional insurance products and are subject to the risk factors.

The premium paid in ULIPs are subject to investment risks associated with capital markets and the NAVs of the units may go up or down based on the performance of fund and factors influencing the capital market and the insured is responsible for his/ her decisions. ICICI Prudential Life Insurance is only the name of the Life Insurance Company and Unit Linked Insurance is only the name of the unit linked insurance product and does not in any way indicate the quality of the product, its future prospects and returns.

Please know the associated risks and the applicable charges, from your Insurance agent or the Intermediary or policy document issued by the Insurance Company.

The various funds offered under this product are the names of the funds and do not in any way indicate the quality of these plans, their future prospects and returns.

^Past performance is not indicative of future performance.

¹The premium of ₹490 per month has been calculated for a 25 year old healthy non-smoker male for a life cover of ₹1 crore and for a policy term of 21 years under the ICICI Pru iProtect Smart - Life option. This premium is inclusive of all taxes. The annual premium is ₹5,725 (inclusive of all taxes). Premium amount will differ according to the benefit option chosen.

²Critical Illness Benefit/ Smart Health Cover (CI Benefit) is optional and available under Life and Health and All in One options. This benefit is payable, on first occurrence of any of the 34 illnesses covered. Only doctor's certificate confirming diagnosis needs to be submitted. The benefit is payable only on the fulfillment of the definition of the diagnosed critical illness. The CI Benefit, is accelerated and not an additional benefit which means the policy will continue with the Death Benefit reduced by the extent of the CI Benefit paid. The future premiums payable under the policy will reduce proportionately. If CI Benefit paid is equal to the Death Benefit, the policy will terminate on payment of the CI Benefit. To know more in detail about CI Benefit, terms & conditions governing it, kindly refer to sales brochure. Critical Illness benefit is available till age of 75.
