

**National Interagency Coordination Center  
Incident Management Situation Report  
Tuesday, May 3, 2022 – 0730 MDT  
National Preparedness Level 2**

**National Fire Activity:**

Initial attack activity:	Light (107 fires)
New large incidents:	2
Large fires contained:	3
Uncontained large fires: ***	9
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	3
Type 2 IMTs committed:	1
**Complex IMTs committed:	0

\*\*\*Complex Incident Management Teams (CIMTs) are configured to respond to large, complex fires and can expand and reduce staffing in all functional areas as necessary to meet the needs of the incident.

Nationally, there are three fires being managed under a strategy other than full suppression.

\*\*\*Uncontained large fires include only fires being managed under a full suppression strategy.

## **Southwest Area (PL 4)**

New fires:	11
New large incidents:	2
Uncontained large fires:	8
Type 1 IMTs committed:	3
Type 2 IMTs committed:	1

**Hermits Peak**, Santa Fe NF, USFS. IMT 1 (SW Team 2). Twelve miles northwest of Las Vegas, NM. Grass and timber. Extreme fire behavior with wind-driven runs, group torching and spotting. Numerous residences threatened. Evacuations, area, road and trail closures in effect.

**Cerro Pelado**, Santa Fe NF. IMT 1 (SA Red Team). Seven miles east of Jemez Springs, NM. Grass, timber and heavy slash. Active fire behavior with torching, backing and flanking. Residences threatened. Evacuations, area and road closures in effect.

**Crooks**, Prescott NF, USFS. Transfer of command from IMT 1 (CA Team 4) back to the local unit will occur today. Eleven miles south of Prescott, AZ. Timber and chaparral. Minimal fire behavior with smoldering. Communication infrastructure and residences threatened. Evacuations, area, road and trail closures in effect.

**Cooks Peak**, Las Vegas District, New Mexico State Forestry. IMT 2 (SW Team 5). Five miles north of Ocate, NM. Timber and grass. Minimal fire behavior with backing, creeping and smoldering. Residences threatened. Road closures in effect.

\* **Bear Trap**, Cibola NF, USFS. Twenty-two miles southwest of Magdalena, NM. Timber, grass and brush. Active fire behavior with short crown runs, single tree torching and short-range spotting.

**Water**, Gila NF, USFS. Six miles north of Mimbres, NM. Grass, timber and brush. Minimal fire behavior with smoldering. Structures threatened.

\* **Turkey**, Gila NF, USFS. Twenty-two miles southeast of Reserve, NM. Timber. Active fire behavior with running, single tree torching and backing. Residences threatened.

**Tunnel**, Coconino NF, USFS. Nine miles northeast of Flagstaff, AZ. Timber and brush. Minimal fire behavior with creeping and smoldering. Communication infrastructure and numerous structures threatened. Area, road and trail closures in effect.

**Skiles 49**, Cimarron District, New Mexico State Forestry. Twenty-six miles northeast of Clayton, NM. Brush and grass. No new information.

\*\*\*Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

\*\*\*Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

**Predictive Services Discussion**: An upper low will move into the central Rockies while a weakening upper low will move into the Great Lakes. Ridging is forecast for the Plains and the East Coast. A cold front will move through the Southwest late in the afternoon and overnight. Elevated to critical west to southwest winds will develop ahead of the cold front across much of the Southwest into portions of southern Colorado where winds will gust to 40 mph amid relative humidity of 5-20%. Dry and breezy west to northwest winds are likely across the southern Great Basin and West Slope as well. Showers and scattered thunderstorms will develop across portions of eastern Utah into the central Rockies with snow across the higher elevations. Showers and thunderstorms will move through the southern Great Lakes, Ohio, and Tennessee River Valleys. Scattered afternoon thunderstorms are likely to continue across the southern Florida peninsula.

## Aircraft and Pilot Carding

*Aviation Category*

Every aircraft and pilot used in support of a federal wildland fire mission must have a current Aircraft and Pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot and give specific authorization to complete the requested mission.

**These missions could be all or any number of missions as follows:**

- Air Attack (Level I, Level II, Level III)
- Reconnaissance
- Fire Surveillance
- Water Delivery (buckets)
- Helitorch
- Cargo
- Longline
- Plastic Sphere Dispenser (PSD) Operations

Every pilot who flies a properly-carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission requested and the specific type of aircraft being used for the mission. **These**

**missions could be all or any number of missions as follows:**

- Air Attack
- Reconnaissance
- Fire Surveillance
- Low-level
- Paracargo
- Mountain/Remote Airstrips
- Smokejumper
- Longline

Before the aircraft and pilot can be used for a specific mission, the aircraft must be listed on a valid and current contract which includes the type of work being performed. A copy of the contract must be onboard the aircraft.

Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three items is not available for inspection, the mission must be canceled or at least postponed until the authorization of the aircraft, pilot, or contract can be determined.

Pilots have very specific and closely monitored duty time and flight time limitations which users must understand and adhere to:

- 14-hour duty day,
- 8 hours flight time per day,
- 2 days off in 14 calendar days, and
- 36 hours cumulative flight time in any 6 consecutive days.
