Gallup has audited and certified Best Doctors Inc.'s database of physicians, and its companion The Best Doctors in America List, as using the highest industry standards survey methodology and processes. These lists are excerpted from The Best Doctors in America 2017-2018 database, which includes close to 40,000 U.S. doctors in more than 40 medical specialties and 450 subspecialties. The Best Doctors in America database is compiled and maintained by Best Doctors Inc. For more information, visit www.bestdoctors.com or contact Best Doctors by telephone at 800-675-1199 or by email at research@bestdoctors.com. BEST DOCTORS, THE BEST DOCTORS IN AMERICA, and the Star-in-Cross logo are trademarks of Best Doctors Inc., registered in the U.S. and other countries, and are used under license." Founded in 1989 by Harvard Medical School physicians, Best Doctors is a global benefits provider and medical information services company that connects individuals facing difficult medical treatment decisions with the best doctors, selected by impartial peer review in over 450 subspecialties of medicine, to review their diagnosis and treatment plans. Best Doctors seamlessly integrates its services with employers' other health-related benefits to serve more than 40 million members in every major region of the world. More than a traditional second opinion, Best Doctors delivers a comprehensive evaluation of a patient's medical condition – providing value to both patients and treating physicians. By utilizing Best Doctors, members have access to the brightest minds in medicine to ensure the right diagnosis and treatment plan. Best Doctors' team of researchers conducts a biennial poll using the methodology that mimics the informal peer-to-peer process doctors themselves use to identify the right specialists for their patients. Using a polling method and proprietary balloting software, they gather the insight and experience of tens of thousands of leading specialists all over the country, while confirming their credentials and specific areas of expertise. The result is the Best Doctors in America List, which includes the nation's most respected specialists and outstanding primary care physicians in the nation. These are the doctors that other doctors recognize as the best in their fields. They cannot pay a fee and are not paid to be listed and cannot nominate or vote for themselves. It is a list that is truly unbiased and respected by the medical profession and patients alike as the source of top quality medical information.
