

ORGANIC MATCHA POWDER

WHOLE LEAF GREEN TEA

NET WT. 4oz (II3g)

The Sunfood[™] Difference

Matcha Powder is a unique type of tea made from whole Japanese green tea leaves. Before harvest, the plant is kept shaded from the sun. This results in boosted chlorophyll content and an incredibly vibrant emerald color.

Matcha is a known energy booster and is roughly ten times more potent than regular green tea. The process of grinding the whole leaf into a super fine powder yields a higher concentration of nutrients and a stronger flavor profile.

Our Matcha Powder is pure and simple. No additives are used at any point in the process.

1tsp Matcha Powder 2oz hot water

80z Almond Milk Yacon Syrup (to sweeten)

In a cup, stir Matcha into hot water. Pour almond milk over matcha tea, stir. Sweeten with Yacon Syrup to taste. Drink warm or add ice for a cold beverage. Eniov!
