

Internet Essentials from Comcast

Comcast believes that everyone should have access to the opportunities made possible by having the Internet at home. Since 2011, Internet Essentials is our answer to help close the Digital Divide.

Working side-by-side with our schools, government, and non-profit partners, we have connected more than 1,500,000 families—over 6 million low-income Americans—to the power of the Internet in their homes.

This program has grown to be our largest and most successful community investment initiative and is now a part of our organizational DNA. The spirit of the program truly aligns with our mission to improve and enrich our communities.

When our communities thrive, so do we.

What is Sponsored Service?

Over the years, partners (such as non-profits and schools) have asked for the ability to pay for or sponsor Internet Essentials service for their constituents. Prior solutions were manual and cumbersome for the partner and the customer, which limited our ability to offer this broadly.

With the launch of **Sponsored Service** we can now deliver a seamless experience to sponsors and customers. This is intended for new customers only.

- Sponsors receive promotional codes that they distribute to eligible constituents.
- That one promotional code, once validated, will ensure an approved applicant's Internet Essentials billing will be pushed to the sponsor account.
- Sponsors receive one bill each month and are only charged once the constituent is approved and connected to Internet Essentials.
