CATALOG #19 FROM THE OLDS SPECIALISTS AT

SUPERCARS UNLIMITED

WHERE CUTLASS/4-4-2 IS (STILL) ALL WE DO!

CELEBRATING
25 PLUS YEARS OF ROCKET POWER!

On July 5th, 1988, what had started out in the mid 1970's as a part time business of used Cutlass parts, became a full time business still dedicated exclusively to Cutlass and 4-4-2 parts! While the used parts end of the business has mostly been phased out over the years, but 25 plus years later, we can still proudly proclaim:

“CUTLASS/4-4-2 IS ALL WE DO!”

In this 19th edition of our parts catalog, you will find the results of our years of Rocket Power dedication. Our parts listings are items we have proven with hands on experience to be the best available. Of course this doesn't mean we are always going to be the cheapest, but it does mean we will always give you the best *value* for your dollar. We know what works and what doesn't work in an Olds!

Whether your Rocket Project is your daily driver, an all out concours show car, a weekend fun car, a street/strip car, a strip only car or whatever vision you have for your Cutlass, 4-4-2, Hurst/Olds or Vista Cruiser, we have what it takes to make you a winner!

- BEWARE OF FAKES -

In an obvious attempt to create an association with our products, another supplier of Cutlass/4-4-2 parts has basically produced a duplicate of our catalog. Don't be fooled by imitators! The items listed in this catalog are parts we have proven to be the best for your Olds. This comes from experience. Not from copying someone else. While there will always be wannabes, you can always count on Supercars Unlimited for the best products, service (and integrity).

Hurst Equipped - More Than 50 Years of High Performance.

Even if you are up on your Hurst/Olds history, you're sure to find "Hurst Equipped" a great book! Not only does it contain many rare Hurst/Olds pictures, but also some very interesting information and insights from those who helped create them. But that's only part of what makes this a great book. Inside the 180+ pages, you'll find more stories and information on all the other Hurst collaboration cars as well as all the Hurst aftermarket (and factory installed) performance products. This 8.5x11" hardcover book is a must have for every performance car enthusiast! ORDER NUMBER 01-708 \$39.95

4-4-2 By The Numbers

Component Identification And Authenticity Guide Casting Numbers And Stamping Codes 1965-1972 400-455

Our book 4-4-2 BY THE NUMBERS, covers in detail, casting numbers and stamping codes as used on blocks, cylinder heads, carburetors, distributors, intake and exhaust manifolds, crankshafts, manual and automatic transmissions, differentials, VIN code and trim tag breakdowns. Plus much, much more!

A must read for confirming or carrying out a 4-4-2 or Hurst/Olds restoration.

We first published this book back in 1991, and we have updated it with even more information and photos!

56 pages, 29 detailed photos.

Front Suspension Control Arm Bushings

We sell only the original type rubber bushings. If you are considering using urethane bushings, keep in mind they are great for strictly race course usage. On the street, they create a harsh ride and have a tendency to "skip" over bumps and dips found on most roads. This results in a loss of cornering/handling abilities! Road noise is increased with harder bushings. Use the real thing for the best real world results.

YEAR	APPLICATION	PART NUMBER	PRICE EACH	QUANTITY PER CAR
64	Upper A-arm shaft kit with bushings	02-112	\$129.95	2
65-72	Upper A-arm bushing	02-056	7.95	4
65-72	Upper A-arm shaft kit with bushings	02-114 (1)	69.95	2
73-77	Upper A-arm bushing (front bushing on arm)	02-052	7.49	2
73-77	Upper A-arm bushing (rear bushing on arm)	02-054	6.95	2

64-65	Lower A-arm bushings (one kit per arm)	02-080	\$ 39.95	2
66-73	Lower A-arm bushing (front bushing on arm)	02-084	10.49	2
66-72	Lower A-arm bushing (rear bushing on arm round)	02-086 (2)	14.99	2
66-72	Lower A-arm bushing (rear bushing on arm oval)	02-088 (2)	14.99	2
73	Lower A-arm bushing (rear bushing on arm)	02-086	14.99	2
74-77	Lower A-arm bushing (front bushing on arm)	02-074	13.49	2
74-77	Lower A-arm bushing (rear bushing on arm)	02-082	13.49	2

NOTE: (1) This is an offset shaft that will provide additional positive camber adjustment. Compensating for the inherent frame sag. Complete kit includes shaft, both bushings, washers and lock nuts.

(2) Rear A-arm bushings on 66-72 models are either round or oval shape. You will need to determine which design your car is equipped with before ordering. The bushing is visible from the underside of the A-arm on vehicle.

Front Suspension Lower Control Arm Bolt Kit

Proper in appearance and hardness (grade 8), our lower control arm bolts come with the original style lock nuts. Complete 8 piece kit does both control arms. Fits all 1964-1972 applications.

SUSPENSION 02

Rear Sway Bar

Original style rear sway bar. Original for applications listed, will also fit all other 64-72 Cutlass and station wagon models when used with original boxed lower control arms or our 02-256 box kit listed below. Direct replacement for the factory bar.

YEAR	APPLICATION	PART NUMBER	PRICE
64-72	All 4-4-2 and FE2.....	02-252.....	\$159.95

Rear Sway Bar Shim Kit

Shims are sometimes required when installing the above bar. Correct shape and configuration of the original shims. Four piece kit for all 1964-1972 applications. PART NUMBER 54-142 PRICE \$18.95

Rear Sway Bar Bolt Kit

This complete kit includes all bolts and lock nuts to attach the rear sway bar to the lower control arms. PART NUMBER 54-144 PRICE \$14.95

Lower Control Arm Box kit

This kit converts standard three sided Cutlass rear lower control arms to the boxed arms just like originally used on 4-4-2's. Will need to be welded into your original arms. Kit includes inserts for both lower arms - one kit required per car. PART NUMBER 02-256 PRICE \$29.95 pair.

Frame Braces

These rear suspension reinforcement brackets connect the lower control arm front mount to the rear frame upper crossmember. In high horsepower applications, stick shift cars, trans brake equipped cars, the lower control arm mounts can be literally ripped off the frame as well as cracking the upper frame crossmember. The solution to this potential problem is to add a set of these braces. The bolt in design makes installation easy. No cutting or welding is required. 18-146 are exact duplicates of the originals used on many 4-4-2 applications.

YEAR	APPLICATION	PART NUMBER	PRICE
64-67	All models.....	18-108.....	\$ 89.95
68-72	All models.....	18-146.....	89.95

Steering/Suspension Coatings

To duplicate the original natural finish of many steering and suspension components, we offer two choices. A cast iron paint which is a close duplication of a natural color. And will provide a long lasting finish. Sold in 12 oz. spray cans. PART NUMBER 14-292 PRICE: \$8.99

For concours restorations, we offer a spray coating that will maintain the actual metal finish while providing protection from rust for years. Sold in 11 oz spray cans. PART NUMBER 16-002 PRICE: \$10.49

SUSPENSION 02

PERFORMANCE SUSPENSION PARTS

No-Hop Traction Bars

No-Hop bars are designed and engineered to eliminate wheel hop. As well as increase traction. Installed between the upper control arms and differential housing, No-Hop bars change the center of gravity towards the rear of the car. This forces the rear wheels into the ground under hard acceleration. Resulting in maximum traction without wheel hop. Complete kit fits all 64-72 applications.

PART NUMBER 02-226 PRICE: \$259.95

Aftermarket Sway Bar Kits

These anti-sway bars will dramatically improve handling over stock equipment. Complete kits include all mounting hardware. All part numbers listed are a bolt on design, and will require no permanent modifications to vehicle.

Air Lift Polyair Spring Kits

Air Lift airbags fit inside the rear coil springs. These are a very versatile product that will provide excellent results in a variety of applications. For drag race or street/strip vehicles, Air Lifts can be setup to preload the rear suspension for optimum equal wheel traction. Also helping eliminate wheel hop. Cornering ability is increased from reduced body roll. Also perfect for Vista Cruisers or other tow vehicles. Air Lifts operate with low air pressure, allowing support without a harsh ride. Air Lifts apply the load on the spring mounts where the factory designed. Air shocks on the other hand, push the extra load under high pressure, at an angle, against the shock mounts. These complete kits include two Air Lifts, all hoses and fittings. No permanent modifications to vehicle required. Air Lift Polyair Springs also feature a limited lifetime guarantee!

68-72	See footnote(1).	06-020...	97.49....	06-008...	1.99.....	06-014...	1.49
68-72	See footnote(2).	06-022...	85.95....	06-006...	1.99.....	06-014...	1.49

- NOTE: (1) For all models with hub and drum pressed together. New studs must be used when replacing drum.
(2) For all models with separate hub and drum. New studs not required for replacement of drum.

(1) and (2). The two 68-72 styles can be identified by how the drum is removed from the vehicle. The pressed together style requires that the drum and hub be removed as an assembly (including removal of wheel bearings). With the separate drum/hub style, the drum can be removed simply by taking off the wheel and tire.

Front Brake Rotors

For vehicles with front disc and rear drum brakes. Manual or power assist. All include hub. Lug nuts listed are standard nuts. See Super Stock wheel section for more listings. All items listed are sold per each. Rotors include studs. Listings are U.S. or Canadian made (whenever possible).

Brake Hose Clips

Used where metal brake line joins the brake hose. Three used per car. Two front, one rear. Sold per each. PART NUMBER 54-090 PRICE \$ 2.49

Brake Metering Valves

Brand new metering valves. Brake metering valves were used on 1967-1970 applications with front disc brakes. Located between the master cylinder and distribution block, the metering valve functions as a pressure balance valve. They direct pressure to the rear wheels first, preventing the discs from locking up.

Super Stock Wheel Parts

SUPER STOCK WHEEL IDENTIFICATION INFORMATION

The information listed below is to assist you in identifying Super Stock wheels. We do not sell complete wheels. Available parts are listed on the next page.

SUPER STOCK I

YEAR	SIZE	REMARKS
66-69	14X6	Chrome rim (1)
70-73	14X7	Uses trim ring (2)

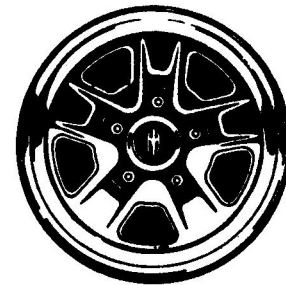

- NOTES: (1) Will not fit 67-68 with disc brakes.
 (2) Some 71 models have a chrome plated rim rather than a trim ring.

SUPER STOCK II AND III

YEAR	SIZE	REMARKS
68-69	14X6	No bezels used in 68
69	15X7	69 Hurst/Olds (1)
70-74	14X7	Bolt on center cap
75-77	14" or 15"	Push on center cap

- NOTE: (1) Has chrome plated rim.

Super Stock II and III are the same wheel. The SSII is painted a chrome color, SSIII's are the same color as the lower body. Both use 5 bezels surrounding the openings, and a snap on trim ring. 70 through 74 SSII's or SSIII's center cap is bolted on from the backside of the wheel. 75 through 77 SSII and SSIII's were available in 14" or 15" rims. Either 75-77 rim size uses the push on center cap.

BRAKE SYSTEM AND WHEEL PARTS 06

OIL SEALS 12

Most part numbers we list are premium double lip design seals. This improves the ability of the seal to keep oil or grease in and dirt out. Many original seals and most parts store type seals are a single lip design. You can avoid the "Leaker" status by spending a few more cents for our premium seals. See the Tech section of our website for axle ID tips and information.

See section 20 for Crankshaft Seals.

ROCKET POWER!

Rebuilding your engine can be one of the more expensive aspects of your Rocket Project. Component selection is critical for performance and longevity. And there are many choices available when it comes time to rebuild. Many of the items we list are our own products. This is because either no aftermarket part is available. Or because there is no **quality** aftermarket part available. For some applications we've found that even "name brand" parts are not always the best choice. Long ago, we came to the conclusion that what's inside the box is more important than the label on the box. Sometimes this costs more. And sometimes less. Our bottom line concern is offering the best parts available for your Rocket.

We've spent over 35 years (and many dollars) testing brands and combinations of parts to find out which ones work and which ones don't in an Oldsmobile engine. And yes, we've built some grenades along the way. The positive results of our research are listed by part number in this catalog!

The result is the best **value** for your Rocket. Ask around. Our reputation is well known as the leader in Cutlass and 4-4-2 mechanical parts. But beware of imitators. In an obvious attempt to create an association with OUR products, another supplier of Cutlass/4-4-2 parts even went as far as to produce a virtual duplicate of our catalog! While there will always be "wannabes", you can always trust Supercars Unlimited to provide the best for your Rocket.

See the Tech Info section of our website for tips and information regarding rebuilding your Rocket!

ENGINE COMPONENTS 14

Piston Ring Sets

All sets listed are Sealed Power, Hastings or Perfect Circle premium sets. Featuring moly top rings and stainless steel oil rings. When ordering piston ring sets, be sure to state desired size - add size to end of part number.

ENGINE COMPONENTS 14

Harmonic Balancer

Original equipment style stock replacement balancer. This is a premium quality balancer - not to be confused with the cheap, poor quality Chinese units being sold elsewhere.

ENGINE	YEAR	APPLICATION	PART NUMBER	PRICE
350-455	68-75	All except W-31.....	14-370.....	\$109.95

High Performance Harmonic Balancer

For high performance applications not requiring a SFI certified balancer, these high performance balancers are manufactured with a higher grade iron than OE balancers. They also feature a no slip outer ring that is degreed at 0 to 50 degrees and every 90 degrees. External balance per original. Drilled to accept stock pulleys for proper pulley/belt alignment. Fits 1968-1976 400 and 455. PART NUMBER 18-118 PRICE: \$214.99

SFI Certified Harmonic Balancer

For racing applications requiring a SFI 18-1 certified harmonic balancer (NHRA 10.99 and quicker), we offer an all steel Elastomer-type balancer. Elastomer-type balancers feature superior high frequency damping qualities and the ability to dampen ALL types of vibrations: torsional, axial and radial. Other dampner designs are limited to damping torsional vibrations only. Degreed 0 to 50 degrees. 6.6" diameter. External balance as per original. Drilled to accept stock pulleys for correct belt/pulley alignment. Fits 1968-1976 400 and 455. PART NUMBER 18-120 PRICE: \$499.99

High Perf Harmonic Balancer Bolt

Rated at 170,000 psi tensile strength, this high performance balancer bolt and washer are far stronger than the original. Fits all V8 66-77. Uses 12 pt. socket. PART NUMBER 18-102.....PRICE \$ 26.95

Harmonic Balancer Repair Sleeve

Repairs balancers with wear groove from front seal. Eliminates oil leaks from worn balancers. Fits all V8's, 64-77. PART NUMBER 12-046....PRICE \$ 9.49

Crankshaft Pulleys

Replace your bent, rusted or missing crank pulley with our brand new correct reproduction. This two groove KJ code pulley fits all 1970-1975 350 and 455 applications without A/C or H/D cooling. Part Number 14-326 PRICE: \$59.95

Crankshafts

Brand new, cast steel cranks now in stock! Fits all 1968-1976 400 and 455. Automatic or manual transmission. Part Number 14-362 \$599.95

Crankshaft Slinger

Crank to timing cover slinger. Fits all 64-77 V8. Part Number 14-364 PRICE: \$22.95

ENGINE COMPONENTS 14

Camshafts

We offer an exact factory duplicate camshaft for all Cutlass, 4-4-2 and Hurst/Olds applications. Based on a brand new blank (NOT a regrind), our cams meet all factory specifications (lift, duration, valve timing, etc. as per original application. Lifetime warranty. IMPORTANT - PLEASE NOTE: New lifters MUST be installed! Cam and lifters must be broken in with an SF rated oil or with the zink substitute listed on the next page along with the assembly lube listed below. And then maintained with a proper high zink oil.

Factory Race Cam

This is a brand new duplicate of the factory "back door" 328/348 cam that was used by several record holding 455" Stock Eliminator cars. Based on a 107 degree lobe centerline, this cam features 243 degree intake duration and 262 degree exhaust at .050". .475" valve lift. Very rough idle. Use with 4 speed, or automatic with 3500-4000 rpm stall converter and 4.33 or lower gears. This cam is just plain *nasty* sounding! Produces outstanding horsepower and torque to 6000 RPM. Will pass NHRA tech for stock eliminator. 39 degree bank angle. This is the same cam that we use in our '67 4-4-2 Super/Pro ET Bracket car. PART NUMBER 14-248.... PRICE: \$149.95

Valve Lifters

Premium quality hydraulic lifters. Sold per each. 16 required.

Speed-Pro Hydraulic Lifters

Speed-Pro high performance valve lifters require a means of valve adjustment (Such as our adjustable rocker arm kits or adjustable pushrods), as a .0015 to .002 valve clearance must be obtained. Sold per each.

ENGINE	YEAR	PART NUMBER	PRICE
330-455	65-80 (1).....	14-178.....	\$ 8.49

NOTE: (1) Except 66-67 400.

Zink Additive

For emission reasons, most oil manufactures are reducing or eliminating Zink Dialkyl Dithio Phosphate from their domestic products. While this is fine for late model engines using roller lifters, but in our older flat tappet applications, the elimination of ZDDP will result in rapid and severe camshaft and lifter wear. It is critical that a new camshaft and lifers are broken in with oil containing ZDDP or the use of a bottle of zink additive. We also recommend ZDDPlus with each oil change. Part Number 14-346 PRICE \$12.99

Adjustable Pushrods

Proper - and critical hydraulic lifter preload can be obtained by adding adjustability to an otherwise nonadjustable Olds valve train, For applications requiring a means of adjustment or geometry correction due to different base circle cams, surfaced heads and/or blocks, different thickness head gaskets, incorrect valve stem heights, etc. we offer these premium sets. In addition to adjustability, all are oil restricted (.040") to ensure adequate bottom end oiling. All sets are 5/16" diameter, so no machining or grinding is required for installation. All are sold as sets of 16. Instructions included.

High Performance Valves

Our high performance valves are one piece forged stainless steel. Featuring hard chromed 11/32" stems. In addition to their heavy duty features, the design of our valves will increase air flow capabilities. Resulting in increased horsepower.

Our oversize exhaust valve will show a substantial performance gain in high performance applications. Both intake and exhaust will work with stock type keepers and retainers (although our #14-264 keeper set is recommended for all performance applications). All valves are sold per each.

Rocker Arm Shim Kit

This kit allows "adjustment" of 66-77 rocker arms. By placing various size shims under the rocker pivots, proper valve lifter preload can be obtained. Instructions included. (Two kits sometimes required) PART NUMBER 18-068 PRICE: \$14.99

Adjustable Rocker Arm Kit

Complete kits convert the nonadjustable factory rocker arms to a fully adjustable setup. The use of these roller tipped rocker arms over the factory stamped steel arms will produce a significant increase in power. Plus with individual adjustability, the critical hydraulic lifter preload can be obtained. Resulting in an increase of as much as 20 horsepower! This kit is a total bolt on. No machining or special tools are required. Complete kits include rocker arms, with balls and adjusting nuts, guide plates, mounting studs and special length pushrods.

CUTLASS/4-4-2 IS ALL WE DO!

ENGINE COMPONENTS 14

Engine Rebuild Kits

Rocket Rebuild kits. Our engine rebuild kits include the same premium quality components that we offer individually, but at a discounted, package price. Due to the fact that we will need to know: Cylinder bore (standard or which oversize) for pistons and rings, desired compression ratio (when offered), crankshaft sizes for both rod and main bearings plus camshaft choice, orders for our Rocket Rebuild Kits will need to be phoned in.

64-67 330 Rocket Rebuild Kit

Our complete kit includes: Piston set (high or low compression), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-332 PRICE: \$1249.95

68-77 350 Rocket Rebuild Kit

Our complete kit includes: Piston set (low compression), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-334 PRICE: \$1049.95

65 400 Rocket Rebuild Kit

Our complete kit includes: Piston set, ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters

Part number 14-336 PRICE: \$1249.95

66-67 400 Rocket Rebuild Kit

Our complete kit includes: Piston set, ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-338 PRICE: \$1499.95

68-69 400 Rocket Rebuild Kit

Our complete kit includes: Piston set, ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-340 PRICE: \$1400.00

68-76 455 Rocket Rebuild Kit

Our complete kit includes: Piston set (high compression - available .030 only), ring set, rod bearing set, main bearing set, camshaft bearing set, timing chain and gear set, oil pump, freeze plug kit, all gaskets - including intake, camshaft and a set of lifters.

Part Number 14-342 PRICE: \$1299.95

WARNING: Before you purchase your engine parts from the machine shop or parts store, remember who has more experience with Oldsmobiles. Save yourself time, money and frustration by doing the job right the first time! You can count on us to always provide the best for your Rocket Rebuild!

RECONDITIONED & USED ENGINE PARTS

Used Engine Components

We have a continually rotating inventory of used engine components or "cores". Blocks, heads, cranks, intake manifolds, tin, etc. Because these are used engine parts, we cannot guarantee their constant availability. And therefore cannot assign them a part number in the catalog. Please call with your needs. Keep in mind however, W-30, W-31 castings were rare even when new. Used ones just don't come through as often as they did years ago.

To insure quality, all used engine parts receive a thorough inspection before they go out our door. All are stripped down to their bare castings, hot tanked, magnafluxed and fully examined. This way you are always assured of getting a quality part. This also assures you of an accurate description of the part before you purchase. No B.S. And no surprises when you receive your order.

In order to guarantee the condition of each component, we do not sell any used complete engines or used short block assemblies.

Price always depends on condition. Therefore we cannot have any set prices on used engine parts. Please call for availability and description. Prices quoted at the time of your call apply to current inventory.

With the exception of blocks, all other used engine parts can be shipped via U.P.S. Blocks must shipped via truck. Shipping prices listed on the back of the catalog do not apply to any used engine parts.

Call 503-641-1442 for used engine parts information.

Or e-mail cat@supercarsunlimited.com

Engine Parts Rust Inhibitor

Protects engine parts in storage from rust and corrosion. Forms a heavy, waxy film that lasts up to two years. Perfect for cranks, bare blocks, heads, etc. Or for long term storage of any non protected metal surface. 11 ounce spray can.

PART NUMBER 16-002 PRICE \$10.49

High Performance Water Pumps (New)

Brand new, light weight aluminum pumps (5 lbs). Fits all 22-050 applications listed above as well as race car applications using electric pump drives, etc. Hub height 5.556". Includes mounting gasket. PART NUMBER 18-142 PRICE \$79.95

Water Pumps (Remanufactured)

Brand new water pumps for the applications listed below are no longer available. The pumps we offer for these models are a very high quality remanufactured product. All include gasket. Sold on an exchange basis. See core information listed below. Please note these pumps will not have the original casting number. See our Number Match Water Pump listing.

ENGINE	YEAR	APPLICATION	PART NUMBER	PRICE	CORE DEPOSIT
330	64	With or without AC.....	22-058.....	\$129.95...	\$ 45.00
330	65-67	Without AC.....	22-062.....	89.95...	25.00

455	71-72	w/o A/C, HD cool, W-30 or 3.73's.....	22-114.....	89.95.....	25.00

All our remanufactured water pumps are sold an exchange basis. Before submitting your core, make certain that it meets the following conditions: Pump must have fan hub attached. No cores can be accepted with cracked or broken housings. Be sure to return the core in its original box. See back pages for more core information.

Number Matching Water Pumps

We offer remanufactured water pumps with original casting numbers on a special order basis. We can supply a correct number pump for most 65-72 applications. Although we have a fair supply of most numbers, some applications may take up to four weeks to provide. All pumps are priced as part number 22-110. PRICE: \$154.95 CORE DEPOSIT \$15.00. While we will need a core, it does not need to be the original number. See core information above. All pumps include gasket.

COOLING, HEATING & AIR CONDITIONING 22

Water Pump Pulleys

Correct reproduction of the original two groove KE code water pump pulley as used on all 1968-1969 V8 applications without A/C, H/D cooling or W-30. Part Number 14-330
PRICE: \$59.95

Heater Cores

Brand new premium quality copper/brass construction cores (whenever possible). All have the correct fitting angles as used on Oldsmobiles.

YEAR	APPLICATION	PART NUMBER	PRICE
64-67	All with AC.....	22-002.....	\$119.95

FILTERS 24

K&N Air Filters

We recommend using K&N air filter elements for many reasons. First being performance. The unique design decreases restriction allowing improved airflow and power. Even a dirty K&N filter outperforms most new filters! K&N filters are totally washable. They can be cleaned and recleaned over and over again. In fact, K&N puts a "Million Mile Warranty" on their filters. So do they *filter*? You ask. Check out the winning Baja 1000 vehicles. The oil saturated cotton design absorbs dust and dirt on the outside of the filter. Allowing only clean air in. Especially recommended on Force-Air applications. To find the filter for your application, refer to the part number on the previous page, and cross over the number on the chart below.

SUPERCARS AC NUMBER	SUPERCARS K&N NUMBER	PRICE

Date Coded Ignition Wire Sets

Exact reproductions of the original spark plug wire sets. These sets feature all the details of the factory Olds wires, right down to the type *style*. All are precut to correct lengths and have the boots and terminals attached. Coil wire included. These authentic reproductions are authorized by the Packard Wire and Cable division of General Motors. Ordering information: wire sets precede the date of vehicle mfg. by six months to one year. Date coded wire sets are special order. Please allow approx. two weeks for delivery. All sets priced at \$89.95 each.

CORE INFORMATION AND PRICES

=====

Starters are sold on an exchange basis. Before submitting your core, be certain that it meets the following conditions:

Units must be complete and assembled. Units that have broken housings, or have been involved in a fire cannot be accepted as cores. Be sure to return the core in its original box. See how to order section for more information on exchange parts.

CORE VALUE FOR ALL STARTERS: \$30.00

Starter Shim Kit

Used between starter and block. Sometimes required for proper starter to ring gear mesh. Kit includes (2) 1/64", (2) 1/32" and (1) 1/16" shims.

YEAR	APPLICATION	PART NUMBER	PRICE
64-77	All V8.....	40-058.....	\$ 7.49

Super High Torque Mini Starter

Our Super High Torque Starter cures the hard to start condition common with modified big blocks. The gear reduction design provides a 50% increase in torque over a Delco starter. Yet uses half the amps required for starting. Weights less than half of an original Delco starter. By design, it is virtually unaffected by heat. And will clear most aftermarket oil pans and headers. Our racing starter features all brand new components (no rebuilt parts!) and uses heavy duty bearings rather than bushings found on other "high performance" starters.

YEAR	APPLICATION	PART NUMBER	PRICE
65-76	All 400-455.....	18-106.....	\$359.95

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

"Anti Spin" = Oldsmospeak for "posi"

12 Bolt O Axle Information

The 12 bolt O axle was used under most 1967-1970 Cutlass, 4-4-2, Hurst/Olds and Vista Cruisers. Internally, the O axle features an 8.5" ring gear. Which is attached to the carrier by 10 bolts (this 8.5" 10 bolt ring gear is not the same as the 1971 and newer 10 bolts). All use 28 spline axle shafts except the 1967-1968 models originally equipped with 3.42 thru 5.00 gears (those use 31 spline axles). The 31 spline models also use larger carrier bearings than the 28 spline models. 1967-1969 axle bearings are a sealed ball bearing design. 1970's axle bearings are an open roller design lubricated by the differential oil. All O axle shafts are retained by a four bolt flange (not internal C-clips). All use a 1.626" diameter, 27 spline pinion stem. Three different carriers were used depending on ratio. 2.56-2.78, 3.08-3.23 and 3.42 thru 5.00. These have different pinion centerline to ring gear mounting flange offsets. Anti-Spin models (Oldsmospeak for "posi") are clutch type differentials. Which utilize an "S" shaped spring to provide pressure against the clutch packs. See the "Tech Info" section of our website for more 12 Bolt O Axle identification tips, rebuilding information and photos.

Differential Overhaul Kits

Our kits include all the necessary components for a differential overhaul and/or a ring and pinion change. All kits include: carrier bearings/races, pinion bearings/ races, ring gear bolts, crush sleeve, an assortment of case side shims, pinion lock nut, marking compound, Loctite, pinion seal and cover gasket. All kits work with open or Anti-Spin differentials.

YEAR	APPLICATION	PART NUMBER	PRICE

NOTE: (1) Will not fit six pinion models.

Cutlass/4-4-2 is ALL we do!

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Anti-Spin Overhaul Kit

Our Anti-Spin overhaul kit contains all the necessary parts to rebuild a weak or slipping "posi". Our kit also improves the effectiveness of the factory unit by using a stronger spring. While the original spring provided 200 psi of force, our spring increases the pressure to 300 psi. This stronger side pressure ensures both tires will provide equal traction even with slicks! Kit also includes both clutch packs, an assortment of clutch to case shims (required for proper setup) and a bottle of 46-066 additive.

YEAR	APPLICATION	PART NUMBER	PRICE
67-75	10 or 12 bolt "O" axle with Anti-Spin.....	46-120.....	\$ 229.95

Anti-Spin Spring And Shim Kit

Provided the old clutches are not burnt or have excessive wear, often a weak Anti-Spin ("posi") can be re-shimmed back to within factory tolerances. For those not needing new clutches, our spring and shim kit can be used to shim your used clutch packs back to factory specs. Kit includes correct size O axle shims (2 each .005 and .007), our improved 300 pound "S" spring (original was 200 psi) and a bottle of 46-066 GM additive. For use with all 1967-1972 10 or 12 bolt O axles with Anti-Spin.

YEAR	APPLICATION	PART NUMBER	PRICE
67-75	10 or 12 bolt "O" axle with Anti-Spin.....	46-228.....	\$ 85.00

Clutch Kit For Supercars Unlimited 12 Bolt Differentials

Clutch kit for rebuilding our 46-146, 46-148, 46-150, 46-198 and 46-200 12 Bolt O Axle differentials. We also recommend using this kit with our differentials for restacking the clutch plates when used in high horsepower applications or applications using slicks or sticky drag radials, etc. Warning: Restacking will cause a noticeable differential posi chatter when turning tight corners. Part Number 46-238 PRICE CALL

Crush Sleeve

This sleeve is required when overhauling a differential or replacing pinion bearings. Our correct reproduction allows proper preloading of the pinion bearings.

YEAR	APPLICATION	PART NUMBER	PRICE
67-70	All O axle.....	46-104.....	\$ 34.95

Carrier Shim Kit

This kit includes an assortment of shims for both sides of the carrier. Fits all 64-67 8.2 10 bolt B P axles, 67-70 12 bolt O axles and all 71-77 8.5 10 bolt rears with bolt in axles. PART NUMBER 46-220 PRICE: \$19.95

Pinion Shim Kit

This kit includes an assortment of shims for both sides of the carrier. Fits all 64-67 8.2 10 bolt B P axles, 67-70 12 bolt O axles and all 71-77 8.5 10 bolt rears with bolt in axles. PART NUMBER 46-222 PRICE: \$14.95

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Pinion Shaft

This is the center shaft (sometimes called "Pin") located between the differential pinion gears. Fits all 1967-1972 O axles. Fits Standard or Anti-Spin.

PART NUMBER 46-142 PRICE: \$34.95

Pinion Shaft Bolt

This is the special bolt that holds the pinion shaft (above) into the carrier. Often stripped or broken, it should be replaced when rebuilding an O axle.

Fits all 1967-1970 12 bolt O axles and 1971-1977 8.5 10 bolts.

PART NUMBER 54-096 PRICE: \$2.99

Pinion Gear Locknut

Differential U-Joint companion flange to pinion gear lock nut. Fits all 66-72 axles (except "C" Type). PART NUMBER 46-152 PRICE: \$7.99

Pinion Flanges

U-Joint to differential companion flange (rear U-Joint to differential coupler). All include U-bolts / or straps.

Pilot Bearing Adapter

Our new pilot bearing adapter is an innovative way to convert an automatic crankshaft for use with a manual transmission. Until now you had to have an expensive factory M/T crank, or have an automatic crank machined to accept a pilot bearing. This required removing the crank from the engine. An in-car conversion is now possible. By using the torque converter ring of the crank, our adapter bearing (not a bushing) assures the input shaft is dead centered with the crank. Installation requires only minor shortening of the input shaft or drilling a dead hole in the back of the crank (can be done with common shop tools). Instructions included. Fits all 260 thru 455 engines.

PART NUMBER 10-070.....PRICE \$ 49.00

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Pressure Plate To Flywheel Bolt Kit

Complete kit includes correct bolts and lock washers required to attach pressure plate to flywheel. Fits all 64-76 V8's.....PART NUMBER 54-062....PRICE: \$12.99

Flywheel To Crankshaft Bolt Kit

Complete kit includes correct bolts and lock washers required to attach manual trans flywheel to crankshaft. Fits all 64-76 V8's. PART NUMBER 54-060 PRICE: \$12.99

Flex-Plate To Crankshaft Bolt Kit

Complete kit includes all special bolts and washers for attaching automatic trans. flex plate (flywheel) to crankshaft. Fits all 64-76 V8's. PART NUMBER 54-058 PRICE: \$12.99

Torque Converter To Flexplate Bolt Kit

Complete kit includes all special bolts and washers for attaching the torque conv. to flexplate. Fits all 67-77 models with TH400. PART NUMBER 54-056 PRICE: \$10.99

Muncie Input Shaft Wrench

This is the special thin wrench that is required to remove and tighten the main drive gear retaining nut. Replaces GM tool #J-0933-03 and improves on it with a better fit. We also include a new nut to replace ones damaged by not using the proper tool and from being used too many times. (Nut is staked in place after tightening). Fits all Muncie 4 speeds. PART NUMBER 46-122 PRICE: \$39.95

Splined Clutch Alignment Tools

Required for proper clutch alignment.

1-1/8 x 26.....	46-022.....	12.99

Muncie Shifter 4 Speed Shifter

Brand new Muncie 4 speed shifter mechanisms are now available! This is the main shifter body or "shift bracket assembly" that the shift rods and chrome shift handle attach to. Often worn out, and not rebuildable, our brand new units eliminate slop and will restore positive gear changes. Main body assembly only. Shift rods and chrome handle not included. Fits all 64-65 models except 65 4-4-2. PART NUMBER 46-210 PRICE: Currently unavailable - call or email.

Hurst 4 Speed Linkage Bushing Kit

Restore positive feel and gear selection to your original Hurst shifter by replacing worn bushings. Kit includes original style nylon bushings and proper clips. Fits all 1966-1969 original Hurst Competition Plus four speed shifters. PART NUMBER 46-028 PRICE: \$14.49

CLUTCH, TRANSMISSION & DIFFERENTIAL 46

Z-Bar Bushings

Eliminate pedal slop and clutch adjustment difficulties with our correct reproductions of the original Z-bar (equalizer shaft) bushings. Upper bushings are located in the Z-bar where the clutch pedal thru firewall rod attaches. Lower bushings are located where the Z-bar attaches to the frame.

YEAR	APPLICATION	PART NUMBER	PRICE

Muncie 4 Speed Parts

While many parts for Muncie 4 speeds are becoming increasingly difficult to find, we can provide most internal parts for 1964-1973 M20, M21 and M22 Muncie 4 speeds. Including gears, shafts, idler parts, shift forks, etc., etc. These components are available on a special order basis, so please allow an extra five to seven working days for delivery. If possible when inquiring, please have the component number listed in the exploded view chart from the chassis manual or on our web site (we can fax, e-mail or snail mail the chart if needed). For phone inquiries, call 503-641-1442. E-mail: cat@supercarsunlimited.com

Torque Converters

When choosing a line of torque converters to add to our product lineup, the choice was easy - Hughes. Having used quite a few different brands over the years, we've had the best results with the performance, consistency and durability of Hughes converters. The ability to repeatedly hold up to the torque of an Olds engine requires a high quality, well engineered and well built converter. The knowledge Hughes has learned with their race proven converters is carried over to their line of street converters. For performance, consistency and durability, we recommend and use Hughes converters.

If you need any assistance with selecting the proper torque converter for your application, please call or email with vehicle specifics. Full Race converters also available as well as stock and performance converters for 1967 Switch Pitch TH400 applications. Please call for pricing and details.

Hughes 2000 RPM Stall Converter

This 12", 2000 rpm stall speed, high performance torque converter is designed for stock and mildly modified applications. This converter features silicone brazing for strength, needle bearings for reliability and stator modifications for more torque multiplication. Fits all 68-77 TH350 and TH400 applications. PART NUMBER 46-240
PRICE \$239.95

Hughes 2500 RPM Stall Converter

This 12", 2500 rpm stall speed, high performance torque converter is designed for factory performance applications as well as modified applications. Higher stall speed improves acceleration and provides better idle characteristics when the car is in gear. Fits all 68-77 TH350 and TH400 applications. PART NUMBER 46-242 PRICE \$299.95

Hughes 3000 RPM Stall Converter

This 10", 3000 rpm stall speed, high performance torque converter is designed for modified street, street/strip applications. These converters feature full needle bearing design (front and rear), a modified sprag and braised fins resulting in a strong and reliable converter. Fits all 68-77 TH350 and TH400 applications.
PART NUMBER 46-244 PRICE \$459.95

After 25+ years, Cutlass/4-4-2 is (still) **ALL** we do!

WEATHERSTRIP & RUBBER PARTS 50

In Section 50-, we have compiled an extensive listing of weatherstrip and rubber parts. All are premium direct replacements of the original part. No universals as available elsewhere. For weatherstripping, we carry Metro Moulded Parts Supersoft line. Our experience has shown this to be a superior product over other available weatherstripping. Metro makes all their weatherstripping in the U.S., and all are ozone and UV resistant using the latest compounds. Guaranteed to last with a 15 year warranty! We have found Metro's attention to detail also surpasses others on the market. All feature the original shape and molded ends. Their Supersoft weatherstripping also offers another bonus not found in other brands - you will be able to shut your doors after installation!

Holiday Coupe Or Sport Coupe?

Throughout this section we will refer to "Holiday Coupe" or "Sport Coupe". Sport Coupes are often called "post coupes". Because they feature a post between the door and rear side glass. This post stays in place when all side glass is down. Sport Coupes have a metal framework running the perimeter of the door glass.

Holiday Coupes have only a roll up seal and a small piece of chrome dividing the door glass and rear side glass. No divider is visible when the door and rear side glass is down.

If you are still unsure of which model you are working on, just have your VIN ready when you call to order.

Moulded Door Weatherstrips

Authentic reproductions. Correct in all details, with moulded ends. All clips included. Sold in pairs.

68-72	Air Cleaner Lid. Correct reproduction of the original metal air cleaner lid as used on all 1968-1972 350, 400 and 455 4 barrel applications without Force-Air. (Painted black).....	52-324.....	69.95
70-72	All W-Machine. Correct metal inner element lid....	52-056 (2)....	49.00

NOTES: (1) Sold per each carb. See section 24 for filters.
(2) Also correct for 69 Hurst/Olds.

BODY, INTERIOR, TRUNK & UNDERHOOD 52

1970-1972 Force-Air Cleaner Top Assembly

This reproduction air cleaner top assembly is correct in every detail to the original. Suitable for all out concours show cars. Produced with the correct smooth black plastic, this complete top assembly includes main body, flapper door, vacuum motor, foam seal, and hold down springs. Licensed GM Reproduction.

ENGINE	PART NUMBER	PRICE
350	52-312.....	\$499.95
455	52-310.....	499.95

Race Car Air Cleaner Top

For 70-72 applications with a factory (functional) Force-Air hood. Stock Eliminator and Super Stock racers have benefited in performance by removing the flapper door assembly and cutting out the remaining top plastic - resulting in a substantial increase in the ram air effect. Based on a reproduction top similar to the above listing, since it is not needed, this race style is just the plastic upper body - no flapper door or vacuum motor is included. Perfect for the weekend warrior who wants the most out of their W-Machine on the strip without having to cut up their expensive original or reproduction top. NHRA legal for Stock and Super Stock. Our race car top can also be modified to provide the additional clearance required when using many aftermarket intake manifolds. Includes foam seal.

ENGINE	PART NUMBER	PRICE
350	52-246.....	\$249.95
455	52-244.....	249.95

Air Cleaner To Hood Foam Seal

Original type foam with correct outer skin.

Our 1969 Vista Cruiser

Painted to match our race car (and trailer) in 1972 Nordic Blue and Royal Blue, the wagon is our all purpose vehicle. Used regularly for parts chasing and post office drop offs. Its other duties include swap meet hauler, tow vehicle for the show cars and the race car. We also run it the Sportsman bracket at Portland International Raceway. This kind of use also makes it the perfect test car for our new products. We place high demands on our own Rockets in the real world. And we aren't about to try to sell you something that we wouldn't use on our own cars.

We use what we sell!!

For our latest new product announcements, sales and specials, free Friday promotions and more, be sure to sign up for our online newsletter. You can do so by clicking on the Newsletter box on the right side of the home page of our website and entering your email address.

Of course you won't need to worry about us selling your email address to spammers or such - your address will remain confidential.

"Like" us on Facebook for Olds related notifications, new product announcements, contests, show and race car updates, toys, fun stuff and more!

ROCKET POWER!

For over 35 years, this 1967 has been our rolling test bed. It allows us to test and evaluate new products before we put them in this catalog. Bracket racing requires an extremely reliable and consistent race car. Which is really the same thing we all want in our street cars! You have many choices when it comes to parts suppliers for your Olds. At Supercars Unlimited, Cutlass/4-4-2 is ALL we do! As dedicated Oldsmobile enthusiasts, you are always assured of getting only the best when you buy from us.

We sell what works in an Oldsmobile engine!

Our Super Pro '67 4-4-2 Quick Specs.

ENGINE: 1970 455. All internal components are listed in section 14- of this catalog. Including the 14-248 camshaft (.475" valve lift). External bolt-ons include Torker intake with 850 Holley, Hooker headers and a Moroso pan. MSD & Mallory ignition components with Accel 8.8 plug wires fire the VP race fuel. Our 18-106 Super High Torque starter makes sure it comes to life.

TRANSMISSION: B&M Competition TH400 with transbrake (full manual shift, reverse shift pattern) and 300M input shaft. Hughes Performance Pro III series (4000 stall) converter. Hurst Pro-matic 2 shifter. B&M deep pan and Simpson blanket. Victory Performance Parts slip.

REAR END: 1968 "C" axle 12 bolt with 4.33 pro gears. Mark Williams spool with Dutchman 35 spline axles. 9" Ford bearing ends, Victory Performance Parts yoke, LPW girdle.

MISC: Harwood 8 gallon fuel cell, Holley blue pump, Russell braided hose and fittings. Flowmaster mufflers. Auto Meter and SW gauges. Cragar wheels, M/T tires. Alston six point roll cage. Pyrotect camlock belts, Dedenbear delay box. Fiberglass hood and trunk.

PERFORMANCE: Our home track (Portland International Raceway) runs an 1/8th mile bracket race program. In its current form, our 67 4-4-2 has run a best ET of 7.01 at 96 MPH. With 60 foot times in the 1.40's. 3160 lbs (less driver).

See our web site (www.supercarsunlimited.com) for more information, pictures and updates.

HOW TO ORDER

You can order by mail, telephone, fax or on-line. We accept Visa, MasterCard, Discover and all American Express cards or prepaid orders. We no longer send ANY C.O.D. orders. We cannot ship to P.O. boxes. A street address is always required.

STORE HOURS: MONDAY THRU FRIDAY 9:00 AM TO 6:00 PM. PACIFIC TIME.

MAIL Please use our order form and fill in all the appropriate blanks, including all vehicle information. Please print or type. If we can't read it, we can't send it! Personal checks are accepted on all on orders up to \$50. All orders above \$50. should be made by a money order or certified check. PLEASE NOTE: Personal checks over \$50. MUST clear both banks. This will cause a 12 to 15 working day delay before your order can be shipped. All prices are U.S. funds. Make checks payable to: Supercars Unlimited. On Visa, MasterCard, Discover or American Express orders, be sure to fill in all appropriate information on our order form. Including expiration date. Be sure to add shipping charges.
Our mailing address is: 13980 SW T.V. Hwy., Unit #5 Beaverton OR USA 97005-2304

PHONE We can accept Visa, MasterCard, Discover or American Express card orders. Tech questions, product information calls or orders requiring tech info, etc., please call 1-503-641-1442.
Toll free ordering is available in the continental USA for placing orders only. Please have all catalog part numbers and quantities ready (you may want to write them down before calling). Also have your Visa, MasterCard, Discover or American Express card in front of you. As well as your shipping and billing address information.
Our toll free number is 1-888-OLDS-442 (1-888-653-7442).
Orders requiring tech information, etc., call 1-503-641-1442.

FAX Orders can be sent via fax 24 hours a day, 365 days a year. Please use our order form and include all Visa, MasterCard, Discover or American Express card information. Please do not shrink or reduce order form. And please, please print clearly! (thanks). Continental US Toll Free fax order line (orders ONLY) 1-888-653-8050.
Fax number for international and non orders 1-503-641-3442.
For fax confirmation call 1-503-641-1442.

ON-LINE Orders can be placed on-line 24/7, 365 at our safe and secure website (www.supercarsunlimited.com). All major credit cards accepted.

CANADA, ALASKA, HAWAII AND PUERTO RICO SHIPPING INFORMATION

Do not use the above chart for shipping costs. Shipping costs for Canadian, Alaska Hawaii and Puerto Rico orders are as follows. MAIL ORDERS (Except credit card), Add 20% to invoice total. (All Canadian non credit card orders must be paid by a money order or bank draft payable in U.S. funds). CREDIT CARD ORDERS: (phone, mail or FAX) will be charged the actual shipping costs.

MINIMUM SHIPPING CHARGE: \$12.50.

Due to increased export document requirements, all international and non contiguous US orders will be charged a \$5.00 processing fee.

Most orders are shipped Priority Mail through the USPS or by U.P.S. PLEASE NOTE: Due to Canadian Customs regulations, we unable to ship any aerosol cans to Canada.

INTERNATIONAL ORDERS (Except Canada)

We ship Oldsmobile parts worldwide. You will need to contact us with a complete list of all items needed. We will then calculate the actual shipping cost.

MINIMUM SHIPPING CHARGE \$15.00. We can accept only Visa or MasterCard for payment on international orders. Most orders shipped via Priority Mail International or U.P.S.

Due to increased export document requirements, all international orders will be charged a \$5.00 processing fee.

We cannot ship any aerosol (spray) cans outside of the U.S.

RETURNS

We have probably the easiest return policy in the industry. No authorization numbers, no hassles, and we won't hold YOUR money with an "in-house" credit!

The only thing that we do **REQUIRE** is that you send a copy of the invoice. If your order was placed on a Visa, MasterCard, Discover or American Express card, you **MUST** include a copy of that receipt as well (or current card info). We do not accept ANY returns sent back C.O.D.

Returned item must be unused, undamaged and in original packaging. The following items are NOT returnable: Electrical parts, literature, paint layouts, 18- part numbers, or any special order item such as wire harness assemblies or upholstery items. If you have a problem with any part, please don't hesitate to call. We will do our best to accommodate your needs. Returns subject to a 15% restock fee.

SALES TAX

NO sales tax charged! Oregon has no sales tax. (And we won't charge you any "handling fees" or hidden fees either!).

BACK ORDERS

We stock what we list in this catalog. However, there can be situations when we may be temporarily out of stock on a particular item. This will be indicated on your invoice. We will also note an approximate date of shipment. Back orders rarely exceed three weeks.

FREIGHT DAMAGED MERCHANDISE

Our shipping department operates under the philosophy that all outgoing packages are being sent to themselves for use at a major show or event. We go the extra effort to make sure that you receive your parts without the delay of freight damage. However, in the off chance you do happen to receive an item damaged in transit, you must first let the delivery company know of the problem BEFORE sending the merchandise back.

CORE INFORMATION

Some of the remanufactured products we list are sold on an exchange basis. These parts have what is known as a "Core Deposit" (or Core "Charge"). Any item requiring a core deposit has the charge indicated with the part number/product listing. You can pay the appropriate deposit when you order. Or you can avoid paying the core deposit by sending your cores in with your order. Cores returned after purchase must be received by us no later than 60 days of receipt for a full refund. Fifty percent of core value will be refunded on any core received after 60 days. All core returns must be shipped pre-paid. We cannot accept any returned cores shipped C.O.D. Any core deposit paid on a credit card will be credited to that account. Please include all current card information. Be sure to follow specific core info listed along with the part. Cores **MUST** be returned in original mfg. Box.

PRICES

We will maintain the prices listed in this catalog for as long as possible. However, with the many different products we offer, price changes are going to happen. If this is not a current catalog, please see the on-line shopping section of our web site for current prices. Or give us a call for current prices. We reserve the right to change prices without notice. Please note, PART NUMBERS will never change (no matter how old this catalog may be).

Will CALL

Although we are a "mail order" company, you may pick up orders here at our warehouse if you are in the area. All we ask is that you phone your order in one or two days in advance.

Supercars Unlimited catalog #19 copyright © 2016

In effort to preserve the environment for future generations, we use recycled, recyclable and biodegradable shipping boxes and materials whenever possible. Please join in our efforts by recycling the packaging. Thanks!

And please recycle this catalog by passing it along to a fellow Olds enthusiast when you are done with it.

- BEWARE OF FAKES -

In an obvious attempt to create an association with our products, another supplier of Cutlass/4-4-2 parts has basically produced a duplicate of our catalog. Don't be fooled by imitators!

The items listed in this catalog are parts we have proven to be the best for your Olds. This comes from experience. Not from copying someone else.

While there will always be wannabes, you can always count on Supercars Unlimited for the best products, service (and integrity).
