Physicians must only order tests that they have determined are medically necessary for the diagnosis and treatment of a patient. MDL offers individual tests, as well as a limited number of customized panels. If you choose to order a panel, please make certain that each and every test is medically necessary. If you check off a panel as your choice, MDL understands that the physician has determined that all of the component tests are medically necessary, and will perform, report and bill for all such component tests.

\* This test can only be performed when the test in parenthesis is positive. All tests performed will be billed. OneSwab®, UroSwab® and NasoSwab® are registered in the United States Patent and Trademark Office.
