

Customizing Beverages at Starbucks® Stores

January 2020

With more than 170,000 ways to customize beverages at Starbucks® stores, customers can create a favorite drink that fits their lifestyle. To help guide our customers' decision making, nutrition facts and ingredients for a majority of the beverages served at Starbucks are available on [Starbucks.com](https://www.starbucks.com), on the menu boards in Starbucks® stores and on the Starbucks® mobile app.

Below are barista tips on how to customize beverages at Starbucks, as well as a selection of drink recommendations to fit a variety of preferences.

Barista Customization Tips

- **Ask for Starbucks [Blonde Espresso](#):** Try asking for Starbucks Blonde Espresso in your espresso beverage instead of the traditional Starbucks Signature Espresso baristas use (it's no extra charge!). Starbucks Blonde Espresso is smooth and subtly sweet, making it perfect for unsweetened beverages like an Americano or Cappuccino – hot or iced.
- **Select your milk:** Customers can choose from whole, 2% milk or nonfat milk, or non-dairy alternatives such as soy, coconut and almond.
- **Ask for fewer pumps of syrup:** To lessen the sweetness of your flavored beverage, ask for fewer pumps of syrup, or select a sugar-free syrup, available in Vanilla or Cinnamon Dolce, or our Skinny Mocha Sauce.
- **Try a sweetener substitute** such as Sweet'N Low®, Equal®, SPLENDA® or Stevia Blend from Whole Earth.
- **Ask for "less whip" or "no whip"**
- **Make it "Skinny:"** Most handcrafted espresso and Frappuccino® blended beverages can be requested "skinny," which means the beverage is made with nonfat milk, no whipped cream and a sugar-free syrup if available.
