- When the permanent disability is 70% or greater, life pension weekly payments are made at the rate to the left, depending on the percentage of disability. Formula: Life pension = (% - 60) x .015 x (Weekly Earnings within maximum, table to the left) LC §4659.
- There have been no increases in maximum weekly earnings since 1/1/2006.
- Date life pension payments start is not reflected in the tables because life pension payments do not commence until permanent partial payments end. For a date of injury in 2003 with a permanent partial disability of 70% life pension would not start until 426.5 weeks after the permanent and stationary date. Payments would not begin until 8.17 years after the P&S date.
- For DOI on or after 1/1/2003, the rate of payment is not known until the start of payments due to COLA increases.
- "For injuries occurring on or after January 1, 2003, an employee who becomes entitled to receive a life pension or total permanent disability indemnity . . . shall have that payment increased annually commencing on January 1, 2004, and each January 1 thereafter, by an amount . . ." LC §4659(c). See also *Baker v. WCAB (X.S.) (2011) 52 Cal.4th 434*
